

Submitted Written Public Comment for October 13, 2020 Board of Early
Education and Care Board Meeting

Jill Griffin, Family Child Care Provider

I am a licensed family childcare Provider in Massachusetts. I would like to formally request free Covid testing for asymptomatic licensed childcare providers. I represent over 1500 licensed childcare providers who are currently caring for 75-100,000 children in the state. If we become ill we could potentially spread this virus to 1,000,000 people.

Please provide a way to obtain these important tests.
