Massachusetts Nursing Facilities By The Numbers

- **383 Skilled Nursing Facilities**
- **363 Medicaid participating facilities**
- **40,000 Nursing Facility Residents Cared For Daily**
- **150,000 Annually**

**73,000 Total Employees**
Including Direct Care, Social Services, Activities, Therapy, Housekeeping, Laundry, Dietary & Other Staff

**75 Cents of Every Nursing Facility Dollar is Spent on Staff Wages and Benefits**

- **2 out of 3 Nursing Facility Residents Rely on MassHealth**
- **Medicaid 69%**
- **Medicare, 13%**
- **Private Pay, 13%**
- **Other, 5%**

- **75% of Nursing Facilities are Operating at a Loss**
- **$362 Million Annual Medicaid Gap, Among the Highest in the Nation**
Sector in Financial Crisis Unable to Make Needed Workforce Investments

Closing the Medicaid Gap by Using More Current Costs, Actual Resident Days and a Valid Inflation Adjustment is Critical to Making Workforce Investments, Since 75% of a Facility’s Budget is used to Fund Wages

**Nursing Facility Margins by Payor**

**Margin Percentage Based Upon Medicaid Volume**

- Medicare 13% Payor Mix
- Medicaid 69% Payor Mix

“Of the 23 facilities with low Medicaid volume, all but 7 are part of systems that have a combined margin of just 1.1%.”

**Sources:**

The typical long term care nursing facility resident is:

- Female, Age 86
- Typically relies on MassHealth to pay for his/her care as approved by local ASAPs
- Widowed and lived alone prior to entering a nursing facility
- Likely to have dementia or cognitively impaired
- She is totally dependent on assistance with activities of daily living (ADLs)

Nursing facilities care for 32,000 long term residents each day, primarily frail elders and individuals with disabilities. However, there is a growing proportion of residents under the age of 65.
Distribution of ADLs in Massachusetts Nursing Facility Residents, 2002 vs 2014

**Sharp Increase in Proportion of NF Residents Requiring Assistance with More Than 3 ADLs – 44% in 2002 compared to 72% in 2014**

2019 Labor and Workforce “Survey Says”

• All nursing facilities are experiencing direct care staff shortages
  ➢ 70% reported an insufficient number of qualified applicants
  ➢ To fill vacancies, 97% are asking existing staff to work additional hours, 89% offer financial incentives (overtime, shift differentials & bonuses) and 50% are using costly temporary nursing services (30% of these agencies are unable to reliably fill vacant shifts)

• CNAs are chiefly leaving for higher pay in competing nursing facilities or outside of health care such as food service & retail industry (Dunkin Donuts, Starbucks, McDonalds, Target, Walmart). Better hours and burnout are also contributing to CNAs leaving health care.

• 81% of facility staff are or have experienced burnout or job stress
  ➢ Workforce shortages, staff working short, meeting resident care needs and regulatory enforcement were the biggest factors leading to burnout

• 23% of facilities in 2019 have limited or considered limiting admissions due to a lack of staff

• Nursing facilities reported an ideal CNA starting wage is $15

Workforce Solutions

Closing the Medicaid Gap by Using More Current Costs, Actual Resident Days and a Valid Inflation Adjustment is Critical to Making Workforce Investments, Since 75% of a Facility’s Budget is used to Fund Wages

➢ Passage of the Stabilization Bill (S.352 & H.610)

1. **Modernize Rates Using Actual Days & Fully Fund $185M in legitimate resident care and staffing expenses in 2017.** Currently rates are paid using ‘imputed’ days instead of actual days.
2. **Update Rates Using 2017 Costs** in order to fund staff increases and resident care.
3. **Update rates using Medicare’s Inflation Rate** – Current 2020 rates are set at 2014 expenses, but there is 0% inflation to recognize new resident care costs from 2014 to 2020.

➢ Passage of the Quality Jobs Initiative (S.671 & H.618)

1. **Living Wage** Requires MassHealth to fund its portion of a $15 starting wage and establishes a path to a living wage with annual increases.
2. **Opportunity** Establishes a training program to recruit new staff and career ladders for existing staff.
3. **Culture** Establishes grants for Leadership & Supervisory Training.

➢ Implement HC Collaborative Recommendations

1. **Recruitment** Improve Access to CNA Training
2. **Retention** Support Career Ladders via Upskilling
