In case the job starts after 7pm our rate would increase by multiplying by 1.5
For example : normal rate - \$129/hr. After 7pm it would increase to \$193.5/hr

All our customers receive a confirmation letter to check addresses, rates, and estimated costs. Also we always let our customers know about 4% credit card fee in the very first letter they receive.

We do offer free basic insurance which covers 60 cents/pound.

We do offer full valuation insurance. All the info about it you can find in the attached document.

For local moves, we charge Hourly. When our movers arrive to the origin address, they will start time and when the move is done at the drop off address, we will stop time. Also, we add travel time fee which is compensate travel time from our parking lot (376 Washington st, Malden 02148) to pick up address and from drop off address back to our parking lot, this travel time fee includes fuel and mileage so there is no any additional charges regarding traveling.

We only have a 2 hour work minimum plus the {travel time} 30 minutes minimum. Any time after that will be prorated by the quarter hour.

For example 30 minutes travel time would be in 6-7 miles range.

45 minutes travel time would be 7-10 miles range.

1 hr travel time would be 10-13 miles range.

This range works only for Boston area up to 15 miles radius.

For all other cases we use truck gps to know travel time.

Our customers always know travel time before they pay deposit and confirm their move and its always flat and doesn't depend on traffic situation. Travel time may change in case our customer changes their address after confirming or during the move.
