General Standards on Contract

Industry-Accepted guidelines

Unless otherwise stated in the specification section for each category, specifications should, at minimum, meet the industry-accepted guidelines set forth by the furniture industry as they are generally understood and accepted within that industry across the nation, which includes products, services and warranties.

ANSI-BIFMA Furniture Standards

Awarded Bidders product must meet all current and future **ANSI-BIFMA** specifications for the specific category of furniture. On the Price Sheet, Bidders must attest to the statement that each product line offered meets or exceeds set standards and will maintain all appropriate **ANSI-BIFMA** standards for the term of the contract. The SSST may also require a manufacturer's statement of the same.

Metal Surface Coating Standards

All metal surfaces must utilize a plated or baked enamel (or equal) coating process. Powder Coating is highly desirable.

Lock Accessory Standards

All furniture pieces that have locks as a standard or optional accessory must have locks that secure all drawers and must be accompanied by the appropriate set of keys upon delivery and installation.

Underwriters Laboratories, Inc. (UL) Standards

Product with electrical components must meet all appropriate current and future Underwriters Laboratories Inc. specifications. Bidders must attest to the statement that each applicable product line offered meets or exceeds set standards and will maintain all appropriate **UL** standards for the term of the contract. It is desirable that products meet flammability requirements without added flame retardants (as is possible with CAL TB-117-2013), or that they utilize flame retardants for which comprehensive toxicity data is available and demonstrates the flame retardant is not toxic.

Flammability Standards

The Department of Fire Services is the sole agency within state government responsible for overall coordination of fire service policy and operations. Fire code 527 CMR 1.00 effective 01/01/2015 [derivative of base code: NFPA-1 (2012) with Massachusetts amendments], and the specific Section 12.6 are applicable to this request for response. 527 CMR 1.00 makes reference to CAL TB-133 and CAL TB-117-2013. All upholstered or re-upholstered furniture and molded seating must meet all flammability requirements referenced in 527 CMR 1.00, Section 12.6.

At least two product lines in each category from each bidder must be able to meet CAL TB-133 standards to accommodate purchasers in the City of Boston, subject to any updates to the Boston Fire Code, Regulation BFD IX-10, as set by the Boston Fire Department, Fire Prevention Division.

Warranties

All manufacturer warranties apply.

Emergency Services

Many statewide contracts are required to provide products or services in cases of statewide emergencies. Visit the [Emergency Contact Information for Statewide Contracts](#) list for emergency services related to this contract.
