

OSCCAR_Customers_Served_C

Development Version: Crystal Reports XI, Service Pack 2

First Issuance Date: 11/15/2006

Modification (12/21/2006): Removed custom value option from Report End Date parameter; changed report title; changed abbreviation "UK" to "Unknown"; replaced code description with formula for primary language; changed display of ages over 100 to "Unknown".

Parameters: Location Level (Site, Career Center, Region), Local Office, Career Center, Region, Fiscal Year, Report End Date.

Parameter List of Values Updated Date: 11/15/2006

Key Features: Matches the OSCCAR Total Customers Served. The report will show anyone with an approved job or support service that was data entered during the report period, i.e., the report is based on transaction dates (last update date), not service dates. There is only one exception--service dates are used for any job referral that does not have a result "hired"; if the service result is later changed to "hired", the transaction date is used.

At the end of report are tables that break down the enrollments by customer demographics (age, disability, education level, ethnicity, primary language, and residence) in descending order of frequency.

Exporting: If you wish to further analyze the data, you can export the data to Excel (do NOT use the data only option). In the export options screen, choose to set the field width based on the Group Header #1 fields. To eliminate extra rows between data, you can sort the data (excluding the crosstabs at the bottom) based on the Name field.

Report Run Times: About 10 to 30 minutes.

Report Feedback: This report has been tested for accuracy; however, we encourage your feedback--if you get unexpected results or have other suggestions, please contact the report developer below.

Report Developer: Linda Bass, lbass@detma.org, 617-864-1570.
