

OSCCAR Reports-Multiple Locations-C

Development Version: Crystal Reports XI, Service Pack 2

First Issuance Date: 8/17/07.

Modified (9/22/07): Allowed selection of all, none, or selected charts. Changed to show one chart per page. Put crosstab first.

Parameters: Location Level (Site, Career Center, Region), Local Office, Career Center, Region, Date, Show Which Charts.

Key Features: The OSCCAR Reports-Multiple Locations report allows the user to compare OSCCARs for multiple regions, career centers, or local offices for a selected report end date.

The report starts by showing actual data in a crosstab and then shows results in charts (you may choose to show all, none, or selected OSCCAR items as charts) at the end of the report. Year to Date totals and Year to Date Visits are displayed in the crosstab that shows all OSCCAR items. The user should select the report end date or a date in the month of interest. The results will be based on YTD totals through the month of the selected date. Note that charts will have only one value on the x-axis if only one location is selected.

Note that this report requires legal size paper. If many locations are selected, the crosstab may create virtual pages (pages to the right) when viewed on the computer screen. These pages are given a horizontal page number for ease of assembly when printed. The horizontal page numbers are displayed after a hyphen, and the pages should be assembled in this order: Page 1-1, Page 1-2, Page 1-3, Page 2-1, Page 2-2, Page 2-3, etc.

To view a comparison of selected fiscal years for a specific region, career center, or local office, run **"OSCCAR Reports by Fiscal Year."**

Report Run Times: A few seconds.
