

Facilitated Discussion on Outreach

One Care Consumer Outreach

- Introduction
 - MassHealth, DAAHR and others have conducted various outreach efforts over the last year. MassHealth is conducting a series of presentations and exhibits, community information sessions and health fairs across the state. DAAHR hosted a series of community forums.
- What are the organizations or networks that you are already working with on One Care outreach?
- What communities or organizations have not been at the table?
- Who are we missing with our current outreach efforts (examples: certain geographic areas, people who speak certain languages, networks)?
- How do we reach these populations?

Prompts:

- Where do we need to go?
- What are the organizations/places/networks that should be engaged?
- What materials are needed?
- Who should be doing the outreach and what are the expectations for what they should be doing?

Provider Strategy

- Provider Strategy Workgroup will meet soon
 - What topics/issues should the group address?
