

# Career Information System

## EXPLORE CAREERS AND EDUCATION

There is a lot to consider when thinking about your career and education. Explore different careers. Learn what people do, how much they earn, and how to prepare for a career. Learn about training and school options. Find scholarships and financial aid. The more you know, the better career and education decisions you will make!

### RESEARCH CAREERS.

Explore 650+ career and industry profiles that represent 95% of the US labor market, including military careers. Research the local wage and employment outlook data for careers of interest, search for hot jobs, and look at current job postings. Each career details the preparation you need to get there, including education and certifications.

### MY CAREER PLAN.

Depending on where you are in your career, you will need different types of resources. Follow a customized career plan that can help you develop a resume and cover letter, conduct a job shadow or informational interview, and support things like learning new skills, developing a financial plan, or making a change.

Prepare 4 of 10 My Financial Plan 0%

My Financial Plan

You have assessed your finances and looked at your expected debt. Now, it's time to make a financial plan. By the end of this activity, you should have a clear sense of how to achieve your financial goals.

Instructions

1. List your financial goals for five years from now and for retirement.
2. Enter your current income and your expected income upon completion of any additional education or training.
3. Go to the [Careers List](#) to find the expected income of the career you are interested in.
4. Return to this activity and enter your financial plan.

My financial goals

In five years I would like to: By retirement I would like to:
