

Parking Information

There may be some limited available parking in E Lot, but the largest amount of parking will be available in Lot K, which is behind Building 28 and only accessible by the Pearl Street entrance.

Please note that the distance from K lot to Building 2 involves walking and a number of stairs (marked on the attached map).

If parking in K lot, **we recommend visitors drive to the far end of the K parking lot** (shown on the attached map), as it is closest to the stairs leading to B2. Individuals with handicap decals will be permitted to park in any designated handicap spots that they see on campus.
