**Office Travel Time &
Special Equipment Surcharges for
Commercial and Residential Hoisting Rates**

Residential hoisting rates include 2.5 hours of time for an initial flat rate based on how many movers are required. If the time to complete a job exceeds 2.5 hours, additional hourly charges will apply, prorated by the quarter hour, with rates as shown in the hoisting rate tables above. Office travel time is not factored in for locations in Woburn. For locations in Winchester, Lexington, Burlington, Stoneham and Reading office travel time is assumed to be 30 minutes total. For locations outside Woburn, Winchester, Lexington, Burlington, Stoneham and Reading, the nominal drive time from our office to the job location (times two) is considered to be consumed as part of the initial 2.5 hours. For example, for a location in downtown Boston, we would normally consider the nominal drive time to be about 30 minutes. In this case, 1 hour of billable time will have elapsed when we begin the job, leaving 1.5 hours of labor available under the initial flat rate before additional prorated hourly charges would apply.

Certain special equipment may be required for hoisting. Flat surcharges for such equipment are as follows:

Commercial & Residential Hoisting Special Equipment Surcharges	Effective Year Round	Commercial & Residential Hoisting Special Equipment Surcharges	Effective Year Round
28 foot ladder	\$25.00 flat	Dock plate	\$20.00 flat
40 foot ladder	\$50.00 flat	Pallet jack	\$35.00 flat
Block & tackle assembly	\$60.00 flat	12-ft Genie lift	\$100.00 flat
Ladder jacks	\$25.00 per pair flat	18-ft Genie lift	\$110.00 flat
Chain fall hoist	\$50.00 flat	Genie lift fork extensions	\$10.00 flat
