# Personal Care Attendant (PCA) Program Enhancements

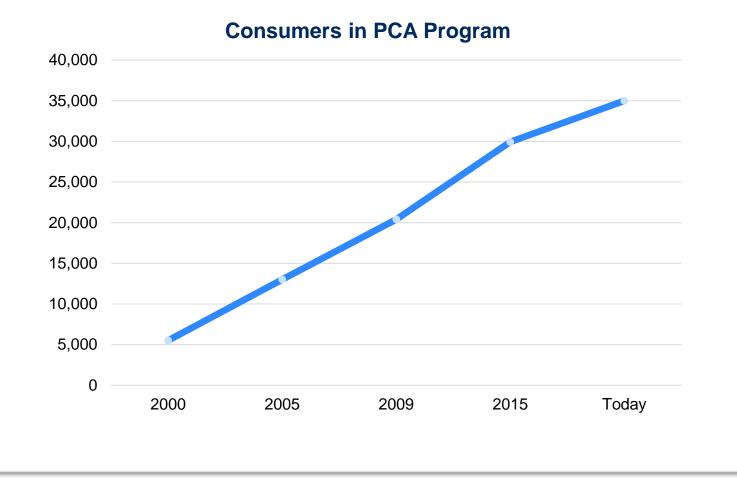

# Today's Agenda

- 1 Personal Care Attendant (PCA) Program History
- 2 Challenges Identified with Current PCA Program
- 3 Intent of Public Listening Sessions
- 4
- **Comment Period**

#### **PCA Program History**

The MassHealth PCA Program has been an extremely successful consumer directed program **enabling ever-increasing numbers of individuals to direct and manage their own services**.

## **PCA Program History**

- The MassHealth PCA Program has been in place for more than four decades and there have been significant shifts in the population it serves over that time.
- The average consumer in the PCA program has gotten older.
- The needs of PCA consumers have become increasingly diverse, with a variety of populations accessing services. These include:
  - individuals with intellectual or developmental disabilities;
  - individuals under 65 with physical disabilities; and
  - individuals over 65.

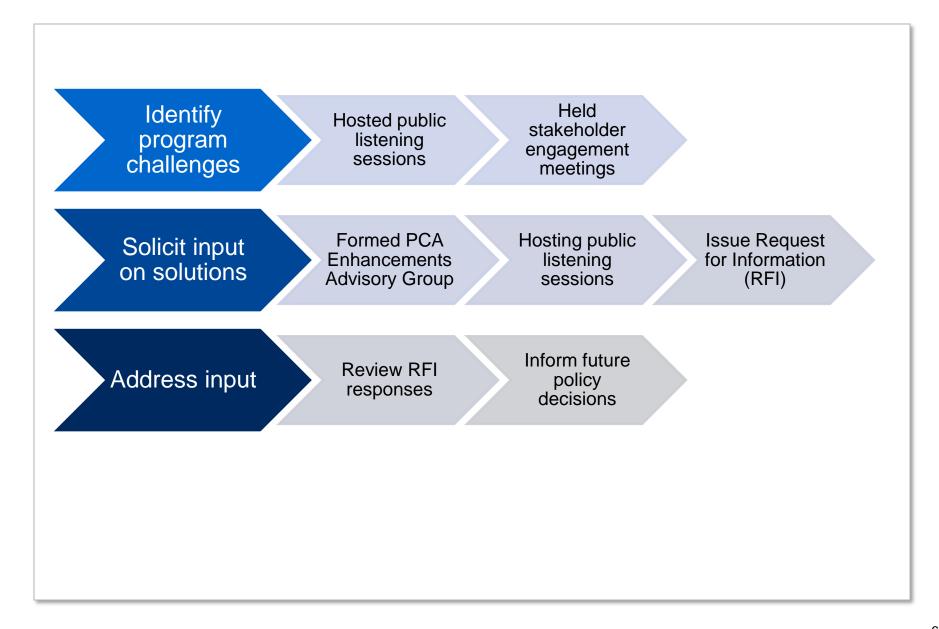

#### **Current PCA Program Focus Areas**

Through earlier public listening sessions and stakeholder engagement initiatives, MassHealth has recognized that **the current one-size-fits-all structure of the state plan PCA program needs to adapt** to address flexibilities and supports requested by consumers.

The key focus areas identified through stakeholder engagement initiatives include:

- Some consumers seek greater control in managing their PCA services
- Some consumers seek greater support for their PCA services
- PCA employment, including recruitment and retention and scheduling
- Role and the high use of surrogates
- Implementing Electronic Visit Verification (EVV) in a way that meets federal requirements and preserves consumer independence and choice
- Role and key functions of PCMs and FIs

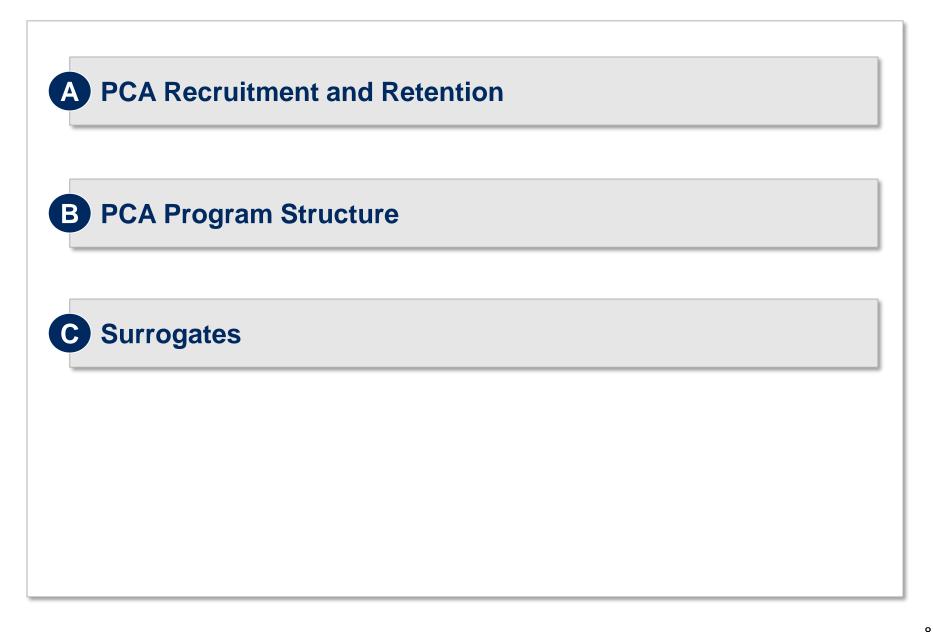

#### **Process for Addressing PCA Program Challenges**

#### **Public Listening Sessions**

- The purpose of the public listening sessions is for MassHealth's Office of Long-Term Services and Supports (OLTSS) to listen and gather input from PCA Program stakeholders on key focus areas within the PCA Program.
- As part of our regular operational activities, OLTSS may make changes to improve the PCA program; however, these listening sessions will provide OLTSS with valuable information for longer-term program enhancements.
  - Public Listening Session are open to stakeholders and allow an opportunity to provide comments about elements of the PCA Program.
  - MassHealth will ask questions related to key areas of challenge to the PCA Program.
  - Meetings have been held approximately every 6 weeks at various locations in the Commonwealth.
  - Written feedback and responses are accepted at PCAfeedback@massmail.state.ma.us

#### **Key Focus Areas for Today's Meeting**

# PCA Recruitment and Retention

What program requirements or options could be added to improve or enhance the quality of PCA services?

Currently, background checks (CORIs) of PCAs are optional. Should the PCA program require consumers to conduct CORIs of their PCAs? Would this be helpful, or would it create other challenges?

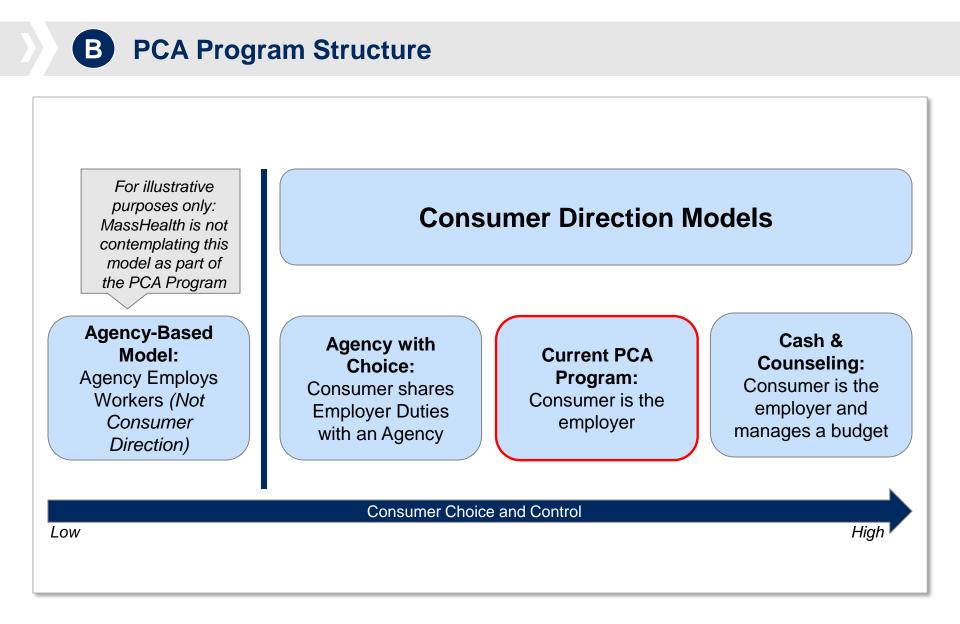

What are some ways that the PCA Directory can be improved and be more useful to Consumers, PCAs and Surrogates?

4

Have you experienced challenges with recruiting/hiring PCAs related to language or culture? Are there ways to help address these challenges through the PCA program?

# **B** PCA Program Structure

- Goals of any future PCA Program Structure:
  - Maintains commitment to consumer self-direction;
  - Supports continuity of care;
  - Increases the number of self-directed options;
  - Tailored to better suit consumer needs;
  - Addresses PCA recruitment and retention challenges; and
  - Addresses challenges consumers may have with identifying a surrogate.

# **B** PCA Program Structure

If, in addition to the current program, EOHHS offered a model for receiving PCA services where consumers co-employed workers with a provider agency,

- What challenges would the new model create?
- What concerns would it resolve?

2

What employer responsibilities may be beneficial to be shared between a provider agency and a consumer while still maintaining consumer control over self-direction?

If provider agencies co-employed workers with consumers, what safeguards should be implemented to maintain consumer control over self-direction?

Surrogates

What supports could help Consumers in finding a Surrogate? How might an expanded PCM Agency role be helpful?

2

What qualifications are necessary for a Surrogate serving as an administrative proxy (completing administrative tasks on behalf of the consumer but not self-directing PCAs)? Could these qualifications be included in a Surrogate Assessment?

What qualifications are necessary for a Surrogate self-directing on behalf of a consumer? Could these qualifications be included in a Surrogate Assessment?

Are there supports/resources that could assist with surrogate retention?

# **Public Listening Sessions**

January	Boston Public Library
2019	Jan. 29, 2019 1-3pm
February	Worcester Public Library
2019	Feb. 28, 2019 1-3pm
April 2019	Pittsfield Public Library Springfield Public Library Apr. 10, 2019 10-12pm Apr. 10, 2019, 2-4pm
May 2019	Lawrence Public Library May 30, 2019 1-3pm
July 2019	New Bedford Public Library July 24, 2019 1:30-3:30pm
November	Waltham Public Library
2019	November 1, 2019 11:30-1:30pm

### Thank you!
