(b) This Renewal License is granted under and in compliance with the Cable Act and M.G.L. c. 166A, and in compliance with all rules and regulations of the FCC and the DTC in force and effect during the period for which this Renewal License is granted.

(c) Subject to the terms and conditions herein, the Issuing Authority hereby grants to Licensee the right to construct, upgrade, install, operate and maintain a Cable Television System within the Public Way.

SECTION 2.2 - TERM: NON-EXCLUSIVITY

This non-exclusive Renewal License shall be for a period of ten (10) years, commencing on November 20, 2025 through midnight November 19, 2035.

SECTION 2.3 - RENEWAL

(a) In accordance with the provisions of federal law, M.G.L. c. 166A, § 13 and applicable regulations, this Renewal License shall be subject to additional renewals for the periods not to exceed ten (10) years or such other periods as allowed by law.

(b) In accordance with applicable law, any such renewal or renewals shall be upon mutual written agreement by Licensee and the Issuing Authority and shall contain such terms as Licensee and the Issuing Authority may then agree.

SECTION 2.4 - RESERVATION OF AUTHORITY

Nothing in this Renewal License shall (a) abrogate the right of the Issuing Authority to perform any public works or public improvements of any description; (b) be construed as a waiver of any codes or ordinances/regulations of general applicability and not specific to the Cable Television System, Licensee, or this License; or (c) be construed as a waiver or release of the rights of the Issuing Authority

in and to the Public Ways. In the event of any conflict between this License and any City ordinance or regulation that is not generally applicable, this License shall control. In the event of any conflict between this License and any City ordinance or regulation which is generally applicable, the ordinance or regulation shall control, subject to challenge as to legality of the City ordinance or regulation. Nothing in this Section 2.4 shall be deemed to prohibit the right of the Licensee to challenge the legality of a City ordinance or regulation.

SECTION 2.5 - NON-EXCLUSIVITY OF LICENSE

(a) This Renewal License shall not affect the right of the Issuing Authority to grant to any other Person a license or right to occupy or use the Public Ways or streets, or portions thereof, for the construction, upgrade, installation, operation or maintenance of a Cable Television System within the City of Peabody; or the right of the Issuing Authority to permit the use of the Public Ways and places of the City for any purpose(s) whatsoever. The Licensee hereby acknowledges the Issuing Authority's right to make such grants and permit such uses.

(b) The grant of any additional cable television license(s) shall be at the sole discretion of the Issuing Authority.

(i) In the event that the Licensee believes that any additional cable television license(s) have been granted on terms and conditions, taken on the whole, more favorable or less burdensome than those contained in this Renewal License, the Licensee may request, in writing, that the Issuing Authority convene a public hearing on that issue. Along with said written request, the Licensee shall provide the Issuing Authority with written reasons for its belief. At the public hearing, the Issuing Authority shall afford the Licensee an opportunity to demonstrate that any such additional cable television license(s) are on terms more favorable or less burdensome, taken as a whole, than those contained in this Renewal License. The Licensee shall provide the Issuing Authority with such financial or other relevant information as is requested.

(ii) Should the Licensee demonstrate that any such additional cable television license(s) have been granted on terms and conditions, taken as a whole, more favorable or less burdensome than those contained in this Renewal License, the Issuing Authority shall consider and negotiate, in good faith, equitable amendments to this Renewal License within a reasonable time.

(c) The issuance of additional license(s) shall be subject to applicable federal law(s), and M.G.L. Chapter 166A and applicable regulations promulgated thereunder.

(d) In the event an application for a new cable television license is filed with the Issuing Authority, proposing to serve the City, in whole or in part, the Issuing Authority shall serve a copy of such application upon the Licensee by certified mail or via nationally recognized overnight courier services within a reasonable time thereafter.

(e) In the event that the Licensee believes that in the future another Licensee which has been granted a cable television license in the City, has been provided relief by the Issuing Authority from a material obligation(s) of its license, which may include amendments to the license, that causes said other cable television license, taken as a whole, to be more favorable or less burdensome than this Renewal License, the Licensee may request, in writing, that the Issuing Authority convene a public hearing on that issue. Along with said written request, the Licensee shall provide the Issuing Authority with written reasons for its belief. The Licensee shall provide the Issuing Authority with such financial or other relevant information as is requested. At the public hearing, the Issuing Authority shall afford the Licensee an opportunity to demonstrate that such relief causes said other cable license, taken as a whole, to be favorable or less burdensome than this Renewal License. Should the Licensee demonstrate that any such relief causes said other cable television license, taken as a whole, to be more favorable or less burdensome than the Renewal License, the Issuing Authority shall consider and negotiate, in good faith, equitable amendments to this Renewal License.

SECTION 2.6 – POLICE AND REGULATORY POWERS

By executing this Renewal License, the Licensee acknowledges that its rights are subject to the powers of the City and its right to adopt and enforce generally applicable ordinances in the lawful exercise of its police powers to the extent permitted by applicable law, with respect to the safety and welfare of the public. The Licensee shall comply with all applicable federal and State laws and regulation, and City ordinances and lawful regulations, provided such City ordinances and regulations are not specific to this License, the Licensee and/or Cable System. Nothing in this Section 2.6 shall be deemed to prohibit the right of the Licensee to challenge the legality of a City ordinance or regulation.

SECTION 2.7 – REMOVAL OR ABANDONMENT

Upon termination of this Renewal License by passage of time or otherwise, unless (1) the Licensee has its license renewed for another term or (2) the ownership of the Cable Television System is transferred to another Person with written approval by the Issuing Authority in accordance with

applicable law and pursuant to Section 2.8 below or (3) unless otherwise operating under the terms of this Renewal License as allowed by applicable law, the Licensee shall remove all of its supporting structures, poles, transmission and distribution systems, and other appurtenances from the Public Ways and shall restore the areas to their original condition as is reasonably possible and as soon as reasonably possible. If such removal is not complete within six (6) months of such termination, the Issuing Authority may deem any property not removed as having been abandoned. Upon written request of the Licensee, the Issuing Authority may waive this requirement for good cause shown. Notwithstanding the foregoing, under 47 USC Sec. 541(b)(3)(C) the Issuing Authority may not order the Licensee or any affiliate thereof (i) to discontinue the provision of a telecommunications service, or (ii) to discontinue the operation of a cable system, to the extent such cable system is used for the provision of a telecommunications service, by reason of the failure of the Licensee or its affiliate to obtain a cable franchise or cable franchise renewal with respect to the provision of such telecommunications service.

SECTION 2.8 – TRANSFER OF THE RENEWAL LICENSE

(a) Pursuant to M.G.L. c. 166A, Section 7, as may be amended from time to time, neither this Renewal License, nor control thereof, shall be transferred, assigned or disposed of in any manner, voluntarily or involuntarily, directly or indirectly, or by transfer of control of any Person, company and/or other entity holding such Renewal License to any other Person, company and/or other entity, without the prior written consent of the Issuing Authority, which consent shall not be arbitrarily or unreasonably withheld. Such consent shall be given only after a public hearing upon a written application therefore on forms as may be prescribed by the FCC and/or the DTC. An application for consent to a transfer or assignment, if required, shall be signed by the Licensee and by the proposed transferee or assignee or by their representatives, evidence of whose authority shall be submitted with the application. A transfer or assignment of a license or control thereof between commonly controlled entities, between affiliated companies, or between parent and subsidiary corporations, shall not constitute a transfer or assignment of a license or control thereof under this Renewal License, unless otherwise provided by applicable federal or State law. An “affiliated company” is any Person or entity who owns or controls, is owned or controlled by, or is under common ownership or control with, such Person or entity.

(b) Pursuant to applicable State and federal law, as may be amended, in considering a request to transfer control of the Renewal License, the Issuing Authority shall consider the transferee's financial

capability, management experience, technical expertise and legal ability to operate a Cable System under the existing license and may consider any other criteria allowable under applicable law or regulation.

(c) The consent or approval of the Issuing Authority to any assignment or transfer of the Renewal License granted to the Licensee shall not constitute a waiver or release of the rights of the City in and to the streets and Public Ways or any other rights of the City under the Renewal License, and any such transfer shall, by its terms, be expressly subordinate to the terms and conditions of the Renewal License.

(d) The Licensee shall submit to the Issuing Authority an original and one (1) copy, unless otherwise required by applicable law, of the application and FCC Form 394 requesting such transfer or assignment consent.

(e) The consent of the Issuing Authority shall be given only after a public hearing to consider the written application for transfer. Unless otherwise allowed by applicable law(s), the Issuing Authority shall make a decision on said written application within one hundred and twenty (120) days of receipt of said application. After 120 days, the application shall be deemed approved, unless said 120-day period is extended in writing by mutual agreement of the parties pursuant to applicable law.

(f) Any proposed controlling or owning Person or transferee approved by the Issuing Authority shall be subject to all of the terms and conditions contained in the Renewal License.

SECTION 2.9 – EFFECT OF UNAUTHORIZED TRANSFER ACTION

(a) Any transfer of the Cable System without the Licensee and the transferee complying with Section 2.8 above shall be null and void and shall be deemed a material breach of this Renewal License.

(b) If the Issuing Authority denies its consent to any such action and a transfer has nevertheless been effected, the Issuing Authority may revoke and terminate this Renewal License, unless such transfer is otherwise allowable by applicable law.

(c) The grant or waiver of any one or more of such consents shall not render unnecessary any subsequent consent or consents, nor shall the grant of any such consent constitute a waiver of any other rights of the City.

SECTION 3.2 – RESIDENTIAL SUBDIVISIONS

Provided Licensee has at least ninety (90) days prior written notice concerning the opening of residential subdivision trenching, or of the installation of conduit for the location of utilities, it shall install its cable in such trenching or conduits or may seek permission to utilize alternative trenching or conduits within a comparable time frame. If a substantial quantity of cable is required for a large subdivision and said quantity is not in stock, the Licensee shall be allowed additional time for said installation so long as such additional time does not result in additional cost to the project developer or the City. The Issuing Authority, or its designee, shall exercise reasonable efforts to have the Planning Board and developers give timely written notice of trenching and underground construction to the Licensee. The Developer shall be responsible for the digging and back-filling of all trenches.

SECTION 3.3 – INSTALLATION CHARGES

Any dwelling unit within one hundred fifty feet (150') aerial or underground from the feeder cable shall be entitled to a Standard Installation rate, unless the sub-surface of an underground installation is a hard surface or requires boring through rock or a similar hard surface (i.e. concrete, asphalt, etc.). All other installations are considered non-standard installations. For aerial installations more than one hundred fifty feet (150'), the first one hundred fifty feet (150') shall be at the Standard

Installation rate. For underground installations more than one hundred fifty feet (150'), not involving a hard surface, the first one hundred fifty feet (150') shall be at the Standard Installation rate.

SECTION 3.5 – LOCATION OF THE CABLE TELEVISION SYSTEM

The Licensee shall own, install, operate and maintain the Cable Television System within the City. Poles, towers and other obstructions shall be erected so as not to interfere with vehicular or pedestrian traffic over Public Ways. (a) In installing, operating and maintaining equipment, cable and wires, Licensee shall avoid damage and injury to trees, structures and improvements in and along the routes authorized by the Issuing Authority, except as may be approved by the Issuing Authority if required for the proper installation, operation and maintenance of such equipment, cable and wires.

(b) The construction, maintenance and operation of the Cable Television System for which this Renewal License is granted shall be done in conformance with all applicable laws, ordinances of general applicability, codes and regulations, including but not limited to OSHA regulations, the Massachusetts Electrical Code, the National Electrical Safety Code, the National Electrical Code, and the rules and regulations of the FCC, the rules and regulations of the DTC, any other applicable Massachusetts laws and regulations, generally applicable City ordinances and regulations, and all applicable land use restrictions as the same exist or as same may be hereafter changed or amended.

(c) Operating and maintenance personnel shall be trained in the use of all safety equipment and the safe operation of vehicles and equipment. Licensee shall install and maintain its equipment, cable and wires in such a manner as shall not interfere with any installations of the City or any public utility serving the City.

(d) All structures and all equipment, cable and wires in, over, under, and upon streets, sidewalks, alleys, and public rights of ways of the City, wherever situated or located shall at all times be kept and maintained in a safe and suitable condition and in good order and repair.

Whenever Licensee takes up or disturbs any pavement, sidewalk or other improvement of any public right of way or public place, the same shall be replaced and the surface restored in as good condition as possible as before entry as soon as practicable. If Licensee fails to make such restoration within a reasonable time, the Issuing Authority may fix a reasonable time for such restoration and repairs, and shall notify Licensee in writing of the restoration and repairs required and the time fixed for the performance thereof. Upon failure of Licensee to comply within the time specified, the Issuing Authority may cause proper restoration and repairs to be made and the expense of such work shall be paid by Licensee upon written demand by the Issuing Authority. At such time as these facilities are placed underground by the telephone and electric utility companies, the Licensee shall likewise place its facilities underground at no cost to the City.

(b) Pursuant to Section 4.3(a) above, underground cable lines shall be placed beneath the pavement sub-grade in compliance with applicable City ordinances, rules, regulations and/or standards. It is the policy of the City that existing poles for electric and communication purposes be utilized wherever possible and that underground installation is preferable to the placement of additional poles.

(c) Except as provided for in paragraph (a) herein, in the event that the Licensee is required to place existing aerial plant underground, the Licensee reserves its right to pass those costs through to Subscribers if and to the extent allowed by applicable law. In the event the City develops an undergrounding project for which it plans to utilize City funds to reimburse utilities for the cost of said undergrounding, it shall notify the Licensee of such and discuss with the Licensee how the Licensee may be eligible for such funding consistent with equitable principles and applicable law.

(d) Nothing in this Section shall be construed to require the Licensee to construct, operate, or maintain underground any ground-mounted appurtenances such as customer taps, line extenders, system passive devices, amplifiers, power supplies, pedestals, or other related equipment.

The cost to raise or lower wires shall be borne by the Person(s) holding the building move permit, unless otherwise required by applicable law or regulation.

(b) Licensee shall have the right to seek reimbursement under any applicable government program for reimbursement.

SECTION 4.9 - EMERGENCY REMOVAL OF PLANT

SECTION 4.11 – RIGHT TO INSPECTION

The Issuing Authority and/or its designee(s) shall have the right, at its sole cost and expense, to inspect the plant and equipment of the Licensee in the City at reasonable times and under reasonable circumstances for the purpose of determining compliance with the requirements of this License. The Licensee shall fully cooperate in such inspections; provided, however, that such inspections are reasonable and do not interfere with the operation or the performance of the facilities of the Cable System, and that such inspections are conducted after reasonable written notice to the Licensee. The Licensee shall have a representative present during such inspections.

SECTION 4.13 – PEDESTALS

Pedestals housing passive devices may be installed and utilized by the Licensee in and on the City's Public Way(s) for the provision of Cable Service(s), subject to the Licensee applying for and receiving a permit for such installation and/or utilization. In any cases in which Pedestals housing passive devices are to be utilized, in City Public Ways or within the City public lay-out, such equipment must be installed in accordance with applicable DPW regulations; provided, however, that the Licensee may place active devices (amplifiers, line extenders, power supplies, etc.) in a low profile electronic control box at City-approved locations to be determined when the Licensee applies for a permit(s). In

the event that the Licensee is no longer utilizing any such Pedestals for Cable Service(s), the Licensee shall expeditiously remove any such Pedestals from the Public Way(s), unless the Licensee is otherwise permitted to use such Pedestals pursuant to applicable laws and/or regulations.

SECTION 4.14 – SERVICE INTERRUPTIONS

Except where there exists an emergency situation necessitating a more expeditious procedure, the Licensee may interrupt Service for the purpose of non-routine repairing, constructing or testing the Cable Television System only during periods of minimum use and, when practical, only after a minimum of forty-eight (48) hours' notice to all affected Subscribers.

Pursuant to 47 U.S.C. 532 (Section 612 of the Cable Act), Licensee shall make available channel capacity for commercial use by persons unaffiliated with Licensee. Rates for use of commercial access channels shall be negotiated between Licensee and the commercial user in accordance with federal law.

SECTION 5.6 – CONTINUITY OF SERVICES

It shall be the right of all Subscribers to receive Cable Service insofar as Subscribers honor their financial and other obligations to the Licensee; provided, however, that the Licensee shall have no obligation to provide Cable Service to any Person who or which the Licensee has a reasonable basis to believe is utilizing an unauthorized converter and/or is otherwise obtaining any Cable Service without required payment thereof. The Licensee shall ensure that all Subscribers receive continuous, uninterrupted Cable Service, except for necessary Cable Service interruptions or as a result of Cable System or equipment failures. PEG ACCESS CHANNELS AND SUPPORT

SECTION 6.1 - PEG ACCESS CHANNELS

(a) Use of channel capacity for Public, Educational and Governmental (“PEG”) Access shall be provided in accordance with federal law, 47 U.S.C. 531, and as further set forth below. Licensee does not relinquish its ownership of or ultimate right of control over a channel by designating it for PEG use. A PEG Access User – whether an individual, educational or governmental user – acquires no property or other interest by virtue of the use of a channel so designated, and may not rely on the continued use of a particular channel number, no matter how long the same channel may have been designated for such use. The PEG Access channels shall, other than provided in Section 6.1(e) below, be used exclusively as and/or for PEG Access channels and PEG Access Programming. The Licensee shall not exercise editorial control over any public, educational, or governmental use of channel capacity except Licensee may refuse to transmit any public access program or portion of a public access program that contains obscenity, pursuant to Section 611 of the Cable Act, to the extent allowed by applicable law. The Issuing Authority and/or its designee shall be responsible for developing, implementing, interpreting and enforcing rules for the PEG Access Channel and PEG Access operations in accordance with applicable law. The PEG Channels shall be provided on the Basic Cable Service tiers to the extent said tier is required pursuant to applicable law or regulations or otherwise provided by the Licensee.

(b) The Licensee shall continue to make available three (3) Public, Educational and Government (“PEG”) Access Channels in Standard Definition format to be used for PEG Access Programming by the Issuing Authority and/or its PEG Access Designee(s). The Licensee shall within twenty-four (24) months of the Effective Date of this License, make available three (3) PEG Access Channels in High Definition (HD), including the necessary interface equipment for transporting the PEG Access signals to the Licensee’s Headend or hub-site as set out in Section 6.3 below. The Licensee shall have the right to reclaim the three (3) Standard (SD) PEG Access Channels upon activation of the three (3) HD PEG Access Channels.

(c) The City or its PEG Access Designee shall be responsible for providing the HD PEG Channel signals in a HD format compatible with Licensee’s equipment in the Cable System at the applicable demarcation point.

(d) The City acknowledges that not every Subscriber may be able to view HD PEG Access Programming on every TV, and additional costs may be involved in the reception of HD programming.

(e) The HD PEG Access Channels shall produce a signal for Subscribers that is substantially equivalent to commercial HD channels on the Cable System. However, the Licensee is not responsible for the production quality of PEG Access Programming productions.

(f) In the event the Issuing Authority, its designee(s) or other PEG Access User elect not to program a PEG Access Channel for a period of one hundred twenty (120) days or more, not including a period of force majeure, the Licensee may thereafter use such channel capacity that is not being used for PEG Access purposes, subject to the right of the Issuing Authority to reclaim said channel capacity for its PEG Access use or the PEG Access use of its designee(s) or other Access Users.

(g) Said PEG Access Channels shall be used to transmit PEG Access Programming to Subscribers without charge to the City, its Issuing Authority, the public schools, the PEG Access Designee and/or PEG Access Users.

(h) The PEG Access Channels may not be used to cablecast for-profit or commercial programs.

(i) The Licensee shall not change a PEG Access Channel location without a minimum of sixty (60) days advance written notice to the Issuing Authority. The Licensee shall use its best efforts, in good faith, to minimize any PEG Access Channel(s) relocation.

(j) The Licensee shall monitor the PEG Access Channels for technical quality consistent with the FCC Technical Standards and shall ensure that they are maintained at standards commensurate with those which apply to the Cable System's commercial channels. However, the Licensee is not responsible for the production quality of PEG Access Programming productions.

(k) There shall be no charges by the Licensee to the City, its Issuing Authority, the public schools, the PEG Access Designee or Access Users for the Access Channels.

SECTION 6.2 – PEG ACCESS PROVIDER

- (3) Purchase, maintain and/or lease equipment, with the funds allocated for such purposes in Section 6.5 below;
- (4) Conduct training programs in the skills necessary to produce PEG Access Programming;
- (5) Provide technical assistance and production services to PEG Access Users;
- (6) Establish rules, procedures and guidelines for use of the PEG Access Channels;

The Licensee shall, if requested in writing by the Issuing Authority within twelve (12) months of the Effective Date, provide fiber-based PEG Access origination/video return capability from the location listed in **Exhibit 6.3(b)** to the PEG Access Studio, within twenty-four (24) months of written notification thereof. All PEG Access Programming originating or aggregated at the PEG Access Studio shall be transmitted to the Licensee's Headend or hub-site on the Licensee owned fiber-based video return line. At Licensee-owned Headend or hub-site, said PEG Access Programming shall be retransmitted in the downstream direction on the appropriate Licensee-owned Subscriber Network downstream PEG Access Channel. The Licensee provided video return lines and transmission, switching and processing equipment shall be made available by the Licensee without charge to the City, Access Provider and/or Access Users.

(b) The Licensee shall be responsible for all necessary inspections and performance tests of the video return lines in accordance with applicable law and regulation for a Cable System, including 47 CFR §76.01. The Licensee shall provide, maintain, operate and repair all equipment necessary to receive and transmit end-to-end digital PEG Access programming and PEG Access Channels as described in this Section 6.3 above, including necessary transmission, switching and/or processing equipment located at its hub-site and/or Headend in order to switch upstream signals carrying PEG Access Programming to the designated Licensee-owned Subscriber Network downstream PEG Access Channel.

(c) The demarcation point between Licensee's equipment and the City's and/or Access Provider's equipment shall with respect to the PEG Access Channels be at the input of the Licensee

owned equipment used for video signal transport. The Licensee shall own, maintain, repair and/or, if necessary, replace said video signal transport equipment.

(d) The Issuing Authority may request in writing that additional locations in the City be connected and activated by the Licensee for PEG Access origination capability with fiber-based PEG Access video signal transport equipment and connection. The Issuing Authority or the PEG Access Designee shall be responsible for the Licensee's actual cost of such connection, equipment and activation. The provisions of this Section 6.3 shall also be applicable hereto.

(e) The Issuing Authority shall have the right to construct and maintain, at its expense or that of the PEG Access Designee, as determined by the Issuing Authority, PEG Access video return lines ("City Video Return Lines") including the requisite transmitters and receivers at the City/PEG Access Designee location(s) from additional municipal or public buildings in the City to the PEG Access Studio or other PEG Access remote origination location listed in **Exhibit 6.3** for PEG Access video return pursuant to Section 6.3(a) herein. Any such City Video Return Line(s) constructed and installed by the City or PEG Access Designee shall be compatible with the Licensee's video return lines and equipment and the Cable System. The Issuing Authority or the PEG Access Designee shall be responsible for maintaining, operating and repairing the City Video Return Lines, if any. The Licensee shall continue to be responsible for maintaining, operating and repairing all other parts of the video return and cablecasting as set out in the above subparagraphs of this Section 6.3.

(e) There shall be no charge to the City, its Issuing Authority, the PEG Access Designee or Access Users for the provision of PEG Access origination, video return or cablecasting, as required by or provided pursuant to this Section 6.3.

(f) The Licensee and the Issuing Authority shall work together in good faith with respect to any difficulties that arise regarding the transmission, switching and/or cablecasting of PEG Access Programming, pursuant to this Section 6.3.

SECTION 6.4 – PEG ACCESS ANNUAL SUPPORT

(a) The Licensee shall provide payments to the PEG Access Designee, unless otherwise directed in writing by the Issuing Authority, for PEG Access and cable-related purposes in an amount equal to five percent (5.0%) of Gross Annual Revenues, less applicable License Fee payments to the City and State only pursuant to M.G.L. c.166A, sec. 9 (the "PEG Access Annual Support"). Said statement shall list general categories comprising Gross Annual Revenues as defined in Section 1.1(q).

(c) In the event that payments required to be made herein by the Licensee are not tendered on or before the dates fixed herein, interest due on such required payments shall accrue and be paid to the Issuing Authority or its designee from the date due at the rate of two percent (2%) above the Prime Rate.

(c) The City and/or its PEG Access Designee shall own all PEG Access facilities and related equipment purchased with the PEG Access Capital Funding provided pursuant to this Section 6.5. The Licensee shall have no obligation for maintenance, repair or replacement of such PEG Access facilities and equipment.

These costs may be passed through to Subscribers as allowed by applicable law and regulations.

Any payment pursuant to this Section 6.5(e) shall be within the exclusion to the term “franchise fee” for requirements incidental to enforcing the Renewal License pursuant to Section 622(g)(2)(D) of the Cable Act.

SECTION 6.6 - NON-COMMERCIAL PROGRAMMING

The Issuing Authority and its designee(s) shall not use the designated PEG access channels, equipment, or other facilities to provide for-profit commercial Programming. Nothing in this Section 6.6 shall prohibit the Issuing Authority or its designee from having memberships, sponsorships, underwriting or acknowledgements (such as the underwriting and acknowledgments displayed by the Public Broadcasting System), to the extent not otherwise prohibited by applicable law or regulations.

SECTION 6.7 – INTERCONNECTION WITH COMPETING CABLE LICENSE

In the event a cable license is issued by the Issuing Authority to a competing Licensee, the Issuing Authority shall not authorize or require the competing licensee to connect its facilities or cable

EXHIBIT 9.3 FCC CUSTOMER SERVICE OBLIGATIONS

TITLE 47--TELECOMMUNICATION CHAPTER 1--FEDERAL COMMUNICATIONS COMMISSION

PART 76--CABLE TELEVISION SERVICE

Subpart H--General Operating Requirements

Sec. 76.309 Customer Service Obligations

(a) A cable franchise authority may enforce the customer service standards set forth in paragraph (c) of this Section against cable operators. The franchise authority must provide affected cable operators ninety (90) days written notice of its intent to enforce the standards. (b) Nothing in this rule should be construed to prevent or prohibit:

(1) A franchising authority and a cable operator from agreeing to customer service requirements that exceed the standards set forth in paragraph (c) of this Section;

(2) A franchising authority from enforcing, through the end of the franchise term, pre-existing customer service requirements that exceed the standards set forth in paragraph (c) of this Section and are contained in current franchise agreements;

(3) Any State or any franchising authority from enacting or enforcing any consumer protection law, to the extent not specifically preempted herein; or

(4) The establishment or enforcement of any State or municipal law or regulation concerning customer service that imposes customer service requirements that exceed, or address matters not addressed by the standards set forth in paragraph (c) of this Section.

(c) Effective July 1, 1993, a cable operator shall be subject to the following customer service standards:

(1) Cable system office hours and telephone availability--

(i) The cable operator will maintain a local, toll-free or collect call telephone access line which will be available to its subscribers 24 hours a day, seven days a week.

(A) Trained company representatives will be available to respond to customer telephone inquiries during normal business hours.

(B) After normal business hours, the access line may be answered by a service or an automated response system, including an answering Machine. Inquiries received after normal business hours must be responded to by a trained company representative on the next business day.

(ii) Under normal operating conditions, telephone answer time by a customer representative, including wait time, shall not exceed thirty (30) seconds when the connection is made. If the call needs to be transferred, transfer time shall not exceed thirty (30) seconds. These standards shall be met no less than ninety (90) percent of the time under normal operating conditions, measured on a quarterly basis.

(iii) The operator will not be required to acquire equipment or perform surveys to measure compliance with the telephone answering standards above unless an historical record of complaints indicates a clear failure to comply.

(iv) Under normal operating conditions, the customer will receive a busy signal less than three (3) percent of the time.

(v) Customer service center and bill payment locations will be open at least during normal business hours and will be conveniently located.

(2) Installations, outages and service calls. Under normal operating conditions, each of the following four standards will be met no less than ninety-five (95) percent of the time measured on a quarterly basis:

(i) Standard installations will be performed within seven (7) business days after an order has been placed. "Standard" installations are those that are located up to 125 feet from the existing distribution system.

(ii) Excluding conditions beyond the control of the operator, the cable operator will begin working on "service interruptions" promptly and in no event later than 24 hours after the interruption becomes Known. The cable operator must begin actions to correct other service problems the next business day after notification of the service problem.

(iii) The "appointment window" alternatives for installations, service calls, and other installation activities will be either a specific time or, at maximum, a four-hour time block during normal business hours. (The operator may schedule service calls and other installation activities outside of normal business hours for the express convenience of the customer.)

(iv) An operator may not cancel an appointment with a customer after the close of business on the business day prior to the scheduled appointment.

(v) If a cable operator representative is running late for an appointment with a customer and will not be able to keep the appointment as scheduled, the customer will be contacted. The appointment will be rescheduled, as necessary, at a time that is convenient for the customer.

(3) Communications between cable operators and cable subscribers--

(i) Notifications to subscribers--

(A) The cable operator shall provide written information on each of the following areas at the time of installation of service, at least annually to all subscribers, and at any time upon request:

(1) Products and services offered;

(2) Prices and options for programming services and conditions of subscription to programming and other services;

(3) Installation and service maintenance policies;

(4) Instructions on how to use the cable service;

(5) Channel positions programming carried on the system; and,

(6) Billing and complaint procedures, including the address and telephone number of the local franchise authority's cable office.

(B) Customers will be notified of any changes in rates, programming services or channel positions as soon as possible in writing. Notice must be given to subscribers a minimum of thirty (30) days in advance of such changes if the change is within the control of the cable operator. In addition, the cable operator shall notify subscribers thirty (30) days in advance of any significant changes in the other information required by paragraph (c)(3)(i)(A) of this Section. Notwithstanding any other provision of Part 76, a cable operator shall not be required to provide prior notice of any rate change that is the result of a regulatory fee, franchise fee, or any other fee, tax, assessment, or charge of any kind imposed by any Federal agency, State, or franchising authority on the transaction between the operator and the subscriber.

(ii) Billing--

(A) Bills will be clear, concise and understandable. Bills must be fully itemized, with itemizations including, but not limited to, basic and premium service charges and equipment charges. Bills will also clearly delineate all activity during the billing period, including optional charges, rebates and credits.

(B) In case of a billing dispute, the cable operator must respond to a written complaint from a subscriber within 30 days.

(iii) Refunds--Refund checks will be issued promptly, but no later than either--

(A) The customer's next billing cycle following resolution of the request or thirty (30) days, whichever is earlier, or

(B) The return of the equipment supplied by the cable operator if service is terminated.

(iv) Credits--Credits for service will be issued no later than the customer's next billing cycle following the determination that a credit is warranted.

(4) Definitions--

(i) Normal business hours--The term "normal business hours" means those hours during which most similar businesses in the community are open to serve customers. In all cases, "normal business hours" must include some evening hours at least one night per week and/or some weekend hours.

(ii) Normal operating conditions--The term "normal operating conditions" means those service conditions which are within the control of the cable operator. Those conditions which are not within the control of the cable operator include, but are not limited to, natural disasters, civil disturbances, power outages, telephone network outages, and severe or unusual weather conditions. Those conditions which are ordinarily within the control of the cable operator include, but are not limited to, special promotions, pay-per-view events, rate increases, regular peak or seasonal demand periods, and maintenance or upgrade of the cable system.

(iii) Service interruption--The term "service interruption" means the loss of picture or sound on one or more cable channels.

EXHIBIT 9.4

BILLING AND TERMINATION OF SERVICE

207 CMR 10.00

10.01: Billing Practices Notice

- (1) Every cable television operator shall give written notice of its billing practices to potential subscribers before a subscription agreement is reached. Such notice shall include practices relating to the frequency and timing of bills, payment requirements necessary to avoid account delinquency, billing dispute resolution procedures and late payment penalties.
- (2) A copy of the cable television operator's billing practices notice, work order and sample subscriber bill shall be filed by March 15th of each year with the Commission, the issuing authority, and the company's local office, where they shall be available for public inspection. If an operator amends its billing practices notice, work order or subscriber bill after submitting the annual filing, it shall file copies of the amendments with the Commission, the issuing authority and the company's local office.
- (3) At least 30 days prior to implementing a change of one of its billing practices, the cable television operator shall notify in writing the Commission, the issuing authority and all affected subscribers of the change and include a description of the changed practice.
- (4) Statements about billing practices in work orders, marketing, materials and other documents shall be consistent with the billing practices notice.

10.02: Services, Rates and Charges Notice

- (1) The cable television operator shall give notice of its services, rates and charges to potential subscribers before a subscription agreement is reached.
- (2) At least 30 days prior to implementing an increase in one of its rates or charges or a substantial change in the number or type of programming services, the operator shall notify, in writing, the Commission, the issuing authority and all affected subscribers of the change and include a description of the increased rate or charge. The notice shall list the old and new rate or charge and, if applicable, the old and new programming services provided.
- (3) Every cable television operator shall fully disclose in writing all of its programming services and rates, upon request from a subscriber.
- (4) Every cable television operator shall fully disclose in writing all of its charges for installation, disconnection, downgrades and upgrades, reconnection, additional outlets, and rental, purchase and/or replacement due to damage or theft of equipment or devices used in relation to cable services, upon request from a subscriber.
- (5) Every cable television operator shall provide written notice of the charge, if any, for service visits and under what circumstances such charge will be imposed, upon request from a subscriber.
- (6) A copy of the cable operator's programming services, rates and charges shall be filed by March 15th of each year with the Commission, the issuing authority and the company's local office where it shall be made available for public inspection. If an operator amends its notice after the annual filing, it shall file a copy of the amendment with the Commission, the issuing authority and the company's local office.
- (7) A cable operator shall not charge a subscriber for any service or equipment that the subscriber has not affirmatively requested by name. This provision, however, shall not preclude the addition or deletion of a specific program from a service offering, the addition or deletion of specific channels from an existing tier of service, or the restructuring or division of existing tiers of service that do not result in a fundamental change in the nature of an existing service or tier of service.

10.03: Form of Bill

- (1) The bill shall contain the following information in clear, concise and understandable language and format:
 - (a) The name, local address and telephone number of the cable television operator. The telephone number shall be displayed in a conspicuous location on the bill and shall be accompanied by a statement that the subscriber may call this number with any questions or complaints about the bill or to obtain a description of the subscriber's rights under 207 CMR 10.07 in the event of a billing dispute;
 - (b) the period of time over which each chargeable service is billed including prorated periods as a result of establishment and termination of service;
 - (c) the dates on which individually chargeable services were rendered or any applicable credits were applied;
 - (d) separate itemization of each rate or charge levied or credit applied, including, but not be limited to, basic, premium service and equipment charges, as well as any unit, pay-per-view or per item charges;
 - (e) the amount of the bill for the current billing period, separate from any prior balance due;

- (f) The date on which payment is due from the subscriber.
- (2) Cable operators may identify as a separate line item of each regular subscriber bill the following:
 - (a) The amount of the total bill assessed as a franchise fee and the identity of the franchising authority to whom the fee is paid;
 - (b) The amount of the total bill assessed to satisfy any requirements imposed on the cable operator by the franchise agreement to support public, educational, or governmental channels or the use of such channels;
 - (c) The amount of any other fee, tax, assessment, or charge of any kind imposed by any governmental authority on the transaction between the operator and the subscriber. In order for a governmental fee or assessment to be separately identified under 207 CMR 10.03, it must be directly imposed by a governmental body on a transaction between a subscriber and an operator.
- (3) All itemized costs shall be direct and verifiable. Each cable operator shall maintain a document in its public file which shall be available upon request, that provides the accounting justification for all itemized costs appearing on the bill.

10.04: Advance Billing and Issuance of Bill

- (1) In the absence of a license provision further limiting the period of advance billing, a cable operator may, under uniform nondiscriminatory terms and conditions, require payment not more than two months prior to the last day of a service period.
- (2) A cable subscriber may voluntarily offer and a cable operator may accept advance payments for periods greater than two months.
- (3) Upon request, a cable television operator shall provide subscribers with a written statement of account for each billing period and a final bill at the time of disconnection.

10.05: Billing Due Dates, Delinquency, Late Charges and Termination of Service

- (1) Subscriber payment is due on the due date marked on the bill, which shall be a date certain and in no case a statement that the bill is due upon receipt. The due date shall not be less than five business days following the mailing date of the bill.
- (2) A subscriber account shall not be considered delinquent unless payment has not been received by the company at least 30 days after the bill due date.
- (3) The following provisions shall apply to the imposition of late charges on subscribers:
 - (a) A cable television operator shall not impose a late charge on a subscriber unless a subscriber is delinquent, the operator has given the subscriber a written late charge notice in a clear and conspicuous manner, and the subscriber has been given at least eight business days from the date of delinquency to pay the balance due.
 - (b) A charge of not more than 5 percent of the balance due may be imposed as a one-time late charge.
 - (c) No late charge may be assessed on the amount of a bill in dispute.
- (4) A cable television operator shall not terminate a subscriber's service unless the subscriber is delinquent, the cable operator has given the subscriber a separate written notice of termination in a clear and conspicuous manner, and the subscriber has been given at least eight business days from the mailing of the notice of termination to pay the balance due. A notice of termination shall not be mailed to subscribers until after the date of delinquency.
- (5) A cable television operator shall not assess a late charge on a bill or discontinue a subscriber's cable television service solely because of the nonpayment of the disputed portion of a bill during the period established by 207 CMR 10.07 for registration of a complaint with the operator or during the process of a dispute resolution mechanism recognized under 207 CMR 10.07.
- (6) Any charge for returned checks shall be reasonably related to the costs incurred by the cable company in processing such checks.

10.06: Charges for Disconnection or Downgrading of Service

- (1) A cable television operator may impose a charge reasonably related to the cost incurred for a downgrade of service, except that no such charge may be imposed when:
 - (a) A subscriber requests total disconnection from cable service; or
 - (b) A subscriber requests the downgrade within the 30 day period following the notice of a rate increase or a substantial change in the number or type of programming services relative to the service (s) in question.
- (2) If a subscriber requests disconnection from cable television service prior to the effective date of an increase in rates, the subscriber shall not be charged the increased rate if the cable television operator fails to disconnect service prior to the effective date. Any subscriber who has paid in advance for the next billing period and who requests disconnection from service shall receive a prorated refund of any amounts paid in advance.

10.07: Billing Disputes

- (1) Every cable television operator shall establish procedures for prompt investigation of any billing dispute registered by a subscriber. The procedure shall provide at least 30 days from the due date of the bill for the subscriber to register a complaint. The cable television operator shall notify the subscriber of the result of its investigation and give an explanation for its decision within 30 working days of receipt of the complaint.
- (2) The subscriber shall forfeit any rights under 207 CMR 10.07 if he or she fails to pay the undisputed balance within 30 days.
- (3) Any subscriber in disagreement with the results of the cable television operator's investigation shall promptly inquire about and take advantage of any complaint resolution mechanism, formal or informal, available under the license or through the issuing authority before the Commission may accept a petition filed under 207 CMR 10.07(4).
- (4) The subscriber or the cable television operator may petition the Commission to resolve disputed matters within 30 days of any final action. Final action under 207 CMR 10.07(3) shall be deemed to have occurred 30 days after the filing of a complaint.
- (5) Upon receipt of a petition, the Commission may proceed to resolve the dispute if all parties agree to submit the dispute to the Commission and be bound by the Commission's decision and the Commission obtains a statement signed by the parties indicating that agreement. In resolving the dispute, the Commission may receive either written or oral statements from the parties, and may conduct its own investigation. The Commission shall then issue a decision based on the record and the parties shall receive written notification of the decision and a statement of reasons therefor.

10.08: Security Deposits

- (1) A cable operator shall not require from any cable subscriber a security deposit for converters or other equipment in excess of the cost of the equipment.
- (2) The cable operator shall pay interest to the cable subscriber at a rate of 7% per year for any deposit held for six months or more, and such interest shall accrue from the date the deposit is made by the cable subscriber. Interest shall be paid annually by the cable operator to the cable subscriber, either as a direct payment or as a credit to the cable subscriber's account.
- (3) Within 30 days after the return of the converter or other equipment, the cable operator shall return the security deposit plus any accrued interest to the cable subscriber, either as a direct payment or as a credit to the cable subscriber's account.
