1. AT&T is a common carrier of telecommunications services authorized by the Department to provide both interLATA and intraLATA services in Massachusetts. AT&T purchases switched access and other services from New England Telephone and Telegraph Company, d/b/a Verizon ("Verizon"). AT&T also competes with Verizon in the provision of certain intraLATA telecommunications services in Massachusetts.

The present docket has been established by the Department to review the sixth compliance filing submitted by Verizon pursuant to the Department's final order in DPU 94-50. As both a competitor and customer of Verizon, AT&T has an interest in ensuring that Verizon has complied with all aspects of the Department's order in DPU 94-50, including, but not limited to, requirements regarding access-to-the price relationships, price floors, price index calculations, and exogenous cost adjustments.
3. For the foregoing reasons, AT&T will be substantially and specifically affected by the Department's review and decision on Verizon's compliance filing. AT&T intends fully to participate in the proceedings in this docket.
