## **MassHealth Eligibility Redetermination**

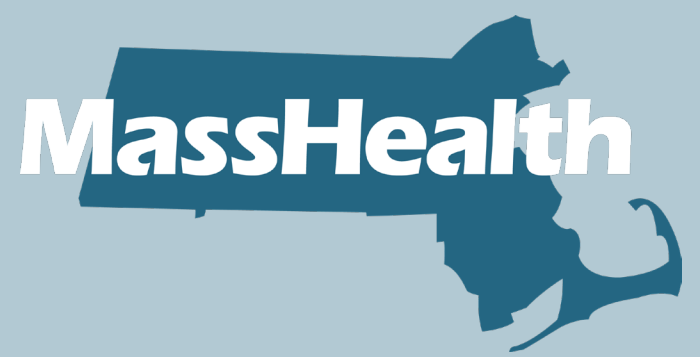

In March 2020, the federal government declared a public health emergency (PHE) due to the COVID-19 pandemic. In response to the PHE and consistent with federal continuous coverage requirements, MassHealth put protections in place that prevented members' MassHealth coverage ending during the COVID-19 emergency.

The federal government ended the continuous coverage requirements. In response, as of April 1, 2023, MassHealth has returned to our standard annual eligibility renewal processes. All current MassHealth members must renew their health coverage to ensure that they still qualify for their current benefit.

To reduce the number of qualified members who lose their coverage, MassHealth is working with the Massachusetts Health Connector, Health Care For All, and other partners, such as our pharmacy network, to make sure that members know how to renew their coverage and are aware of other affordable health coverage options if needed.

**We are asking pharmacy providers to display the attached posting within their pharmacy.**
