### MassHealth Provider Enrollment Revalidation

Most pharmacies will be selected for revalidation of their provider enrollment information this year.

As required by the Affordable Care Act, MassHealth has begun revalidation activity using new enrollment screening criteria. The first step of revalidation must be completed using the Provider Online Service Center (POSC) web page: <https://newmmis-portal.ehs.state.ma.us/EHSProviderPortal/appmanager/provider/desktop>.

Upon completing the above step, pharmacies must complete and submit an original signed Federally Required Disclosures form, available at following link: [www.mass.gov/eohhs/docs/masshealth/provider-services/forms/pe-frd.pdf](http://www.mass.gov/eohhs/docs/masshealth/provider-services/forms/pe-frd.pdf).

This revalidation initiative focuses on providers enrolled on or before March 25, 2011. If your pharmacy enrolled as a MassHealth provider after that date, you must complete revalidation within five years from the date of your initial enrollment. Failure to complete revalidation will affect your MassHealth enrollment status and may result in sanctions.

Pharmacies receiving revalidation letters from MassHealth must complete the POSC revalidation process and return a completed Federally Required Disclosures form within 45 days of the date on the revalidation letter. Certain pharmacies with durable medical equipment (DME) specialties will also require a site visit to validate the facility, credentials, and other business aspects.

All applicable pharmacies should anticipate the need to revalidate their enrollment information within the next six months.

When preparing to complete the POSC revalidation step, please ensure that each location has access to log in to the POSC. If access is needed, please complete and submit a Data Collection form, available at the following link:
