Emergencies

The DCAMM Security Department establishes fire and emergency response plans, including evacuation plans and procedures. The Security Department also organizes evacuation teams, which are set up by either Agency or floor to function as organizers to facilitate the safe evacuation of those who work in or visit DCAMM facilities. Evacuation teams, which are picked by DCAMM, consist of a Team Leader, Assistant Team Leader, Area Monitor, Stairwell Monitor, and Special Assistance Monitor. Evacuation Team Leaders (ETLs) provide team profile information (number of team members, evacuation routes, number of persons requiring assistance, etc.), which DCAMM maintains and distributes as needed for both operational and training purposes. The Security Department holds evacuation team meetings and training sessions throughout the year.

Fire System Information

The Pittsfield State Building Fire System Response is used for the planning and evacuation purposes. The evacuation response for this building is to evacuate ALL floors in the event of any alarm activation. Occupants of each affected floor should evacuate immediately when they get the alarm notification on their floor. Floors not affected by the alarm will not get the alarm notifications. The sequence of alarm activations and required occupant actions are noted in the table below.

Alarm System Information

The Pittsfield State Building fire detection and alarm systems are fully automatic, and when activated, a number of operations happen simultaneously:

Pittsfield Fire Department is notified immediately
 The Command Center is notified, and trained employees are dispatched to the location.

The activation of the fire alarm system immediately notifies Building Security that an emergency situation exists, automatically summons the Pittsfield Fire Department, and signals the occupants in the building to evacuate. Most fire alarm activations will call for evacuation. It is critical that all personnel exit the building immediately. Do not re-enter the building until the Pittsfield Fire Department gives permission to do so.

Activity	Alarm Sequence	Signals	Locations Needed	Actions Required
