

Places of Worship are encouraged to hold services virtually or outdoors and to ensure that attendees who are not from the same immediate household are spaced at least 6 feet apart. When conducting services, places of worship must abide by the following requirements, where such standards are mandatory, and are encouraged to follow the advisories and best practices.

MANDATORY SAFETY STANDARDS

SOCIAL DISTANCING

For indoor services, places of worship are strongly encouraged to limit the occupancy to the following:

- 50% of the building's maximum permitted occupancy as documented in its occupancy permit on record with the municipal building department or other municipal record holder (excluding staff)
- For buildings for which no permitted occupancy limitation is on record, 10 persons (excluding staff) per 1,000 square feet of accessible space

If feasible, places of worship are encouraged to arrange online sign-up for services in advance in order to monitor and limit the number of attendees

Seating

Seat attendees who are not part of the same immediate household at least 6 feet apart.

Block off and keep empty rows to allow for sufficient distancing between rows

Place tape or other visual distancing markings on seating to delineate 6 foot separations and to post signage indicating the maximum number of persons permitted per row

Promote ventilation for enclosed spaces where possible. For example, consider opening windows and doors to allow airflow

Entering and Exiting

Places of worship are encouraged to take steps to encourage orderly entering and exiting of services in a manner that encourages social distancing. For example:

- Signage or floor markings should be posted to have one-way aisles or otherwise direct attendees to follow certain pathways for entering and exiting the service
- If a line forms outside of the service, those waiting should be directed to maintain social distancing. Tape or other markings on the ground outside of Places of worship should be placed to encourage attendees to maintain social distancing of at least 6 feet
- Staff should direct people in high traffic areas to help maintain social distancing
- Officiants or other staff should direct successive, row-by-row exiting

Face Coverings

All attendees and staff must wear face coverings or masks in accordance with COVID-19 Order No. 67 and the [Department of Public Health's Guidance](#) while inside and while entering and exiting places of worship or otherwise participating in in-person services, except where a person is unable to wear a face covering or mask because of a medical or disabling condition

A leader or celebrant engaged in conducting the service or making an address may remove his or her face covering while doing so, provided that he or she is able to maintain a distance of at least 6 feet from other persons present; installation of protective, plexi-glass or other transparent barriers is recommended for lecterns and other points of address

For children between age 2 and 5, the wearing of a face covering or mask is at the discretion of the child's parent or guardian. Children under the age of 2 should not wear a face covering or mask

A person who declines to wear a face covering or mask because of a medical or disabling condition shall not be required to produce documentation verifying the condition

Places of worship may refuse entry to a person who refuses to wear a face covering or mask for non-medical reasons

HYGIENE PROTOCOLS

Places of worship shall ensure that attendees and workers have access to handwashing facilities, including soap and running water, and allow workers sufficient break time to wash hands, as necessary. They are also encouraged to make alcohol-based hand sanitizers with at least 60% alcohol available, if possible

MANDATORY SAFETY STANDARDS

STAFFING & OPERATIONS

Places of Worship shall communicate to members and workers that they should not attend services in-person if any of the following are true:

- Member or worker is experiencing any symptoms such as fever (100.0 and above) or chills, cough, shortness of breath, sore throat, fatigue, headache, muscle/body aches, runny nose/congestion, new loss of taste or smell, or nausea, vomiting or diarrhea
- Member or worker has had "close contact" with an individual diagnosed with COVID-19. "Close contact" means living in the same household as a person who has tested positive for COVID-19, caring for a person who has tested positive for COVID-19, being within 6 feet of a person who has tested positive for COVID-19 for 15 minutes or more, or coming in direct contact with secretions (e.g., sharing utensils, being coughed on) from a person who has tested positive for COVID-19, while that person was symptomatic
- Member or worker has been asked to self-isolate or quarantine by their doctor or a local public health official

Contributions and Communal Food, Drink, and Sacraments

Places of worship are encouraged to modify the means to collect any financial contributions from attendees so as to eliminate shared contribution trays and baskets and to minimize contact. Consider setting up a no-touch method to collect contributions, and encouraging contributions through mail or electronic means

Places of worship are encouraged to modify communal rituals, like taking communion or passing of the peace, so as to limit contact with others. Consider distributing, where applicable, prepackaged communion or sacraments

Places of worship running food pantries or other prepackaged food distribution may continue to do so

Any childcare services should follow the latest EEC child-care guidance, available on the [EEC Reopening Site](#)

If a place of worship learns that an attendee or worker or other worker has tested positive for COVID-19, it shall notify the local Board of Health (LBOH) in the city or town where the place of worship is located and assist the LBOH as reasonably requested to trace likely contacts and advise contacts to isolate and self-quarantine

CLEANING & DISINFECTING

Places of worship shall be cleaned and disinfected between each service, including disinfection of heavy transit areas and high-touch surfaces (e.g., doorknobs, bathrooms, microphones, shared instruments)

In event of a positive case, follow current CDC guidance

If a Place of worship learns that an attendee or worker or other worker has tested positive for COVID-19, it shall notify the local Board of Health (LBOH) in the city or town where the place of worship is located and assist the LBOH as reasonably requested to advise likely contacts to isolate and self-quarantine
