Workforce Board Directors
Title I Administrators
Career Center Directors
Title I Fiscal Officers
DCS Operations Managers

cc: WIOA State Partners

From: Alice Sweeney, Director
Department of Career Services

Date: March 30, 2016

Subject: **Poverty Income Guidelines - Lower Living Standard Income Levels 2016**

Purpose: To provide Local Workforce Boards, One-Stop Career Center Operators and other local workforce partners with the annual income guidelines to determine economically disadvantaged/low income status for eligibility under the Workforce Innovation and Opportunity Act (WIOA) and other programs.

Background: Title I of WIOA requires the U.S. Secretary of Labor (Secretary) to update and publish the Lower Living Standard Income Level (LLSIL) tables annually, for uses described in the law (including determination of eligibility for youth). Section 3(36)(A) of WIOA defines the term “low income individual” as one who qualifies under various criteria, including an individual who receives, or received for a prior six-month period, income that does not exceed the higher level of the poverty line or 70 percent of the LLSIL. Section 3(36)(B) of WIOA defines “lower living standard income level” as, the income level (adjusted for regional, metropolitan, urban, and rural differences and family size) determined annually by the Secretary of Labor based on the most recent lower living family budget issued by the Secretary. WIOA sec. 134(c)(3)(A) and the Notice of Proposed Rule Making §680.210 address who may receive training services as it relates to self-sufficiency.

On January 25, 2016, the U.S. Department of Health and Human Services (HHS) published the Poverty Income Guidelines for 2016 (Volume 81, Number 15, pp.

4036-4037). Based on the publication of the HHS poverty level guidance, the U.S. Department of Labor, Employment and Training Administration (ETA) has now published the Lower Living Standard Income Levels in the Federal Register of March 25, 2016.

Policy: With the publication of the HHS Poverty Income Guidelines and the ETA Lower Living Standard Income Levels for 2016, the higher of either the 2016 Poverty Income Guidelines or 70% of the 2016 Lower Living Standard Income Level (LLSIL) shall be used for eligibility determination for WIOA Title I and other programs using economically disadvantaged/low income status criteria.

Chief Elected Officials, Workforce Boards and program operators shall follow the Poverty Income Guidelines for 2016 in determining income eligibility for a family of one (1) and shall implement the 2016 70% Lower Living Standard Income Levels in the determination of eligibility for WIOA Title I and other programs using economically disadvantaged/low income status criteria for families of two (2) or more.

100% of the LLSIL, as a minimum, must be used in establishing policy related to the calculation of local “self-sufficiency” standards for WIOA Title I.

For workforce development areas covered by more than one set of LLSIL figures (where there is more than one type of metropolitan area), program operators should use the highest set of LLSIL guidelines for all cities and towns located within the entire workforce development area.

Action

Required: Local areas shall assure that local policy and practice is consistent with the content of this issuance.

Effective: The HHS Poverty Level guidelines were effective as of January 25, 2016. The ETA LLSIL is effective as of March 25, 2016.
