The agreement with the registered apprentice training sponsor must provide that graduating pre-apprentices will be provided with a predetermined form of articulated credit if they are accepted into the registered apprentice program through the program intake procedures.

(b) The pre-apprentice program standards must contain provisions that address:

(1) The related classroom training of the pre-apprentice in a skilled occupation.

(2) The determination of the appropriate curriculum for the program standards is made by the program sponsor, subject to approval by the Division of the determination as appropriate to the apprenticeable occupation for which the program standards are registered.

(3) Provision for organized, related instruction in technical subjects related to the occupation. Approximately 150 hours for each year of pre-apprenticeship is recommended. This instruction in technical subjects may be accomplished through media such as classroom, occupational or industry courses, electronic media, or other instruction approved by the Director.

(4) Periodic review and evaluation of the pre-apprentice's performance in related instruction; and the maintenance of appropriate progress records.

(5) Adequate and safe equipment and facilities for training and supervision, and safety training for pre-apprentices and in related instruction.

(6) The placement of a pre-apprentice under a written Pre-Apprenticeship Agreement as prescribed by the Division.

(7) Assurance of qualified training personnel and adequate supervision.

(8) Recognition for successful completion of pre-apprenticeship evidenced by an appropriate certificate issued by the pre-apprentice program sponsor.

(9) Contact information (name, address, telephone number, and email address if appropriate) for the appropriate individual with authority under the program to receive, process and make disposition of complaints.

(10) The conditions under which the apprentice program may discontinue its relationship with the pre-apprentice program.
