We got this

Finding a job or career isn't easy!

Students that find a job but want to explore other career options are encouraged to do so. Pre-ETS services are always available to eligible students, and they can start and stop the process and rejoin the program at any time.

Together with stakeholders, partners, and allies, MassAbility works to expand what's possible in the lives of people with disabilities. We collaborate, problem-solve, innovate, and bring about a better Massachusetts for everyone—one that is truly equitable, accessible, and inclusive.

MassAbility

Expanding equity and access for people with disabilities.

Create a plan for your student's future

MassAbility

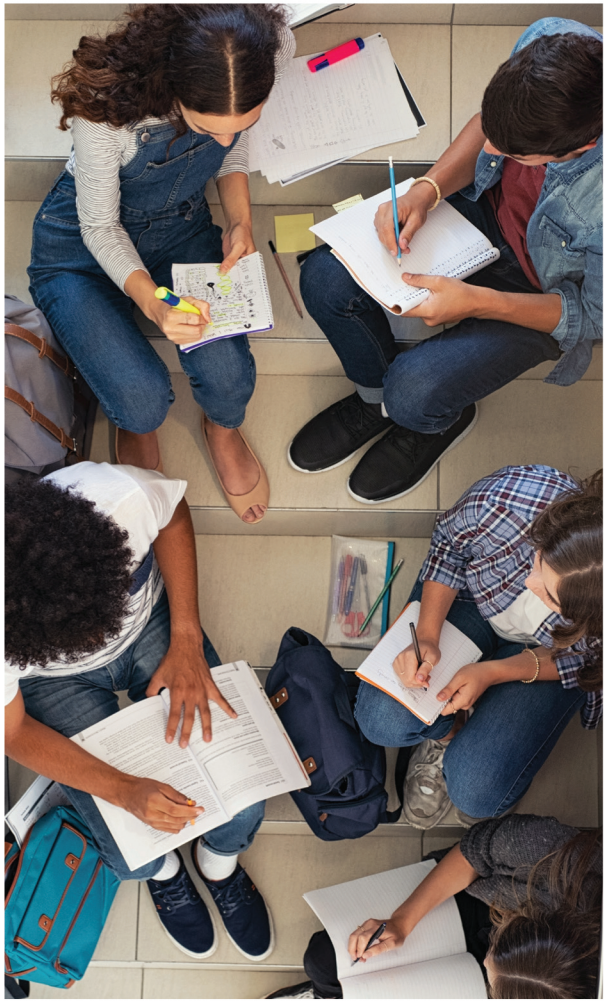
MassAbility's Pre-Employment Transition Services (Pre-ETS) provide students with disabilities the opportunity to experience the world of work.

Together with provider partners across the state, we help your student make decisions about their career path and create a plan for their future.

Whether younger students are interested in learning about their first summer job or upper-level students are planning their career path after school, providers offer a wide range of possibilities for students aged 14-21 (up until their 22nd birthday).

Core Services provided by Pre-ETS providers:

+ Job Exploration Counseling
+ Workplace Readiness Training
+ Work-based Learning Experience
+ Self-advocacy
+ Counseling on Post-secondary Education
+ Counseling on Post-secondary Training

Beyond high school


Pre-ETS services aren't just for students in a traditional high school. Students enrolled in vocational schools, college courses, or training programs can still be eligible to work with a provider if they are under the age of 22.
