<b>Targeted Inmate/Resident/Detainee Interviews</b>	
58. Enter the total number of <b>TARGETED INMATES/RESIDENTS/DETAINEES</b> who were interviewed:	10
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	1

<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>I did have a conversation with staff regarding anyone that was low vision or blind. ## SITE REVIEW AND DOCUMENTATION SAMPLING

### Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

<p><b>84. Did you have access to all areas of the facility?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
---	---

### Was the site review an active, inquiring process that included the following:

<p><b>85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p><b>86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p><b>87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p><b>88. Informal conversations with staff during the site review (encouraged, not required)?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p><b>89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</b></p>	<p>The staff provided a very thorough tour and were happy to talk about the long history of the facility as well as how it currently operates.</p>

### Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?

- Yes  
 No

91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).

I randomly selected 10 files from the 20 inmates that I interviewed. There was no problem with pulling all those files.

## SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

### Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	24	X	24	24
Staff-on-inmate sexual abuse	10	X	10	10
<b>Total</b>	<b>34</b>	<b>X</b>	<b>34</b>	<b>34</b>

You indicated that you are unable to provide information for one or more of the fields above. Explain why this information could not be provided.

I did not gather this information for every case. I did not review every investigation file. I took a sample of investigations to review.

93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual harassment	3	0	3	0
Staff-on-inmate sexual harassment	2	0	2	0
<b>Total</b>	<b>5</b>	<b>0</b>	<b>5</b>	<b>0</b>

## Sexual Abuse and Sexual Harassment Investigation Outcomes

### Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for "convicted.") Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

#### 94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/Court Case Filed	Convicted/Adjudicated	Acquitted
<b>Inmate-on-inmate sexual abuse</b>	0	X	X	X	X
<b>Staff-on-inmate sexual abuse</b>	1	X	X	X	X
<b>Total</b>	1	X	X	X	X

You indicated that you are unable to provide information for one or more of the fields above. Explain why this information could not be provided.

I did not gather this information for every case. I did not review every investigation file. I took a sample of investigations to review.

#### 95. Administrative SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Unfounded	Unsubstantiated	Substantiated
<b>Inmate-on-inmate sexual abuse</b>	1	21	3	1

<b>Total</b>	2	27	6	1

### Sexual Harassment Investigation Outcomes

Note: these counts should reflect where the investigation is currently. Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual harassment investigation files, as applicable to the facility type being audited.

#### 96. Criminal SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

### Auditor Discussion Instructions

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

115.13	<b>Supervision and monitoring</b>
	Auditor Overall Determination: Meets Standard
	Auditor Discussion

The MDOC has implemented a policy which states that the facility must review its staffing plan on a minimum of an annual basis to ensure that PREA is being considered when staffing the facility. The agency policy is **510 - Security Staffing and Analysis**. The policy reads as follows.

**A. Prison Rape Elimination Act (PREA 115.13 - "Supervision and Monitoring")**

**1. At least annually, each facility and special unit in consultation with the PREA Coordinator, shall assess, determine, and document whether adjustments are needed to:**

**(a) The official staffing analysis (maintained by the Policy Development and Compliance Unit).**

**(b) The deployment of video monitoring systems and other monitoring technologies; and**

**(c) Resources the facility/special unit has available to commit to ensure adherence to the staffing plan.**

**2. The staffing plan must provide for adequate levels of staffing, and, where applicable, video monitoring, to protect inmates against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities shall take into consideration:**

**(a) Generally accepted detention and correctional practices;**

**(b) Any judicial findings of inadequacy;**

**(c) Any findings of inadequacy from Federal investigative agencies;**

**(d) Any findings of inadequacy from internal or external oversight bodies;**

**(e) All components of the facility's physical plant (including "blind-spots" or areas where staff or inmates may be isolated);**

**(f) The composition of the inmate population;**

**(g) The number and placement of supervisory staff;**

**(h) Institution programs occurring on a particular shift;**

**(i) Any applicable State or local laws, regulations, or standards;**

**(j) The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and**

**(k) Any other relevant factors.**

**3. In circumstances where the staffing plan is not complied with, the facility shall document and justify all deviations from the plan.**

The facility provided two examples of the staffing plan for review. All information required to be a part of this assessment is included in the staffing plan.

As with many other correctional institutions across the country, staffing shortages affect MCI Framingham as well. Should there be a shortage on any given shift, the administration will ask for volunteers from other shifts to cover the mandatory posts. If there are not enough volunteers to cover these posts, the administration will mandate overtime.

The facility provided documentation of the unannounced rounds conducted by the upper level staff members. Interviews with staff and inmates confirmed that these are being conducted. The documentation reviewed showed that these administrative rounds are being conducted throughout the day and night. These are random and occur on each shift.

Additionally, as required by the standard, staff are trained that they should not announce that upper level staff are making unannounced rounds. Not only is it part of the training to staff, it is also in the post orders for each post. Examples of these orders were uploaded for review. The order reads as follows.

**Alerting staff members of unannounced supervisory rounds is prohibited unless the announcement is related to the operational functions of the facility.**

If there is an issue that is observed, a report is submitted with the identified issue. If the issue is related to PREA, that report will go to the PREA Manager and will be discussed at the monthly meeting.

115.15	<b>Limits to cross-gender viewing and searches</b>
	Auditor Overall Determination: Meets Standard
	Auditor Discussion

MCI Framingham is the only female facility in the state correction system in Massachusetts. During the interviews, both formal and informal, with staff and inmates it was clear that male staff members do not search the female inmates. One hundred percent of the inmates who were interviewed indicated they had never been searched by any male staff member at this facility.

MDOC has policies in place which are clear regarding searches, with specifics regarding who conducts searches and how those searches are to be conducted. The policy for the department which guides searches is **506: Search Policy**. Specific portions of the search policy which address PREA issues are as follows.

#### **506.04 UNCLOTHED SEARCHES**

***Searches or physically examining a gender non-conforming inmate for the sole purpose of determining the inmate's genital status shall not be permitted. If the inmate's genital status is unknown, it may be determined during conversations with the inmate, by reviewing medical records, or if necessary, by learning that information as part of the broader medical examination conducted in private by the contracted medical provider.***

***Gender non-conforming inmates shall have an unclothed search conducted by officers of the gender with which the inmate has identified as the search preference in accordance with 103 DOC 402, Inmate Identification Policy, except in exigent circumstances.***

***Except for gender non-conforming inmates, cross-gender unclothed searches shall not be conducted except in exigent circumstances or when performed by medical practitioners. Should such a situation arise, permission from the Superintendent must be obtained prior to the search. The search must be documented in writing through a confidential incident report.***

#### **506.05 FULLY CLOTHED SEARCHES (PAT SEARCH)**

##### **1. Pat Searches of Inmates:**

***General - Fully clothed searches (pat search) should be employed for the relatively quick scrutiny of an inmate's person. ....Cross-gender pat searches of female inmates shall not be permitted absent exigent circumstances.***

##### **2. Recommended Fully Clothed Search Techniques:**

***B. Clothed searches of gender non-conforming inmates shall be conducted in a professional and respectful manner, and in the least intrusive manner, and in the least intrusive manner possible consistent with security needs.***

It is also the policy of the agency that opposite gender individuals announce themselves when entering a housing unit and the status quo of gender changes. During the tour of the facility, this Auditor observed staff members announcing themselves when entering all housing units. Inmates did indicate during the confidential interviews that male staff members almost always announced themselves when they entered a housing unit.

The requirement of cross gender announcements and the ability for inmates to shower, change clothes and perform bodily functions is included in the **Policy 519: Sexual Harassment/Abuse Response and Prevention Policy**. The policy reads as follows.

***F. Superintendents shall implement procedures which enable inmates to shower, perform bodily functions, and change clothing, without non-medical staff of the opposite gender viewing their breasts, buttocks or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Inmates who are housed in a dormitory setting shall be informed that there is no expectation of privacy, but, in order to afford some privacy when necessary, they may change clothing in the inmate bathroom. Inmates shall be informed of this during their orientation to the institution, as well as through a posting of this requirement within the dormitory itself.***

***G. Pursuant to 103 DOC 512, Post Orders, Superintendents shall require staff of the opposite gender to verbally announce, or have verbally announced for them, their presence when entering an inmate housing unit whenever such entry changes the status quo of the gender of staff on duty in that area. Such announcements shall also be entered into the IMS Unit Log. In the event that there is no PA system available within an inmate housing unit, announcements shall be made as the staff member goes floor-by-floor.***

During this audit period, there were no exigent circumstances in which an opposite gender staff member had to perform any type of search.

Staff members have received training on searches. The facility has provided the curriculum used for staff training regarding searches and how to perform clothed (pat) searches of an opposite gender inmate.

The PREA video which the agency uses to educate inmates is available in both English and Spanish and uses closed captions.</p> <p data-bbox="229 403 1509 593">During the staff interviews, questions were asked how they would handle a situation where individuals were unable to read or understand what they were reading. Multiple staff members indicated they would read the information to the inmate. Additionally, the majority of staff members indicated they would not utilize inmate interpreters once they realized that a conversation was leading to a report of sexual abuse or sexual harassment.</p> <p data-bbox="229 593 1509 752">The facility does have access to a translation telephone line should they need to utilize it for those inmates who are not able to understand English. Within the preceding 12-18 months prior to the onsite audit, the facility upgraded approximately 25-30 cameras throughout the facility. Minutes of these meetings were provided which details the discussion of where new cameras should be placed and areas where cameras or additional observations needed to be considered in the future. **Prevention Policy** states the following regarding payments.

***(10) Rape crisis services shall be provided at no cost to the alleged victim unless the claim of being sexually assaulted was knowingly false.***

Common language for forensic medical examinations is usually that specific or indicates medical attention. The term "rape crisis services" commonly refers to services provided by a Rape Crisis Center, the Boston Area Rape Crisis Center in this case. Rape crisis centers typically do not charge for their services to those who are victims of sexual abuse. Therefore, it is recommended that this language be changed to more clearly convey that the services being discussed in this portion of the policy refers to the forensic medical examination performed by a SANE nurse at the hospital.

Should the inmate determine they do not want to speak with a rape crisis advocate from the Boston Rape Crisis Center, they always have the ability to request to speak with a mental health professional at the institution when they return from the hospital.

	<b>Auditor Discussion</b>
	As noted in standard 115.43, MCI Framingham does not have a segregation unit, therefore inmates are not placed in segregation. Staff use other options for protection of victims of sexual abuse such as placement in a cell rather than a dormitory setting and placement close to the officer's station in the housing unit.

**115.71 Criminal and administrative agency investigations**

**Auditor Overall Determination:** Exceeds Standard

**Auditor Discussion**

It is clear through review of investigation files, review of agency policy and interviews conducted through this audit process, that the MDOC and MCI Framingham take all allegations of sexual harassment and sexual abuse seriously and investigate all allegations regardless of the manner the allegation was received. In interviews with staff members, information was provided regarding how allegations are received about sexual harassment or abuse. Reports are accepted through mail, inmate requests, phone calls or direct reports from any individual including inmates or staff. If an allegation is provided anonymously, it will be investigated as any other report of sexual abuse or sexual harassment.

This Auditor was provided a list of investigations, both completed and ongoing, for the preceding twelve months. Investigations were selected randomly to review. The MDOC has an electronic program which is utilized for storage of investigative information, review and approval of reporting and the ability to keep confidential any investigation information. This program captures all important information and evidence in the case. Data collected will be maintained for at least ten (10) years after the date of the initial collection. This verified through **Policy 519 Sexual Harassment/Abuse Response and Prevention Policy**.

When an allegation is received, it is reviewed to determine if it is a Category 1 or Category 2 allegation. Category 1 investigations are typically investigated by the facility investigators and are usually inmate on inmate allegations. Category 2 investigations involve more serious allegations and typically involve staff on inmate situations. As a general rule of thumb, Category 2 investigations are conducted by the Professional Standards Unit (PSU) or Office of Investigative Services (OIS). Category 1 investigations are conducted by the facility investigators.

Interviews with the investigators provided information on the process of the investigation, how information is documented, the fact that investigations can move between categories depending on the investigation and that if there is any belief that there is a criminal element involved, the investigator will reach out to the Massachusetts State Police to conduct the criminal investigation.

The Department has a Memorandum of Understanding (MOU) with the MDOC signed in 2021 stating that criminal investigations will be conducted by the state police when requested and that the state police will utilize appropriate evidence collection and investigative techniques.

There are two policies which apply to the investigations of allegations of sexual harassment and sexual abuse. The first of course is **Policy 519 Sexual Harassment/Abuse Response and Prevention Policy**. This policy states the following.

**519.02 POLICY STATEMENT**

***The Department is committed to investigating, disciplining (up to and including termination) and referring for prosecution, staff members and inmate who engage in sexual harassment/sexually abusive behavior. The Department is equally committed to providing crisis intervention and ongoing treatment or referrals to the victims of these acts.***

***The Department resolves to:***

- ***Provide for a thorough investigation of all reported allegations of sexual harassment/abuse and pursue discipline and/or prosecution of perpetrators when appropriate;***

The second policy which discusses investigations of sexual abuse and sexual harassment is **Policy 522 Professional Standards Unit**. The policy reads as follows.

**522.02 PHILOSOPHY**

***It is the Department's philosophy that all complaints of staff misconduct are to be systematically examined and investigated when warranted to discover truth.***

**522.03 GOALS AND OBJECTIVES**

***A. The PSU shall investigate allegations of staff misconduct and violations of policy and procedure that may result in administrative review and possible discipline against staff, vendors and/or contract staff.***

***B. The Chief of PSU will determine which investigative unit (PSU or OIS) will conduct the investigation. The designated unit will work cooperatively with respective District Attorney's Office and external law enforcement agencies to conduct the investigation if it has been determined to be a criminal matter.***

One area of the policy relating to the investigations of sexual abuse and sexual harassment allegations which is incorrect and does not meet the standard is regarding the storage of investigative files. PREA standard 115.71 states that investigative files must be retained for the period of incarceration of the inmate or length of employment of an employee plus five years. MDOC policy states the following.

***C. Data storage, publication, and destruction***

***(3) The Department shall maintain collected sexual harassment/abuse data for at least ten (10) years after the date of the initial collection. Destruction of any records shall be done in accordance with the latest Massachusetts Statewide Records Retention Schedule.***

After talking with the PREA Coordinator for the Department, it was clear that the PREA databased used by the Department actually exceeds the standard for record retention. This database is accessible to all facilities in the department, with the proper credentials. Additionally the records in the database are permanently stored and never purged. While the statewide records retention policy does not provide information regarding this database, the statewide PREA Coordinator provided a memo to this Auditor indicating that this is the process for the information in the database.

The database is an excellent tool that can be used by all facilities in the Department and in combination with the permeance of the storage criteria, it is determined that the Department exceeds this standard.
