| Random Inmate/Resident/Detainee Interviews | |
| 34. Enter the total number of RANDOM INMATES/RESIDENTS/DETAINEES who were interviewed: | 10 |
| 35. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply) | <div> <input checked="" type="checkbox"/> Age </div> <div> <input checked="" type="checkbox"/> Race </div> <div> <input checked="" type="checkbox"/> Ethnicity (e.g., Hispanic, Non-Hispanic) </div> <div> <input checked="" type="checkbox"/> Length of time in the facility </div> <div> <input checked="" type="checkbox"/> Housing assignment </div> <div> <input checked="" type="checkbox"/> Gender </div> <div> <input type="checkbox"/> Other </div> <div> <input type="checkbox"/> None </div> |
| 36. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse? | The auditor ensured a geographically diverse sample among interviewees. Incarcerated individuals were interviewed from both housing units. |
| 37. Were you able to conduct the minimum number of random inmate/resident/detainee interviews? | <div> <input checked="" type="radio"/> Yes </div> <div> <input type="radio"/> No </div> |

| | |
|---|---|
| 38. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation): | All 20 of the incarcerated individuals interviewed were male. Six of the incarcerated individuals interviewed were black, nine were white, three were Hispanic, and two were another race/ethnicity. With regard to age, four were 26-35, five were 36-45, six were 46-55 and three were 56 or older. Eighteen of the incarcerated individuals interviewed were at the facility less than a year, and two were there between a year and five years. |
| Targeted Inmate/Resident/Detainee Interviews | |
| 39. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed: | 10 |
| <p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p> | |
| 40. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol: | 0 |
| 40. SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

64. Did you have access to all areas of the facility?

☒ Yes

☐ No

Was the site review an active, inquiring process that included the following:

65. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?

☒ Yes

☐ No

66. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?

☒ Yes

☐ No

67. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?

☒ Yes

☐ No

68. Informal conversations with staff during the site review (encouraged, not required)?

☒ Yes

☐ No

69. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).

The on-site portion of the audit was conducted on May 5, 2025. The auditor had an initial briefing with facility leadership and discussed the audit logistics. After the initial briefing, the auditor selected incarcerated individuals and staff for interview. The auditor conducted a tour of the facility on May 5, 2025. The tour included all areas associated with the facility to include: housing units, intake, visitation, chapel/education, vocation/industries, maintenance, food service, health services, recreation and administration. During the tour the auditor was cognizant of staffing levels, video monitoring placement, blind spots, posted PREA information, privacy for incarcerated individuals in housing units and other factors as indicated in the appropriate standard findings.

The auditor observed PREA information posted throughout the facility, including in common areas and housing units. Each housing unit had PREA Posters as well as the PREA hotline, Inter Perimeter Security (IPS) hotline and BARCC number painted near the phones. Further, each housing unit had a phone number sheet that included phone numbers for various organizations, including BARCC, the PREA hotline and the IPS hotline. The PREA Posters were observed in English and Spanish on legal size paper. The painted numbers were adequate size font and were on walls near the phones. The phone number sheet was on letter size paper and was posted near the phones. Additionally, the hotline numbers (IPS, PREA and BARCC) were observed on the back of each incarcerated individual's ID card.

Third party reporting information was observed in visitation and the front entrance. The information was posted in English and Spanish on legal size paper, via the PREA Poster.

During the tour the auditor confirmed the facility follows a staffing plan. There were at

least three security staff members assigned to each housing building. Additional security staff were observed roving, assisting with movement and monitoring work, program and common areas. Numerous non-security staff were also assigned throughout the facility during business hours. The auditor observed that staffing appeared to be adequate and the facility was not overcrowded. The auditor noted that lines of sight were adequate with rounds and video monitoring technology.

During the tour the auditor observed cameras in housings units and common areas. The auditor verified that the cameras assisted with supervision through coverage of blind spots and high traffic areas. Cameras do not replace staff, but supplement staffing. All cameras are actively monitored by control. Cameras can also be viewed by Inner Perimeter Security (IPS) and management level staff.

With regard to cross gender viewing, the auditor confirmed that housing units provide privacy through cell doors with security windows and/or shower curtains. The auditor did not observe any cross gender viewing issues related to the physical plant. The auditor observed the strip search areas and confirmed no cross gender viewing issues. A review of the video monitoring technology identified one cross gender viewing issue in one intake holding cell. One of the two cells was equipped with a camera and the facility utilizes the holding cells for strip searches. Immediately following the on-site portion of the audit, the Warden sent out direction to staff to cease utilizing the holding cell with the camera for strip searches. Staff were instructed to only utilize the second holding cell, which does not have a camera. During the tour the auditor heard the opposite gender announcement each time the audit team entered the incarcerated individual housing units. The announcement was made verbally and was also voiced over the

intercom system. The announcement was at an adequate audible level.

Incarcerated individual medical and mental health records are electronic. Electronic medical and mental health records are maintained in the Sapphire database, which is only accessible to medical and mental health care staff. Incarcerated individual risk assessments are documented on paper and electronically via the electronic Inmate Management System (IMS). The paper risk assessments are maintained in a locked filing cabinet in HSU. During the tour the auditor had a security staff member pull up the electronic risk screening information. The auditor observed that the security staff member did not have access as he was not in a position with a need to know. Investigative files are maintained in the IPS office and the agency investigative database. Paper files are located in a locked filing cabinet. Access to the IPS office is IPS staff only.

During the tour the auditor observed the mail process. Incarcerated individuals are able to place outgoing mail and grievances in the locked boxes in the housing units and in common areas around the facility. The mailroom staff indicated that incoming mail is sent through a machine to ensure it does not contain any hazardous materials. Incoming mail is opened and reviewed prior to being distributed to the incarcerated individuals, with the exception of legal mail. Legal mail is provided to IPS. IPS call the incarcerated individual down and have the incarcerated individual open the legal mail in front of the them. Outgoing mail is received sealed. The staff do not open any outgoing mail, however IPS may review outgoing mail for those incarcerated individuals on mail monitor. The mailroom staff advised mail from the Massachusetts State Police would be given to IPS, similar to legal mail. The staff advised they have never had any mail to/from BARCC. Due to outgoing mail not being reviewed, the

auditor confirmed there was not an issue with treatment of mail to MSP and BARCC.

The auditor observed the intake process through a demonstration. Incarcerated individuals are provided PREA information at intake via the Manual. The Manual is available in both English and Spanish and includes information on the zero tolerance policy and reporting methods.

The auditor was provided a demonstration of the initial risk assessment. The initial risk assessment is completed by booking staff as well as medical staff. Booking staff complete their portion one-on-one in the booking area. Booking staff ask questions related to prior sexual victimization, domestic violence, gang affiliation, and prior protective custody. The booking staff indicated most information is already pre-populated from the electronic file information, such as age, gender, and criminal history and he is just verifying information with them verbally. The medical staff complete the second part of the initial risk assessment in the HSU, one-on-one. The medical staff member asks about disabilities, prior sexual victimization, if they feel vulnerable, their gender identity and sexual preference. The medical staff enter the information into the MADOC system (IMS). The auditor reviewed the information on the risk screening via the computer screen and confirmed that information such as age, height, weight, prior incarcerations, current conviction, etc. were already populated. Staff had the ability to change certain information if applicable, (i.e. if the incarcerated individual had gained or lost significant weight). After the information is entered into the system, the information is calculated electronically and a designation is determined related to known victim, potential victim, unknown victim, known predator, potential predator or unknown predator. The auditor was provided a demonstration of the reassessment process. The reassessment is completed by mental

health staff and CPO staff. The CPO staff complete the same part of the risk assessment as the booking staff. The mental health staff complete the same part of the assessment as the medical staff. CPOs meet with the incarcerated individual in a private office setting and ask about incarcerations, gang affiliation, prior sexual abusiveness, etc. Mental health staff meet with the incarcerated individual in a private office setting and ask them if they feel vulnerable, if they have ever been sexually victimized, gender identity and sexual preference. The mental health staff noted that they conduct this screening within 72 hour and they only meet with incarcerated individuals after that if they have a mental health diagnosis or if they report prior sexual victimization.

The auditor tested the PREA hotline during the tour from the housing unit phones. The auditor reached a live person (Duty Station staff) who advised that if they received a report of sexual abuse from an incarcerated individual they would immediately document the information and forward it to the facility and the PC. Incarcerated individuals have access to the phones most of the day and can also make calls via their tablet. Calls to the PREA hotline require an incarcerated individual pin number. The auditor also tested the written reporting mechanism. The auditor submitted a kite on May 5, 2025 via a locked box located in the MAT classroom. The auditor was provided confirmation that the kite was received on May 12, 2025 by MAT staff who immediately notified the Duty Officer.

The auditor tested the outside reporting mechanism by sending a letter on April 29, 2025 to the MSP (address provided in the Manual). The auditor sent a letter to MSP inquiring about how they would handle an allegation of sexual abuse and whether incarcerated individuals can remain anonymous. The auditor provided contact information for the MSP to respond. On May

14, 2025 the auditor received an email from the PREA Coordinator for the MSP. He provided a scanned copy of the letter and advised if it was a PREA complaint he would forward the information to the agency PC. He confirmed that incarcerated individuals may remain anonymous upon request.

The auditor had a staff member provide a demonstration on how they would document a verbal report of sexual abuse or sexual harassment. The staff member advised they would complete an incident report electronically from any of the facility computers. The staff illustrated that he would utilize the PREA incident type and that when complete, it would be electronically submitted to the Shift Commander. Staff further illustrated that the incident report can be marked confidential, which means the incident report bypasses the chain of command and goes directly to the Deputy and Superintendent. Staff confirmed all verbal reports of sexual abuse and sexual harassment would be documented in a confidential incident report.

The auditor tested the third party reporting mechanism via the agency website. The auditor submitted the online form on April 29, 2025. The PC provided email confirmation on the same date that the online form was received. The PC indicated that any third party report of sexual abuse or sexual harassment would be forwarded to the facility PCM and IPS for investigation.

The facility provides access to emotional support services through the BARCC hotline. The auditor tested the BARCC hotline during the on-site portion of the audit. The auditor dialed the number and was provided the option for services in English or Spanish. The automated message advised to hold and that they would be providing someone soon for services. The auditor reached a live person who confirmed that they are available to

provide services to any incarcerated individual who calls the line between the hours of 9am and 9pm. Additionally, the staff stated they can provide mail services for incarcerated individuals as well. The BARCC hotline is an unmonitored line and a pin number is not required if using the speed dial number.

The auditor had the facility conduct a mock demonstration of the comprehensive PREA education process. Education is conducted every Thursday through facility orientation. Incarcerated individuals view the MADOC orientation video. The video is shown on a 55 inch screen with adequate audio. The MADOC orientation video is available in English with Spanish subtitles.

The auditor did not require use of accommodations for any incarcerated individual interviews, however the accommodations were previously tested/ utilized at prior MADOC facilities. All resources for LEP and disabled incarcerated individuals is consistent across all agency facilities. During prior incarcerated individual interviews the auditor tested the accessibility of the language interpretation service (Lionsbridge). Staff provided the auditor a phone number to dial and the agency's pin number for services. The auditor was able to choose the appropriate language of interpretation and was connected to a live person. The auditor then utilized the Lionsbridge translator for LEP incarcerated individual interviews. It should be noted that interpretation services via Lionsbridge are only accessible to incarcerated individuals through a staff member. The auditor also utilized an American Sign Language (ASL) interpreter for a deaf incarcerated individual. The ASL translator was scheduled for in person translation a day in advance of the interview. The staff arrived at the facility to provide services.

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

70. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?

☒ Yes

☐ No

71. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).

Personnel and Training Files. The auditor reviewed a sample of 26 personnel and/or training records that included two contractor hired within the previous twelve months, three staff employed over five years, two contractors employed over five years and two staff promoted in the previous twelve months. The review included four volunteers, six total contractors and three medical and mental health care staff.

Incarcerated Individual Files. A total of 27 incarcerated individual files were reviewed. 25 incarcerated individual files were of those that arrived within the previous twelve months, seven were disabled incarcerated individuals and six were incarcerated individual who disclosed prior sexual victimization during the risk screening or were identified with prior sexual abusiveness during the risk screening.

Medical and Mental Health Records. The auditor reviewed medical and mental health documents for one incarcerated individuals who reported sexual abuse or sexual harassment and six incarcerated individual who disclosed prior sexual victimization during the risk screening or were identified with prior sexual abusiveness during the risk screening.

Grievances. The facility indicated they had zero sexual abuse grievances in the previous twelve months. The auditor reviewed the grievance log and a sample of grievances.

Hotline Calls. The facility has a PREA hotline as well as an Internal Perimeter Security (IPS) hotline. Incarcerated individuals can report sexual abuse and sexual harassment through both hotlines. The facility did not have any allegations reported to the PREA hotline or IPS hotline related to sexual abuse and/or sexual harassment.

Incident Reports. The auditor reviewed the

incident report associated with the one investigation reviewed.

Investigation Files. The auditor reviewed the investigation log from the previous three years. The auditor reviewed one investigation of sexual harassment that was reported in January 2024. There were no other allegations made from January 2024 to the date of the on-site portion of the audit.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

72. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

| | # of sexual abuse allegations | # of criminal investigations | # of administrative investigations | # of allegations that had both criminal and administrative investigations |
|-------------------------------|-------------------------------|------------------------------|------------------------------------|---|
| Inmate-on-inmate sexual abuse | 0 | 0 | 0 | 0 |
| Staff-on-inmate sexual abuse | 0 | 0 | 0 | 0 |

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

74. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

Interviews:

1. Interview with the PREA Coordinator
2. Interview with the PREA Compliance Manager

Findings (By Provision):

115.11 (a): The PAQ indicated that the agency has a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment in facilities it operates directly or under contract. The PAQ also stated that the facility has a policy outlining how it will implement the agency’s approach to preventing, detecting and

responding to sexual abuse and sexual harassment and that the policy includes definitions on prohibited behaviors regarding sexual abuse and sexual harassment and sanctions for those found to have participated in prohibited behaviors. The PAQ further stated that the policy includes a description of agency strategies and response to reduce and prevent sexual abuse and sexual harassment of incarcerated individuals. The agency has a comprehensive PREA policy, 103 DOC 519. Page 6 states that the Department has a zero-tolerance towards all forms of sexual abuse and sexual harassment. Pages 4-5 include the definitions of sexual abuse and sexual harassment and prohibited behavior. Pages 19-20 include the sanctions and process for those found to have participated in prohibited behaviors. 103 DOC 519 outlines the strategies and responses to preventing, detecting and responding to sexual abuse and sexual harassment. In addition to 103 DOC 519, the agency has numerous other policies that touch on different actions for prevention, detection and response. These policies include: 103 DOC 510, 103 DOC 512, Post Order 1, 103 DOC 506, 103 DOC 401, 103 DOC 408, 103 DOC 488, 103 DOC 201, 103 DOC 703, 103 DOC 216, 103 DOC 650, 103 DOC 652, 103 DOC 653, 103 DOC 750, 103 CMR 423, 103 CMR 491, 103 DOC 518, 103 DOC 230, 103 CMR 430 and 103 DOC 407. The policies (including 103 DOC 519) address "preventing" sexual abuse and sexual harassment through the designation of a PC and PCMs, criminal history background checks (staff, volunteers and contractors), training (staff, volunteers and contractors), staffing, intake/risk screening, incarcerated individual education and posting of signage (PREA posters, etc.). The policies address "detecting" sexual abuse and sexual harassment through training (staff, volunteers, and contractors) and intake/risk screening. The policies address "responding" to allegations of sexual abuse and sexual harassment through reporting, investigations, victim services, medical and mental health services, disciplinary sanctions for staff and incarcerated individuals, incident reviews and data collection. The policies are consistent with the PREA standards and outline the agency's approach to sexual safety.

115.11 (b): The PAQ indicated that the agency employs or designates an upper-level, agency-wide PREA Coordinator that has sufficient time and authority to develop, implement and oversee agency efforts to comply with the PREA standards in all of its facilities. The PAQ stated the position of the PC is the Chief of PREA Audits, Investigations and Operations. The agency's organizational chart confirms that the PC position is an upper-level position and is agency-wide. The organization chart notes that the PC is the Chief of PREA Audits, Operations and Investigations and the position reports to the Investigative Services Executive Chief. The appointment letter states that the PC's responsibility is to ensure that the Department is in compliance with Department of Justice PREA standards and the Department's PREA related policies. Additionally, it states that the PC is also responsible for collaborating with facility PREA Managers on implementing and monitoring of the Sexual Harassment/Abuse Response Prevention Policy. The interview with the PC indicated he has enough time to manage all of his PREA related responsibilities. He stated that there is a PCM at each facility, so there are eleven total PCMs. He stated that they conduct quarterly training with the PCMs and they also conduct internal audits and mock PREA audit. The PC stated that if he identified an issue complying with a PREA standard he would coordinate through Teams or email and take any corrective action, including training.

|--|---|
| | <p>115.11 (c): The PAQ indicated that the facility has designated a PREA Compliance Manager that has sufficient time and authority to coordinate the facility's effort to comply with the PREA standards. The PAQ stated the position of the PCM at the facility is the Deputy Superintendent who reports to the Superintendent. A review of the facility organization chart confirms that the Deputy Superintendent reports directly to the Superintendent. The interview with the PREA Compliance Manager indicated she has enough time to manage all of her PREA related responsibilities. She advised she coordinates the facility's efforts to comply with PREA through monthly PREA meetings where they discuss cases and any need for cameras. The PCM advised if she identified an issue complying with a PREA standard she would discuss it with the PREA committee and come up with a solution to alleviate the non-compliance.</p> <p>Based on a review of the PAQ, 103 DOC 519, 103 DOC 510, 103 DOC 512, Post Order 1, 103 DOC 506, 103 DOC 401, 103 DOC 408, 103 DOC 488, 103 DOC 201, 103 DOC 703, 103 DOC 216, 103 DOC 650, 103 DOC 652, 103 DOC 653, 103 DOC 750, 103 CMR 423, 103 CMR 491, 103 DOC 518, 103 DOC 230, 103 CMR 430, the appointment letter, the organizational charts and information from interviews with the PC and PCM, this standard appears to be compliant.</p> |

| | <p>115.12 (a): The PAQ indicated the agency has entered into or renewed a contract for the confinement of incarcerated individuals since the last PREA audit and the contracts require contractors to adopt and comply with PREA standards. The PAQ advised that there have been 32 contracts for the confinement of incarcerated individuals that the agency has entered into or renewed with private entities or other government agencies since the last PREA audit. Further communication indicated these are all interstate compact agreements with other states. A review of interstate contracts with Ohio, Florida, Idaho, Montana, Nevada, North Carolina and Pennsylvania confirm that contract language indicates that contracting parties are required to adopt and comply with the national standard to prevent, detect and respond to prison rape under the PREA and applicable PREA Standards. The contract language permits the parties to monitor the aspect of the agreement to ensure compliance with PREA. It should be noted that documentation indicated the interstate compact agreement with the Bureau of Prisons was missing the contract language but still requires that they comply with PREA. The PC advised they had already contacted their contracts division to amend the contract and add the PREA language.</p> <p>115.12 (b): The PAQ indicated all of the above contracts require the agency to monitor the contractor's compliance with PREA standards and that zero contracts did not require the agency to monitor contractor's compliance with PREA standards. A review of interstate contracts with Ohio, Florida, Idaho, Montana, Nevada, North Carolina and Pennsylvania confirm that contract language indicates that contracting parties are required to adopt and comply with the national standard to prevent, detect and respond to prison rape under the PREA and applicable PREA Standards. The contract language permits the parties to monitor the aspect of the agreement to ensure compliance with PREA. The interview with the Agency Contract Administrator indicated that there all interstate compact contracts have PREA language, either in the original contract or an addendum. He advised that all 22 states that they house MADOC incarcerated individuals have the PREA language in the contract. He stated they ensure that states are in compliance with the PREA standards through the use of the DOJ website and the Governor's assurance information. He also advised that if they have any questions related to a state's compliance they reach out to that state to gain the information related to PREA compliance.</p> <p>Based on the review of the PAQ, contracts with other state agencies and information from the interview with the Agency Contract Administrator, this standard appears to be compliant.</p> |

Site Review Observations:

1. Staffing Levels
2. Video Monitoring Technology or Other Monitoring Materials

Findings (By Provision):

115.13 (a): The PAQ indicated that the agency requires each facility it operates to develop, document, and make its best efforts to comply on a regular basis with a staffing plan that provides adequate levels of staffing and, where applicable, video monitoring, to protect incarcerated individuals against sexual abuse. 103 DOC 510, page 4 states that the staffing plan must provide for adequate levels of staffing, and where applicable, video monitoring, to protect incarcerated individual's against

sexual abuse. When calculating adequate staffing levels and determining the need for video monitoring, facilities shall take into consideration; generally accepted detention practices, any judicial findings of inadequacy, any finding of inadequacy from federal investigative agencies, any finding of inadequacy from internal or external oversight bodies, all components of the facility's physical plant, the composition of the incarcerated individual/detainee population, the number and placement of supervisory staff, the institutional programs occurring on a particular shift, any applicable State or local laws, the prevalence of substantiated and unsubstantiated incidents of abuse and any other relevant factors. The PAQ indicated that the current staffing plan is based on 193 incarcerated individuals, which is the average daily population. The facility employs 97 staff. Security staff mainly make up three shifts, day shift works from 7am-3pm, evening shifts works 3pm-11pm and morning shift works from 11pm-7am. A review of the daily shift rosters indicate that each shift has a Shift Commander and additional supervisors. Correctional Officers are assigned throughout the facility, including in housing units and common areas. A review of the staffing plan narrative confirms the elements under this provision were considered. During the tour the auditor confirmed the facility follows a staffing plan. There were at least three security staff members assigned to each housing building. Additional security staff were observed roving, assisting with movement and monitoring work, program and common areas. Numerous non-security staff were also assigned throughout the facility during business hours. The auditor observed that staffing appeared to be adequate and the facility was not overcrowded. The auditor noted that lines of sight were adequate with rounds and video monitoring technology. During the tour the auditor observed cameras in housings units and common areas. The auditor verified that the cameras assisted with supervision through coverage of blind spots and high traffic areas. Cameras do not replace staff, but supplement staffing. All cameras are actively monitored by control. Cameras can also be viewed by Inner Perimeter Security (IPS) and management level staff. The interview with the Warden confirmed that the facility has a staffing plan and the plan provides for adequate levels to protect incarcerated individuals from sexual abuse. The Warden stated they make sure there are plenty of staff to conduct rounds and that posts are covered in areas where incarcerated individuals are going to be. He advised the staffing plan is based on the incarcerated individual population. The Warden confirmed that the staffing plan includes video monitoring technology and it is documented. The Warden advised that all required components under this provision are considered during the creation and modification of the staffing plan. He noted that the staffing plan is based on the total number of incarcerated individuals and there are more staff on day shifts when more activities are occurring. He also advised that staffing is based on the security level. The Warden stated that they check for compliance with the staffing plan annually through a review as well as daily through the shift rosters. The interview with the PCM indicated that the staffing plan includes staff to ensure that all pertinent areas are covered. She stated staffing allows for caseloads to be adequate and that they have a certain FTE (full time equivalent). She confirmed the elements under this provision are considered in the staffing plan.

115.13 (b): The PAQ indicated that each time the staffing plan is not complied with, the facility documents and justifies all deviations from the staffing plan. The PAQ stated the most common reason for deviation from the staffing plan is staff shortage. 103 DOC 510, page 4 states that in circumstances where the staffing plan is not complied with, the facility shall document and justify all deviations from the plan. The Warden confirmed that they do not deviate from the staffing plan. All posts are filled through overtime and the only time a post would not be filled is if it was a specialty post such as a work squad.

115.13 (c): The PAQ indicated that at least once a year the facility/agency, in collaboration with the PC, reviews the staffing plan to see whether adjustments are needed. 103 DOC 510, page 3 indicates that at least annually, each facility and special unit in consultation with the PREA Coordinator, shall assess, determine and document whether adjustments are needed to: the official staffing analysis; the deployment of video monitoring technology systems and other monitoring technology; and resources the facility/special unit has available to commit to ensure adherence to the staffing plan. Further 103 DOC 419, page 13 states at least annually, each Superintendent or designee shall conduct a PREA Safety Assessment of their institution in accordance with Attachment IV. Consideration shall be given to past PREA events, staffing plans, recent changes to the institution environment and the unique mission and population assigned to the institution. Consideration shall be given to identifying operational practices which are in need of improvement. A copy of the PREA Safety Assessment shall be submitted to the Department's PREA Coordinator for review no later than the last working day of March. The staffing plan was most recently reviewed on June 13, 2025 by the Superintendent and PC. The plan was reviewed in order to assess, determine and document whether any adjustments were needed to the staffing plan, the deployment of video monitoring technologies and/or the resources available to commit to ensuring adherence to the staffing plan. The review included a vulnerability assessment that assessed sexual abuse and sexual harassment allegations, the physical layout and cameras locations. The staffing plan was not previously reviewed as there were not any staffing changes. The PC sent out a directive to all MADOC facilities that the Security Staffing Plan/ Assessment Attachment #1 form is required to be completed annually, regardless of whether there is a staffing change or need to change staffing. The interview with the PC confirmed that he is consulted annually on the staffing plan and he would be consulted if a facility conducted any additional analysis.

115.13 (d): The PAQ indicated that the facility requires that intermediate-level or higher-level staff conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment. The PAQ further indicated that the unannounced rounds are documented, they cover all shifts and the facility prohibits staff from alerting other staff of the conduct of such rounds. 103 DOC 512, page 8 indicates that supervisory level employees shall conduct and document unannounced rounds on every shift to identify and deter staff sexual abuse and sexual harassment.

| | |
|--|--|
| | <p>Additionally, page 4 states that alerting staff members of unannounced supervisory rounds is prohibited unless the announcement is related to the operational functions of the facility. Page 8 of Post Order 1 states that the Shift Commander is required to conduct at least one round of all areas of the facility to ensure that all rules, regulations, department and institutional policies are adhered to. Interviews with intermediate-level or higher-level facility staff confirmed they make unannounced rounds and they are documented in the visitor log (through IMS). Both staff stated they ensure staff don't notify one another they are making rounds by not having a pattern with time and locations. A review of documentation for six randomly selected weeks confirmed that unannounced rounds were conducted by intermediate or higher level supervisors in each housing unit across all shifts.</p> <p>Based on a review of the PAQ, 103 DOC 510, 103 DOC 512, Post Order 1, the staffing plan, the staffing plan development narrative, annual staffing reviews, daily staffing rosters, documentation of unannounced rounds, directive from the PC, observations made during the tour and interviews with the Warden, PC, PCM and intermediate-level or higher-level facility staff, this standard appears to be complaint.</p> <p>Recommendation</p> <p>The auditor highly recommends the facility install a camera and/or a mirror in the laundry/fitness area of Graton housing unit. Further the auditor highly recommends cameras be installed in maintenance and food service dry storage.</p> |

Interviews:

1. Interviews with Random Staff
2. Interviews with Random Incarcerated Individuals

Site Review Observations:

1. Observations of Privacy Barriers
2. Opposite Gender Announcement

Findings (By Provision):

115.15 (a): The PAQ indicated that the facility does not conduct cross gender strip and cross gender visual body cavity searches of incarcerated individuals and that there have been zero searches of this kind in the previous twelve months. 103 DOC 506, page 7 states that except for gender non-conforming incarcerated individuals, cross gender unclothed searches or cross gender visual body cavity searches shall not be conducted, except in exigent circumstances or when performed by medical practitioners. Should such a situation arise, permission from the Superintendent must be obtained prior to the search. The search must be documented in writing through a confidential incident report.

115.15 (b): The PAQ indicated that the facility does not house female incarcerated individuals and therefore this provision of the standard does not apply. The PAQ noted that there were zero pat down searches of females performed by male staff. 103 DOC 506, page 13 states that fully clothes searches (pat search) should be employed for the relatively quick scrutiny of an incarcerated individual's person. Searches are to be conducted professionally and respectfully, and in the least intrusive manner possible, consistent with security needs. Cross gender pat searches of female incarcerated individuals shall not be permitted absent exigent circumstances. There were zero cisgender females and zero transgender females and a such no interviews were conducted as this provision was not applicable.

115.15 (c): The PAQ indicated that facility policy requires all cross gender strip searches and all cross gender visual body cavity searches be documented. Additionally, the PAQ indicated that the facility does not house female incarcerated individuals and as such any documentation of cross gender pat down searches of female incarcerated individuals would not apply. 103 DOC 506, page 7 states that except for gender non-conforming incarcerated individuals, cross gender unclothed searches or cross gender visual body cavity searches shall not be conducted, except in exigent circumstances or when performed by medical practitioners. Should such a situation arise, permission from the Superintendent must be obtained prior to the search. The search must be documented in writing through a confidential incident report.

115.15 (d): The PAQ indicates that the facility has implemented policies and procedures that enable incarcerated individuals to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. 103 DOC 519, page 18 states that Superintendents shall implement procedures which enable incarcerated individuals to shower, perform bodily functions, and change clothing, without non-medical staff of the opposite gender viewing their breasts, buttocks or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Additionally, it states that pursuant to 103 DOC 512, Superintendents shall require staff of the opposite gender to verbally announce, or have verbally announced for them, their presence when entering an incarcerated individual housing unit whenever such entry changes the status quo of the gender of staff on duty in that area. 103 DOC 512, page 8 states that a verbal announcement shall be made at the commencement of a shift for any staff working in a unit of the opposite sex. This announcement shall be documented in the unit activity log. It also states that whenever entering a housing unit of the opposite sex, staff shall announce their presence. This shall be logged in the Institutional Management System (IMS) in the unit visitor log. With regard to cross gender viewing, the auditor confirmed that housing units provide privacy through cell doors with security windows and/or shower curtains. The auditor did not observe any cross gender viewing issues related to the physical plant. The auditor observed the strip search areas and confirmed no cross gender viewing issues. A review of the video monitoring technology identified one cross gender viewing issue in one intake holding cell. One of the two cells was equipped with a camera and the facility utilizes the holding cells for strip searches. Immediately following the on-site portion of the audit, the Warden sent out direction to staff to cease utilizing the holding cell with the camera for strip searches. Staff were instructed to only utilize the second holding cell, which does not have a camera. During the tour the auditor heard the opposite gender announcement each time the audit team entered the incarcerated individual housing units. The announcement was made verbally and was also voiced over the intercom system. The announcement was at an adequate audible level. Interviews with thirteen random staff confirmed that incarcerated individuals have privacy from opposite gender staff when showering, using the restroom and changing their clothes.

Additionally, all thirteen stated that staff of the opposite gender announce when entering housing units. Interviews with 20 incarcerated individuals indicated all 20 have privacy when showering, using the restroom and changing their clothes. Additionally, nineteen of the 20 incarcerated individuals stated that opposite gender staff announce when entering housing units.

115.15 (e): The PAQ indicated that the facility has a policy prohibiting staff from searching or physically examining a transgender or intersex incarcerated individual for the sole purpose of determining the incarcerated individual's genital status and that no searches of this nature have occurred within the previous twelve months. 103 DOC 512 page 7, states that searches or physically examining a gender non-conforming incarcerated individual for the sole purpose of determining the incarcerated individual's genital status shall not be permitted. If the incarcerated individual's genital status is unknown, it may be determined during conversation with the incarcerated individual, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by the contracted medical provider. Interviews with thirteen staff indicated all thirteen were aware of a policy prohibiting searching a transgender or intersex incarcerated individual for the sole purpose of determining the incarcerated individual's genital status. There were zero transgender or intersex incarcerated individuals at the facility during the on-site portion of the audit and as such no interviews were conducted.

115.15 (f): 103 DOC 506, page 13 states that fully clothes searches (pat search) should be employed for the relatively quick scrutiny of an incarcerated individual's person. Searches are to be conducted professionally and respectfully, and in the least intrusive manner possible, consistent with security needs. Page 13 also describes the recommended fully clothed search technique. 103 DOC 653, page 6 states that upon request by the incarcerated individual, an unclothed search will be conducted by an officer of the gender which the incarcerated individual identifies, except in exigent circumstances. The PAQ indicated that 100% of staff had received training on conducting cross gender pat down searches and searches of transgender and intersex incarcerated individuals. A review of the fully clothed and unclothed training curriculums confirmed that staff are trained to be professional and composed. Additionally, the training indicates that gender, sex and search preference will be found on the incarcerated individual's identification card and that the search should be conducted professionally and respectfully in the least intrusive manner possible. The training encompasses step by step instruction on how to conduct a professional search. Additionally, as of 2025, the facility has incorporated the PREA Resource Center's Guidance on Cross Gender Searches and Searches of Transgender Incarcerated Individuals video into their annual PREA training curriculum. Interviews with thirteen staff indicated twelve had received training on cross gender searches and searches of transgender incarcerated individuals. Staff noted that males do not search female incarcerated individuals and transgender and intersex incarcerated individuals are searched based on their preference. A review staff training records

| | |
|--|--|
| | <p>indicated that all had received the fully clothed and unclothed training during the academy. It should be noted that most of the staff had this training prior to 2013, however because male staff do not search female incarcerated individuals and transgender incarcerated individuals are searched based on preference, the auditor determined this was adequate. Additionally, many of the staff completed the 2025 PREA training, which now includes the Guidance on Cross Gender Searches and Searches of Transgender Incarcerated Individuals video.</p> <p>Based on a review of the PAQ, 103 DOC 506, 103 DOC 519, the clothed and unclothed search training curriculums, the PRC training video, staff training records, observations made during the tour as well as information from interviews with random staff and random incarcerated individuals, this standard appears to be compliant.</p> |

Interviews:

1. Interview with the Agency Head Designee
2. Interviews with LEP and Disabled Incarcerated Individuals
3. Interviews with Random Staff

Site Review Observations:

1. Observations of PREA Posters

Findings (By Provision):

115.16 (a): The PAQ stated that the agency has established procedures to provide disabled incarcerated individuals an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect and respond to sexual abuse and sexual harassment. 103 DOC 408, page 3 states that it is the Department's policy not to discriminate against any person protected by the Americans with Disabilities Act (ADA). The Department shall ensure that its programs, activities and services when viewed in their entirety, are readily accessible to, and usable by incarcerated individuals with a disability. Additionally, it states that the Department shall provide incarcerated individuals access to trained, qualified individual(s) who are educated in the problems and challenges faced by incarcerated individuals with physical and/or mental impairments. These individuals shall be knowledgeable in programs designed to educate and assist incarcerated individuals with a disability, as well as in all the legal requirements for the protection of incarcerated individuals with disabilities. The MCDHH Interpreter/CART Referral Service document outlines that the organization is the central point of contact to obtain services of interpreters for deaf and hard of hearing constituents. It outlines how agencies can request services for deaf and hard of hearing incarcerated individuals. A review of the Manual and PREA Posters confirmed that they can be provided in larger print, if necessary. Additionally, staff (including mental health care staff) are available to read the information to any incarcerated individuals with cognitive disabilities, vision impairment and limited reading skills. Pages 44-47 outline information related telecommunications aids and services for effective communication as well as other information related to the Americans with Disabilities Act. The MADOC Orientation Video is available in English with Spanish subtitles. The auditor observed PREA information posted throughout the facility, including in common areas and housing units. Each housing unit had PREA Posters as well as the

PREA hotline, IPS hotline and BARCC number painted near the phones. Further, each housing unit had a phone number sheet that included phone numbers for various organizations, including BARCC, the PREA hotline and the IPS hotline. The PREA Posters were observed in English and Spanish on legal size paper. The painted numbers were adequate size font and were on walls near the phones. The phone number sheet was on letter size paper and was posted near the phones. Additionally, the hotline numbers (IPS, PREA and BARCC) were observed on the back of each incarcerated individual's ID card. The auditor did not require use of accommodations for any incarcerated individual interviews, however the accommodations were previously tested/utilized at prior MADOC facilities. All resources for LEP and disabled incarcerated individuals is consistent across all agency facilities. The auditor also utilized an American Sign Language (ASL) interpreter for a deaf incarcerated individual. The ASL translator was scheduled for in person translation a day in advance of the interview. The staff arrived at the facility to provide services. The interview with the Agency Head Designee confirmed that the agency takes appropriate steps to ensure incarcerated individuals with disabilities and incarcerated individual who are limited English proficient have equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. He stated they utilize the language line service for LEP issues and for hearing impaired individuals they have Captel phones. He further stated that they ensure posters and education are accessible to LEP and disabled incarcerated individuals (i.e. height, font and language). Additionally, the Agency Head Designee stated they can have staff read information to those who are blind or illiterate. Interviews with six disabled incarcerated individuals indicated all six were provided PREA information in a format that they could understand.

115.16 (b): The PAQ stated that the agency has established procedures to provide incarcerated individuals with limited English proficiency equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect and respond to sexual abuse and sexual harassment. 103 DOC 401, page 13 indicates that each Superintendent/designee shall ensure that new incarcerated individuals (to include incarcerated individuals admitted directly to a Restrictive Housing Unit) receive written orientation materials in English and Spanish. When necessary, other non-English speaking incarcerated individuals shall receive translation into their own language via the telephone interpreter service. When a literacy problem exists, a staff member may assist the incarcerated individual in understanding the problem. Page 10 also states that all facilities' orientation manuals will include information on telephonic interpreter service information. 103 DOC 488, page 4 states that telephonic interpreter services may be used to translate for incarcerated individuals in the following areas: Internal Perimeter Security (IPS), Booking and Admissions, Health Services Unit (HSU), Classification Boards, Incarcerated individual Grievances and Disciplinary Hearings. If an incarcerated individual requests an interpreter or correctional or medical staff believe the use of an interpreter is necessary, then the telephonic interpreter service shall be utilized. This policy does not prevent IPS or Department investigators from utilizing bilingual staff to interview incarcerated

individuals if the situation does not lend itself to the use of the telephonic interpreter service during the course of an investigations. Pages 12-13 of the Manual informs incarcerated individuals that the Department of Corrections has a contracted service provider to provide over-the-phone interpretation, 24 hours a day, seven days a week. This service can provide translation of 140 different languages to any non-English speaking incarcerated individual. This service can only be used with a speaker telephone in the following areas whenever an incarcerated individual declares that he does not speak and/or understand English; Internal Perimeter Security, Booking and Admissions, Health Services Unit, Classification Boards and Disciplinary Hearings. The Foreign Language Interpretation and Translation Services document notes that it is a statewide contract for in-person interpretation, translation, telephonic interpretation and video remote interpretation services. The document includes a User Guide that outlines 30 organizations that can be contacted to provide services. The facility has a list of eleven staff that can translate in Spanish and American Sign Language. A review of the Lionsbridge User's Guide confirms that the facility is able to call the hotline, enter their pin number and select a language for interpretive services. A review of the Manual and PREA Posters confirmed they were available in English and Spanish. The MADOC Orientation Video is available in English with Spanish subtitles. The auditor observed PREA information posted throughout the facility, including in common areas and housing units. Each housing unit had PREA Posters as well as the PREA hotline, IPS hotline and BARCC number painted near the phones. Further, each housing unit had a phone number sheet that included phone numbers for various organizations, including BARCC, the PREA hotline and the IPS hotline. The PREA Posters were observed in English and Spanish on legal size paper. The painted numbers were adequate size font and were on walls near the phones. The phone number sheet was on letter size paper and was posted near the phones. Additionally, the hotline numbers (IPS, PREA and BARCC) were observed on the back of each incarcerated individual's ID card. The auditor did not require use of accommodations for any incarcerated individual interviews, however the accommodations were previously tested/utilized at prior MADOC facilities. All resources for LEP and disabled incarcerated individuals is consistent across all agency facilities. During prior incarcerated individual interviews the auditor tested the accessibility of the language interpretation service (Lionsbridge). Staff provided the auditor a phone number to dial and the agency's pin number for services. The auditor was able to choose the appropriate language of interpretation and was connected to a live person. The auditor then utilized the Lionsbridge translator for LEP incarcerated individual interviews. It should be noted that interpretation services via Lionsbridge are only accessible to incarcerated individuals through a staff member. There were zero LEP incarcerated individuals at the facility during the on-site portion of the audit and as such no interviews were conducted.

115.16 (c): The PAQ stated that agency policy prohibits the use of incarcerated individual interpreters, incarcerated individual readers, or other types of incarcerated individual assistants except in limited circumstances. The PAQ further indicated the facility documents the limited circumstances in individual cases where incarcerated

| | |
|--|---|
| | <p>individual interpreters, readers or other assistants are used 103 DOC 488, page 4 state that incarcerated individuals shall not be used as interpreters for other incarcerated individuals in IPS, Booking and Admissions, HSU, Classification Boards, Incarcerated individual Grievances and Disciplinary Hearings. The PAQ expressed that there were zero instances where an incarcerated individual was utilized to interpret, read or provide other types of assistance. Interviews with thirteen random staff indicated ten were aware of a policy prohibiting the use of incarcerated individual interpreters, readers and assistants for sexual abuse allegations. Interviews with six disabled incarcerated individuals indicated none had an incarcerated individual translate, interpret, read or provide assistance for PREA.</p> <p>Based on a review of the PAQ, 103 DOC 401, 103 DOC 408, 103 DOC 488, the Protection Yourself from Sexual Assault Brochure, the Orientation Manual, MADOC Orientation Video, PREA Posters, Foreign Language Interpretation and Translation Services Information, Massachusetts Commission for the Deaf and Hard of Hearing (MCDHH) Interpreter/CART Referral Service Information, the Lionsbridge Users Guide, the staff training documents, the staff translator list, observations made during the tour as well as interviews with the Agency Head Designee, random staff and disabled incarcerated individuals, this standard appears to be compliant.</p> |

Interviews:

1. Interview with Human Resource Staff

Findings (By Provision):

115.17 (a): The PAQ indicated that agency policy prohibits hiring or promoting anyone who may have contact with incarcerated individuals and prohibits enlisting the services of any contractor who may have contact with incarcerated individuals who: has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution; has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or when the victim did not consent or was unable to consent or refuse; or has been civilly or administratively adjudicated to have engaged in the activity described above. 103 DOC 201, page 21 states that all candidates for employment, regardless of whether for initial employment or promotion, who may have contact with incarcerated individuals, shall be asked, in either written application(s) or interview(s), about whether he/she has: engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility or other institution; been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt threat or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or been civilly or administratively adjudicated to have engaged in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse. Policy further states that if a candidate for employment answers yes to 201.06 Section 9, subsection a), b), or c) (questions above) they will be prohibited from being hired or promoted by the MA Department of Corrections. Page 2 of the MA Department of Corrections Application for Employment indicates that an applicant for employment who meets the minimum entrance requirements, the Commonwealth may review later in the application process, if applicable: Criminal Offender Record Information (C.O.R.I); and Sex Offender Registry Information (S.O.R.I); and the Central Registry of Child Abuse/ Neglect reports. If an offer of employment is made, the Commonwealth agency may declare that the offer is contingent upon the successful results of a medical exam, references, education, certification, professional licensure, driver's license (if required for job) and/or a tax and background check. A review of Attachment X (PREA Inquiries) indicates that applicants are asked to complete the form which includes the following questions; "Have you ever engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution?", "Have you ever been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or when the victim did not consent or was unable to consent or refuse?", "Have you even been civilly or administratively adjudicated to have engaged in the activity described

above?”, “Have you ever engaged in or been accused of engaging in sexual harassment in any prior employment?” and “Have you resigned from or quit any job following allegations that you engaged in any form of sexual misconduct?”. There were zero staff hired during the previous twelve months. A review of documents for two contractors hired during the previous twelve months confirmed both had a criminal background records check completed prior to enlisting their services.

115.17 (b): The PAQ indicated that agency policy requires the consideration of any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor who may have contact with incarcerated individuals. 103 DOC 201, page 52, Attachment X (PREA Inquiries) indicates that applicants are asked to complete the form which includes the question “Have you ever engaged in or been accused of engaging in sexual harassment in any prior employment?”. Additionally, Attachment Y, page 113 includes the memorandum sent from the Executive Director of Human Resources on April 1, 2021 which states that the agency shall consider any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with incarcerated individuals. The Human Resource staff member confirmed that sexual harassment is considered when hiring or promoting staff or enlisting services of any contractors.

115.17 (c): The PAQ stated that agency policy requires that before it hires any new employees who may have contact with incarcerated individuals, it conducts criminal background record checks and makes its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignations during a pending investigation. 103 DOC 201, pages 22-23 indicate that a criminal record check is conducted on all new employees prior to their assuming their duties in order to identify whether there are criminal convictions that may have a specific relationship to job performance in accordance with state and federal statutes. The background investigation shall include, but not be limited to, the following: a criminal records check including local police departments, Massachusetts Board of Probation, National Crime Information Center (NCIC), Nation Law Enforcement Telecommunications System (NLETS), Registry of Motor Vehicles, FBI fingerprints and Warrant Management Systems (WMS); past employment check, including the investigator’s best efforts in contacting prior institutional employers for information on substantiated allegations of sexual abuse or any resignations during a pending investigation of an alleged sexual abuse and character reference check. The PAQ indicated that two people were hired in the previous twelve months who had a criminal background records check completed. The interview with the Human Resource staff member confirmed that a criminal background records check is completed for all applicants and the agency attempts to contact all prior institutional employers about any substantiated allegations of sexual abuse or resignations during investigation. He advised they utilized the Criminal Justice Information System (CJIS), which checks national, state and local jurisdictions related to criminal history. He

stated they also check their inhouse databases. There were zero staff hired during the previous twelve months. The auditor reviewed documentation at other MADOC facilities and confirmed the criminal background records check and prior institutional check process is adequate.

115.17 (d): The PAQ stated that agency policy requires that a criminal background record check be completed before enlisting the services of any contractor who may have contact with incarcerated individuals. 103 DOC 201, page 23 indicates that a full criminal record check and fingerprinting shall be conducted regarding all contractors as described in 103 DOC 201.09(1). The PAQ indicated that there have been four contracts for services where criminal background record checks were conducted on all staff covered under the contract. The Human Resource staff member confirmed that all contractors have a criminal background records check completed prior to enlisting their services. The same system utilized for staff (CJIS), is utilized for contractor criminal background records checks. A review of documents for two contractors hired during the previous twelve months confirmed both had a criminal background records check completed prior to enlisting their services.

115.17 (e): The PAQ indicated that agency policy requires either criminal background checks to be conducted at least every five years for current employees and contractors who may have contact with incarcerated individuals or that a system is in place for otherwise capturing such information for current employees. Attachment Y, page 114 states that the agency shall either conduct criminal background record checks at least every five years for current employees and contractors who may have contact with incarcerated individuals or have in place a system for otherwise capturing such information for current employees. The interview with the Human Resource staff member indicated that a criminal background records check is completed every five years for staff and contractors. He advised that they keep a list of when the last criminal background records check was completed and they submit a batch run in CJIS for up to 500 people. A review of three staff hired more than five year ago indicated that all three had a criminal background records check completed at least every five years. A review of documentation for two contractors employed over five years noted one of the two had a background check completed once every five years. The one that was not completed every five years did have an update criminal background records check completed in 2024. The five year criminal background record check issue was previously identified in the prior audit cycle year with the agency and the agency took corrective action and conducted "batch runs" of all staff and contractors at facilities.

115.17 (f): 103 DOC 201, page 21 state that all candidates for employment, regardless of whether for initial employment or promotion, who may have contact with incarcerated individuals, shall be asked, in either written application(s) or interview(s), about whether he/she has: engaged in sexual abuse in a prison, jail,

lockup, community confinement facility, juvenile facility or other institution; been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt threat or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or been civilly or administratively adjudicated to have engaged in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse. Page 2 of the MA Department of Corrections Application for Employment indicates that an applicant for employment who meets the minimum entrance requirements, the Commonwealth may review later in the application process, if applicable: Criminal Offender Record Information (C.O.R.I); and Sex Offender Registry Information (S.O.R.I); and the Central Registry of Child Abuse/Neglect reports. If an offer of employment is made, the Commonwealth agency may declare that the offer is contingent upon the successful results of a medical exam, references, education, certification, professional licensure, driver's license (if required for job) and/or a tax and background check. A review of Attachment X (PREA Inquiries) indicates that applicants are asked to complete the form which includes the following questions; "Have you ever engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution?", "Have you ever been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or when the victim did not consent or was unable to consent or refuse?", "Have you even been civilly or administratively adjudicated to have engaged in the activity described above?", "Have you ever engaged in or been accused of engaging in sexual harassment in any prior employment?" and "Have you resigned from or quit any job following allegations that you engaged in any form of sexual misconduct?". The interview with the Human Resource staff confirmed that the questions under this provision are part of the application. He further stated that the agency imposes a continuing duty to disclose any such misconduct. There were zero staff hired during the previous twelve months. A review of two staff promoted during the previous twelve months confirmed both completed the Attachment X prior to promotion.

115.17 (g): The PAQ indicated that agency policy states that material omissions regarding such misconduct or the provision of materially false information, shall be grounds for termination. 103 DOC 201, page 21 states that material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination. Page 3 of the Rules and Regulations Governing all Employees of the Massachusetts Department of Corrections states that staff are required to report promptly in writing to the Superintendent, DOC Department Head, or their designee, any changes of events regarding residential address, home telephone number, marital status, and any involvement with law-enforcement officials pertaining to any investigation, arrest or court appearance.

115.17 (h): The Human Resource staff member confirmed the agency would provide information related to any substantiated incidents of sexual abuse or sexual

facility and in planning any substantial expansion or modification of existing facilities, the agency shall consider the effect of the design or modification upon the agency's ability to protect incarcerated individuals from sexual abuse. 103 DOC 519, page 13 states that at least annually, each Superintendent or designee shall conduct a PREA Safety Assessment of his/her/their institution in accordance with Attachment IV. Considerations shall be given to past PREA events, staffing plants, recent changes to the institution environment and the unique mission and population assigned to the institution. Consideration shall be given to identifying operational practices which are in need of improvement. During the tour the auditor viewed the new booking area that was under construction and would be utilized in the coming year. The area was part of the physical plant of a current building. The booking area was open, with adequate sight lines and was slated to have numerous cameras in appropriately identified areas (to supplement staffing and cover blind spots and/or high traffic areas). The booking area also had additional staff identified to provide supervision and monitoring. The auditor confirmed that the area appeared to have been constructed with PREA standards in mind. The interview with the Agency Head Designee indicated there is a meeting related to any upgrades to facilities and video monitoring technology. He advised there is a form that is completed, in consultation with the PC, related to any effects the upgrades/modifications may have on the ability to protect incarcerated individuals from sexual abuse. The interview with the Warden indicated they are making a modification to the facility in the booking area. He advised they reviewed the staffing and video monitoring technology of the area and considered the ability to protect incarcerated individual from sexual abuse. A review of the 2024 PREA Safety Assessment notes that it outlines a removal of a wall. The booking area was still under construction and as such was not included in the 2024 PREA Safety Assessment.

115.18 (b): The PAQ indicated that the agency/facility has not installed or updated a video monitoring system, electronic surveillance system or other monitoring technology since the last PREA audit. 103 DOC 703, page 9 states that when installing or updating a video monitoring system, electronic surveillance system, or other monitoring technology, the agency shall consider how such technology may enhance the agency's ability to protect incarcerated individuals from sexual abuse. 103 DOC 519, page 13 states that at least annually, each Superintendent or designee shall conduct a PREA Safety Assessment of his/her/their institution in accordance with Attachment IV. Considerations shall be given to past PREA events, staffing plants, recent changes to the institution environment and the unique mission and population assigned to the institution. Consideration shall be given to identifying operational practices which are in need of improvement. During the tour the auditor observed cameras in housings units and common areas. The auditor verified that the cameras assisted with supervision through coverage of blind spots and high traffic areas. Cameras do not replace staff, but supplement staffing. All cameras are actively monitored by control. Cameras can also be viewed by Inner Perimeter Security (IPS) and management level staff. The interview with the Agency Head Designee indicated that the agency uses video monitoring technology in vulnerable areas and to alleviate

| | <p>blind spots. He stated they try to cover areas to ensure visibility. The Agency Head Designee also stated that there is an annual safety inspection that is conducted at each facility that includes a review of video monitoring technology and any recommendations for any additional cameras. The interview with the Warden confirmed that when they update or install video monitoring technology they consider how the technology will enhance their ability to protect incarcerated individuals from sexual abuse. He stated they are always looking to identify any blind spots and that they do a camera assessment each year as well as after any investigation is completed. A review of the PREA Safety Assessment confirmed that it outlined the facility cameras and identified areas that would benefit from additional video monitoring technology.</p> <p>Based on a review of the PAQ, 103 DOC 703, PREA Annual Safety Assessment, observations from the tour and information from interviews with the Agency Head Designee and Warden, this standard appears to be compliant.</p> |

Investigative Reports <p>Interviews:</p> <ol style="list-style-type: none"> 1. Interviews with Random Staff 2. Interview with SAFE/SANE 3. Interview with the PREA Compliance Manager |

Findings (By Provision):

115.21 (a): The PAQ indicated that the agency/facility is responsible for conducting both administrative and criminal investigations and that the Massachusetts State Police (MSP) also conduct criminal investigations. Additionally, the PAQ stated that when conducting sexual abuse investigations, the agency investigators follow a uniform evidence protocol which is the institutional response plan and includes elements in the PREA response bag. 103 DOC 519, page 18 states that the Department shall ensure that an administrative or criminal investigation is completed for all allegations of sexual harassment/abuse utilizing those staff member who have received specialized training as it relates to a PREA investigation. Pages 14, 15 and 17 further explain the uniform evidence protocol including that each institution shall maintain an Emergency Response Plan and sexual assault response kits containing the necessary items to facilities their response to sexual assault allegations. It describes staff first responder duties including separating the incarcerated individuals, securing the scene, asking the victim not to take any action to destroy any evidence and escorting the incarcerated individual to medical. Policy further states that evidence collection shall be conducted by a trained Sexual Assault Investigator prior to the incarcerated individual's transport to an outside hospital. Evidence collected at the outside hospital involving incarcerated individual-on-incarcerated individual allegations shall be retained by the transporting officer while evidence collected involving a staff member shall require the outside hospital to notify the MSP who shall transport any evidence collected to the MSP Crime Lab for analysis. A review of the Response to Sexual Assault Incidents confirmed that it has enough detail to ensure staff take appropriate action to preserve and collect usable physical evidence. Actions include; controlling the area to prevent unauthorized personnel from entering; ensure the area and its belongings are not disturbed; log time and name of any staff entering the crime scene; recovering evidence from the incarcerated individual; bagging evidence appropriately; placement in dry cell; transportation for SAFE/SANE and appropriate medical care. Interviews with thirteen random staff indicated all thirteen knew and understand the protocol for obtaining useable physical evidence. Additionally, staff indicated that investigations would be completed by IPS.

115.21 (b): The PAQ indicated this provision was not applicable, however further communication with the PCM indicated that the protocol is developmentally appropriate for youth as they do not house youthful incarcerated individuals. The PAQ stated that the protocol was adapted from or otherwise based on the most recent edition of the DOJ's Office of Violence Against Women publication, "A National Protocol for Sexual Assault Medical Forensic Examinations, Adult/Adolescents" or similarly comprehensive and authoritative protocols developed after 2011. 103 DOC 519, pages 14, 15 and 17 explain the uniform evidence protocol including that each

institution shall maintain an Emergency Response Plan and sexual assault response kits containing the necessary items to facilities their response to sexual assault allegations. It describes staff first responder duties including separating the incarcerated individuals, securing the scene, asking the victim not to take any action to destroy any evidence and escorting the incarcerated individual to medical. Policy further states that evidence collection shall be conducted by a trained Sexual Assault Investigator prior to the incarcerated individual's transport to an outside hospital. Evidence collected at the outside hospital involving incarcerated individual-on-incarcerated individual allegations shall be retained by the transporting officer while evidence collected involving a staff member shall require the outside hospital to notify the MSP who shall transport any evidence collected to the MSP Crime Lab for analysis. A review of the Response to Sexual Assault Incidents confirmed that it has enough detail to ensure staff take appropriate action to preserve and collect usable physical evidence. Actions include; controlling the area to prevent unauthorized personnel from entering; ensure the area and its belongings are not disturbed; log time and name of any staff entering the crime scene; recovering evidence from the incarcerated individual; bagging evidence appropriately; placement in dry cell; transportation for SAFE/SANE and appropriate medical care.

115.21 (c): The PAQ indicated that the facility offers incarcerated individuals who experience sexual abuse access to forensic medical examination at an outside hospital (approved SANE sites). It stated that forensic exams are offered without financial cost to the victim. The PAQ indicated that examinations are conducted by SAFE or SANE and that when SAFE/SANE are not available, a qualified medical practitioner performs forensic medical examinations. 103 DOC 519, page 15 states that upon completion of the medical and mental health evaluation, the Superintendent/designee, in consultation with medical and mental health personnel, shall determine whether a referral to an outside hospital with a rape crisis unit and SANE Program services is warranted. If the determination is made the incarcerated individual victim should be sent to an outside hospital, and if the incarcerated individual victim consents, the incarcerated individual victim shall be transported to an outside hospital with a SANE Program where he/she shall receive essential medical intervention, including preventative treatment for HIV, sexually transmitted disease, and pregnancy, if appropriate. Page 17 further states rape crisis services shall be provided at no cost to the alleged victim unless the claim of being sexually assaulted was knowingly false. The designated hospitals attachment confirms that Beth Israel Deaconess Center is a designated SANE hospital. The PAQ stated that there were zero forensic exams conducted in the previous twelve months. A review of documentation confirmed there were zero forensic examination conducted during the previous twelve months and during the three year audit cycle period. The interview with the staff member at Beth Israel confirmed that they provide forensic medical examinations at the hospital and they would provide these services to any incarcerated individual transported to the hospital. The staff confirmed that examinations are always provided by SANE.

115.21 (d): The PAQ indicated that the facility attempts to make a victim advocate from a rape crisis center available to the victim, either in person or by other means and these efforts are documented. The PAQ further states that the facility provides a qualified staff member from a community based organization or a qualified agency staff member when a rape crisis center is not available to provide advocacy services. The agency utilizes BARCC to provide advocacy for all incarcerated individual victims of sexual abuse. The most recent agreement with BARCC was executed in 2024. The agreement states that that BARCC will provide 24-hour medical accompaniment for incarcerated individuals transported to Beth Israel Deaconess Medical Center (BIDMC) emergency department for a forensic examination. BARCC will provide an advocate to meet a survivor and their transport team at BIDMC. The agreement further states that BARCC will provide advocates for incarcerated survivors going through an interview as a part of a PREA investigation. BARCC will provide an advocate to meet with an incarcerated survivor who has made a PREA report, and has requested an advocate be present for their investigational interview under the PREA standard 28 CFR 115.21(e). The PCM stated that if requested by the victim, a victim advocate accompanies the incarcerated individual during the forensic medical examination and investigatory interviews. She stated they ask the incarcerated individual if they would like a victim advocate and if they want the services they provide victim advocates through BARCC. She advised Beth Israel provides advocates directly at the hospital. There were zero incarcerated individuals who reported sexual abuse at the facility during the on-site portion of the audit and as such no interviews were conducted. A review of documentation noted there were zero sexual abuse allegations reported during the previous twelve months and during the three year audit cycle period.

115.21 (e): The PAQ indicated that as requested by the victim, a victim advocate, qualified agency staff member, or qualified community-based organization staff member accompanies and supports the victim through the forensic medical examination process and investigatory interviews and provides emotional support, crisis intervention, information and referrals. 103 DOC 519, page 17 states that community based victim advocacy services are offered to the incarcerated individual as part of the SANE examination at the outside hospital/rape crisis center. Any contracted advocate or community-based advocate assigned shall be coordinated by the Director of Victim Services Unit. The advocate assigned shall accompany and support the victim through the forensic medical examination process and investigatory interview, informational meetings, and referrals. 103 DOC 407, page 13 states that it is the responsibility of the PREA Manager to notify the Director of the Victim Services Unit (VSU) when services of the incarcerated individual advocate are necessary. VSU services include, but are not limited to: meeting with the incarcerated individual victim; providing information to the incarcerated individual on his/her rights; providing information to the incarcerated individual on the status of the case; maintaining communication with the incarcerated individual during the investigation; and coordinating with the District Attorney if referral is made. The agency utilizes BARCC to provide advocacy for all incarcerated individual victims of sexual abuse. The most recent agreement with BARCC was executed in 2024. The agreement states

BARCC will provide an advocate to meet with an incarcerated survivor who has made a PREA report, and has requested an advocate be present for their investigational interview under the PREA standard 28 CFR 115.21(e). The interview with the PCM stated that the agency has an agreement with BARCC, a certified rape crisis center to provide services. There were zero incarcerated individuals who reported sexual abuse at the facility during the on-site portion of the audit and as such no interviews were conducted. A review of documentation noted there were zero sexual abuse allegations reported during the previous twelve months and during the three year audit cycle period.</p> <p>115.21 (f): The PAQ stated if the agency is not responsible for investigating administrative or criminal allegations of sexual abuse and relies on another agency to conduct these investigations, the agency has requested that the responsible agency follow the requirements under this standard. The agency/facility is responsible for conducting both administrative and criminal investigations and the Massachusetts State Police is also authorized to conduct criminal investigations. The agency has an MOU with the MSP that requires they comply with PREA standards.</p> <p>115.21 (g): The auditor is not required to audit this provision.</p> <p>115.21 (h): The facility has a contract with BARCC to provide all advocacy services. 3. Memorandum of Understanding (MOU) with the Massachusetts State Police (MSP)
4. Investigative Log
5. Investigative Reports

Interviews:

1. Interview with the Agency Head Designee
2. Interview with Investigative Staff

Findings (By Provision):

115.22 (a): The PAQ indicated that the agency ensures that an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment. 103 DOC 519, page 18 states that the Department shall ensure that an administrative or criminal investigation is completed for all allegations of sexual harassment/abuse utilizing those staff member who have received specialized training as it relates to a PREA investigation. Page 19 states that the Department shall ensure that all available means are used to fully investigate allegations of sexual abuse and/or sexual harassment. Within 72 hours of the reported incident, the site's Superintendent will review and assess all reported allegations of sexual harassment/sexually abusive behavior and determine the appropriate course of action. The interview with the Agency Head Designee confirmed that the agency ensures a criminal or administrative investigation is completed for all allegations of sexual abuse and sexual harassment. He advised the investigative process is initiated by a confidential incident report to the Superintendent. The Superintendent will then assign an investigator, who will interview the alleged victim to determine if the allegation meets the definition of sexual abuse or sexual harassment. If the allegation meets the definition, it will be entered into the PREA database and a full investigation will ensue. The PAQ indicated that there were zero allegations of sexual abuse and/or sexual harassment reported within the previous twelve months. A review of documentation confirmed there were zero allegations reported during the previous twelve months. There was one sexual harassment allegation reported during the three year audit cycle period (January 2024). The allegation was forwarded for investigation and an administrative investigation was completed.

115.22 (b): The PAQ indicated that the agency has a policy that requires that all allegations of sexual abuse or sexual harassment be referred for investigations to an agency with the legal authority to conduct criminal investigations and that such policy is published on the agency website or made publicly available via other means. The PCM also indicated that the agency documents all referrals of allegations of sexual abuse or sexual harassment for criminal investigation. 103 DOC 519, page 7 states that the Superintendent shall ensure that the Duty Station is notified of all allegations of sexual harassment/sexually abusive behavior. If the allegations involves a possible violation of law, the Chief of the Office of Investigative Services (OIS)/Internal Affairs Unit (IAU), shall be promptly notified and shall then notify the jurisdictionally appropriate District Attorney's Office once it is determined that sufficient probable cause exists to warrant such notification. Page 19 states that the Department shall ensure that all available means are used to fully investigate allegations of sexual abuse and/or sexual harassment. Within 72 hours of the reported incident, the site's Superintendent will review and assess all reported allegations of sexual harassment/sexually abusive behavior and determine the appropriate course of action. Investigations of reported allegations of sexual harassment/sexually abusive behavior between incarcerated individuals shall be initiated by the Superintendent utilizing appropriately trained facility investigative staff or upon request to the Chief of the Office of Investigative Services (OIS)/Internal Affairs Unit (IAU), in conjunction with an investigator from OIS. If a staff member is accused of sexual harassment/sexually abusive behavior with an incarcerated individual, the Superintendent shall request a Category II investigation by submitting an Investigative Services Intake Form and shall notify his/her respective Assistant Deputy Commissioner. A review of the agency website (<https://www.mass.gov/lists/departments-of-correction-public-policies>) confirms that 103 DOC 519 is published and available for public review. Interviews with investigators confirmed that agency policy requires that allegations of sexual abuse and sexual harassment be referred to an investigative agency with the legal authority to conduct criminal investigations, unless the activity is clearly not criminal. A review of documentation confirmed there were zero allegations reported during the previous twelve months. There was one sexual harassment allegation reported during the three year audit cycle period (January 2024). The allegation was forwarded for investigation and an administrative investigation was completed by facility investigators.

115.22 (c): 103 DOC 519, page 7 states that the Superintendent shall ensure that the Duty Station is notified of all allegations of sexual harassment/sexually abusive behavior. If the allegation involves a possible violation of the law, the Chief of OIS/IAU shall be promptly notified and shall then notify the jurisdictionally appropriate District Attorney's office once it is determined that sufficient probable cause exists to warrant such notification. A review of the agency website (<https://www.mass.gov/lists/departments-of-correction-public-policies>) confirms that 103 DOC 519 is published and available for public review. Findings (By Provision):

115.31 (a): The PAQ stated that the agency trains all employees who may have contact with incarcerated individuals on the following matters: the agency's zero tolerance policy, how to fulfill their responsibilities under the agency's sexual abuse and sexual harassment policies and procedures, the incarcerated individuals' right to be free from sexual abuse and sexual harassment, the right of the incarcerated individual to be free from retaliation for reporting sexual abuse or sexual harassment, the dynamics of sexual abuse and sexual harassment in a confinement setting, the common reactions of sexual abuse and sexual harassment victims, how to detect and respond to signs of threatened and actual sexual abuse, how to avoid inappropriate relationship with incarcerated individuals, how to communicate effectively and professionally with lesbian, gay, bisexual, transgender and intersex incarcerated individuals and how to comply with relevant laws related to mandatory reporting laws. 103 DOC 216, pages 10 states that all employees shall receive training on PREA. A review of the PREA Basic Lesson Plan confirmed that the following topics are included: the agency's zero tolerance policy (pages 9 and 20), how to fulfill their responsibilities under the agency's sexual abuse and sexual harassment policies and procedures (pages 26-32), the incarcerated individuals' right to be free from sexual abuse and sexual harassment (page 19), the right of the incarcerated individual to be free from retaliation for reporting sexual abuse or sexual harassment (pages 24-25), the dynamics of sexual abuse and sexual harassment in a confinement setting (pages 10-16), the common reactions of sexual abuse and sexual harassment victims (page 13), how to detect and respond to signs of threatened and actual sexual abuse (pages 28-29), how to avoid inappropriate relationship with incarcerated individuals (pages 39-40), how to communicate effectively and professionally with lesbian, gay, bisexual, transgender and intersex incarcerated individuals (pages 42-43) and how to comply with relevant laws related to mandatory reporting laws (page 29). Interviews with thirteen random staff confirmed that all thirteen had received PREA training and the training included the required elements under this provision. A review of thirteen staff training records indicated 100% of those reviewed received PREA training.

115.31 (b): The PAQ indicated that training is tailored to the gender of incarcerated individual at the facility and that employees who are reassigned to facilities with opposite gender incarcerated individuals are given additional training. 103 DOC 216, pages 10-11 state that the employee shall receive additional training if the employee is reassigned from an institution that houses only male incarcerated individuals to an institution that houses only female incarcerated individuals, or vice versa, as well as the training requirement of 103 DOC 652 and 103 DOC 653 regarding the care and treatment of gender non-conforming incarcerated individuals. A review of the PREA Basic Lesson Plan confirmed that the anticipated responses section on page 14 includes information for male and female victims. Additionally, there are numerous

| | <p>lesson plans for how to handle female incarcerated individuals and all staff that are assigned to female facilities complete these trainings. The facility houses male incarcerated individuals and as such no additional training is required.</p> <p>115.31 (c): The PAQ indicated that between training the agency provides employees who may have contact with incarcerated individuals with refresher information about current policies regarding sexual abuse and sexual harassment. The PAQ stated that staff are trained annually. 103 DOC 216, page 11 states that employees with incarcerated individual contact shall receive refresher training every two years to ensure that all employees know the agency's current sexual abuse and sexual harassment policies and procedures. In years in which an employee does not receive refresher training, the agency shall provide refresher information on current sexual abuse and sexual harassment policies. A review of thirteen staff training document confirmed all thirteen staff received PREA training at least every two years.</p> <p>115.31 (d): The PAQ stated that the agency documents that employees who may have contact with incarcerated individuals understand the training they have received through employee signature or electronic verification. 103 DOC 216, page 11 states that appropriate documentation shall be maintained indicating they have received the training. A review of thirteen staff training records indicated staff completed a post training quiz and received a score which indicated their understanding.</p> <p>Based on a review of the PAQ, 103 DOC 216, the PREA Basic Lesson Plan, staff training records as well as interviews with random staff, this standard appears to be compliant.</p> |

Interviews:

1. Interviews with Volunteers and Contractors who have Contact with Incarcerated Individuals

Findings (By Provision):

115.32 (a): The PAQ indicated that all volunteers and contractors who have contact with incarcerated individuals have been trained on their responsibilities under the agency's policies and procedures regarding sexual abuse/sexual harassment prevention, detection and response. 103 DOC 216, page 11 states that volunteers and contractors who have contact with incarcerated individuals shall be trained on their responsibilities under the sexual abuse and sexual harassment prevention, detection and response policies and procedures. The agency has the Volunteer and Contractor Training and Acknowledgment of PREA form which outlines the zero tolerance policy and duty to report (immediately to the Shift Commander). Additionally, certain contractors are required the PREA Basic training that staff complete which includes the zero tolerance policy and methods to report. Further, the Volunteer Orientation Handbook, page 17 includes information on the zero tolerance policy and responsibilities to report any knowledge, suspicion or information. The PAQ indicated that 72 volunteers and contractors received PREA training. Interviews with two contractors confirmed they received training on their responsibilities under the agency's sexual abuse and sexual harassment policies. A review of six contractor and four volunteer training documents confirmed that all ten had completed either the PREA Basic training or the PREA Acknowledgement.

115.32 (b): The PAQ indicated that the level and type of training provided to volunteers and contractors is based on the services they provide and level of contact they have with incarcerated individuals. Additionally, the PAQ indicates that all volunteers and contractors who have contact with incarcerated individuals have been notified of the agency's zero tolerance policy regarding sexual abuse and sexual harassment and informed on how to report such incidents. 103 DOC 216, page 11 states the level and type of training provided shall be based on the services they provide and the level of contact they have with incarcerated individuals, but all volunteers and contractors who have contact with incarcerated individuals shall be notified of the agency's zero tolerance policy regarding sexual abuse and sexual

The agency has the Volunteer and Contractor Training and Acknowledgment of PREA form which outlines the zero tolerance policy and duty to report (immediately to the Shift Commander). Additionally, certain contractors (those with regular contact with incarcerated individuals or those who are unescorted) are required to complete the PREA Basic training (same training as staff), which includes the zero tolerance policy and methods to report. Further, the Volunteer Orientation Manual, page 17 includes information on the zero tolerance policy and responsibilities to report any knowledge, suspicion or information. Interviews with contractors indicated they receive training online, which includes PREA training. Both confirmed the training went over the zero tolerance policy and the reporting process. A review of six contractor and four volunteer training documents confirmed that all ten had completed either the PREA Basic training or the PREA Acknowledgement.</p> <p>115.32 (c): The PAQ stated that the agency maintains documentation confirming that volunteers/contractors understand the training they have received. 103 DOC 216, page 11 states that appropriate documentation shall be maintained indicating they have received the training. Volunteers and contractors sign either a sign-in sheet or the Volunteer and Contractor Training and Acknowledgment of Prison Rape Elimination Act (PREA) form to confirm receipt of the training. Contractors also can take the training electronically which includes a quiz that documents their understanding. A review of six contractor and four volunteer training documents confirmed that all ten had completed either the PREA Basic training or the PREA Acknowledgement.</p> <p>Based on a review of the PAQ, 103 DOC 216, Volunteer and Contractor Training and Acknowledgment of Prison Rape Elimination Act (PREA), Prison Rape Elimination Act (PREA) Basic Lesson Plan, Volunteer Orientation Handbook, contractor and volunteer training records as well as the interviews with contractors and volunteers, this standard appears to be compliant.</p> |

Findings (By Provision):

115.33 (a): The PAQ stated that incarcerated individuals receive information at the time of intake about the zero tolerance policy and how to report incidents or suspicions of sexual abuse or harassment. 103 DOC 401, page 8 states that each Superintendent shall develop a written procedures to ensure that each incarcerated individual receives an orientation upon admission within 24 hours after arrival. Incarcerated individuals transferred from other institutions within the correctional system shall receive an orientation to the new institution. Except in unusual circumstances, this orientation is completed within seven calendar days after admission. Page 9 states that all PREA orientation information contained within Attachment #2 shall be included in all correctional facilities incarcerated individual orientation manuals and will be topics covered in orientation. A review of Attachment #2 confirms that it contains information on the zero tolerance policy, information on

the facility PCM, ways to report, information on the local rape crisis center, information on investigations and ways to avoid becoming a victim. Pages 48-56 of the Orientation Manual confirms that it includes all the information as Attachment #2. Additionally, page 12 also contains information the hotline numbers (IPS, PREA, and BARCC). The PAQ indicated that 196 incarcerated individuals received information at intake on the zero tolerance policy and how to report incident of sexual abuse/sexual harassment. This is equivalent to less than 100% of incarcerated individuals who arrived at the facility over the previous twelve months. Further communication with the PCM indicated the numbers were incorrect and there were 198 incarcerated individuals that arrived within the previous twelve months and all 198 received PREA information at intake. The auditor observed the intake process through a demonstration. Incarcerated individuals are provided PREA information at intake via the Manual. The Manual is available in both English and Spanish and includes information on the zero tolerance policy and reporting methods. The interview with the intake staff confirmed that incarcerated individuals are provided information on the zero tolerance policy and reporting methods during intake. The staff stated incarcerated individuals are provided a Handbook upon arrival and they receive orientation, which includes viewing the MADOC Orientation Video, within seven days. Nineteen of the 20 incarcerated individuals interviewed indicated they received information on the agency's sexual abuse and sexual harassment policies, including the zero tolerance policy and methods to report sexual abuse and sexual harassment. It should be noted that Northeastern Correctional Center is not an intake facility and as such all incarcerated individuals at the facility have also been previously provided PREA information upon intake, through another MADOC facility. A review of 25 incarcerated individual files of those received in the previous twelve months indicated that all 25 received PREA information at intake.

115.33 (b): 103 DOC 401, page 8 states that incarcerated individuals transferred from other institutions within the correctional system shall receive an orientation to the new institution. Except in unusual circumstances, this orientation is completed within seven calendar days after admission. New incarcerated individuals entering the correctional system for the first time receive an initial reception and orientation to the institution. Except in unusual circumstances, this orientation is completed within 30 calendar days after admission. All incarcerated individuals watch the PREA Adult Comprehensive Education video and the orientation video, which contains information on PREA, upon admission to the MADOC. All MADOC facilities have the same policies, procedure and information, with the exception of the IPS facility specific hotline. As such, incarcerated individuals are not required to be provided additional comprehensive education upon transfer to NECC unless for some reason they were not provided the comprehensive education upon entry into the MADOC. A review of the MADOC orientation video confirmed that the video provides information on ADA accommodations, right to be free from sexual abuse, the PREA hotline number (advises it is not recorded and does not require a pin), BARCC contact information (advises for support services and not a reporting mechanism), the external reporting entity contact information (MSP address) and information on the policy and that it is

located in the library. The video is available in English and has Spanish closed captioning. The PAQ indicated that 266 incarcerated individuals received comprehensive PREA education within 30 days of intake, which is equivalent to more than 100% of those that arrived in the last twelve months and stayed longer than 30 days. Further communication with the PCM indicated the numbers were incorrect and 173 incarcerated individuals arrived and stayed longer than 30 days and all had received comprehensive PREA education. While the facility is not required to complete additional PREA education they do provide incarcerated individuals with additional PREA information via the orientation. The auditor had the facility conduct a mock demonstration of the comprehensive PREA education process. Education is conducted every Thursday through facility orientation. Incarcerated individuals view the MADOC orientation video. The video is shown on a 55 inch screen with adequate audio. The MADOC orientation video is available in English with Spanish subtitles. The interview with the intake staff confirmed that incarcerated individuals receive comprehensive PREA education on their right to be free from sexual abuse and sexual harassment, their right to be free from retaliation from reporting and policies and procedures after a report of sexual abuse. The intake staff advised incarcerated individuals receive orientation within seven days of arrival at the facility and that the orientation includes the MADOC Orientation Video. Interviews with 20 incarcerated individuals indicated nineteen were advised of their right to be free from sexual abuse, their right to be free from retaliation from reporting sexual abuse and agency policies and procedures on responding to an allegation. A review of 25 incarcerated individual files of those received in the previous twelve months indicated all 25 had received comprehensive PREA education at NECC or another MADOC facility. It should be noted incarcerated individuals were documented with receiving PREA comprehensive education numerous times across different MADOC facility, which exceeds the requirement as all MADOC policies and procedures are the same.

115.33 (c): The PAQ indicated that all incarcerated individuals had not received comprehensive PREA education within 30 days of arrival. The PAQ noted incarcerated individuals arriving at MCI Shirley all receive the Manual and orientation typically within seven days of arrival. 103 DOC 401, page 8 states that each Superintendent shall develop written procedures to ensure that each incarcerated individual receives an orientation upon admission within 24 hours of arrival. Additionally, it states that incarcerated individuals transferred from other institutions within the correctional system shall receive an orientation to the new institution. Except in unusual circumstances, this orientation is completed within seven calendar days after admission. The interview with the intake staff confirmed that incarcerated individuals receive comprehensive PREA education on their right to be free from sexual abuse and sexual harassment, their right to be free from retaliation from reporting and policies and procedures after a report of sexual abuse. The intake staff advised incarcerated individuals receive orientation within seven days of arrival at the facility and that the orientation includes the MADOC Orientation Video. A review of 27 total incarcerated individual files indicated all 27 had comprehensive PREA education.

115.33 (d): The PAQ indicated that PREA education is available in accessible formats for incarcerated individuals who are LEP, deaf, visually impaired, otherwise disabled, as well as to incarcerated individuals who have limited reading skills. 103 DOC 401, page 13, states that each Superintendent/designee shall ensure that new incarcerated individuals receive written orientation material in English and Spanish. When necessary, other non-English speaking incarcerated individuals shall receive translation into their own language via the telephonic interpreter service. When a literacy problem exists, a staff member may assist the incarcerated individual in understanding the problem. 103 DOC 408, page 3 states that it is the Department's policy not to discriminate against any person protected by the Americans with Disabilities Act (ADA). The Department shall ensure that its programs, activities and services when viewed in their entirety, are readily accessible to, and usable by incarcerated individuals with a disability. Additionally, it states that the Department shall provide incarcerated individuals access to trained, qualified individual(s) who are educated in the problems and challenges faced by incarcerated individuals with physical and/or mental impairments. These individuals shall be knowledgeable in programs designed to educate and assist incarcerated individuals with a disability, as well as in all the legal requirements for the protection of incarcerated individuals with disabilities. 103 DOC 488, page 4 states that telephonic interpreter services may be used to translate for incarcerated individuals in the following areas: Internal Perimeter Security (IPS), Booking and Admissions, Health Services Unit (HSU), Classification Boards, Incarcerated individual Grievances and Disciplinary Hearings. If an incarcerated individual requests an interpreter or correctional or medical staff believe the use of an interpreter is necessary, then the telephonic interpreter service shall be utilized. This policy does not prevent IPS or Department investigators from utilizing bilingual staff to interview incarcerated individuals if the situation does not lend itself to the use of the telephonic interpreter service during the course of an investigations. A review of the Orientation Manual and PREA Posters confirmed that they can be provided in larger print, if necessary and are available in English and Spanish. Additionally, staff (including mental health care staff) are available to read the information to any incarcerated individuals with cognitive disabilities, vision impairment and limited reading skills. Page 44-47 of the Manual outlines information related telecommunications aids and services for effective communication as well as other information related to the Americans with Disabilities Act. Pages 12-13 of the Manual informs incarcerated individuals that the Department of Corrections has a contracted service provider to provide over-the-phone interpretation, 24 hours a day, seven days a week. This service can provide translation of 140 different languages to any non-English speaking incarcerated individual. This service can only be used with a speaker telephone in the following areas whenever an incarcerated individual declares that he does not speak and/or understand English; Internal Perimeter Security, Booking and Admissions, Health Services Unit, Classification Boards and Disciplinary Hearings. A review of the Lionsbridge Users Guide confirms that the facility is able to call the hotline, enter their pin number and select a language for interpretive services. Further a review of the Orientation Video confirms it is available in English, Spanish and with subtitles. A review of seven disabled incarcerated individual records confirmed all seven received PREA education.

115.33 (e): The PAQ indicated that the agency maintains documentation of incarcerated individual participation in PREA education sessions. 103 DOC 401, page 13 states that completion of all types of orientation and receipt of all materials shall be documented in the IMS Orientation Checklist screen. Reception Centers, if using an approved alternative orientation checklist that is signed and dated by the incarcerated individual, shall be exempt from signing and dating an IMS printout. It shall also be documented by the incarcerated individual signing and dating a printout of the completed IMS Orientation Checklist screen. If the incarcerated individual refuses or is incapable of reading and signing for the information included in the orientation manual, the staff member providing the incarcerated individual with the copy shall indicate such refusal/incapability in the IMS Orientation Checklist Screen, as well as the assistance offered/given to the incarcerated individual who is incapable of reading and signing. The checklist shall be filed in the incarcerated individual's case record. A review of 27 total incarcerated individual files confirmed all 27 were documented with PREA education via entry into the IMS system.

115.33 (f): The PAQ indicated that the agency ensures that key information about the agency's PREA policies is continuously and readily available or visible through posters, handbooks or other written formats. A review of documentation indicates that the facility has PREA information via the Orientation Manual, PREA Posters and the Protecting Yourself from Sexual Assault Brochure. The auditor observed PREA information posted throughout the facility, including in common areas and housing units. Each housing unit had PREA Posters as well as the PREA hotline, IPS hotline and BARCC number painted near the phones. Further, each housing unit had a phone number sheet that included phone numbers for various organizations, including BARCC, the PREA hotline and the IPS hotline. The PREA Posters were observed in English and Spanish on legal size paper. The painted numbers were adequate size font and were on walls near the phones. The phone number sheet was on letter size paper and was posted near the phones. Additionally, the hotline numbers (IPS, PREA and BARCC) were observed on the back of each incarcerated individual's ID card.

Based on a review of the PAQ, 103 DOC 401, 103 DOC 408, 103 DOC 488, the Manual, the MADOC Orientation Video, PREA Posters, the Protection Yourself from Sexual Assault Brochure, Lionbridge Interactive Voice Response Users Guide, Foreign Language Interpretation and Translation Services Information Massachusetts Commission for the Deaf and Hard of Hearing (MCDHH) Interpreter/CART Referral Service Information, a review of incarcerated individual records, observations made during the tour as well as information from interviews with intake staff and incarcerated individuals, this standard appears to be compliant.

115.34 (a): The PAQ indicated that agency policy requires that investigators are trained in conducting sexual abuse investigations in confinement settings. 103 DOC 519, page 10 states that specialized training shall be provided for those employees who respond to and investigate PREA incidents. This training is completed through the PREA/Sexual Assault Investigator Training. A review of the training curriculum confirms that it covers; techniques for interviewing sexual abuse victims (course 2, pages 2-6 and course 4, pages 3-16), proper use of Miranda and Garrity warnings (course 4, page 2), sexual abuse evidence collection in a confinement setting (course 3, pages 3-10) and the criteria and evidence required to substantiate a case for administrative action or prosecution referral (course 5, page 1). Interviews with investigative staff confirmed they received the specialized training.

115.35 (a): The PAQ stated that the agency has a policy related to training medical and mental health practitioners who work regularly in its facilities. 103 DOC 650, page 44 states that the vendor, in conjunction with the Department, shall ensure that all full and part time mental health care practitioners who work regularly in its facilities have been trained in: how to detect and assess signs of sexual abuse and harassment; how to preserve physical evidence of sexual abuse; how to respond effectively and professionally to victims of sexual abuse and sexual harassment; and how to and whom to report allegations or suspicion of sexual abuse and sexual harassment. A review of the VitalCore PREA Training noted that it is the PREA Resource Center's four module training developed by the National Council on Crime & Delinquency. It should be noted that the agency transitioned from Wellpath to VitalCore and many of the staff also had the specialized training through Wellpath. A review of the VitalCore PREA Training and the Wellpath Prison Rape Elimination Act (PREA) training curriculum confirmed that they includes information on the following topics: how to detect and assess signs of sexual abuse and sexual harassment, how to preserve physical evidence of sexual abuse, how to respond effectively and professionally to victims of sexual abuse and sexual harassment and how and whom to report allegations or suspicion of sexual abuse and sexual harassment. The PAQ indicated that six (100%) of the medical and mental health care staff received the specialized training. Interviews with medical and mental health staff confirmed that they received specialized training and the training included the elements under this provision. A review of three medical and mental health care staff training records indicated two had completed the specialized medical and mental health training. The one without the training was no longer employed and had not worked a shift since the transition from Wellpath to VitalCore. Also, VitalCore did not maintain any Wellpath training documents.

115.35 (b): The PAQ indicated that agency medical staff do not perform forensic exams and as such this provision does not apply. Forensic exams are conducted at Beth Israel Deaconess Medical Center. Interviews with medical and mental health staff confirmed that they do not perform forensic medical examinations.

115.35 (c): The PAQ indicated that the agency maintains documentation showing that medical and mental health practitioners have completed the required training. 103 DOC 650, page 44 states that the vendor shall maintain documentation that mental health practitioners have received the training and forward a list of trained staff to the DOC on a quarterly basis. A review of three medical and mental health care staff training records indicated two had completed the specialized medical and mental health training. The one without the training was no longer employed and had not worked a shift since the transition from Wellpath to VitalCore. Also, VitalCore did not maintain any Wellpath training documents. The auditor confirmed that the specialized training is documented via an acknowledgment form.

Medical and mental health staff are required to complete the PREA Basic staff training (contractors and employees). A review of the PREA Basic Lesson Plan confirmed that the following topics are included: the agency's zero tolerance policy (pages 9 and 20), how to fulfill their responsibilities under the agency's sexual abuse and sexual harassment policies and procedures (pages 26-32), the incarcerated individuals' right to be free from sexual abuse and sexual harassment (page 19), the right of the incarcerated individual to be free from retaliation for reporting sexual abuse or sexual harassment (pages 24-25), the dynamics of sexual abuse and sexual harassment in a confinement setting (pages 10-16), the common reactions of sexual abuse and sexual harassment victims (page 13), how to detect and respond to signs of threatened and actual sexual abuse (pages 28-29), how to avoid inappropriate relationship with incarcerated individuals (pages 39-40), how to communicate effectively and professionally with lesbian, gay, bisexual, transgender and intersex incarcerated individuals (pages 42-43) and how to comply with relevant laws related to mandatory reporting laws (page 29). 2. Interviews with Random Incarcerated Individuals
3. Interview with the PREA Coordinator
4. Interview with the PREA Compliance Manager

Site Review Observations:

1. Observations of Risk Screening Area
2. Observations of Incarcerated Individual Files Location

Findings (By Provision):

115.41 (a): The PAQ stated that the agency has a policy that requires screening upon admission to a facility or transfer to another facility for risk of sexual abuse victimization or sexual abusiveness toward other incarcerated individuals. 103 DOC 650, page 9 states that all incarcerated individuals shall be assessed during an intake screening and upon transfer to another facility for their risk of being sexually abused by other incarcerated individuals or sexually abusive toward other incarcerated individuals. The auditor was provided a demonstration of the initial risk assessment. The initial risk assessment is completed by booking staff as well as medical staff. Booking staff complete their portion one-on-one in the booking area. Booking staff ask questions related to prior sexual victimization, domestic violence, gang affiliation, and prior protective custody. The booking staff indicated most information is already pre-populated from the electronic file information, such as age, gender, and criminal history and he is just verifying information with them verbally. The medical staff complete the second part of the initial risk assessment in the HSU, one-on-one. The medical staff member asks about disabilities, prior sexual victimization, if they feel vulnerable, their gender identity and sexual preference. The medical staff enter the information into the MADOC system (IMS). The auditor reviewed the information on the risk screening via the computer screen and confirmed that information such as age, height, weight, prior incarcerations, current conviction, etc. were already populated. Staff had the ability to change certain information if applicable, (i.e. if the incarcerated individual had gained or lost significant weight). After the information is entered into the system, the information is calculated electronically and a designation is determined related to known victim, potential victim, unknown victim, known predator, potential predator or unknown predator. Interviews with eighteen incarcerated individuals that arrived within the previous twelve months indicated fifteen were asked the risk screening questions upon arrival at NECC. Interviews with

the staff responsible for the risk screening indicated that incarcerated individuals are screened their risk of victimization and risk of abusiveness during intake.

115.41 (b): The PAQ indicated that the policy requires that incarcerated individuals be screened for risk of sexual victimization or risk of sexually abusing other incarcerated individuals within 72 hours of their intake. 103 DOC 650, page 9 states that intake screenings shall ordinarily take place within 72 hours of the arrival at the facility. The PAQ stated that 234 incarcerated individuals, or 100% of those that arrived in the previous twelve months, were screened for risk of sexual victimization or risk of sexually abusing other incarcerated individuals within 72 hours. Interviews with eighteen incarcerated individuals that arrived within the previous twelve months indicated fifteen were asked the risk screening questions upon arrival at NECC. Most stated they were asked the questions on the same day they arrived. Interviews with the staff responsible for the risk screening confirmed that incarcerated individuals are screened for their risk of victimization and abusiveness within 72 hours. A review of 25 incarcerated individual files of those that arrived within the previous twelve months indicated all 25 had an initial risk screening completed. 20 of the 25 were completed within 72 hours.

115.41 (c): The PAQ indicated that the risk assessment is conducted using an objective screening instrument. 103 DOC 650, page 9 states that such assessments shall be conducted using an objective screening tool. A review of the Housing Risk Screen Assessment indicates that the assessment includes fifteen questions related to sexual victimization factors and five questions related to sexual abusive factors. Directions are attached for staff to reference when completing the questions. The directions provide information on when to mark yes and when to mark no, as well as what it meant by the questions. The directions further explain what factor are self-reported and which factors are to be checked against other documentation. At the bottom of the form the directions outline how to score the responses. If the response to question one is "yes", which is the question related to being a victim of institutional sexual assault (as documented – not self-reported), the incarcerated individual is classified as a victim. If the risk screening has four or more "yes" responses on the victimization identifiers, the incarcerated individual is identified as a potential victim. With regard to abusiveness, if question one is a yes, which is the question related to a history or institutional sexual abuse toward others (as known and documented), the incarcerated individual is classified as an aggressor. If the risk screening has two or more "yes" responses on the abusiveness identifiers, the incarcerated individual is classified as a potential aggressor. All designations include known victim, potential victim, unknown victim, known perpetrator, potential perpetrator and unknown perpetrator.

115.41 (d): 103 DOC 650, pages 9-10 indicate that the intake screening shall consider, at minimum, the following criteria to assess incarcerated individuals for risk

of victimization: whether the incarcerated individual has a mental, physical or developmental disability; the age of the incarcerated individual; the physical build of the incarcerated individual; whether the incarcerated individual has previously been incarcerated; whether the incarcerated individual's criminal history is exclusively nonviolent; whether the incarcerated individual has prior convictions for sex offenses against an adult or child; whether the incarcerated individual is or is perceived to be gay, lesbian, bisexual, transgender, intersex or gender nonconforming, whether the incarcerated individual has previously experienced sexual victimization; the incarcerated individual's own perception of vulnerability and whether the incarcerated individual is detained solely for civil immigration purposes. A review of the Housing Risk Screen Assessment indicates that the assessment includes fifteen questions related to sexual victimization factors including prior victimization, physical disability, mental disability, developmental disability, perception of vulnerability, LGBTI/Gender Dysphoria/gender non-conforming, age, physical stature, prior incarcerations, non-violent history, effeminate presentation and history of protective custody. Interviews with the staff who conduct the risk screening indicated the risk screening is completed by booking staff and medical staff. Staff noted the risk screening includes questions as well as documentation review. Staff confirmed the required elements under this provision are part of the risk screening tool.

115.41 (e): A review of the Housing Risk Screen Assessment confirms that the screening tool considers prior acts of sexual abuse, prior convictions for violent offenses and history of prior institutional violence and/or sexual abuse, as known to the agency, in assessing incarcerated individuals for risk of being sexually abusive. Interviews with the staff who conduct the risk screening indicated the risk screening is completed by booking staff and medical staff. Staff noted the risk screening includes questions as well as documentation review. Staff confirmed the required elements under this provision are part of the risk screening tool.

115.41 (f): The PAQ indicated that policy requires that the facility reassess each incarcerated individual's risk of victimization or abusiveness within a set time period, not to exceed 30 days after the incarcerated individual's arrival at the facility, based upon any additional, relevant information received by the facility since the intake screening. 103 DOC 650, page 10 states that within a time period, not to exceed 30 days from the incarcerated individual's arrival at the facility, the facility will reassess the incarcerated individual's risk of victimization or abusiveness based upon any additional relevant information received by the facility since the intake screening. The PAQ indicated 255 or more than 100% of incarcerated individuals entering the facility were reassessed for their risk of sexual victimization or of being sexually abusive within 30 days after their arrival at the facility. Further communication with the PCM indicated the numbers were incorrect and there were 173 incarcerated individuals who stayed longer than 30 days and all 173 had had a reassessment within 30 days. The auditor was provided a demonstration of the reassessment process. The reassessment is completed by mental health staff and CPO staff. The CPO staff

complete the same part of the risk assessment as the booking staff. The mental health staff complete the same part of the assessment as the medical staff. CPOs meet with the incarcerated individual in a private office setting and ask about incarcerations, gang affiliation, prior sexual abusiveness, etc. Mental health staff meet with the incarcerated individual in a private office setting and ask them if they feel vulnerable, if they have ever been sexually victimized, gender identity and sexual preference. The mental health staff noted that they conduct this screening within 72 hour and they only meet with incarcerated individuals after that if they have a mental health diagnosis or if they report prior sexual victimization. Interviews with staff responsible for the risk screening indicated that incarcerated individuals are reassessed within a couple days. Interviews with eighteen incarcerated individuals that arrived in the previous twelve months indicated six remember were asked the risk screening questions on more than one occasion. A review of 25 incarcerated individual files of those that arrived in the previous twelve months indicated all 25 incarcerated individuals had a reassessment completed. Nineteen of the 25 were completed within 30 days. It should be noted all those past the 30 day timeframe were completed in 2024. All recent risk assessment in 2025 were on time. Immediately after the on-site portion of the audit, the facility conducted training with mental health care staff on the risk reassessment process, including conducting a reassessment within 30 days (not within 72 hours). The facility provided confirmation that the mental health staff completed the training.

115.41 (g): The PAQ indicated that policy requires that an incarcerated individual's risk level be reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the incarcerated individual's risk of sexual victimization or abusiveness. 103 DOC 650, page 10 states that an incarcerated individual's risk level shall be reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the incarcerated individual's risk of sexual victimization or abusiveness. Interviews with staff responsible for risk screening confirmed that incarcerated individuals are reassessed when warranted due to request, referral, incident of sexual abuse or receipt of additional information. Interviews with eighteen incarcerated individuals that arrived in the previous twelve months indicated six remember were asked the risk screening questions on more than one occasion. A review of 25 incarcerated individual files of those that arrived in the previous twelve months indicated all 25 incarcerated individuals had a reassessment completed. There were zero sexual abuse allegations that would necessitate a reassessment due to incident of sexual abuse.

115.41 (h): The PAQ indicated that policy prohibits disciplining incarcerated individuals for refusing to answer whether or not the incarcerated individual has a mental, physical or developmental disability; whether or not the incarcerated individual is or is perceived to be gay, lesbian, bisexual, transgender, intersex or gender non-conforming; whether or not the incarcerated individual has previously

Interviews with the staff responsible for risk screening indicated that incarcerated individuals are not disciplined for refusing to answer or not fully disclose information for any of the risk screening questions.</p> <p>115.41 (i): 103 DOC 650, page 10 states that the agency shall implement appropriate controls on the dissemination within the facility of response to the questions asked pursuant to this standard in order to ensure that sensitive information is not exploited to the incarcerated individual's detriment by staff or other incarcerated individuals. Incarcerated individual risk assessments are documented on paper and electronically via the electronic Inmate Management System (IMS). The paper risk assessments are maintained in a locked filing cabinet in HSU. During the tour the auditor had a security staff member pull up the electronic risk screening information. The auditor observed that the security staff member did not have access as he was not in a position with a need to know. The PC stated that the agency has implemented appropriate controls on information from the risk screening to ensure sensitive information is not exploited. He stated there are certain profiles that have access, including medical and mental health care staff. The interview with the PCM and staff responsible for the risk screening confirmed that the agency has outlined who should have access to the risk screening information so that sensitive information is not exploited. She stated only certain staff have access.</p> <p>Based on a review of the PAQ, 103 DOC 650, Housing Risk Screening Assessment, incarcerated individual files and information from interviews with the PREA Coordinator, PREA Compliance Manager, staff responsible for conducting the risk screenings and random incarcerated individuals, this standard appears to be corrected and as such complaint.</p> |

2. Shower Area in Housing Units

Findings (By Provision):

115.42 (a): The PAQ stated that the agency/facility uses information from the risk screening to inform housing, bed, work, education and program assignments with the goal of keeping separate those incarcerated individuals at high risk of being sexually victimized from those at high risk of being sexually abusive. 103 DOC 519, pages 10-11 state that the Department shall utilize an internal risk housing tool to assess incarcerated individuals for their risk of vulnerability or predatory behavior in accordance with 103 DOC 401 – Booking and Admissions. Policy further states that once an incarcerated individual is identified as having been a victim, or as being at risk for such, the Superintendent shall carefully assess the incarcerated individual needs and housing assignment of that incarcerated individual. Where double bunking is necessary, the staff member making assignments shall rely upon standard guidelines for cell matching, and upon good judgment, in selecting a cellmate for the

incarcerated individual, keeping in mind the incarcerated individual's victimization history and/or the incarcerated individual's "at risk" status. Similar considerations shall be given for placement of an incarcerated individual in a dormitory setting. Additionally, page 12 continues that upon learning that an incarcerated individual has been identified as a predator, or is at risk for such, the Superintendent shall carefully assess the immediate needs and housing assignment of the incarcerated individual. Where double bunking is necessary, the staff member making assignments shall rely upon standard guidelines for cell matching, and upon good judgment, in selecting a cellmate for the incarcerated individual, keeping in mind the incarcerated individual's predatory history and/or the incarcerated individual's "at risk" status. Similar considerations shall be given for placement of an incarcerated individual in a dormitory setting. The interview with the PREA Compliance Manager indicated that information from the risk screening is utilized determine a risk level, which then is used to determine who will rooms with who (housing assignments). Interviews with the staff responsible for the risk screening indicated that the information from the risk screening is utilized to house incarcerated individuals appropriately. Staff advised they would not house known victims with known abusers. A review of housing and work assignments of high risk victims and high risk abusers confirmed that incarcerated individuals at high risk of victimization and incarcerated individuals at high risk of abusiveness were not housed together and did not work/program together unsupervised.

115.42 (b): The PAQ indicated that the agency/facility makes individualized determinations about how to ensure the safety of each incarcerated individual. 103 DOC 519, pages 10-11 state that the Department shall utilize an internal risk housing tool to assess incarcerated individuals for their risk of vulnerability or predatory behavior in accordance with 103 DOC 401 – Booking and Admissions. Policy further states that once an incarcerated individual is identified as having been a victim, or as being at risk for such, the Superintendent shall carefully assess the incarcerated individual needs and housing assignment of that incarcerated individual. Where double bunking is necessary, the staff member making assignments shall rely upon standard guidelines for cell matching, and upon good judgment, in selecting a cellmate for the incarcerated individual, keeping in mind the incarcerated individual's victimization history and/or the incarcerated individual's "at risk" status. Similar considerations shall be given for placement of an incarcerated individual in a dormitory setting. Additionally, page 12 continues that upon learning that an incarcerated individual has been identified as a predator, or is at risk for such, the Superintendent shall carefully assess the immediate needs and housing assignment of the incarcerated individual. Similar considerations shall be given for placement of an incarcerated individual in a dormitory setting. Interviews with the staff responsible for the risk screening indicated that the information from the risk screening is utilized to

house incarcerated individuals appropriately. Staff advised they would not house known victims with known abusers.

115.42 (c): The PAQ stated that the agency/facility makes housing and program assignments for transgender or intersex incarcerated individuals in the facility on a case by case basis. 103 DOC 652, page 13 states that at the time of commitment, adjudicated individuals are court ordered into Department of Corrections custody and are transported to the reception institution based upon said court order. For all new commitments, an Internal Housing Risk Factor Assessment (Attachment #2) is completed and examines issues of risk of victimization and risk of violence/predatory behavior and/or abusiveness. Should an individual identify as Gender Dysphoric (GD) or appear to need additional clinical assessment, the process of confirmation will commence as outlined in 103 DOC 652.05. An assessment will inform housing, work, education and program assignments and will focus on individual safety. These assessments will occur on a case by case basis and will include security level, criminal and disciplinary history, medical and mental health assessment needs, vulnerability of sexual victimization and potential of perpetrating abuse based on prior history. Further information from the agency indicates that 103 DOC 653 outlines housing related to gender non-conforming incarcerated individuals. Page 7 states if an incarcerated individual self-identifies as gender non-conforming (transgender), a facility based medical provider or qualified mental health professional assigned to the incarcerated individual, shall review the incarcerated individual's gender non-conforming status to determine whether the incarcerated individual's gender is sincerely held as part of the incarcerated individual's core identity. Page 9 further states that a gender non-confirming incarcerated individual may request to be housed in a facility of the gender with which the incarcerated individual identifies. Upon receipt of the request, the site administrator shall notify the Department's Director of Behavioral Health. In the event that a request may potentially present security, safety, or operational difficulties within the correctional environment, the Director of Behavioral Health shall refer the request to the Deputy Commissioner of the Prison Division and the Deputy Commissioner of Clinical Services and Reentry for a security review. The security review shall take into account the incarcerated individual's individual history of incarceration and present circumstances. The agency provided sample documentation related to case-by-case housing determinations. Examples were provided of transgender female incarcerated individuals who requested to be housed at a female facility and were approved. The PCM stated that housing an programming for transgender and intersex incarcerated individuals are based on the risk assessment. She advised male/female housing is based on genital status, but they have had some transgender females moved to the female facility. Further communication with the PC noted that they do not house based on genital status and that housing is reviewed on a case by case basis if a transgender or intersex individual requests to be housed at a facility that does not match their assigned gender at birth. The PCM confirmed that housing and program assignments take into consideration the incarcerated individual's health and safety as well as any security or management problems. There were zero transgender or intersex incarcerated

individuals at the facility during the on-site portion of the audit and as such no interviews were conducted.

115.42 (d): 103 DOC 519, page 12 states that placement and programming assignments for each transgender or intersex incarcerated individual shall be reassessed at least twice each year to review any threats to safety experienced by the incarcerated individual. 103 DOC 652, page 13 and 103 DOC 653, page 5 state that an Internal Housing Risk Factor Assessment will be completed at least every six months in collaboration with medical, mental health and correctional professional to assess ongoing placement for each GD/gender non-confirming incarcerated individual. The biannual review will include a review of any threats to safety experienced by the incarcerated individual. The interview with the PCM indicated transgender and intersex incarcerated individuals are reassessed every six months. The staff responsible for the risk screening confirmed transgender and intersex incarcerated individuals are reassessed biannually. There were zero transgender incarcerated individuals and as such no biannual assessments were reviewed.

115.42 (e): 103 DOC 652, page 13 and 103 DOC 653, page 5 state that a GD/gender non-confirming incarcerated individual's own views with respect to his or her own safety will be given serious consideration. Interviews with the PCM and staff responsible for the risk screening indicated that transgender and intersex incarcerated individuals' view with respect to their safety are given serious consideration. There were zero transgender or intersex incarcerated individuals at the facility during the on-site portion of the audit and as such no interviews were conducted.

115.42 (f): 103 DOC 652, page 14 states that incarcerated individuals diagnosed with Gender Dysphoria shall be given the opportunity to shower separately from other incarcerated individuals per 103 DOC 750 – Hygiene Standards. 103 DOC 750, page 7 states that Superintendents shall develop procedures to ensure incarcerated individuals identified as Gender Non-Conforming shall be given the opportunity to shower separately from other incarcerated individuals. During the tour the auditor confirmed that showers were single person with curtains. Interviews with the PCM and the staff responsible for risk screening confirmed that transgender and intersex incarcerated individuals are given the opportunity to shower separately. The PCM stated transgender and intersex incarcerated individuals have a separate shower time. There were zero transgender or intersex incarcerated individuals at the facility during the on-site portion of the audit and as such no interviews were conducted.

115.42 (g): 103 DOC 519, pages 10-11 state that the Department shall utilize an internal risk housing tool to assess incarcerated individuals for their risk of

| | <p>vulnerability or predatory behavior in accordance with 103 DOC 401 – Booking and Admissions. Policy further states that once an incarcerated individual is identified as having been a victim, or as being at risk for such, the Superintendent shall carefully assess the incarcerated individual needs and housing assignment of that incarcerated individual. Where double bunking is necessary, the staff member making assignments shall rely upon standard guidelines for cell matching, and upon good judgment, in selecting a cellmate for the incarcerated individual, keeping in mind the incarcerated individual’s victimization history and/or the incarcerated individual’s “at risk” status. Similar considerations shall be given for placement of an incarcerated individual in a dormitory setting. Additionally, page 12 continues that upon learning that an incarcerated individual has been identified as a predator, or is at risk for such, the Superintendent shall carefully assess the immediate needs and housing assignment of the incarcerated individual. Where double bunking is necessary, the staff member making assignments shall rely upon standard guidelines for cell matching, and upon good judgment, in selecting a cellmate for the incarcerated individual, keeping in mind the incarcerated individual’s predatory history and/or the incarcerated individual’s “at risk” status. Similar considerations shall be given for placement of an incarcerated individual in a dormitory setting. The interviews with the PC and PCM confirmed that the agency does not have a consent decree and that LGBTI incarcerated individuals are not placed in one housing unit or one facility based on their gender identify and/or sexual preference. The PC stated that the PREA standard and agency policy prohibits this placement. He advised they house LGBTI incarcerated individuals based on their risk assessment to ensure everyone is housed as safe as possible. The interview with the one identified LGB incarcerated individual confirmed the facility does not place LGBTI individuals in specific housing unit, facility or wing based on their sexual preference and/or gender identity. The facility does not have a tracking mechanism for LGB incarcerated individuals. As such the auditor requested that staff identify LGB incarcerated individuals known to staff for interview purposes and documentation purposes. The facility was only able to identify one LGB incarcerated individual, which illustrated that LGBTI incarcerated individuals are not housed solely based on their gender identity or sexual preference.</p> <p>Based on a review of the PAQ, 103 DOC 519, 103 DOC 652, 103 DOC 401, incarcerated individual housing determinations, transgender housing determinations, LGB incarcerated individual housing assignments and information from interviews with the PC, PCM, staff responsible for the risk screenings and the LGB incarcerated individual, this standard appears to be compliant.</p> |

Site Review Observations:

1. Observation of Housing Units

Findings (By Provision):

115.43 (a): The PAQ indicated that the facility does not have a segregation unit and as such this does not apply. The agency as a whole however does prohibit placing incarcerated individuals at high risk of sexual victimization in involuntary segregated housing unless an assessment has been made, and there has been a determination that there is no available alternative means of separation from likely abusers. 103 DOC 519, page 11 states that incarcerated individuals at high risk for sexual harassment/abuse victimization, and those who have reported being a victim of sexual abuse/harassment in the past either while housed in a prison setting or in the community shall not be placed in involuntary segregated housing unless an assessment has been made, and there has been a determination that there is no available alternative means of separating the incarcerated individual from likely abusers. If such institution cannot conduct such an assessment immediately, the institution may hold the incarcerated individual in segregated housing for less than 24 hours while completing the assessment. Additionally, page 8 of 103 CMR 423 states that upon verification that an incarcerated individual requires separation from general population to protect the incarcerated individual from harm by others, the incarcerated individual shall not be placed in Restrictive Housing, but shall be placed in a housing unit that provides approximately the same conditions, privileges, amenities and opportunities as in general population; provided however, that the incarcerated individual may be placed in Restrictive Housing for no more than 72 hours while suitable housing is located. An incarcerated individual shall not be held in Restrictive Housing to protect the incarcerated individual from harm by others for more than 72 hours, unless the Commissioner or a designee certify in writing; the reason why the incarcerated individual may not be safely held in the general population; that there is no available placement in a unit comparable to general

population; that efforts are being undertaken to find appropriate housing and the status of the efforts; and the anticipated time frame for resolution. Such incarcerated individuals will be reviewed thereafter by the Placement Review Committee every Monday, Wednesday and Friday. The PAQ indicated there have been zero instances where incarcerated individuals have been placed in involuntary segregated housing due to their risk of sexual victimization. The interview with the Warden confirmed that the agency has a policy that prohibits placing incarcerated individuals at high risk of victimization in segregated housing unless there are no other available alternative means of separation of likely abusers. The Warden further stated the facility does not have a segregated housing unit and if the incarcerated individual was returned to higher custody, they would ensure the incarcerated individual was not placed in segregated housing at that location. The facility does not have a segregated housing unit. As such no further interviews or documentation was reviewed.

115.43 (b): 103 DOC 519, page 11 states that incarcerated individuals at high risk for sexual harassment/abuse victimization, and those who have reported being a victim of sexual abuse/harassment in the past either while housed in a prison setting or in the community shall not be placed in involuntary segregated housing unless an assessment has been made, and there has been a determination that there is no available alternative means of separating the incarcerated individual from likely abusers. If such institution cannot conduct such an assessment immediately, the institution may hold the incarcerated individual in segregated housing for less than 24 hours while completing the assessment. During the tour the auditor observed the segregated housing unit. The unit has three floors, two of which are used for housing. The unit included storage areas, hearing rooms, a small library space, property and clothing storage, visitation and indoor and outdoor recreation area. Incarcerated individuals have out of cell time via recreation (daily) and showers (daily). Phone access is four times a week via the phones in the unit. Additionally, incarcerated individuals have tablets, which are able to make phone calls as well from in the cells. Incarcerated individuals in the segregated housing unit provide grievances and mail to staff. The facility does not have a segregated housing unit. As such no further interviews or documentation was reviewed.

115.43 (c): The PAQ indicated that the facility does not have a segregation unit and as such this does not apply. The PAQ indicated there have been zero instances where incarcerated individuals have been placed in involuntary segregated housing due to their risk of sexual victimization. The Warden stated the facility does not have a segregated housing unit and if the incarcerated individual was returned to higher custody, they would ensure the incarcerated individual was not placed in segregated housing at that location. The facility does not have a segregated housing unit. As such no further interviews or documentation was reviewed.

115.43 (d): The PAQ indicated that the facility does not have a segregation unit and

| | <p>as such this does not apply. The PAQ indicated there have been zero instances where incarcerated individuals have been placed in involuntary segregated housing due to their risk of sexual victimization and as such no files had documentation related to this provision. The facility does not have a segregated housing unit. As such no further interviews or documentation was reviewed.</p> <p>115.43 (e): The PAQ indicated that the facility does not have a segregation unit and as such this does not apply. The agency does require that if an involuntary segregated housing assignment is made, the facility affords each such incarcerated individual a review every 30 days to determine whether there is a continuing need for separation from the general population. 103 CMR 423, page 8 states that such incarcerated individuals will be reviewed thereafter by the Placement Review Committee every Monday, Wednesday and Friday. Additionally, it states that all incarcerated individuals in Restrictive Housing for 30 days or more shall be provided a review of his or her Restrictive Housing placement. The facility does not have a segregated housing unit. As such no further interviews or documentation was reviewed.</p> <p>Based on a review of the PAQ, 103 DOC 519, 103 CMR 423, observations from the facility tour as well as information from the interview with the Warden, this standard appears to be compliant.</p> |

Site Review Observations:

1. Observation of Posted PREA Information

Findings (By Provision):

115.51 (a): The PAQ stated that the agency has established procedures for allowing multiple internal ways for incarcerated individuals to report privately to agency officials; sexual abuse or sexual harassment; retaliation by other incarcerated individuals or staff for reporting sexual abuse or sexual harassment; and staff neglect or violation of responsibilities that may have contributed to such incidents. 103 DOC 519, page 8 states that the Department shall maintain for incarcerated individuals, multiple internal mechanisms for privately reporting sexual harassment/abuse, retaliation by other incarcerated individuals or staff members for reporting sexual harassment abuse, and/or staff member neglect or violation of responsibilities that may have contributed to incidents of sexual harassment/abuse and retaliation. A Department hotline (508-422-3486) shall be designated within the incarcerated individual telephone system. The Department shall allow for universal and unimpeded access by all incarcerated individuals within the Department to the hotline number and it shall be listed in all institutional incarcerated individual orientation manuals. It is recorded and is available to all incarcerated individuals without using their PIN number. Additionally, methods to report sexual harassment/abuse or retaliation include, but are not limited to, the incarcerated individual grievance system, staff access periods, the institution's PREA Compliance Manager, inner perimeter security staff (IPS), and third party reporting. A review of the MADOC orientation video confirmed that the video provides information on the PREA hotline number (advises it is not recorded and does not require a pin), the external reporting entity contact information (MSP address) and information on the policy and that it is located in the library. A review of additional documentation to include the Orientation Manual and PREA Posters, indicates that there are multiple ways for incarcerated individuals to report. These methods include: the PREA hotline, a site specific IPS hotline, the Massachusetts State Police Division of Investigative Services, the facility PREA Compliance Manager, verbally, in writing, anonymously and through a third party. The auditor observed PREA information posted throughout the facility, including in common areas and housing units. Each housing unit had PREA Posters as well as the PREA hotline, IPS hotline and BARCC number painted near the phones. Further, each housing unit had a phone number sheet that included phone numbers for various organizations, including BARCC, the PREA hotline and the IPS hotline. The PREA Posters were observed in English and Spanish on legal size paper. The painted

numbers were adequate size font and were on walls near the phones. The phone number sheet was on letter size paper and was posted near the phones. Additionally, the hotline numbers (IPS, PREA and BARCC) were observed on the back of each incarcerated individual's ID card. The auditor tested the PREA hotline during the tour from the housing unit phones. The auditor reached a live person (Duty Station staff) who advised that if they received a report of sexual abuse from an incarcerated individual they would immediately document the information and forward it to the facility and the PC. Incarcerated individuals have access to the phones most of the day and can also make calls via their tablet. Calls to the PREA hotline require an incarcerated individual pin number. The auditor also tested the written reporting mechanism. The auditor submitted a kite on May 5, 2025 via a locked box located in the MAT classroom. The auditor was provided confirmation that the kite was received on May 12, 2025 by MAT staff who immediately notified the Duty Officer. Interviews with 20 incarcerated individuals confirmed that all 20 were aware of at least one method to report sexual abuse and sexual harassment. Incarcerated individuals advised they would report to staff or through the hotline. Interviews with thirteen staff confirmed that incarcerated individuals have multiple ways to report including to staff, in writing, and through the hotline.

115.51 (b): The PAQ stated that the agency provides at least one way for incarcerated individuals to report abuse or harassment to a public entity or office that is not part of the agency. 103 DOC 519, pages 8-9 state incarcerated individuals may also report sexual harassment/abuse to external public or private agencies via correspondence or via the use of the incarcerated individual telephone systems. Calls to "privileged" numbers, including universally approved legal assistance phone numbers, pre-authorized personal attorney telephone numbers, a foreign national's pre-authorized telephone number to his/her/their consulate office or diplomat, pre-authorized clergy telephone numbers, and pre-authorized licensed psychologist, social worker and/or mental health professional telephone numbers, are not subject to telephone monitoring and are not recorded. The Department also provides a way for incarcerated individuals to report abuse or harassment to a public or private entity or office that is not part of the agency, and that is able to receive and immediately forward incarcerated individual reports of sexual abuse and sexual harassment to agency officials, allowing the incarcerated individual to remain anonymous upon request. Incarcerated individuals can write to the Massachusetts State Police at 470 Worcester Road, Framingham, MA 01702. A review of the MADOC orientation video confirmed that the video provides information on the external reporting entity contact information (MSP address) and information on the policy and that it is located in the library. Pages 49-50 of the Manual state that the Department also provides a way for incarcerated individuals to report abuse or harassment to a public or private entity or office that is not part of the agency, and that is able to receive and immediately forward incarcerated individual reports of sexual abuse and sexual harassment to the agency, allowing the incarcerated individuals to remain anonymous upon request. It further has the Massachusetts State Police mailing address for the incarcerated individuals to write. During the tour the auditor did not observe information posted

related to MSP. The auditor tested the outside reporting mechanism by sending a letter on April 29, 2025 to the MSP (address provided in the Manual). The auditor sent a letter to MSP inquiring about how they would handle an allegation of sexual abuse and whether incarcerated individuals can remain anonymous. The auditor provided contact information for the MSP to respond. On May 14, 2025 the auditor received an email from the PREA Coordinator for the MSP. He provided a scanned copy of the letter and advised if it was a PREA complaint he would forward the information to the agency PC. He confirmed that incarcerated individuals may remain anonymous upon request. During the tour the auditor observed the mail process. Incarcerated individuals are able to place outgoing mail and grievances in the locked boxes in the housing units and in common areas around the facility. The mailroom staff indicated that incoming mail is sent through a machine to ensure it does not contain any hazardous materials. Incoming mail is opened and reviewed prior to being distributed to the incarcerated individuals, with the exception of legal mail. Legal mail is provided to IPS. IPS call the incarcerated individual down and have the incarcerated individual open the legal mail in front of the them. Outgoing mail is received sealed. The staff do not open any outgoing mail, however IPS may review outgoing mail for those incarcerated individuals on mail monitor. The mailroom staff advised mail from the Massachusetts State Police would be given to IPS, similar to legal mail. The staff advised they have never had any mail to/from BARCC. Due to outgoing mail not being reviewed, the auditor confirmed there was not an issue with treatment of mail to MSP and BARCC. The interview with the PCM indicated that incarcerated individuals can report externally the different agencies outlined on the postings and on the back of their ID cards. She stated they can call BARCC and they can also tell a family member. She advised depending on how something is reported, it may be relayed back to the facility. Interviews with 20 incarcerated individuals indicated nine were aware that they could report to the MSP as an outside reporting mechanism, while eighteen stated they knew they could report anonymously. The PAQ indicated that incarcerated individuals are not detained solely for civil immigration purpose.

115.51 (c): The PAQ indicated that the agency has a policy mandating that staff accept reports of sexual abuse and sexual harassment made verbally, in writing, anonymously and from third parties. The PAQ also indicated that staff document verbal reports immediately. 103 DOC 519, page 7 states staff members shall accept reports made verbally, in writing, anonymously and/or from third parties. All verbal reports shall be promptly documented using the IMS's Confidential Incident Report. Page 9 further states the Department shall accept and investigate all verbal, written and anonymous third party reports of sexual harassment/abuse. Page 17 also states any staff member receiving such a complaint shall follow institutional notification procedures, including the filing of an incident report. The Manual notifies incarcerated individuals that the department shall accept and investigate verbal, written, anonymous and third party reports of sexual abuse and harassment. The auditor had a staff member provide a demonstration on how they would document a verbal report of sexual abuse or sexual harassment. The staff member advised they would complete an incident report electronically from any of the facility computers. The staff

| | |
|--|---|
| | <p>illustrated that he would utilize the PREA incident type and that when complete, it would be electronically submitted to the Shift Commander. Staff further illustrated that the incident report can be marked confidential, which means the incident report bypasses the chain of command and goes directly to the Deputy and Superintendent. Staff confirmed all verbal reports of sexual abuse and sexual harassment would be documented in a confidential incident report. Interviews with 20 incarcerated individuals confirmed all 20 knew they could report allegations of sexual abuse verbally or in writing to staff and sixteen knew they could report via a third party. Interviews with thirteen random staff confirmed that incarcerated individuals can report verbally, in writing, anonymously and through a third party. The staff stated that they would document verbal reports in writing (via a confidential incident report) as soon as possible or before the end of the shift. A review of one investigation indicated it was reported via a Warden to Warden notification.</p> <p>115.51 (d): The PAQ indicated that the agency has established procedures for staff to privately report sexual abuse and sexual harassment of incarcerated individuals and staff are informed of these procedures through training and policy review. 103 DOC 519, page 7 states that allegations of incarcerated individual-on-incarcerated individual or staff-on-incarcerated individual sexual harassment/sexually abusive behavior shall immediately be reported by staff members to the Shift Commander verbally and followed up with a confidential incident report to the Superintendent before the end of the staff member's shift. Interviews with thirteen staff confirmed all thirteen knew they could privately report sexual abuse and sexual harassment of incarcerated individuals. Most staff stated that they could submit a confidential report, which goes directly to the Superintendent.</p> <p>Based on a review of the PAQ, 103 DOC 519, the Manual, PREA Posters, observations from the facility tour and interviews with the PCM, random incarcerated individuals and random staff, this standard appears to be compliant.</p> <p>Recommendation</p> <p>The auditor highly recommends the facility post information on MSP as the external reporting entity. Additionally, the auditor recommends that facility provide information to staff, including the PCM, about the external reporting entity and process.</p> |

Documents:

1. Pre-Audit Questionnaire
2. 103 CMR 491 – Inmate Grievances
3. Grievance Log
4. Incarcerated Individual Orientation Manual (Manual)
5. Tablet Addition

Findings (By Provision):

115.52 (a): The PAQ indicated that the agency is not exempt from this standard. 103 CMR 491 is the agency's grievance policy.

115.52 (b): The PAQ indicated that agency policy or procedure allows an incarcerated individual to submit a grievance regarding an allegation of sexual abuse at any time, regardless of when the incident is alleged to have occurred. Additionally, it indicated that the policy requires that incarcerated individual use an informal grievance process, or otherwise attempt to resolve with staff, an alleged incident of sexual abuse. Further communication with the PCM indicated this was incorrect and they do not require incarcerated individuals to utilize the informal grievance process. 103 CMR 491, page 7 states that time limits established in 103 CMR 491.14(1) shall not apply to grievances alleging sexual abuse. It also states that incarcerated individuals shall not be required to exhaust informal processes with regard to allegations of sexual abuse. A review of the Manual indicated that it did not contain information on sexual abuse grievances. After the on-site portion of the audit the facility uploaded a document that included the sexual abuse grievance process to the incarcerated individual tablet system.

115.52 (c): The PAQ indicated that agency policy and procedure allow an incarcerated individual to submit a grievance alleging sexual abuse without submitting it to the staff member who is subject of the complaint. Additionally, the PAQ indicated that policy and procedure require that an incarcerated individual grievance alleging sexual abuse not be referred to the staff member who is the subject of the complaint. 103 CMR 491, page 7 states that an incarcerated individual shall not be required to submit their grievance to a staff member who is the subject of the grievance. Additionally, page 9 states that employees named in a grievance shall not participate in any capacity in the processing, investigation or decision of the grievance. A review

of the Manual indicated that it did not contain information on sexual abuse grievances. After the on-site portion of the audit the facility uploaded a document that included the sexual abuse grievance process to the incarcerated individual tablet system.

115.52 (d): The PAQ indicated that agency policy and procedure require that a decision on the merits of any grievance or portion of a grievance alleging sexual abuse be made within 90 days of the filing of the grievance. 103 CMR 491, page 10 states that the institutional grievance coordinator (IGC) shall respond to the grievance within ten business days from the receipt of the grievance unless the incarcerated individual has been provided a written extension of time periods. Page 12 states that the time periods for filing a grievance may be extended by ten business days and the time period for responding to a grievance may be extended by ten business days if the IGC or Superintendent determine that the initial period is insufficient to make an appropriate decision or if the incarcerated individual presents a legitimate reason for requesting an extension. Unless extenuating circumstances exist, the time frame for responding to a grievance shall not exceed 30 business days. Page 13 states that a written notice of all extensions shall be provided to the grievant on the applicable form. Additionally, page 8 indicates that the absence of a grievance response after six months shall be deemed a denial of the grievance. The PAQ indicated that there were zero grievances of sexual abuse in the previous twelve months. There were zero incarcerated individuals that reported sexual abuse at the facility during the on-site portion of the audit and as such no interviews were conducted. A review of the grievance log noted there were zero sexual abuse grievances filed.

115.52 (e): The PAQ indicated that agency policy and procedure permit third parties, including fellow incarcerated individuals, staff members, family members, attorneys, and outside advocates, to assist incarcerated individuals in filing grievances for administrative remedies related to allegations of sexual abuse and to file such request on behalf of incarcerated individuals. It also states that agency policy and procedure require that if the incarcerated individual declines to have third-party assistance in filing a grievance of sexual abuse, the agency documents the incarcerated individual's decision to decline. 103 CMR 491, page 7 states that allegations of sexual abuse reported by third parties, including, but not limited to, other incarcerated individuals, staff members, family members, attorneys, and outside advocates shall be addressed in accordance with 103 DOC 519 and 103 DOC 522. It further states that the Department of Corrections shall document if an incarcerated individual declines to have the request processed on his or her behalf. The PAQ indicated there were zero grievances filed by incarcerated individuals in the previous twelve months in which the incarcerated individual declined third-party assistance. A review of the grievance log noted there were zero sexual abuse grievances filed.

| | <p>115.52 (f): The PAQ indicated that the agency has a policy and established procedures for filing an emergency grievance alleging that an incarcerated individual is subject to substantial risk of imminent sexual abuse. It also indicated that an initial response is required within 48 hours and a final agency decision be issued within five days. 103 CMR 491, pages 7-8 state that whenever an incarcerated individual files an emergency grievance alleging that he or she is at substantial risk of imminent sexual abuse, the grievance shall be responded to within 48 hours of receipt. Emergency grievance appeals shall be responded to within five calendar days of receipt. The PAQ stated there were zero grievances alleging imminent risk of sexual abuse over the previous twelve months. A review of the grievance log noted there were zero sexual abuse grievances filed.</p> <p>115.52 (g): The PAQ indicated that the agency has a written policy that limits its ability to discipline an incarcerated individual for filing a grievance alleging sexual abuse to occasions where the agency demonstrates that the incarcerated individual filed the grievance in bad faith. 103 CMR 491, page 15 states incarcerated individuals who misuse the grievance process by knowingly submitting false documents, intentionally and in bad faith misrepresenting or omitting material information or utilizing threatening or abusive language or language that otherwise constitutes a violation of 103 CMR 430, Incarcerated individual Discipline, are subject to suspension of grievance privileges and/or disciplinary action. The PAQ noted there were zero incarcerated individuals grievances alleging sexual abuse that resulted in disciplinary action by the agency against the incarcerated individual for having filed the grievance in bad faith.</p> <p>Based on a review of the PAQ, 103 DOC 491, Grievance Log, the Manual, and the information added to the tablet, this standard appears to be compliant.</p> |

Interviews:

1. Interviews with Random Incarcerated Individuals

Site Review Observations:

1. Observations of Victim Advocacy Information

Findings (By Provision):

115.53 (a): The PAQ indicated the facility provides incarcerated individuals with access to outside victim advocates for emotional support services related to sexual abuse by; giving incarcerated individuals mailing addresses and phone numbers for local, state or national victim advocacy or rape crisis organizations; and enabling reasonable communication between incarcerated individuals and these organizations in as confidential a manner as possible. The PAQ indicated that the agency does not detain incarcerated individuals solely for immigration purposes and as such this part of the provision does not apply. The agreement with BARCC states that BARCC agrees to: Provide a confidential crisis counseling hotline available every day from 9 a.m. to 9 p.m. Incarcerated individuals do not have access to telephones outside of these hours. This ensures 84 hours of hotline access each week. The hotline is not recorded in order to preserve rape crisis center confidentiality, and to encourage usage from incarcerated individuals. The hotline is accessible from normal incarcerated individual telephones and does not require incarcerated individuals to spend money or to call the hotline collect. The hotline provides immediately accessible emotional support to incarcerated survivors. The advocate is trained to listen and provide emotional support, to offer appropriate referrals and information, and to help callers manage anxiety attacks or similar experiences caused by trauma. Especially for survivors who are newly incarcerated, the experience of being in prison or jail can trigger panic attacks and stress because of the drastic change in life circumstances. Further it states that BARC agrees to: Provide healing resources through a comprehensive mail program. The mail program provides reading material for incarcerated survivors who need longer-term emotional support resources. Incarcerated individuals can send letters to BARCC requesting such materials, or can request them during a hotline call. Letters from incarcerated individuals will go through standard procedures to ensure they do not contain dangerous substances or contraband, but will not be otherwise read, and the same applies to letters BARCC sends back to survivors. Materials include brochures and pamphlets about coping strategies survivors can use to lessen anxiety and stress while incarcerated. For incarcerated individuals who are concerned about calling the hotline because it does not feel safe to do so, the mail program

provides essential access to healing tools. Because a large number of incarcerated individuals experience sexual assault before incarceration, many incarcerated individuals choose to communicate with emotional support agencies through letters instead of telephones, where other members of the facility population may overhear their conversation. Additionally, the agreement states BARCC agrees to provide training to incoming incarcerated individuals at MADOC's two intake facilities, MCI Cedar Junction and MCI Framingham about support resources available to sexual assault survivors. The Manual, page 49 states that the Boston Area Rape Crisis Center provides incarcerated individuals with access to outside victim advocates for emotional support services related to sexual abuse. This abuse does not need to have occurred during incarceration in order to seek support from BARCC. An incarcerated individual can contact BARCC either in writing or via use of a dedicated hotline. All calls are free of charge from any incarcerated individual telephone. Hours of operation are seven days a week from 9am to 9pm. These confidential support services can be provided in English and in Spanish. A review of the MADOC orientation video confirmed that the video provides BARCC contact information (advises for support services and not a reporting mechanism) and information on the policy and that it is located in the library. Manual provides the mailing address and information on BARCC PREA Hotline. The Manual further states that BARCC is not a third party entity to which you should report allegations of abuse, BARCC's purpose is to provide confidential support services. Additionally, the contract with BARCC indicates that BARCC provides a fifteen minute presentation to all newly received incarcerated individuals at the two intake facilities. The auditor observed PREA information posted throughout the facility, including in common areas and housing units. Each housing unit had PREA Posters as well as the PREA hotline, IPS hotline and BARCC number painted near the phones. Further, each housing unit had a phone number sheet that included phone numbers for various organizations, including BARCC, the PREA hotline and the IPS hotline. The PREA Posters were observed in English and Spanish on legal size paper. The painted numbers were adequate size font and were on walls near the phones. The phone number sheet was on letter size paper and was posted near the phones. Additionally, the hotline numbers (IPS, PREA and BARCC) were observed on the back of each incarcerated individual's ID card. The facility provides access to emotional support services through the BARCC hotline. The auditor tested the BARCC hotline during the on-site portion of the audit. The auditor dialed the number and was provided the option for services in English or Spanish. The automated message advised to hold and that they would be providing someone soon for services. The auditor reached a live person who confirmed that they are available to provide services to any incarcerated individual who calls the line between the hours of 9am and 9pm. Additionally, the staff stated they can provide mail services for incarcerated individuals as well. The BARCC hotline is an unmonitored line and a pin number is not required if using the speed dial number. Interviews with 20 incarcerated individuals indicated fourteen were familiar with BARCC and sixteen were provided a mailing address and telephone number to the organization. Incarcerated individuals were aware of the organization and some indicated they knew they could contact anytime, services were free and information was confidential. Most were unaware of specifics of the organization.

115.53 (b): The PAQ stated that the facility informs incarcerated individuals, prior to giving them access to outside support services, the extent to which such communication will be monitored. It also states that the facility informs incarcerated individuals about mandatory reporting rules governing privacy, confidentiality and/or privilege that apply to disclosures of sexual abuse made to outside victim advocates. The Manual, page 49 states that the Boston Area Rape Crisis Center provides incarcerated individuals with access to outside victim advocates for emotional support services related to sexual abuse. This abuse does not need to have occurred during incarceration in order to seek support from BARCC. An incarcerated individual can contact BARCC either in writing or via use of a dedicated hotline. All calls are free of charge from any incarcerated individual telephone. Hours of operation are seven days a week from 9am to 9pm. These confidential support services can be provided in English and in Spanish. The Manual provides the mailing address and information on BARCC PREA Hotline. The Manual further states that BARCC is not a third party entity to which you should report allegations of abuse, BARCC's purpose is to provide confidential support services. Pages 9-10 of the Manual outline the mail procedures. During the tour the auditor observed the mail process. Incarcerated individuals are able to place outgoing mail and grievances in the locked boxes in the housing units and in common areas around the facility. The mailroom staff indicated that incoming mail is sent through a machine to ensure it does not contain any hazardous materials. Incoming mail is opened and reviewed prior to being distributed to the incarcerated individuals, with the exception of legal mail. Legal mail is provided to IPS. IPS call the incarcerated individual down and have the incarcerated individual open the legal mail in front of the them. Outgoing mail is received sealed. The staff do not open any outgoing mail, however IPS may review outgoing mail for those incarcerated individuals on mail monitor. The mailroom staff advised mail from the Massachusetts State Police would be given to IPS, similar to legal mail. The staff advised they have never had any mail to/from BARCC. Due to outgoing mail not being reviewed, the auditor confirmed there was not an issue with treatment of mail to MSP and BARCC. Interviews with 20 incarcerated individuals indicated fourteen were familiar with BARCC and sixteen were provided a mailing address and telephone number to the organization. Incarcerated individuals were aware of the organization and some indicated they knew they could contact anytime, services were free and information was confidential. Most were unaware of specifics of the organization.

115.53 (c): The PAQ indicated that the agency or facility maintains MOUs or other agreements with community service providers that are able to provide incarcerated individuals with emotional services related to sexual abuse. It also states that the agency or facility maintains copies of the MOU. The agency has an agreement with BARCC that was signed in 2024. The agency maintains copies of the agreement with BARCC.

A review of the agency’s website confirms that third parties can report by calling the PREA Division or by completing an online form. The third party reporting information is found at https://www.mass.gov/how-to/report-a-prea-allegation. The auditor viewed the agency PREA website and confirmed that the agency has an online form that the public can complete related to sexual abuse and sexual harassment. The PREA Poster further advises that third parties can immediately contact the facility Superintendent or call the Department hotline at 508-422-3486. Third party reporting information was observed in visitation and the front entrance. The information was posted in English and Spanish on legal size paper, via the PREA Poster. The auditor tested the third party reporting mechanism via the agency website. The auditor submitted the online form on April 29, 2025. The PC provided email confirmation on the same date that the online form was received. The PC indicated that any third party report of sexual abuse or sexual harassment would be forwarded to the facility PCM and IPS for investigation.</p> <p>Based on a review of the PAQ, 103 DOC 519, the PREA Poster, observations made during the tour, the agency’s website and the submission of the online form, this standard appears to be compliant.</p> |

4. Interview with the PREA Coordinator

Findings (By Provision):

115.61 (a): The PAQ stated that the agency required all staff to report immediately and according to agency policy; any knowledge, suspicion or information they receive regarding an incident of sexual abuse or sexual harassment that occurred in a facility, whether or not it is part of the agency; any retaliation against incarcerated individuals or staff who reported such an incident; and any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation. 103 DOC 519, page 7 states that allegations of incarcerated individual-on-incarcerated individual or staff-on-incarcerated individual sexual harassment/sexually abusive behavior shall immediately be reported by staff members to the Shift Commander verbally and followed up with a confidential incident report to the Superintendent before the end of the staff member's shift. This includes specific knowledge, reasonable suspicion, or credible information, regarding an allegation of sexual harassment/abuse which occurred at an institution, an act of retaliation against an incarcerated individual or staff member who reported such an allegation, and any staff neglect or violation of responsibilities that may have contributed to an incident, allegation and/or an act of retaliation. Interviews with thirteen random staff confirmed that they are required to report any knowledge, suspicion or information regarding an incident of sexual abuse and/or sexual harassment and any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation.

115.61 (b): The PAQ indicated that apart from reporting to designated supervisors or officials and designated state or local service agencies, agency policy prohibits staff from revealing any information related to a sexual abuse report to anyone other than the extent necessary to make treatment, investigation and other security and management decision. 103 DOC 519, page 7 states that apart from reporting to designated supervisors and/or officials, staff members shall not reveal any information related to an allegation of sexual harassment/abuse or anyone other than to the extent necessary to provide treatment, to conduct an investigation, and/or to make other security and management decision. Interviews with thirteen random staff confirm that they are required to report any knowledge, suspicion or information regarding an incident of sexual abuse and/or sexual harassment and any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation. Staff stated that they would immediately report the information to the supervisor.

115.61 (c): 103 DOC 650, page 43 states that unless precluded by Federal, State or local law, medical and mental health practitioners shall be required to report sexual abuse pursuant to paragraph (A) of this section (per 103 DOC 519) and to inform

| | <p>incarcerated individuals of the practitioner’s duty to report, and the limitations of confidentiality, at the initiation of services. Interviews with medical and mental health care staff confirmed that at the initiation of services with an incarcerated individual they disclose their limitation of confidentiality and their duty to report. Both stated they are required to report any allegation, incident or information related to sexual abuse that occurred within an institutional setting. Both also indicated that they had an incarcerated individual report institutional sexual abuse and they reported the information to security. A review of the one investigation indicated it was reported via a Warden to Warden notification and was not reported to medical or mental health care staff.</p> <p>115.61 (d): 103 DOC 650, page 43 states that if the alleged victim is under the age of eighteen or considered a vulnerable adult under a State or local vulnerable person statute, the agency shall report the allegation to the designated State or local service agency under applicable mandatory reporting laws. The PC stated that they use the standard reporting process, which would involve an investigation through IPS. He advised any further mandatory reporting would be completed through the investigative entity (i.e. OSI, CPU or the State Police). The interview with the Warden indicated that they do not house incarcerated individuals under eighteen or vulnerable adults but OSI or IA would have an obligation to report the information to the State Police.</p> <p>115.61 (e): 103 DOC 519, page 7 states that the Superintendent shall ensure that the Duty Station is notified of all allegations of sexual harassment/sexually abusive behavior. If the allegations involve a possible violation under the law, the Chief of OIS/IAU shall be promptly notified and shall notify the jurisdictionally appropriate District Attorney’s office once it is determined that sufficient probable cause exists to warrant such notification. Additionally, page 13 states that each Superintendent or designee shall ensure that reports by staff members and third parties regarding reasonable suspicion of sexual harassment/sexually abusive behavior or related activities are referred to investigators for follow-up and/or investigation. The interview with the Warden confirmed that all allegations of sexual abuse and sexual harassment are reported to the facility investigators. A review of the one investigation indicated it was reported via a Warden to Warden notification and the information was forwarded to IPS for investigation.</p> <p>Based on a review of the PAQ, 103 DOC 519, investigative log, investigative reports and interviews with random staff, medical and mental health care staff, the PREA Coordinator and the Warden, this standard appears to be compliant.</p> |

The PAQ stated that there have been zero incarcerated individuals who were subject to substantial risk of imminent sexual abuse within the previous twelve months. The Agency Head Designee stated that if an incarcerated individual was at imminent risk they would reassess the person and then determine if they need to change their housing. He advised they would do what needs to be done to take away the potential threat or possible vulnerability. The Warden stated that if there was an incarcerated individual deemed at risk of imminent sexual abuse they separate the individual, protect the individual and have IPS initiate an investigation. Interviews with thirteen random staff confirmed that they would take immediate action by separating the individual from the potential threat and reporting the information to the supervisor. The PAQ indicated that during the previous twelve months, there were zero allegations of sexual abuse during the previous twelve months. The interview with the security first responder indicated after an incident of sexual abuse, they separate the individuals, secure the scene, suggest the victim not take action to destroy evidence, ensure the perpetrator does not take action to destroy evidence, contact the investigator and take the victim to health services. The non-security first responder advised she would notify security and then assess them medically and provide any necessary assistance. There were zero incarcerated individuals who reported sexual abuse at the facility during the on-site portion of the audit and as such no interviews were conducted. A review of the one sexual harassment allegation indicated it was reported via Warden to Warden notification and did not require any first responder duties.

115.64 (b): The PAQ stated that agency policy requires that if the first responder is not a security staff member, that responder shall be required to request the alleged victim not take any actions to destroy physical evidence, and then notify security staff. The PC further stated that the agency policy does not differentiate between security and non-security first responders. All first responders are trained on first responder duties. 103 DOC 519, pages 14-15 state that each institution shall maintain an Emergency Response Plan and sexual assault response kits containing the items necessary to facilitate their response to sexual assault allegations. abusive behavior, for assisting in making such a report, or for cooperating in the investigation of such an allegation, regardless of the merits or disposition of the allegation, is strictly prohibited. Any such occurrence is a very serious matter that may result in discipline, up to and including termination. The Department protects all incarcerated individuals and staff members who report sexual harassment/abuse, or who cooperate with sexual harassment/abuse investigations, from retaliation by other incarcerated individuals or staff members. The PAQ indicated that the agency designates staff (the PCM) to monitor for retaliation.

115.67 (b): 103 DOC 519, page 20 states that the Department employs multiple protective measures including, but not limited to, housing changes or transfers for incarcerated individual victims or incarcerated individual abusers from contact with victims. The Department also provides emotional support services for incarcerated individuals or staff members who fear retaliation for reporting sexual harassment/abuse or for cooperating with an investigation. The interview with the Agency Head Designee indicated that they monitor individuals for retaliation through a review of phone calls, a review of mail and in-person status checks. The Agency Head Designee confirmed that they can take protective measure including, housing changes, facility transfers, removal of staff from contact with victim and emotional support services. The interview with the Warden indicated that retaliation is not tolerated and that they train staff on this topic. He noted that they take protective actions to prevent retaliation by meeting with individuals on a regular basis. He confirmed that protective measures could include housing changes, facility transfers, removal of alleged staff abusers and emotional support services. The staff responsible for monitoring indicated he monitors individuals through a review of phone calls and face to face visits. He advised they can take protective measure to prevent retaliation through keeping the information confidential. The monitoring staff confirmed they could change housing, transfer facilities, remove staff from contact with the incarcerated individual and provide emotional support services. There were zero incarcerated individuals who reported sexual abuse at the facility during the on-site portion of the audit and as such no interviews were conducted. A review of the investigative report and monitoring documents noted zero allegations of retaliation were reported.

115.67 (c): The PAQ stated that the agency/facility monitors the conduct and treatment of incarcerated individuals or staff who reported sexual abuse and of incarcerated individuals who were reported to have suffered sexual abuse to see if there are any changes that may suggest possible retaliation by incarcerated individuals or staff. The PAQ indicated that monitoring is conducted for at least 90 days and that the agency/facility acts promptly to remedy any such retaliation. The PAQ further stated that the agency/facility will continue monitoring beyond 90 days if the initial monitoring indicates a continuing need. 103 DOC 519, pages 20-21 state that for a period of at least 90 days following a report of sexual harassment/abuse, IPS staff shall regularly meet with and monitor the conduct and treatment of

incarcerated individuals or staff members who reported the sexual abuse, and of incarcerated individuals who were reported to have suffered sexual abuse, to see if there are claims and/or changes that may suggest possible retaliation by incarcerated individuals or staff members, and shall act promptly to remedy any such retaliation. IPS staff should monitor any incarcerated individual disciplinary reports, housing changes, program changes, or negative performance reviews or reassignments of staff members. Monitoring shall continue beyond 90 days if the initial monitoring indicates a continued need. The PAQ indicated that there had been zero instances of retaliation in the previous twelve months. The Warden stated that if they suspect retaliation they would conduct an investigation and if it was found to have occurred, discipline would ensure. The staff responsible for monitoring indicated he monitors for 90 days. He advised if there was a concern for retaliation he would refer to the Superintendent on extending monitoring. He further stated that during monitoring he reviews discipline, phone calls, housing changes, program changes, staff reassignments and staff discipline to determine if there is any retaliation. A review of the one investigation indicated it was sexual harassment and the victim was not at the facility when the allegation was reported. As such, no monitoring was required or completed.

115.67 (d): 103 DOC 519, page 21 indicates that in the case of incarcerated individuals, such monitoring shall also include periodic status checks. The staff responsible for monitoring retaliation stated he conducts periodic in-person status checks once a month. A review of the one investigation indicated it was sexual harassment and the victim was not at the facility when the allegation was reported. As such, no monitoring was required or completed.

115.67 (e): 103 DOC 519, page 21 states that if any other individual who cooperates with an investigation expresses a fear of retaliation, the Department shall take appropriate measures to protect that individual against any form of retaliation. The interview with the Agency Head Designee indicated they would monitor this individuals for retaliation through the same process they utilized to monitor those who report sexual abuse and victims of sexual abuse. This includes a review of phone calls, a review of mail and in-person status checks. The Warden indicated that they would employ the same protective measures as stated in provision (b).

115.67 (f): Auditor not required to audit this provision.

Based on a review of the PAQ, 103 DOC 519, investigative log, investigative reports, Attachment V, and information from interviews with the Agency Head Designee, Warden, and staff charged with monitoring for retaliation, this standards appears to be compliant.

Such incarcerated individuals will be reviewed thereafter by the Placement Review Committee every Monday, Wednesday and Friday. The PAQ indicated that zero incarcerated individuals who alleged sexual abuse were involuntarily segregated for zero to 24 hours or longer than 30 days. The facility does not have a segregated housing unit. The auditor confirmed during the tour that all housing at the facility is general population. The interview with the Warden confirmed that the agency has a policy that prohibits placing incarcerated individuals who report sexual abuse in segregated housing unless there are no other available alternative means of separation of likely abusers. The Warden stated the facility does not have a segregated housing unit and as such they would not involuntarily segregate incarcerated individuals who report sexual abuse. He did advise the victim may be transferred back to MCI Shirley, but they would ensure the victim was not placed in segregated housing at the facility. Interviews:

1. Interviews with Investigative Staff
2. Interview with the Warden
3. Interview with the PREA Coordinator
4. Interview with the PREA Compliance Manager

Findings (By Provision):

115.71 (a): The PAQ states that the agency/facility has a policy related to criminal and administrative agency investigations. 103 DOC 519, page 18 states that the Department shall ensure that an administrative or criminal investigation is completed for all allegations of sexual harassment/abuse utilizing those staff member who have received specialized training as it relates to a PREA investigation. Page 19 further states that investigations of reported allegations of sexual harassment/sexually abusive behavior between incarcerated individuals will be initiated by the Superintendent utilizing appropriately trained facility investigative staff or, upon request to the Chief of OIS/IAU, in conjunction with an investigator from OIS. The investigator assigned is responsible for producing an investigative report and completing the PREA database case file within 30 days. Interviews with investigators indicated an investigation is initiated immediately following an allegation/incident of sexual abuse or sexual harassment. Investigators advised that allegations reported anonymously or through a third party would be investigated under the same investigative process. A review of the one investigation indicated it was prompt, thorough and objective.

115.71 (b): 103 DOC 519, page 10 states that specialized training shall be provided for those employees who respond to and investigate PREA incidents. This training is completed through the PREA/Sexual Assault Investigator Training. A review of the

training curriculum confirms that it covers; techniques for interviewing sexual abuse victims (course 2, pages 2-6 and course 4, pages 3-16), proper use of Miranda and Garrity warnings (course 4, page 2), sexual abuse evidence collection in a confinement setting (course 3, pages 3-10) and the criteria and evidence required to substantiate a case for administrative action or prosecution referral (course 5, page 1). A review of the one investigation noted it was completed by an investigator with specialized investigator training.

115.71 (c): 103 DOC 519, page 18 states that the assigned trained sexual assault investigator shall ensure that all evidence collected at the institution or at any hospital is transported to the State Police Laboratory as soon as possible. Potential witnesses shall be interviewed in an attempt to gather information, corroborate the victim's statement, and/or to identify any suspect(s). The Massachusetts Statewide Records Retention Schedule, page 190 confirms that incarcerated individual investigative records are retained for ten years. The facility investigators advised his first step would involve reporting information to the facility administration and then starting the interview process. He stated he would collect any evidence, offer victim advocacy services, and then interview the victim, perpetrator and witnesses. The criminal investigator advised that his initial step in the investigative process is to review the allegation and available video footage. He advise he would follow-up with the DNA evidence (via the SANE), if applicable and then he would conduct interviews of all those involved, including any witnesses. Both investigators indicated they would be responsible for collecting evidence, including: video, documentation, phone calls, interviews, DNA and physical. Both confirmed they review prior complaints of the alleged perpetrator during the investigation as well. A review of the one investigation indicated it included necessary interviews. The investigation did not require evidence collection and there was not a named perpetrator therefore a review of prior complaints was not required.

115.71 (d): 103 DOC 519, page 17 states that if the Superintendent believes a felony may have been committed, he/she, in consultation with the Chief of OIS/IAU, shall notify the appropriate District Attorney's office and the State Police detective unit assigned to the District Attorney's office and shall ensure that the Department seeks assistance and begins a cooperative investigation with these agencies. The criminal investigator stated they have an attorney directly assigned to the unit and she would be consulted prior to conducting any compelled interviews. The facility investigator stated they do not consult with prosecutors prior to conducting any completed interviews. A review of the one investigation noted it did not involve any compelled interviews.

115.71 (e): 103 DOC 519, page 17 states that all reports of sexual activity are to be considered PREA until a full investigation indicates otherwise. Interviews with the investigators confirmed that the agency does not require the incarcerated individual

victim to submit to a polygraph test or any other truth-telling device in order to continue with the investigation. Additionally, the criminal investigator stated everyone has equal credibility and that it is based on what is found during the investigation. The facility investigator stated credibility is based on whether information lines up during the investigation. There were zero incarcerated individuals who reported sexual abuse at the facility during the on-site portion of the audit and as such no interviews were conducted.

115.71 (f): 103 DOC 519, page 19 state that the Department shall ensure that all available means are used to fully investigate allegations of sexual abuse and/or sexual harassment. Within 72 hours of the reported incident, the site's Superintendent will review and assess all reported allegations of sexual harassment/sexually abusive behavior and determine appropriate course of action. Page 20 states that the Chief of the OIS/IAU shall provide necessary access to the complaint intake and status screens of PREA cases for review by the institution's Superintendent. The format for the investigative report shall follow the procedures set forth in 103 DOC 518. Additionally, 103 DOC 518, page 9 states that all PREA investigations shall be in a six part format and the six part investigation shall remain on file in the IPS office, in a secure area, and be kept confidential. Pages 8-9 state that the six-part folder investigation shall include: table of contents; case activity chronology; executive summary; reports; supportive documentation and evidence and miscellaneous. Interviews with investigative staff confirmed that administrative investigations are documented in a written report. The investigators stated the report includes interviews, evidence, a summary and findings. The criminal investigator stated every investigation has a review that involves staff determining any factors that went into the incident, including staff actions or failure to act. The facility investigator stated he reviews evidence to determine if staff violated any policies. A review of the one investigation confirmed it was documented in a written report that included the initial allegation and steps taken by the investigator, including a summary of interviews.

115.71 (g): 103 DOC 519, page 20 states that the Chief of the OIS/IAU shall provide necessary access to the complaint intake and status screens of PREA cases for review by the institution's Superintendent. The format for the investigative report shall follow the procedures set forth in 103 DOC 518. 103 DOC 518, page 9 states that all PREA investigations shall be in a six part format and the six part investigation shall remain on file in the IPS office, in a secure area, and be kept confidential. Pages 8-9 state that the six-part folder investigation shall include: table of contents; case activity chronology; executive summary; reports; supportive documentation and evidence and miscellaneous. Interviews with investigative staff confirmed that criminal investigations would be documented in written reports and include similar information as an administrative investigative report. The investigators stated the report includes interviews, evidence, a summary and findings. There were zero criminal investigations completed and as such no reports were reviewed.

115.71 (h): The PAQ indicated that substantiated allegations of conduct that appear to be criminal will be referred for prosecution. 103 DOC 519, page 17 states that if the Superintendent believes a felony may have been committed, he/she, in consultation with the Chief of OIS/IAU, shall notify the appropriate District Attorney's office and the State Police detective unit assigned to the District Attorney's office and shall ensure that the Department seeks assistance and begins a cooperative investigation with these agencies. The PAQ indicated that there have been zero allegations referred for prosecution since the last PREA audit. Interviews with the investigators indicated cases are referred for prosecution when there is criminal activity. A review of the one investigation indicated it was not substantiated and as such was not referred for prosecution.

115.71 (i): The PAQ stated that the agency retains all written reports pertaining to the administrative or criminal investigation of alleged sexual abuse or sexual harassment for as long as the alleged abuser is incarcerated or employed by the agency, plus five years. The Massachusetts Statewide Records Retention Schedule, page 190 confirms that incarcerated individual investigative records are retained for ten years.

115.71 (j): 103 DOC 518, page 10 states that the departure of the alleged abuser or victim from the employment or control of the institution or the Department shall not provide a basis for terminating an investigation. The criminal investigator stated that investigations continue no matter what, until there is an outcome. He stated if there is insufficient information to move forward with an investigation, there is a finding that indicates there is a factor outside the normal investigative process that is not allowing the investigation to move forward and as such the investigation is paused until it can be rectified (i.e. locate victim, suspect or witness). The facility investigator advised departure of the staff or incarcerated individual would not deter the investigation. He stated the investigation would continue through the Criminal Prosecution Unit.

115.71 (k): The auditor is not required to audit this provision.

115.71 (l): 103 DOC 519, page 17 states that if the Superintendent believes a felony may have been committed, he/she, in consultation with the Chief of OIS/IAU, shall notify the appropriate District Attorney's office and the State Police detective unit assigned to the District Attorney's office and shall ensure that the Department seeks assistance and begins a cooperative investigation with these agencies. The interview with the Warden indicated that the facility remains informed of the progress of an

3. 103 CMR 430 - Inmate Discipline
4. 103 DOC 650 - Mental Health Services
5. Investigative Reports
6. Investigative Log

Interviews:

1. Interview with the Warden
2. Interviews with Medical and Mental Health Staff

Findings (By Provision):

115.78 (a): The PAQ stated that incarcerated individuals are subject to disciplinary sanctions only pursuant to a formal disciplinary process following an administrative or criminal finding that the incarcerated individual engaged in incarcerated individual-on-incarcerated individual sexual abuse. 103 DOC 519, page 6 states that all intentional acts of sexual harassment/sexually abusive behavior or intimacy between an incarcerated individual and a staff member, or between incarcerated individuals, regardless of consensual status, are prohibited. The perpetrators shall, where appropriate, be subject to administrative, criminal and/or disciplinary sanctions. The PAQ indicated there have been zero administrative findings of guilt for incarcerated individual-on-incarcerated individual sexual abuse and zero criminal findings of guilt for incarcerated individual-on-incarcerated individual sexual abuse within the previous twelve months. There were zero substantiated sexual abuse and/or sexual harassment allegations and as such no discipline was necessary.

115.78 (b): 103 DOC 430, page 15 states that if the incarcerated individual is found guilty, the Hearing Officer may recommend one or more of the sanctions listed in 103 CMR 430.25. The incarcerated individual's disciplinary chronology shall not be consider by the Hearing Officer in determining the guilt or innocence of the incarcerated individual, but may be considered in deciding appropriate sanctions. Specifically 103 CMR 430.25 outline the sanctions that can be imposed based on the category and offense. The interview with the Warden indicated that the agency has a disciplinary process and an incarcerated individual perpetrator would be charged with a Category one offense. He stated possible sanctions include loss of good time,

disciplinary detention and loss of privileges. He also advised that they could have additional criminal charges through the District Attorney and could be required to pay restitution. The Warden confirmed that sanctions would be commensurate with the nature and circumstances of the abuse committed, the incarcerated individual's disciplinary history, and the sanctions imposed for comparable offenses by other incarcerated individuals with similar histories.

115.78 (c): 103 DOC 650, page 77 states that site mental health staff shall be notified prior to service of a disciplinary report on any incarcerated individual with Serious Mental Illness (SMI) who is charged with a category 1 or category 2 disciplinary offense. It further states that during regularly scheduled reviews of recently issued disciplinary reports, the Superintendent or designee shall receive consultation from a site mental health staff member regarding mental health issues that may be implicated in the events described by the disciplinary report, and whether there are appropriate alternatives for addressing the matter by means other than the disciplinary process. The interview with the Warden confirmed that the incarcerated individuals' mental illness or mental disability would be considered in the disciplinary process.

115.78 (d): The PAQ states that the facility offers therapy, counseling or other interventions designed to address and correct underlying reasons or motivations for the abuse and the facility does not consider whether to require the offending incarcerated individual to participate in these interventions as a condition of access to programming and other benefits. 103 DOC 650, page 45 states that a mental health evaluation of all known incarcerated individual-on-incarcerated individual abusers shall be conducted within 60 days of learning of such abuse history and mental health staff shall offer treatment when deemed clinically appropriate. Interviews with medical and mental health staff indicated they offer therapy, counseling and other services designed to address and correct underlying reasons or motivations for sexual abuse. Staff advised incarcerated individuals are not required to participate in services.

115.78 (e): The PAQ stated that the agency disciplines incarcerated individuals for sexual contact with staff only upon finding that the staff member did not consent to such contact. 103 CMR 430, pages 18-19 outline the category one offense of sexual assault on a staff member, contract employee, member of the public or volunteer. Incarcerated individuals would be charged with this category one offense if they had sexual contact with a staff member who did not consent.

115.78 (f): The PAQ stated that the agency prohibits disciplinary action for a report of sexual abuse made in good faith based upon a reasonable belief that the alleged

| | |
|--|---|
| | <p>conduct occurred, even if an investigation does not establish evidence sufficient to substantiate the allegation. 103 CMR 430, pages 20-21 outline the category three offense of lying or providing false information to a staff member. Incarcerated individuals would be disciplined under this code if they falsely report sexual abuse.</p> <p>115.78 (g): The PAQ indicates that the agency prohibits all sexual activity between incarcerated individuals and the agency deems such activity to constitute sexual abuse only if it determines that the activity is coerced. 103 DOC 519, page 6 states that all intentional acts of sexual harassment/sexually abusive behavior or intimacy between an incarcerated individual and a staff member, or between incarcerated individuals, regardless of consensual status, are prohibited. It further states that the Department resolves to prohibit all forms of sexual harassment and sexual activity involving incarcerated individuals.</p> <p>Based on a review of the PAQ, 103 DOC 519, 103 DOC 650, 103 DOC 430, investigative reports, investigative log and information from interviews with the Warden and medical and mental health care staff, this standard appears to be compliant.</p> |

Site Review Observations:

1. Observations of Risk Screening Area

Findings (By Provision):

115.81 (a): The PAQ indicated all incarcerated individuals at the facility who have disclosed prior sexual victimization during a screening pursuant to 115.41 are offered a follow-up meeting with a medical or mental health practitioners. The PAQ stated that the meetings were offered within fourteen days of the intake screening. 103 DOC 650, page 10 states that if the screening indicates that an incarcerated individual has experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, staff shall ensure the incarcerated individual is offered a follow-up meeting with a medical or mental health practitioner within fourteen days of the intake screening. The PAQ indicated that 0% of those incarcerated individuals who reported prior victimization were seen within fourteen days by medical or mental health practitioners. Further communication with the PCM indicated there were zero incarcerated individuals who disclosed victimization during the risk screening. The PAQ also indicated that medical and mental health maintain secondary materials documenting compliance with the required services. Interviews with staff responsible for the risk screening indicated that incarcerated individual who disclose prior victimization they would be offered a follow-up with mental health. The staff stated services would be provided right away as they would walk them over to mental health. Interviews with three incarcerated individual who disclosed prior victimization indicated all three were offered a follow-up with mental health. They advised they were seen by mental health within the first few days of arrival and mental health offered them follow-up services. A review of documentation for five incarcerated individuals that disclosed prior sexual victimization during the risk screening, confirmed all five had a follow-up with mental health within fourteen days. It should be noted that in addition to the housing risk assessment screening, mental health staff also conduct an initial screening with incarcerated individuals within the first few days of arrival. Mental health staff ask incarcerated individuals about prior sexual victimization during their initial risk screening and offer follow-up services. All incarcerated individuals that arrive at the facility meet with mental health prior to being housed. All incarcerated individuals are provided the opportunity to disclose prior sexual victimization to mental health care staff during this assessment. Additionally, the risk screenings do not differentiate from prior sexual victimization that was previously disclosed on prior risk assessments and any sexual victimization that was not disclosed previously. As such, many incarcerated individuals may have already disclosed the prior sexual victimization and had a mental health follow-up at prior MADOC facilities.

115.81 (b): The PAQ indicated all prison incarcerated individuals who have previously perpetrated sexual abuse, as indicated during the screening pursuant to 115.41 are offered a follow-up meeting with a medical or mental health practitioners. The PAQ stated that the follow-up meetings were offered within fourteen days of the intake screening. 103 DOC 650, page 10 states that if the screening indicates that an incarcerated individual has previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, staff shall ensure the incarcerated individual is offered a follow-up meeting with a mental health practitioner within fourteen days of the intake screening. The PAQ indicated that 0% of those incarcerated individuals who reported prior victimization were seen within fourteen days by medical or mental health practitioners. Further communication with the PC indicated there were zero incarcerated individuals who were identified with prior sexual abusiveness during the risk screening. The PAQ also indicated that medical and mental health maintain secondary materials documenting compliance with the required services. Interviews with staff responsible for the risk screening indicated that incarcerated individual who are identified with prior sexual abusiveness would be offered a follow-up with mental health. The staff stated services would be provided right away as they would walk them over to mental health. A review of documentation for one incarcerated individual identified with prior sexual abusiveness during the risk screening confirmed he was provided a follow-up with mental health within fourteen days. It should be noted that in addition to the housing risk assessment screening, mental health staff also conduct an initial screening with incarcerated individuals on the first day of arrival. All incarcerated individuals that arrive at the facility meet with mental health prior to being housed. All incarcerated individuals are provided the opportunity to discuss any issues or concerns with mental health at that time. Additionally, the risk screenings do not differentiate from prior sexual abusiveness that was already addressed/referred to mental health during a prior risk screening. As such, many incarcerated individuals may have already had the opportunity to meet with mental health for a follow-up at prior MADOC facilities.

115.81 (c): This provision is not applicable as the facility is not a jail.

115.81 (d): The PAQ indicated that information related to sexual victimization and abusiveness that occurred in an institutional setting is strictly limited to medical and mental health practitioners. Further communication with the PCM indicated it is not strictly limited to medical and mental health but it is only shared with those with a need to know. It further advised that information is only shared with those to inform security and management decisions. 103 DOC 650, page 11 states that any information related to sexual victimization or abusiveness that occurred in an institutional setting shall be strictly limited to medical and mental health practitioners and other staff, as necessary, to inform treatment plans and security and management decisions, including housing, bed, work, education and program assignments, or as otherwise required by Federal, State or local law. Incarcerated individual medical and mental health records are electronic. Electronic medical and

Incarcerated individual risk assessments are documented on paper and electronically via the electronic Inmate Management System (IMS). The paper risk assessments are maintained in a locked filing cabinet in HSU. During the tour the auditor had a security staff member pull up the electronic risk screening information. The auditor observed that the security staff member did not have access as he was not in a position with a need to know. Investigative files are maintained in the IPS office and the agency investigative database. Paper files are located in a locked filing cabinet. Access to the IPS office is IPS staff only.</p> <p>15.81 (e): The PAQ indicated that medical and mental health practitioners obtain informed consent from incarcerated individuals before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the incarcerated individual is under the age of eighteen. 103 DOC 650, page 11 states that medical and mental health practitioners shall obtain informed consent from incarcerated individuals prior to reporting information about prior sexual victimization that did not occur within an institutional setting, unless the incarcerated individual is under eighteen. Interviews with medical and mental health staff indicated they obtain informed consent prior to reporting any sexual abuse that did not occur in an institutional setting. Both staff indicated the facility does not house anyone under eighteen.</p> <p>Based on a review of the PAQ, 103 DOC 650, housing risk screening assessments, medical and mental health documents and information from interviews with staff who perform the risk screening, medical and mental health care staff and incarcerated individuals who disclosed victimization during the risk screening, this standard appears to be compliant.</p> |

1. Observations of Medical and Mental Health Areas

Findings (By Provision):

115.82 (a): The PAQ indicated that incarcerated individual victims of sexual abuse receive timely, unimpeded access to emergency medical treatment and crisis intervention services and that the nature and scope of services are determined by medical and mental health practitioners according to their professional judgement. The PAQ also indicated that medical and mental health maintain secondary materials documenting the timeliness of services. 103 DOC 519, page 15 states that incarcerated individual victims of sexual abuse receive timely, unimpeded access to emergency medical treatment and crisis intervention services. A qualified health care professional shall evaluate and document the extent of physical injury and provide emergency medical treatment as needed. 103 DOC 650, page 43 states that any incarcerated individual who reports being physically victimized by sexually abusive behavior shall be brought to the Health Services Unit for emergency medical and mental health treatment as needed. Page 45 further states that incarcerated individual victims of sexual abuse shall receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope which are determined by medical and mental health practitioners according to their professional judgment. During the tour the auditor noted that the health services area consisted of one treatment room with a small window. No additional privacy measures were observed related to the window. immediately following the on-site portion of the audit the facility provided photos of mobile privacy barriers that will be utilized when needed for additional privacy. The auditor confirmed that the facility has routine medical and mental health services during business hours. Medical staff are also available after hours, for a total of sixteen hours, to provide services at the facility. All emergency services would be provided at the local hospital. Interviews with medical and mental health care staff confirmed that incarcerated individuals receive timely and unimpeded access to emergency medical treatment and crisis intervention

services. Both staff stated that incarcerated individuals are provided services immediately. The staff confirmed services are based on their professional judgement as well as policy and procedure. There were zero incarcerated individual who reported sexual abuse at the facility during the on-site portion of the audit and as such no interviews were conducted. A review of documentation for the one sexual harassment allegation indicated the incarcerated individual was not at the facility and the allegation was reported via Warden to Warden notification. As such, medical and mental health services were not required.

115.82 (b): 103 DOC 519, pages 14-15 state that each institution shall maintain an Emergency Response Plan and sexual assault response kits containing the items necessary to facilitate their response to sexual assault allegations. Response plans shall contain the following actions: separate alleged victim and perpetrator; immediately notify the Shift Commander; secure the scene, if warranted, for subsequent crime scene processing, ask the victim and ensure the perpetrator does not take any action that would destroy physical evidence (e.g., washing, eating, drinking, brushing teeth, changing clothes, etc.), receive the reporter's information on what took place, immediately escort the incarcerated individual victim to the institution's Health Services Unit for emergency medical care/mental health treatment; enter detailed information on the IMS incident report before the end of the shift and remain on shift until debrief by the sexual assault investigator. 103 DOC 650, page 45 states that if no qualified medical or mental health practitioners are on duty at the time a report of recent abuse is made, security staff first responders shall take preliminary steps to protect the victim and shall immediately notify the appropriate medical and mental health practitioners. The interview with the security first responder indicated after an incident of sexual abuse, they separate the individuals, secure the scene, suggest the victim not take action to destroy evidence, ensure the perpetrator does not take action to destroy evidence, contact the investigator and take the victim to health services. The non-security first responder advised she would notify security and then assess them medically and provide any necessary assistance. There were zero incarcerated individuals who reported sexual abuse at the facility during the on-site portion of the audit and as such no interviews were conducted.

115.82 (c): The PAQ indicated that incarcerated individual victims of sexual abuse while incarcerated are offered timely information about and timely access to emergency contraception and sexually transmitted infection prophylaxis. The PAQ also indicated that medical and mental health maintain secondary materials documenting the timeliness of services. 103 DOC 519, page 16 state that if the determination is made that the incarcerated individual victim should be sent to an outside hospital, and if the incarcerated individual victim consents, the incarcerated individual victim shall be transported to the outside hospital with a SANE program where he/she shall receive essential medical intervention, including preventative treatment for HIV, sexually transmitted diseases and pregnancy, if appropriate. 1. Interviews with Medical and Mental Health Staff

Site Review Observations:

1. Observations of Medical Treatment Areas

Findings (By Provision):

115.83 (a): The PAQ and further communication with the PC indicated that the facility offers medical and mental health evaluations, and as appropriate, treatment to all incarcerated individuals who have been victimized by sexual abuse in any prison, jail, lockup, or juvenile facility. 103 DOC 650, page 43 states that any incarcerated individual who reports being physically victimized by sexually abusive behavior shall be brought to the Health Services Unit for emergency medical and mental health treatment as needed. The incarcerated individual shall be evaluated by a qualified health care professional for physical injuries and emergency medical treatment. An emergency mental health referral to the on-site mental health clinician shall be made following the completion of the medical examination. Any reports of physical or verbal abuse of a sexual nature shall be referred to mental health crisis clinician. Page 45 further states that mental health shall offer a mental health evaluation, and as appropriate, follow-up treatment to all incarcerated individuals who have been victimized by sexual abuse in any prison. The evaluation and treatment of such victims shall include as appropriate, follow-up services, treatment plans, and when necessary, referrals for continued care following their transfer or placement in, other facilities, or their release from DOC custody. A review of documentation for the one sexual harassment allegation indicated the incarcerated individual was not at the facility and the allegation was reported via Warden to Warden notification. As such, medical and mental health services were not required. A review of documentation for five incarcerated individuals that disclosed prior sexual victimization during the risk screening, confirmed all five had a follow-up with mental health.

As such, medical and mental health services were not required.

115.83 (c): All medical and mental health care staff are required to have the appropriate credentials and licensures. The facility utilizes Beth Israel for forensic medical examinations. A review of secondary medical and mental health documentation indicated that incarcerated individuals have immediate access to medical and mental health care when needed, including urgent and routine services. Interviews with medical and mental health care staff confirmed that the services they provide are consistent with the community level of care.

115.83 (d): This provision does not apply as the facility does not house female incarcerated individuals.

115.83 (e): This provision does not apply as the facility does not house female incarcerated individuals.

115.83 (f): The PAQ indicated that incarcerated individual victims of sexual abuse while incarcerated are offered tests for sexually transmitted infections as medically appropriate. 103 DOC 519, page 20 states that if the determination is made that the incarcerated individual victim should be sent to an outside hospital, and if the incarcerated individual victim consents, the incarcerated individual victim shall be transported to the outside hospital with a SANE program where he/she shall receive essential medical intervention, including preventative treatment for HIV, sexually transmitted diseases and pregnancy, if appropriate. Findings (By Provision):

115.86 (a): The PAQ stated that the facility conducts a sexual abuse incident review at the conclusion of every criminal or administrative sexual abuse investigation, unless the allegation has been determined to be unfounded. 103 DOC 519, page 22 states that the facility shall also conduct a sexual harassment/abuse incident review at the conclusion of all substantiated and unsubstantiated investigations. The PAQ indicated there were zero criminal and/or administrative investigations of alleged sexual abuse completed at the facility, excluding only "unfounded" incidents. A review of the one allegation reported during the three year audit cycle noted it was sexual harassment and as such a sexual abuse incident review was not required.

115.86 (b): The PAQ stated that the facility ordinarily conducts a sexual abuse incident review within 30 days of the conclusion of the criminal or administrative sexual abuse investigation. 103 DOC 519, page 22 states that incident reviews shall ordinarily occur within 30 days of the conclusion of the investigation. The PAQ indicated there were zero sexual abuse incident reviews completed by the facility within 30 days of the conclusion of the investigation.

115.86 (c): The PAQ indicated that the sexual abuse incident review team includes upper level management officials and allows for input from line supervisors, investigators and medical and mental health practitioners. 103 DOC 519, page 22 states that each institution shall establish a PREA committee comprised of the PREA Manager, upper-level management official, line supervisors, investigators, medical and/or mental health practitioners and any other individual deemed integral to successful implementation of the PREA process at the site. The interview with the Warden confirmed that the facility has a sexual abuse incident review team and the team consists of upper level management, line supervisors, investigators medical staff and mental health care staff.

115.86 (d): The PAQ stated that the facility prepares a report of its findings from sexual abuse incident reviews, including but not necessarily limited to determinations made pursuant to paragraphs (d)(1)-(d)(5) of this section and any recommendations

for improvement, and submits each report to the facility head and PCM. 103 DOC 519, pages 22-23 state that the review team shall; consider whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect or respond to sexual abuse; consider whether the incident or allegation was motivated by race, ethnicity, gender identity, LGBTI and/or gender non-conforming identification, status or perceived status or gang affiliation, or was motivated or otherwise cause by other group dynamics at the facility; examine where the incident where allegedly occurred to assess whether physical barriers in the area may enable abuse; assess the adequacy of staffing levels where the incident allegedly occurred during various shifts; assess whether monitoring technology should be deployed or enhanced to supplement supervision by staff and document the review process by using the PREA database. Interviews with the Warden, PCM and sexual incident review team member confirmed that sexual abuse incident reviews are being completed and they include all the required elements under this provision. The Warden stated they use information from the sexual abuse incident reviews to prevent any future incidents. He stated they conduct a security assessment to determine if cameras or mirrors needs installed or if there is anything they can do to prevent the incident in the future. The PCM stated that she is part of the sexual abuse incident review team and she has not noticed any trends as they have not had any reviews. The PCM stated that after the report is submitted they would discuss anything that pertained to the facility. A review of the one allegation reported during the three year audit cycle noted it was sexual harassment and as such a sexual abuse incident review was not required.

115.86 (e): The PAQ indicated that the facility implements the recommendations for improvement or documents its reasons for not doing so. 103 DOC 519, pages 22-23 state the committee shall document its findings, including, but not limited to determinations made pursuant to the above and any recommendations for improvement. The institution shall implement the recommendations for improvement or shall document its reason for not doing so.

Based on a review of the PAQ, 103 DOC 519, investigative log, investigative reports, sexual abuse incident review form and information from interviews with the Warden, the PCM and member of the sexual abuse incident review team, this standard appears to be compliant.

Recommendation

The auditor highly recommends that the facility conduct a mock sexual abuse incident at least annually to go through the process associated with an incident, to include conducting a sexual abuse incident review.

1. Pre-Audit Questionnaire
2. 103 DOC 519 - Sexual Harassment/Abuse Response and Prevention
3. PREA Annual Reports

Interviews:

1. Interview with the Agency Head Designee
2. Interview with the PREA Coordinator
3. Interview with the PREA Compliance Manager

Findings (By Provision):

115.88 (a): The PAQ indicated that the agency reviews data collected and aggregated pursuant to 115.87 in order to assess and improve the effectiveness of its sexual abuse prevention, detection and response policies and training. The review includes: identifying problem areas, taking corrective action on an ongoing basis and preparing an annual report of its findings from its data review and any corrective actions for each facility, as well as the agency as a whole. 103 DOC 519, pages 23-24 state the Department shall review data collected and aggregated in order to assess and improve the effectiveness of its sexual harassment/abuse response prevention policy and all such efforts related to the prevention, detection and response to any and all sexual harassment/abuse allegations. Additionally, the collection and review of such data serves to give the Department the ability to continually enhance and improve its practices and training including: identifying problem areas; taking corrective action on an ongoing basis; and preparing an annual report of its findings and corrective action for each facility, as well as the Department as a whole. The interview with the Agency Head Designee indicated that the agency collects accurate uniform data for every allegation of sexual abuse and sexual harassment through the PREA database. He stated the data is used to focus on areas that involve a higher volume of incidents in order to identify any issues that may require corrective action, including training, education, staffing, etc. He confirmed that they take corrective action on an on-going basis. He stated they review each incident after the investigation and is completed (via the sexual abuse incident review) and take any necessary corrective action identified from the review. The interview with the PC confirmed that the agency takes corrective action on an ongoing basis. He advised they utilize the aggregated data to identify any areas that require additional training, education or staffing. The PC advised that the agency prepares an annual report, which includes recent findings from DOJ audits, corrective action and sexual abuse and sexual harassment data. The interview with the PCM indicated that the facility data is utilized to develop policy and procedure and determine if anything needs changed. A review of the last two PREA

Annual Reports indicates that reports include agency achievements for the prior year, aggregated data for the two prior years for comparison, tables of incidents by facility, identified problem areas, corrective action for the year, resolved problem areas for the prior year and a Department assessment.

115.88 (b): The PAQ indicated that the annual report includes a comparison of the current year's data and corrective actions with those from prior years and provides an assessment of the progress in addressing sexual abuse. 103 DOC 519, page 24 states that such report shall include a comparison of the current year's data and corrective action with those from prior years and shall provide an assessment of the agency's progress in addressing sexual abuse/harassment within the Department. A review of the last two PREA Annual Reports indicates that reports include agency achievements for the prior year, aggregated data for the two prior years for comparison, tables of incidents by facility, identified problem areas, corrective action for the year, resolved problem areas for the prior year and a Department assessment.

115.88 (c): The PAQ indicated that the agency makes its annual report readily available to the public at least annually through its website. The PAQ indicated the annual reports are approved by the Agency Head but further communication with the PC indicated this should have been marked yes. 103 DOC 519, page 24 states that the Department's report shall be approved by the Commissioner and made readily available to the public through the Department's website. The interview with the Agency Head Designee confirmed that the PREA Coordinator compiles all information and data and drafts the annual report. He stated it is submitted to the Deputy Commissioner and Commissioner to review and approve. A review of the website confirmed that the current PREA Annual Report as well as historical PREA Annual Reports dating back to 2013 are available on the agency website.

115.88 (d): The PAQ indicated when the agency redacts material from an annual report for publication the redactions are limited to specific material where publication would present a clear and specific threat to the safety and security of a facility. The PAQ stated that the agency indicates the nature of material redacted. 103 DOC 519, page 24 states that the Department shall redact specific materials from the report when publication would present a clear and specific threat to the safety and/or security of an institution, but shall indicate the nature of the material redacted. The interview with the PC confirmed that the agency would redact any information that is considered sensitive information, such as names, personal identifies and security information. A review of the PREA Annual Report confirmed that no personal identifying information was included in the report nor any security related information. The report did not contain any redacted information.

Based on a review of the PAQ, 103 DOC 519, PREA Annual Reports, the website and
