Bond**

BRIEF TIMELINE

- ENF was published in MEPA's Environmental Monitor on June 9, 2021
- Secretary's Certificate on the ENF directed the Proponents to include additional analysis of development of water sources in the DEIR
- NPC/Draft EIR published in the Environmental Monitor on October 8, 2025
- Final EIR submitted in the Environmental Monitor on July 22, 2026

ITA APPLICATION

- Comments on the Final EIR were due to MEPA on August 21, 2026
- Review of the FEIR indicated that WRC staff requires some additional clarifications/information which can be provided during ITA review; staff did not recommend further scoping for a supplemental EIR
- MEPA Certificate issued on August 28, 2026 – the project adequately and properly complies with MEPA

NEXT STEPS

- Request WRC **vote** to accept application as complete **today**
- Hold a public hearing before November 9, 2026 (to be scheduled)
- Aim to present draft staff recommendation at the December 10, 2026 WRC meeting
- Hold public hearing on draft staff recommendation before end of year
- Aim to vote on the staff recommendation at the January 2027 WRC meeting
