

recirclable

Delicious Takeout, Without the Waste

Margie Bell & Ulrike Mueller, Co-Founders
www.recirclable.com

Food Service Reuse Opportunity

Waste and Recycling:

- Nearly **1 trillion single use food service products** are used each year in the United States.¹
- Creates up to **9 million tons of single use plastic waste** annually (approx. 140 million tons worldwide)²
- Creates tremendous **consumer confusion**
 - What is/is not recyclable? Compostable?

Dollars:

- **Estimated market opportunity** of about **50 Billion USD** spend each year on single use.

Recirclable Enables a Circular Economy

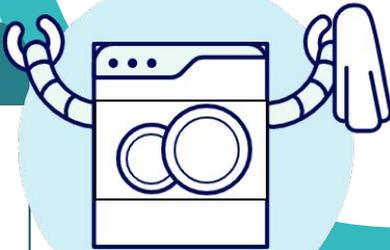

Save the Planet!

By offering reusable containers, restaurants substantially reduce waste.

Wash and Recirculate

Restaurants wash and recirculate returned containers.
