Contract Summary

This is a Statewide Contract for Temporary Help Services. Under PRF71, a single Managed Service Provider (MSP) in the vendor neutral space of the labor industry will manage the contract on behalf of the Commonwealth. Under this model, the MSP, serving as the single point of contact for the Commonwealth will access all available and qualified labor providers in the temporary labor market. It is expected that under this model, all pre-registered staffing suppliers are given an equal opportunity to fill each request for labor made by the Commonwealth without the MSP giving preference to a specific supplier. Suppliers or labor providers are selected for each request based on criteria as defined by the Commonwealth. The MSP is restricted from deciding on its own, which orders are routed to any supplier.

UPDATES:

- Appendix B, [Hourly Bill Rates and Pay Rates](#), has been updated effective 10/2/2023 to reflect current market rates and Sevenstep's experience with locating and placing workers under this contract. The rate increase applies to requisitions submitted to Sevenstep on or after 10/02/2023.
- The second and final renewal option of this contract has been executed, through June 30, 2025.

Contract Categories

This contract includes 2 categories of services as listed below.

- Category 1: Main Service
Category 2: Other Service

Eighty percent of the Commonwealth's concentration of spend for temporary help services falls within the job classifications in Category 1.

Benefits and Cost Savings

Statewide contracts are an easy way to obtain benefits for your organization by leveraging the Commonwealth's buying power, solicitation process, contracting expertise, vendor management and oversight, and the availability of environmentally preferable products.

This MSP will allow for the Commonwealth of Massachusetts to benefit from the competition and quality of labor that exists among the vast number of suppliers that currently exist in the temporary labor market whilst not having a competing interest of its own as the MSP is itself is not an employer of temporary labor. Other cost reduction drivers include:

- Centralized Order Management for reduced costs – Single point of contact
- Rates are inclusive of all vendor travel considerations and other ancillary charges
- Rates are inclusive of vendor costs associated with providing candidates
- Electronic Timecards and Consolidated Billing that saves time and expenses
- Dedicated Vendor Management System (VMS) for PRF71 and its buyers
- 30% of total program spend is expected to come from diverse suppliers
- Volume Discount: 0.5% for all programs spend after realizing an initial \$6M in total spend.
- Prompt Payment Discount

- Purchases made through this contract will be direct, outright purchases
- This is a fee for service contract

Pricing Options

- **Ceiling/Not-to-Exceed:** Contract discounts and other pricing published under the contract represents “ceiling” or “not-to-exceed” pricing, and may be further negotiated.
- **Pricing Markup for Temporary Help Services Categories**
 - The hourly pay rate charged to any Commonwealth eligible hiring entity will be based upon a maximum mark-up (36.5%) of the hourly pay rate for the temporary help worker. Markup is the fee charged over and above the hourly wage paid to the temporary help worker.
- **Pricing Direct/Executive Hire**
 - A direct-hire or contingency fee is paid to Sevenstep for the service provided, until the candidate represented by Sevenstep accepts and starts a position with the Eligible Hiring Commonwealth Entity. Under such requests Sevenstep must include any and all ancillary services in the project price. - **Conversion Policy**
 - Sevenstep must arrange with its suppliers to follow the conversion policy for hiring a Temporary Help Worker as a state employee, without a fee to the Commonwealth after the individual has fulfilled any Commonwealth or eligible entity assignment generated from any contract resulting from this contract.

Contract User Guide for PRF71

Appendix A: Commonwealth of Massachusetts Human Resources Division (HRD) - Temporary Worker Policy - Effective 1/1/2014

Scope

For the purposes of this policy, temporary employment is considered to be separate and distinct from contract and seasonal employment. This policy applies only to positions that fall within the Office of the State Comptroller object code J46. It does not apply to temporary workers who may be hired to perform information technology work. It is recommended that state agencies consult with ITD when hiring temporary workers to perform IT duties.

Definition

Temporary workers are defined as individuals who are engaged through a third-party vendor to fill positions that are temporary in nature. Temporary workers should not work more than 52 weeks without approval from the Secretariat-level Human Resources Director. Contract employees are individuals who do not occupy state positions, nor contribute to the State Retirement System or group insurance programs, but who must contribute to the Alternate Retirement System. Contract employees have employee-employer relationships pursuant to individual contracts with the Commonwealth. Contract employees are paid through the payroll system, have tax withholdings, and other deductions.¹

Process for Hiring Temporary Workers

Hiring of temporary workers is subject to Operational Services Division (OSD) requirements. Among other things, OSD requirements state that Executive Departments must use statewide contracts, if available, for commodities and services unless there is a prior written approval from the State Purchasing Agent. The process that agencies must follow when requesting this approval is explained in OSD Policy Guidance 05-19.

Allowable Reasons to Hire Temporary Workers

Acceptable reasons to hire a temporary worker may include the following:

- To assume the job duties of an employee who is on leave due to Family and Medical Leave Act (FMLA) leave or any other period of extended leave;
- To provide continuity of services during an emergency situation;
- To work on a project or task that is anticipated to be for a defined period of time (not to exceed 52 weeks without the approval of the Secretariat-level Human Resources Director) where it is impracticable to hire a regular state employee. If during the course of a temporary project or task, it becomes clear that the project or task is more permanent in nature, the agency must take action to hire permanent employees to work on the project consistent with ANF budget and policy guidelines.

Compensation

Temporary workers shall be compensated by the third-party vendor and shall not be eligible to receive benefits provided by the state to permanent state employees (e.g., health insurance, retirement benefits, etc.)

Cannot Hire Temporary Workers to Circumvent Other Rules, Policies, and Laws

- An agency may not hire a temporary worker as a substitute for or to avoid filling a vacant position that would otherwise be filled by a permanent hire or to circumvent other rules, hiring caps, or policies that govern hiring Commonwealth employees or contracts staff.
- Temporary workers may be hired on a short-term basis for a period not to exceed 52 weeks without approval from the Secretariat-level Human Resources Director or his /her designee and/or Labor Relations personnel or other appropriate reviewer designated by the agency.
- Secretariat-level Human Resources Directors or their designees shall conduct an annual review of all temporary worker appointments in agencies within their Secretariat. When an agency has the need to employ a temporary

worker for more than 52 weeks, the Secretariat-level Human Resources Director or his/her designee may approve the extension.

- If an agency has hired temporary workers to work on projects funded by capital funds or federal funds which restrict the hiring of full-time, permanent employees, a notation should be recorded in the agency's internal files reflecting this to be the reason for the hiring of any temporary workers.
- HRD reserves the right to audit agency's use of temporary workers at any time. Agencies not in compliance with this policy will be notified and must become compliant immediately.
- This policy is not intended to supplant any existing Commonwealth policies governing the hiring of contract and/or seasonal employees.

Questions & Answers

Question: If an agency hires a temporary worker for a three- week project and, at the conclusion of the project, wishes to retain the temporary employee for another four- week project, how does that get counted towards the 52- week period under the policy?

Answer: The 52-week temporary employment period is intended to be project-specific rather than individual specific. If Temporary Project #1 is completed after three weeks and the agency wishes to hire a temporary employee for Temporary Project #2, then a new 52-week period would apply to Temporary Project #2 (even if it hires the same temporary employee who worked on Temporary Project #1).

Question: What if an agency has hired a temporary worker to work on a task not to exceed 52 weeks and the temporary worker leaves because s/he has found permanent employment elsewhere? If the temp agency sends a new employee to complete the task, does that start a new 52-week period?

Answer: As previously indicated, the 52-week temporary employment period is intended to be project or task-specific. So, if one temporary worker leaves before the project or task is completed and another temporary worker is hired to complete the project or task, it will all count towards the same 52-week maximum.

Question: Can an agency fill a particular position (e.g., receptionist) by hiring a different temporary worker every 52 weeks year after year?

Answer: No. Under the Temporary Worker Policy, a temporary worker may not be hired as a substitute for or to avoid filling a vacant position that would otherwise be filled by a permanent employee. Temporary workers are only intended to fill staffing needs that are for a specified duration. If an agency determines that its particular staffing need is continuous or cyclical in nature, then it should consider hiring a permanent or seasonal employee consistent with ANF budget and policy guidelines.

Question: What if the particular assignment is temporary but the agency knows from the outset that the project will exceed 52 weeks?

Answer: If the agency has determined that it cannot fill the position with a contract employee, then it may hire a temporary worker and, at the end of the 52 week temporary employment period, extend the temporary worker as necessary after approval by the Secretariat-level Human Resources Director or his/her designee.

Question: What if an agency realizes that the need for a temporary worker, originally intended to be less than 52 weeks, will now be greater than 52 weeks?

Answer: The agency must file with their Secretariat-level Human Resources Director a request to extend the services of a temporary worker beyond the 52-week period at least 45 days prior to the end of the 52 week period.

Question: Can an agency hire a temporary worker into a permanent position?

Answer: Any permanent hires must be done consistent with existing budget, human resource and policy guidelines. In addition, the agency must ensure that hiring the temporary worker into a permanent position would not violate any provisions of the temporary help contract used to secure the services of the temporary worker.

Question: Can a temporary worker supervise the work of a regular, permanent employee?

Answer: No.

Days for this purpose refers to business days.

As required, Sevenstep shall submit reports showing performance indicators, performance targets and actual results achieved. The report shall be provided for each state agency using the contract.

In addition to the KPIs above, Sevenstep will be subject to a monthly customer performance review executed by each agency that hired persons for that period. The review will highlight positive and negative points about the Vendor's processes and resources in order to identify areas for improvement. The hiring manager will review the results and include overall results as part of the supplier's scorecard.

Sevenstep will be allowed a sixty (60) day grace period during the implementation phase of the Contract to ramp up services without scoring on the performance metrics. After the sixty (60) day grace period, report tracking will begin. The first report shall be due by the MSP to the SST team one month after the grace period ends.

Corrective Action Process

Progress meetings shall be scheduled and held with Sevenstep monthly for the first six months of the contract and quarterly for the remainder of the contract regardless of whether or not there are contract violations. These meetings are geared towards managing the supplier relationship and ensuring that the contract is being executed as per the contract's terms and conditions. Contract violations will be documented by the state agencies in which they occurred and submitted to the vendor and the SST team each month for the appropriate action to be taken.

Failure to perform contractual obligations

Failure to perform as per the RFR terms of this contract may result in a corrective action plan, inclusive of termination consistent with the provisions of the Commonwealth Terms and Conditions.

Q: Are the temporary workers employed through Sevenstep vendors eligible for any healthcare or time off benefits through Sevenstep or the vendors?

A: Typically, yes, but the benefits offered to an employee will vary by supplier as their employer.

Q: How many VectorVMS logins can an agency have and approval path in VectorVMS (i.e. if my agency has one person who needs to approve everything, but also needs a Hiring Manager at every one of our sites to enter the skills for the requisition, and someone else to approve timesheets for ongoing engagements)?

A: There is no limit to the number of VectorVMS logins an agency can have. Sevenstep can also configure the approval path to align with what you need. You may have one person that enters the requisition, another person that needs to approve the requisition, and a different person that needs to approve timesheets, and that is fine. Sevenstep can configure VectorVMS appropriately.
