Translation and Interpretation:

Interpreting:

Interpreting is the process of fully understanding, analyzing, and processing a spoken message and then faithfully rendering it into another spoken language. Interpreters must be able to accurately convey the meaning from one language to another in a culturally appropriate manner, mindful of the setting in which they are rendering their services.*

Interpretation Services include:

- Oral face to face interpretation (in-person)
- Telephonic Interpretation Services/Video Remote Interpretation (VRI. Services may take place in a variety of settings such as office buildings, medical facilities, hearing offices, schools, construction sites, individual and family homes, or other locations as deemed necessary.

Fee Structure for Interpretation Services are to be billed at an hourly rate with a minimum time agreed upon by the purchasing entity and the vendor, which shall be either one or two hours. Time beyond this minimum will be billed in 15-minute increments. Please review **RFR Section: 7** Compensation Structure for details on pricing and billing.

Interpreters:

Unless a Purchasing Entity has specified a longer period, Contractors are required to arrive at least fifteen (15) minutes prior to the scheduled time of on-site scheduled appointment in order to receive any instructions from the Purchasing Entity. The Contractor is responsible for taking all necessary actions to obtain adequate transportation, accurate times, locations, directions, telephone numbers, contact person(s) and any other information or actions to ensure that they are present at the proper location at the time specified.

Contractors may be penalized for being late. Purchasing Entities may dock payment for the period Contractor was late from the total period of performance time. Contractors who are continually late may be terminated from the Statewide Contract for poor performance. Performance time shall consist of the total time the Contractor is on-site performing services under the Statewide Contract. This includes the time in advance of scheduled assignment (**usually 15 minutes unless a longer period is specified**), any time preceding actual performance that the Contractor is waiting to begin performance due to delays not caused by the Contractor; such as time required by the Purchasing Entity to answer questions, or to receive any additional instructions from the Purchasing Entity. The Contractor must keep an accurate record of all performance time. The Purchasing Entity will certify this record on the completion of performance.

Upon request, Contractors may be asked to provide documentation about vaccination history.

The Contractor must respond to incoming calls/requests for services within an average of 15 seconds (for a live agent) or 5 seconds (for an automated voice response system).

The Contractor shall maintain an average monthly successful connection (to interpreter) time, *for all languages provided*, of 30 seconds or less.

The time required to set-up the conference call prior to the interpreter joining the call and any continuation of the conference call once the interpreter has dropped off, will not be chargeable time. The contractor may not terminate the conference call at any time before all parties to the call have dropped off, regardless of whether the services of the interpreter are no longer needed. The Contractor shall provide an Account Team that is dedicated to support the activities provided under this initiative.

The translation must also convey the style, tone and intent of the text, while taking into account differences of culture and dialect. The finished document should read as if it had originally been written in the target language for the target audience.”*
