

Primary Care Sub-Capitation Provider Type and Specialty Logic- Effective 4/1/2023

In addition to meeting other criteria from the primary care sub-capitation claims logic, the servicing or attending provider must have at least one specialty from the Included Provider Specialties list below and none from the Excluded Provider Specialties list below. There are several provider specialties that are not on either list. These unlisted specialties have no impact on whether a claim is covered by primary care sub-capitation.

At least one of the following specialties:

Included Provider Specialties
Family Medicine
Geriatric Medicine
Internal Medicine
Nurse Practitioner
Pediatric Medicine
Physician Assistant

Must not have one of the following specialties:

Excluded Provider Specialties
Anesthesiology
Dermatology
Nuclear Medicine
Physical Therapy
Psychiatry
Radiology
Surgery
