

Print a license

If you want to download a PDF file of a license to your device, or if you want to print it, here's how.

- 1) Log in to your eLIPSE account.
- 2) On the Home screen, hover on **My Dashboard** and then click **Licenses And Permits**.

- 3) Locate the license you want to work with, and then click the **View License Details** control below it.
- 4) At the top of the box that eLIPSE displays, click the **Go to your License Record and Print License** button.
- 5) eLIPSE displays the license. From this display, you can download the license file to your device and you can press Ctrl-P to bring up a Print dialog box to print it.

If you want to update the picture on your license, please refer to this How-to guide: [Update the picture on your license](#).
