Dear Mr. Jamroz, Mr. Goepel and Mr. Vanek:

It has come to my attention that your companies are providing private charter flights – at significant expense to United States taxpayers – to U.S. Immigration and Customs Enforcement out of Hanscom Field in Massachusetts to facilitate ICE's disturbing and anti-American deportation tactics. Your provision of aircraft and personnel allows ICE to quickly remove residents and sever them from their family, friends, community, and legal counsel without due process of law.

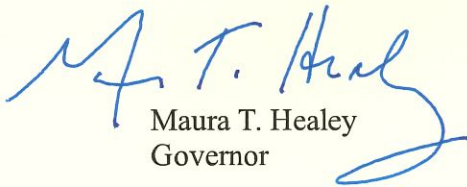

You should know that a significant majority of people detained by ICE in Massachusetts over the past year have *no* criminal convictions or charges. They are hard-working, productive, and beloved members of our community who have been indiscriminately targeted for deportation proceedings. Many of them are in the midst of a lawful process seeking citizenship through Massachusetts courts. Some have been United States citizens. Some have been children. And as we have seen in our communities and, most recently, in Minnesota, ICE's tactics are increasingly chaotic, brutal, and even deadly. This doesn't make our communities safer – it in fact makes us all less safe.

On behalf of American taxpayers, I also find it incomprehensible that the Trump administration is choosing to spend hundreds of millions of dollars on private jets to obstruct people's due process at a time when they are denying hunger benefits, cutting health care access, and raising costs on everyone through costly tariffs.

Flying these residents out of state—often within hours of arrest—is intentionally cruel and purposely obstructs the due process and legal representation they are entitled to. By contracting with ICE to execute these flights, you are profiting off these anti-American tactics and facilitating the obstruction of due process.

This is not the justice we believe in or stand for in Massachusetts or as Americans. I hope your company agrees. That is why I am urging you to immediately stop providing flights to ICE at Massachusetts airports and stop providing services or equipment in any capacity that enables the deportation of residents without due process. One of your peer companies recently cut ties with ICE. It's time for you to do the same.

Sincerely,

Maura T. Healey
Governor
