ACTUARIAL OPINION

[For a company actuary]:

[I, _____(name and title of actuary) _____, am an _____(officer) (employee) _____ of _____(name of insurer)_____ and am a member of the American Academy of Actuaries. I am familiar with the applicable statutory provisions of M.G.L. 176J and 211 CMR 66.00.]

[For a consulting actuary]:

[I, _____(name and title of consulting actuary)____ am associated with the firm of _____ (name of consulting actuarial firm)_____ and am a member of the American Academy of Actuaries. I have examined the actuarial assumptions and actuarial methodologies under M.G.L. c. 176J to be used by _____ (name of insurer) _____ in setting small employer and eligible individual health insurance premium rates outside group purchasing cooperatives and the procedures used by _(name of insurer)_ in implementing small employer and eligible individual health insurance rating plans under M.G.L. c. 176J. I have used one of the following methods as the basis of my opinion that the premium rates under M.G.L. c. 176J and procedures are in compliance with M.G.L 176J and 211 CMR 66.00 (check box that applies):

[If the actuary examined rating policies and procedures] :

[ ] 1. I determined that nothing in the rating policies and procedures would allow an individual employer group's or eligible individual's claim experience, health history, or duration of coverage to be used in a

~~manner that violates the rate restrictions of M.G.L. c. 176J and 211 CMR 66.00.~~

~~[If the actuary tested the results of rating procedures on the distribution of rates and renewal increases]:~~

[ ] 2. I relied on listings and summaries of relevant data prepared by _____ (name and title of company officer responsible for preparing the underlying records if different from the certifying actuary). I tested a sample in each class of business and verified that, after being reclassified to common rate basis types and benefit design characteristics, the resultant rate differences were in compliance with M.G.L. 176J and 211 CMR 66.00.

In other respects, my examination included a review of the actuarial assumptions and actuarial methods and the tests of the actuarial calculations that I considered necessary.

I certify that for the period _____ to _____ the premium rates and rating plan under M.G.L. c. 176J of _____(insurer)_____ met the following requirements:

[ ] I have also examined any group purchasing cooperative adjustment factors used by _____ (name of insurer) _____ and certify that any factor of less than 1.0 is based on the actuarially projected different experience of that cooperative's potential covered members compared to the experience of those eligible individuals and eligible employers who have coverage outside all of the group purchasing cooperatives and that such factor is applied uniformly to the rates of all persons who obtain coverage through that group purchasing cooperative.

Please provide any further written comments regarding any information or statement made in this certification on separate attached sheets of paper.
