Subject: Advance Notification of the Proposed Intersection Improvement Project at Route 28 (Randolph Avenue) and Chickatawbut Road in Milton, MA
Attachments: EJ screening form (CHINESE).pdf; EJ screening form (ENGLISH).pdf

Good afternoon,

On behalf of the Proponent, Massachusetts Department of Transportation (MassDOT), I am pleased to send you this advance notification of the Proposed Intersection Improvement Project at Route 28 (Randolph Avenue) and Chickatawbut Road in Milton, MA.

The Project proposes to replace the existing Route 28 at Chickatawbut Road signalized intersection with a multi-lane roundabout to improve safety and reduce congestion. The Project would also construct a 10-foot-wide shared use path on both sides of Route 28 and Chickatawbut Road for better and safer connectivity for bike and pedestrian access throughout the intersection.

The Proponent plans to submit an Expanded Environmental Notification Form (EENF) to the Massachusetts Environmental Policy Act (MEPA) Office to initiate state environmental review of the project, no sooner than September 15, 2023. More general information about the Project and how community members can become engaged is provided in the attached English and Chinese Environmental Justice Screening Forms.

If you are interested in learning more about the Project or would like to receive a paper copy of the attached notice, please feel free to contact Alyssa Jacobs at ajacobs@epsilonassociates.com.

Community-based organizations and tribal organizations are receiving this notification in accordance with the MEPA Public Involvement Protocol for Environmental Justice Populations, which took effect on January 1, 2022. More information is available on the [MEPA website](#).

Thank you for your interest in this Project.

Regards,

Hiromi M. Hashimoto, LEED AP
