242	senior, family, and wedding photos on and under the bridge & in background.	Are there activities on the current bridge that we have missed?	uses, photography, community, aesthetic, visual, current bridge	Aesthetic
243	photography, Duxhenge!	Are there activities on the current bridge that we have missed?	photography, duxhenge, uses, recreation, aesthetic, visual, current bridge	Aesthetic
75	biking	Are there activities that people do along the bridge without a sidewalk?	biking, uses, recreation, current bridge, sidewalk	Functional (Complete Streets)
76	fishing	Are there activities that people do along the bridge without a sidewalk?	fishing, uses, recreation, sidewalk, current bridge	Functional (Complete Streets)
77	walking	Are there activities that people do along the bridge without a sidewalk?	walking, uses, recreation, sidewalk, current bridge	Functional (Complete Streets)
78	running	Are there activities that people do along the bridge without a sidewalk?	walking, running, uses, recreation, sidewalk, current bridge	Functional (Complete Streets)
79	the intimacy of the bridge makes drivers drive slowly.	Are there activities that people do along the bridge without a sidewalk?	aesthetic, width, speed, sidewalk, current bridge	Functional (Complete Streets)
80	one sidewalk suffices, we make room for each other!	Are there activities that people do along the bridge without a sidewalk?	sidewalk, uses, walking, community, complete streets, current bridge	Functional (Complete Streets)
81	take photos	Are there activities that people do along the bridge without a sidewalk?	aesthetic, uses, recreation, photography, visual, sidewalk	Functional (Complete Streets)
82	running	Are there activities that people do along the bridge without a sidewalk?	running, walking, uses, recreation, sidewalk	Functional (Complete Streets)
83	fishing off both sides, day and night, especially full moon	Are there activities that people do along the bridge without a sidewalk?	fishing, uses, recreation, night, sidewalk	Functional (Complete Streets)
84	bike	Are there activities that people do along the bridge without a sidewalk?	biking, sidewalk, complete streets,	Functional (Complete Streets)
85	dog walking	Are there activities that people do along the bridge without a sidewalk?	walking, recreation, animals, sidewalk, current bridge	Functional (Complete Streets)
86	running - not always safe on sidewalk	Are there activities that people do along the bridge without a sidewalk?	running, walking, uses, recreation, sidewalk, safety, current bridge, complete streets, current bridge	Functional (Complete Streets)
87	bird watching	Are there activities that people do along the bridge without a sidewalk?	uses, recreation, animals, environment, sidewalk, current bridge, complete streets	Functional (Complete Streets)
88	dog walking	Are there activities that people do along the bridge without a sidewalk?	walking, recreation, animals, sidewalk, current bridge	Functional (Complete Streets)
41	the memories - past, current, and future	My favorite part of the bridge is...	nostalgia, aesthetic, community, history	Other
42	the history	My favorite part of the bridge is...	history, aesthetic,	Other
43	history	My favorite part of the bridge is...	history	Other
44	historical - has been in place since 1891	My favorite part of the bridge is...	history, current bridge	Other
45	the way people feel about it	My favorite part of the bridge is...	feeling, community, current bridge	Other
46	it feels like home	My favorite part of the bridge is...	community, feeling, current bridge	Other
47	all times of the day	My favorite part of the bridge is...	day, night, current bridge	Other
89	I like the middle where you can look out across the water	My favorite part of the bridge is...	aesthetic, bay, current bridge, visual	Functional (Complete Streets)
90	bragging rights "the longest/ oldest wooden bridge in..."	My favorite part of the bridge is...	history, community, aesthetic, current bridge	Functional (Complete Streets)
91	a place where people meet and chat a bit. Sense of community	My favorite part of the bridge is...	uses, recreation, community,	Functional (Complete Streets)
92	riding over it	My favorite part of the bridge is...	biking, uses, recreation	Functional (Complete Streets)
93	running over it	My favorite part of the bridge is...	running, uses, recreation	Functional (Complete Streets)
94	walking over it	My favorite part of the bridge is...	walking, uses, recreation,	Functional (Complete Streets)
95	driving over it	My favorite part of the bridge is...	driving, uses, recreation,	Functional (Complete Streets)
96	length	My favorite part of the bridge is...	aesthetic	Functional (Complete Streets)
97	activities (fishing, walking)	My favorite part of the bridge is...	recreation, uses,	Functional (Complete Streets)
98	community	My favorite part of the bridge is...	community	Functional (Complete Streets)
99	walking my dog and running into my aunt who drives from marshfield to walk it	My favorite part of the bridge is...	walking, animals, community, uses, recreation, current bridge	Functional (Complete Streets)
100	going under the bridge - by boat OR walking	My favorite part of the bridge is...	underside, uses, walking, boating, current bridge, visual	Functional (Complete Streets)
101	social aspect of walking or fishing - meeting neighbors	My favorite part of the bridge is...	community, walking, fishing, uses, current bridge	Functional (Complete Streets)
102	life line year-round to beach	My favorite part of the bridge is...	beach, use, walking, summer, winter, current bridge	Functional (Complete Streets)
103	watching the sunset	My favorite part of the bridge is...	sunset, current bridge	Functional (Complete Streets)

244	it's the first place we take out-of-town guests	My favorite part of the bridge is...	community, aesthetic, current bridge	Aesthetic
245	the wooden surface	My favorite part of the bridge is...	wood, current bridge	Aesthetic
246	it's part of the soul of the town	My favorite part of the bridge is...	community, history, current bridge	Aesthetic
247	the anticipation of reaching the beach and the vast openness of the atlantic ocean	My favorite part of the bridge is...	aesthetic, feeling, beach, visual, current bridge	Aesthetic
248	the SOUND it makes when you drive	My favorite part of the bridge is...	sound, wood, driving, aesthetic,	Aesthetic
249	it's a part of the soul of the town	My favorite part of the bridge is...	community, aesthetic, current bridge	Aesthetic
250	it's an escape from the modern world. I love the sound and sights	My favorite part of the bridge is...	community, history, feeling, aesthetic, current bridge	Aesthetic
251	feeling pulled back in time	My favorite part of the bridge is...	history, nostalgia, aesthetic, current bridge	Aesthetic
252	feeling connected to the history of the town	My favorite part of the bridge is...	history, community, aesthetic	Aesthetic
253	the unique charm of wood transport over the sea. The simplicities, new england	My favorite part of the bridge is...	unique, wood, bay, feeling, community, history, uses	Aesthetic
254	the elegance, it plends into the environment	My favorite part of the bridge is...	aesthetic, feeling, environment	Aesthetic
255	the sound walking across	My favorite part of the bridge is...	sound, wood, walking, aesthetic	Aesthetic
256	the nostalgia, sense of ease + calm. A beautiful sunrise ride over the bridge calms the soul, a moment before the world is awake.	My favorite part of the bridge is...	nostalgia, feeling, aesthetic, sunrise, current bridge, visual	Aesthetic
257	wood	My favorite part of the bridge is...	wood	Aesthetic
258	sound when driving over	My favorite part of the bridge is...	sound, driving, aesthetic	Aesthetic
259	the sound of cars on a busy Sunday	My favorite part of the bridge is...	sound, driving, wood, traffic, current bridge	Aesthetic
260	the noise of the cars traveling over	My favorite part of the bridge is...	sound, driving, wood, aesthetic, current bridge	Aesthetic
261	the way it looks - unique	My favorite part of the bridge is...	unique, aesthetic, current bridge, visual	Aesthetic
262	sunset pictures	My favorite part of the bridge is...	sunset, photography, visual, current bridge	Aesthetic
263	sunrise	My favorite part of the bridge is...	sunset, current bridge	Aesthetic
264	sunset	My favorite part of the bridge is...	sunset, current bridge	Aesthetic
265	high tide and low tide	My favorite part of the bridge is...	day, night, current bridge	Aesthetic
266	night time	My favorite part of the bridge is...	night, current bridge	Aesthetic
6	new bridge - sustainable (long lasting)	Station 1: Aesthetics; easel notes	new bridge, environment, structural, concern	Structural
7	height of the bridge? (it may be raised due to the sea level)	Station 1: Aesthetics; easel notes	question, structural, bay	Structural
8	question about access of bridge during construction	Station 1: Aesthetics; easel notes	question, construction, uses, new bridge	Structural
9	materials that have longevity, Metal grading	Station 1: Aesthetics; easel notes	structural, new bridge	Structural
10	What is the location of the new bridge?	Station 1: Aesthetics; easel notes	question, new bridge,	Structural
11	Why are the planks not spaced for drainage?	Station 1: Aesthetics; easel notes	question, structural, environment, wood	Structural
12	Add a wide space that is identifiable for boats to pass below	Station 1: Aesthetics; easel notes	boating, safety, bay, new bridge	Structural
13	4 piles instead of 5	Station 1: Aesthetics; easel notes	piles, new bridge, structural, aesthetic new bridge	Structural
14	Add new piles between the existing piles to support	Station 1: Aesthetics; easel notes	piles, structural, aesthetic, new bridge	Structural
53	seeing /transitioning - part of life..	Station 1: Aesthetics; easel notes	feeling, community, nostalgia, visual, current bridge	Other
54	replace faster	Station 1: Aesthetics; easel notes	new bridge, concern	Other
55	historical/landmark	Station 1: Aesthetics; easel notes	history, nostalgia, current bridge, visual	Other
56	bridge is awesome	Station 1: Aesthetics; easel notes	feeling, current bridge,	Other
57	beach should stay in powerpoint near the lighthouse	Station 1: Aesthetics; easel notes	beach, new bridge, bay	Other
58	An iconic part of the town's history	Station 1: Aesthetics; easel notes	history, nostalgia, current bridge, visual	Other
59	Concern about the town budget - why the town should fund if they don't have the money? - Considering all options to replace	Station 1: Aesthetics; easel notes	concern, construction, new bridge, rehabilitation	Other
127	friends meet at the bridge	Station 1: Aesthetics; easel notes	feeling, current bridge, community, uses	Functional (Complete Streets)
128	brought family back	Station 1: Aesthetics; easel notes	community, nostalgia, current bridge	Functional (Complete Streets)
129	used to play under the bridge	Station 1: Aesthetics; easel notes	nostalgia, uses, recreation, underside, current bridge, community	Functional (Complete Streets)
130	observation deck	Station 1: Aesthetics; easel notes	new bridge, uses, recreation	Functional (Complete Streets)
131	not handicap friendly, needs to be accessible	Station 1: Aesthetics; easel notes	complete streets, current bridge, uses, safety, concern	Functional (Complete Streets)
132	crusty new england. Needs to be kept slow	Station 1: Aesthetics; easel notes	speed, traffic, feeling, aesthetic	Functional (Complete Streets)
133	sidewalk could be under [the bridge]	Station 1: Aesthetics; easel notes	underside, sidewalk, new bridge	Functional (Complete Streets)
134	increasing width won't make huge difference	Station 1: Aesthetics; easel notes	width, new bridge, aesthetic	Functional (Complete Streets)
135	safe streets, railing required inside would ruin the aesthetics.	Station 1: Aesthetics; easel notes	complete streets, safety, aesthetic, new bridge, rail	Functional (Complete Streets)
136	there's an interaction between people utilizing the bridge	Station 1: Aesthetics; easel notes	community, current bridge	Functional (Complete Streets)
137	no inside railing. Limit the speed 10mph	Station 1: Aesthetics; easel notes	safety, speed, traffic, complete streets, aesthetic, rail	Functional (Complete Streets)
138	like a cellphone tower	Station 1: Aesthetics; easel notes	fishing, new bridge, visual, aesthetic, concern	Functional (Complete Streets)
139	A rail between vehicles and pedestrians would limit the space for pedestrians to pass each other in times with high traffic (2 tallies)	Station 1: Aesthetics; easel notes	rail, new bridge, safety, uses, walking, traffic,	Functional (Complete Streets)
140	People spend time on the bridge to fish, watch the sunset, etc.	Station 1: Aesthetics; easel notes	uses, fishing, sunset, recreation, current bridge	Functional (Complete Streets)
141	Make another sidewalk on the other side	Station 1: Aesthetics; easel notes	sidewalk, width, walking, biking, aesthetic, new bridge	Functional (Complete Streets)
142	Only town residents can use the bridge. They will take better care.	Station 1: Aesthetics; easel notes	new bridge, community	Functional (Complete Streets)
143	Narrow bridge keeps traffic slow.	Station 1: Aesthetics; easel notes	width, speed, traffic	Functional (Complete Streets)
144	Plenty of people walk under the bridge, especially during low tide	Station 1: Aesthetics; easel notes	underside, uses, walking,	Functional (Complete Streets)
145	Popular place for photography	Station 1: Aesthetics; easel notes	photography, visual, uses, recreation	Functional (Complete Streets)
146	Guardrail shadows create icy conditions on southside walking	Station 1: Aesthetics; easel notes	safety, winter, sidewalk, rail	Functional (Complete Streets)
147	Roadway is better in the winter	Station 1: Aesthetics; easel notes	winter, driving, uses	Functional (Complete Streets)
148	Will the speed limit be changed?	Station 1: Aesthetics; easel notes	question, speed, traffic	Functional (Complete Streets)
149	What is the required lane width?	Station 1: Aesthetics; easel notes	question, traffic, width	Functional (Complete Streets)
150	Sidewalks on both sides with bike lanes	Station 1: Aesthetics; easel notes	sidewalks, width, biking, walking, uses, new bridge	Functional (Complete Streets)
151	It is difficult to pass others, dogs, and fisherman. A wide cross section is not preferred, but more space should be considered	Station 1: Aesthetics; easel notes	sidewalk, width, fishing, walking, uses, recreation	Functional (Complete Streets)
152	Maintain low speeds via the wearing surface	Station 1: Aesthetics; easel notes	speed, traffic, wood,	Functional (Complete Streets)
211	wood super imposed, fake wood would impact oyster beds	Station 1: Aesthetics; easel notes	wood, environment, fishing, animals, structural	Environmental

212	Raising the bridge lets more big boats into the harbor, can damage the marsh	Station 1: Aesthetics; easel notes	concern, bay, boating, environment, fishing, uses, recreation, animals, environment, bay	Environmental
213	Fishing happens on the south side of the bridge, oysters in the bay on the north, juvenile sand tiger sharks on the south	Station 1: Aesthetics; easel notes	wood, environment, concern, new bridge	Environmental
214	Asbestos in "fake wood" could be an issue for oysters	Station 1: Aesthetics; easel notes	question, environment, bay, construction, concern	Environmental
215	Questions and concerns about concrete into the bay	Station 1: Aesthetics; easel notes	aesthetic, feeling, visual, current bridge	Aesthetic
282	cadence - repetitiveness - calming	Station 1: Aesthetics; easel notes	aesthetic, wood, current bridge	Aesthetic
283	evocating - clickiness - rough texture and sound	Station 1: Aesthetics; easel notes	feeling, community, nostalgia, current bridge	Aesthetic
284	warm structure, part of family – like a hug	Station 1: Aesthetics; easel notes	wood, feeling, aesthetic, current bridge	Aesthetic
285	I love the wood	Station 1: Aesthetics; easel notes	wood, new bridge, aesthetic	Aesthetic
286	wood slats walkway	Station 1: Aesthetics; easel notes	new bridge, concern	Aesthetic
287	use lighter cement	Station 1: Aesthetics; easel notes	unique, aesthetic, current bridge, visual	Aesthetic
288	the length is so unique, very new england	Station 1: Aesthetics; easel notes	environment, aesthetic, wood, visual	Aesthetic
289	keep the feeling of the beach at the start	Station 1: Aesthetics; easel notes	new bridge, feeling, beach, aesthetic	Aesthetic
290	materials - alternatives for wood? What other options? Composite material to maintain look	Station 1: Aesthetics; easel notes	question, wood, structural, visual	Aesthetic
291	wood cladding? Photographer: unbroken line, details in the piling.	Station 1: Aesthetics; easel notes	photography, wood, aesthetic, visual, current bridge	Aesthetic
292	natural aesthetics, no steel and concrete, the beach, sky and wood add to the beauty of the bridge	Station 1: Aesthetics; easel notes	environment, aesthetic, wood, visual	Aesthetic
293	bridge material, all wood top, concrete structure. 6000 signatures. Stabilization and save the rhythm	Station 1: Aesthetics; easel notes	wood, piles, underside, rehabilitation, aesthetics, new bridge	Aesthetic
294	save the horizon, don't do too many railings	Station 1: Aesthetics; easel notes	visual, sunset, safety, rail	Aesthetic
295	Sound of the bridge - bumpiness of the planks (5 taliess)	Station 1: Aesthetics; easel notes	sound, wood, aesthetic	Aesthetic
296	Natural setting - the beauty of the scenery needs to be preserved	Station 1: Aesthetics; easel notes	aesthetic, environment, visual, new bridge	Aesthetic
297	Keep as much wood as possible (4 taliess)	Station 1: Aesthetics; easel notes	wood, aesthetic, new bridge,	Aesthetic
298	Keep the superstructure as is or as close as possible	Station 1: Aesthetics; easel notes	rehabilitation, current bridge, aesthetic	Aesthetic
299	Span length- keep the aesthetic	Station 1: Aesthetics; easel notes	aesthetic, current bridge	Aesthetic
300	Needs to be sound - solid - salt, water, and weather withstanding	Station 1: Aesthetics; easel notes	concern, structural, environment, new bridge	Aesthetic
301	Substructure does not need to be wood	Station 1: Aesthetics; easel notes	structural, new bridge, underside	Aesthetic
302	Would love to see wood as the driving surface	Station 1: Aesthetics; easel notes	wood, driving, new bridge,	Aesthetic
303	What can be done for composite materials? Wraps? Thinking of housing and what is used there.	Station 1: Aesthetics; easel notes	question, wood, structural,	Aesthetic
304	Steel wrapped or composite	Station 1: Aesthetics; easel notes	structural	Aesthetic
305	Spray painted metal is not ideal	Station 1: Aesthetics; easel notes	concern, environment, structural,	Aesthetic
306	Want the bridge to look like wood	Station 1: Aesthetics; easel notes	aesthetic, new bridge, wood,	Aesthetic
307	Can the piles mimic wood?	Station 1: Aesthetics; easel notes	question, wood,	Aesthetic
308	Could you do crossed beams? I like the aesthetic of crossed beams.	Station 1: Aesthetics; easel notes	underside, aesthetic, wood, visual	Aesthetic
309	What materials are being considered?	Station 1: Aesthetics; easel notes	question, structural, aesthetic, new bridge	Aesthetic
310	Consider a covered bridge using as much wood as possible	Station 1: Aesthetics; easel notes	new bridge, wood, aesthetic,	Aesthetic
311	Keep existing piles	Station 1: Aesthetics; easel notes	piles, structural, aesthetic, new bridge	Aesthetic
312	Stamped and dyed concrete is a POSSIBLE compromise	Station 1: Aesthetics; easel notes	new bridge, aesthetic, structural	Aesthetic
15	balance between railing height for safety vs making it like a wall and blocking the view	Station 1: Aesthetics; sticky notes	sidewalk, aesthetic, safety, rail	Structural
16	concerned about navigation channel. Needs to be mindful of the width and height at various times (ie tide)	Station 1: Aesthetics; sticky notes	boating, bay, underside, width, structural,	Structural
17	Assess if the bridge can be left as a pedestrian bridge (would be okay if lost the vehicular bridge)	Station 1: Aesthetics; sticky notes	walking, sidewalk, current bridge, structural	Structural
60	how much money to maintain the new materials? Wood?	Station 1: Aesthetics; sticky notes	question, wood, structural, construction	Other
153	would love to have a bigger walking lane	Station 1: Aesthetics; sticky notes	sidewalk, width, complete streets	Functional (Complete Streets)
154	If we build a better bridge, won't people drive faster?	Station 1: Aesthetics; sticky notes	question, concern, traffic, safety, complete streets	Functional (Complete Streets)
155	there is a ton of use under the bridge and around the bridge. That needs to be considered	Station 1: Aesthetics; sticky notes	uses, underside, concern	Functional (Complete Streets)
156	Keep the bridge open as long as possible	Station 1: Aesthetics; sticky notes	construction, current bridge	Functional (Complete Streets)
313	use as much wood as possible	Station 1: Aesthetics; sticky notes	structural, new bridge, wood	Aesthetic
314	the railings are super important to the way it feels when you're on it	Station 1: Aesthetics; sticky notes	rail, feeling, sidewalk, current bridge	Aesthetic
315	acoustics as critical as the design- unique to duxbury + part of the aesthetics of the bridge	Station 1: Aesthetics; sticky notes	sound, aesthetic, feeling, historic, wood	Aesthetic
316	the sound of the planks when you drive over is so relaxing!	Station 1: Aesthetics; sticky notes	sound, wood, driving, aesthetic, current bridge	Aesthetic
317	want new bridge to be pretty & still want to take nice photos	Station 1: Aesthetics; sticky notes	photography, wood, aesthetic, visual, new bridge	Aesthetic
318	It is important to have as much wood as possible in the new design	Station 1: Aesthetics; sticky notes	concern, wood, new bridge, aesthetic,	Aesthetic
319	When possible, use wood-like materials - keep the beauty of the bridge - metal only when necessary	Station 1: Aesthetics; sticky notes	aesthetics, visual, wood, new bridge,	Aesthetic
320	Can the surface remain bumpy to keep speeds low?	Station 1: Aesthetics; sticky notes	question, wood, driving, traffic, speed,	Aesthetic
321	Beach starts where the bridge starts - keep that feel	Station 1: Aesthetics; sticky notes	feeling, bridge, aesthetic, beach, current bridge	Aesthetic
322	Beautiful and part of Duxbury	Station 1: Aesthetics; sticky notes	visual, aesthetic, community	Aesthetic
18	How long will the bridge be closed?	Station 2: Structural; easel notes	question, construction,	Structural
19	If piles are good under the mudline they can be used as an anchor - shallow piles - new piles could cause vibration of the existing	Station 2: Structural; easel notes	structural, wood, piles	Structural
20	Pedestrian loads	Station 2: Structural; easel notes	walking, sidewalk, current bridge, uses	Structural
21	Bridge does look bad	Station 2: Structural; easel notes	concern, structural, current bridge	Structural
22	Can we think about composite material? (Need to take under advisement in a marine environment)	Station 2: Structural; easel notes	question, construction, structural, aesthetic,	Structural
23	Depth of piles	Station 2: Structural; easel notes	piles, structural, new bridge	Structural
24	Why 40 tons? Can the FHWA and DOT make an exception to decrease loads?	Station 2: Structural; easel notes	question, structural,	Structural
25	What does the bridge have to be to support the targeted weight?	Station 2: Structural; easel notes	question, structural,	Structural

26	Maintain pile spacing and consistency, but slightly longer spans would be acceptable	Station 2: Structural; easel notes	piles, structural, new bridge	Structural
27	Areas for boats passing need to be VERY well marked - there is currently one area for passing	Station 2: Structural; easel notes	new, bridge, boating, safety, bay, piles, structural, underside, current bridge	Structural
28	I like the existing pile set up	Station 2: Structural; easel notes	question, wood, structural, construction	Structural
29	Could the right wood be used that lasts longer than 40 years?	Station 2: Structural; easel notes	question, structural, aesthetic, wood	Structural
30	Questions about material choices - can a covered bridge be built from wood?	Station 2: Structural; easel notes	question, construction,	Structural
31	Questions about staging to replace piers/piles - need coffer dams	Station 2: Structural; easel notes	beach, aesthetic	Other
61	"Bridge to a beach"	Station 2: Structural; easel notes	concern, new bridge	Other
62	Hoping to find a way to a solution	Station 2: Structural; easel notes	concern, structural, new bridge, uses	Other
63	Stencil to identify locations - hard to report problems on the current bridge	Station 2: Structural; easel notes	concern, structural, new bridge, uses	Other
157	Survey of utilization	Station 2: Structural; easel notes	uses, current bridge	Functional (Complete Streets)
158	Needs and wants for overlooks for fishing and pedestrians	Station 2: Structural; easel notes	uses, recreation, fishing, walking, sidewalk, complete streets, aesthetic	Functional (Complete Streets)
159	Sidewalks on both sides are wanted	Station 2: Structural; easel notes	sidewalks, width, new bridge, walking, uses	Functional (Complete Streets)
160	Construction staging - can the bridge stay open? Can it stay open as a bike and pedestrian bridge?	Station 2: Structural; easel notes	question, construction, uses, walking, biking	Functional (Complete Streets)
323	Materials - building construction, laminated wood	Station 2: Structural; easel notes	wood, construction	Aesthetic
324	Steel and concrete not the right fit for the town	Station 2: Structural; easel notes	aesthetic, concern,	Aesthetic
325	Balance engineering and architecture	Station 2: Structural; easel notes	structural, aesthetic, construction, new bridge	Aesthetic
326	Wood look epoxy pile protection (corrosion)	Station 2: Structural; easel notes	wood, piles, structural, new bridge	Aesthetic
327	Possibly accepting of square piles	Station 2: Structural; easel notes	piles, structural, aesthetic	Aesthetic
328	Want a bridge as close as possible to what already exists	Station 2: Structural; easel notes	new bridge, current bridge, aesthetic,	Aesthetic
32	keep current bridge until after complete - this CAN be done. Real traffic problems in marshfield otherwise.	Station 2: Structural; sticky notes	concern, structural, new bridge, uses, traffic, construction	Structural
33	concerned about the amount of time that the bridge will be out of commission - will upset the community.	Station 2: Structural; sticky notes	concern, community, new bridge, construction	Structural
34	use new piles to support deck and disengage piles	Station 2: Structural; sticky notes	wood, rehabilitation, structural, piles,	Structural
35	how does the current bridge affect location of a future bridge?	Station 2: Structural; sticky notes	question, current bridge, new bridge, construction	Structural
36	why is the life of the current bridge only 40yrs vs. ~100yrs for the 1891 design?	Station 2: Structural; sticky notes	question, current bridge, new bridge, structural, history	Structural
64	Original bridge lasted over 90 years. I drove over it for over 15 years since arriving in 1970. I want to pause any replacement project and want a wooden replacement as close to the original as possible.	Station 2: Structural; sticky notes	concern, structural, historical, aesthetic, nostalgia, current bridge, rehabilitation, construction	Other
161	needs sidewalk	Station 2: Structural; sticky notes	concern, sidewalk, new bridge, walking, uses,	Functional (Complete Streets)
216	concerns of impact to fisheries, oysters, bay life	Station 2: Structural; sticky notes	concern, bay, fishing, environment, animals,	Environmental
217	concerned about the change in tides in recent years - more challenging to access and navigate the channel.	Station 2: Structural; sticky notes	concern, bay, boating, environment,	Environmental
329	Like current look w/ bracing. Do not take it away.	Station 2: Structural; sticky notes	visual, structural, wood, piles, underside, concern, new bridge	Aesthetic
330	wooden deck	Station 2: Structural; sticky notes	wood, aesthetic, visual	Aesthetic
331	explain requirement for cross section of bridge, as they relate to aesthetics	Station 2: Structural; sticky notes	question, underside, piles, visual, aesthetics, concern, structural,	Aesthetic
332	could wood piles sit on concrete piers?	Station 2: Structural; sticky notes	question, wood, structural, piles, new bridge	Aesthetic
333	wood is a MUST on the new bridge	Station 2: Structural; sticky notes	wood, new bridge, aesthetic, visual	Aesthetic
334	are there no wood-like materials that can be used rather than cement?	Station 2: Structural; sticky notes	question, wood, structural, aesthetic,	Aesthetic
65	MassDOT is funded by your tax dollars	Station 3: Complete Streets; easel notes	construction, rehabilitation,	Other
162	Concern that a wider bridge opening will impact the beach	Station 3: Complete Streets; easel notes	concern, width, environment, beach, new bridge	Functional (Complete Streets)
163	Don't want to see larger, heavier vehicles in the area	Station 3: Complete Streets; easel notes	concern, traffic, new bridge	Functional (Complete Streets)
164	Discussion on ways to manage vehicles types and users - patrol shack at the other side of the bridge	Station 3: Complete Streets; easel notes	concern, traffic, safety, complete streets	Functional (Complete Streets)
165	Manage speed leading up to the bridge - signs, speed bumps	Station 3: Complete Streets; easel notes	speed, concern, traffic, complete streets	Functional (Complete Streets)
166	People hop down from sidewalks. Make room for dogs and fisherman.	Station 3: Complete Streets; easel notes	sidewalks, walking, uses, fishing, dogs,	Functional (Complete Streets)
167	Ebikes & Scooters	Station 3: Complete Streets; easel notes	biking, traffic, uses, recreation, complete streets	Functional (Complete Streets)
168	Width --> People in SUVs	Station 3: Complete Streets; easel notes	width, traffic, concerns, new bridge	Functional (Complete Streets)
169	Antique cars --> Adds to the vibe	Station 3: Complete Streets; easel notes	aesthetic, complete streets, driving, visual	Functional (Complete Streets)
170	Concerns about traffic during construction if the bridge closes	Station 3: Complete Streets; easel notes	concern, traffic, construction	Functional (Complete Streets)
171	Limit the weight of vehicles	Station 3: Complete Streets; easel notes	traffic, complete streets	Functional (Complete Streets)
172	Accessible sidewalks for wheelchairs, kids on bikes.	Station 3: Complete Streets; easel notes	complete streets, uses, biking, safety, complete streets	Functional (Complete Streets)
173	Include area where people fish	Station 3: Complete Streets; easel notes	fishing, uses, recreation,	Functional (Complete Streets)
174	Will 1 sidewalk be wider/more accessible than 2?	Station 3: Complete Streets; easel notes	question, width, sidewalk, complete streets	Functional (Complete Streets)
175	1 wider sidewalk is better than 2 (Related Comment: Agreed!!)	Station 3: Complete Streets; easel notes	complete streets, width, sidewalk, walking, uses	Functional (Complete Streets)
176	The bridge is too narrow for all the people and ways it is used. It is dangerous.	Station 3: Complete Streets; easel notes	width, traffic, safety, concern, current bridge	Functional (Complete Streets)
177	Make areas for pedestrians wider, not vehicles	Station 3: Complete Streets; easel notes	width, walking, new bridge	Functional (Complete Streets)
178	Duxhenge: sun rises exactly over the bridge end	Station 3: Complete Streets; easel notes	duxhenge, aesthetic, visual, current	Functional (Complete Streets)
179	Crash tested railings on the outside of the bridge only - not between pedestrians and vehicles	Station 3: Complete Streets; easel notes	rail, aesthetic, complete streets, new bridge	Functional (Complete Streets)
180	Separate pedestrians and e-bikes	Station 3: Complete Streets; easel notes	biking, complete streets, new bridge	Functional (Complete Streets)
181	Wider walkways	Station 3: Complete Streets; easel notes	width, complete streets, walking, new bridge	Functional (Complete Streets)
182	Maintain narrowness --> big part of the feel of the bridge	Station 3: Complete Streets; easel notes	width, aesthetic	Functional (Complete Streets)
183	Wider bridge will increase traffic from other towns	Station 3: Complete Streets; easel notes	width, traffic, concern, new bridge	Functional (Complete Streets)
184	People exercising	Station 3: Complete Streets; easel notes	uses, recreation	Functional (Complete Streets)
185	Deterrents for kids jumping off the railing	Station 3: Complete Streets; easel notes	safety, new bridge, railing	Functional (Complete Streets)
186	Jumping off the railing as a right of passage	Station 3: Complete Streets; easel notes	community, railing, safety, current bridge	Functional (Complete Streets)

187	Boaters	Station 3: Complete Streets; easel notes	boating, uses, recreation, current bridge	Functional (Complete Streets)
188	Encourage obeying the speed limit (cameras, fines)	Station 3: Complete Streets; easel notes	traffic, speed, new bridge	Functional (Complete Streets)
189	Paved bridge will be used as a cut through, speeding, and surrounding roads	Station 3: Complete Streets; easel notes	concern, new bridge, traffic, speed	Functional (Complete Streets)
190	Concerns about speeding	Station 3: Complete Streets; easel notes	concern, new bridge, traffic, speed	Functional (Complete Streets)
191	Concern about an accessible sidewalk	Station 3: Complete Streets; easel notes	concern, new bridge, sidewalk, uses	Functional (Complete Streets)
192	Concern about railing - low height, maintain aesthetic, vista, transparent	Station 3: Complete Streets; easel notes	concern, rail, aesthetic, new bridge, visual	Functional (Complete Streets)
193	Concern about curb	Station 3: Complete Streets; easel notes	concern, sidewalk, new bridge, walking, uses,	Functional (Complete Streets)
194	Concern about commercial trucks using as sidewalk - speed bumps, etc.	Station 3: Complete Streets; easel notes	concern, traffic, uses, speed	Functional (Complete Streets)
335	Photographs	Station 3: Complete Streets; easel notes	photography, uses, visual, recreation, current bridge	Aesthetic
336	Concern about sound	Station 3: Complete Streets; easel notes	concern, new bridge, sound	Aesthetic
37	What is the plan for building?	Station 3: Complete Streets; sticky notes	question, new bridge, construction	Structural
195	Use bridge to get to beach by bike and SUV.	Station 3: Complete Streets; sticky notes	complete streets, uses, driving, biking,	Functional (Complete Streets)
196	Disagree with wider bridge	Station 3: Complete Streets; sticky notes	width, complete streets, new bridge, concern	Functional (Complete Streets)
197	1 wide sidewalk is better than 2	Station 3: Complete Streets; sticky notes	sidewalk, width, question, complete streets, recreation, biking, uses, driving, sidewalk,	Functional (Complete Streets)
198	Activity: are bikes supposed to drive on road or on sidewalk?	Station 3: Complete Streets; sticky notes	question, recreation, biking, uses, driving, sidewalk,	Functional (Complete Streets)
199	If two sidewalks, could one be for bikes? - a bikeway	Station 3: Complete Streets; sticky notes	question, recreation, biking, uses, driving, sidewalk, complete streets,	Functional (Complete Streets)
337	Must be wooden / as close to original as possible	Station 3: Complete Streets; sticky notes	wood, aesthetic, new bridge, concern	Aesthetic
38	With the current bridge height, big boats cannot get under the bridge (good). If the height is raised, bigger boats will cross and harm the marshes.	Station 4: Environmental; easel notes	concern, environment, structural, boating, bay	Structural
39	The wood gaps are too small/tight and do not allow for expansion. The 80s bridge had wider gaps.	Station 4: Environmental; easel notes	wood, structural, current bridge	Structural
40	Space between the boards being too small or large impacts animals and mobility devices	Station 4: Environmental; easel notes	wood, animal, environment, concern, complete streets	Structural
200	If the bridge accommodates larger vehicles then more heavy traffic traffic/bigger trucks will be present during and after construction	Station 4: Environmental; easel notes	concern, new bridge, width, traffic,	Functional (Complete Streets)
201	More traffic will come from Marshfield if the bridge and beach are more accessible	Station 4: Environmental; easel notes	complete streets, traffic, concern, new bridge	Functional (Complete Streets)
202	Concerns about speeding on the bridge and local roads	Station 4: Environmental; easel notes	concern, speed, traffic	Functional (Complete Streets)
203	Still accessible in winter	Station 4: Environmental; easel notes	winter, uses, complete streets, walking, driving, biking	Functional (Complete Streets)
204	The width is timeless and helps to slow traffic	Station 4: Environmental; easel notes	width, aesthetic, traffic, speed, complete streets	Functional (Complete Streets)
205	Buses through Marshfield for school trips and education	Station 4: Environmental; easel notes	traffic	Functional (Complete Streets)
218	How will the project protect the natural environment? (Air, ground, water, sound)	Station 4: Environmental; easel notes	question, environment, concern, new bridge	Environmental
219	Maintain low light pollution	Station 4: Environmental; easel notes	environment, new bridge,	Environmental
220	Concern with a bigger bridge is that car crashes will harm the environment	Station 4: Environmental; easel notes	concern, new bridge, width, traffic, environment	Environmental
221	Organisms: Horseshoe crabs, hermit crabs	Station 4: Environmental; easel notes	environment, animals, current bridge	Environmental
222	Duxbury Maritime School as a helpful organization	Station 4: Environmental; easel notes	bay, boating, environment	Environmental
223	Speeding as a potential harm to the living environment	Station 4: Environmental; easel notes	concern, speed, environment	Environmental
224	Was there any noticeable impact or damage to piles after the 2024 storm?	Station 4: Environmental; easel notes	question, structural, wood, piles, environment	Environmental
225	Gulls use the bridge to crack shells and take off points	Station 4: Environmental; easel notes	animals, current bridge, environment	Environmental
226	Birdwatching all through the year	Station 4: Environmental; easel notes	animals, recreation, uses, environment, summer, winter	Environmental
227	Would like a better general understanding of environmental impacts	Station 4: Environmental; easel notes	question, concern, environment	Environmental
228	If widening the bridge leads to speed increases and more crashes, how would that impact the environment?	Station 4: Environmental; easel notes	width, speed, traffic, environment	Environmental
229	How can horseshoe crabs be protected and what is the extent of potential impacts?	Station 4: Environmental; easel notes	question, animals, current bridge, environment,	Environmental
230	Snowy owl habitats	Station 4: Environmental; easel notes	animal, current bridge, environment winter	Environmental
231	How will silt be contained during construction?	Station 4: Environmental; easel notes	question, environment, bay, construction	Environmental
232	Balancing different environmental needs - summer versus winter vulnerabilities (Snowy Owls)	Station 4: Environmental; easel notes	environment, summer, winter, animals	Environmental
233	What are environmental impacts/areas of concern during and after construction?	Station 4: Environmental; easel notes	question, environment, construction	Environmental
234	Balancing below and above ground environmental impacts - ex. fish + birds	Station 4: Environmental; easel notes	environment, concern, animals, bay	Environmental
235	Environmental impacts of different materials in the water	Station 4: Environmental; easel notes	concern, construction, structural, environment, animal, bay	Environmental
236	What are measures of prevention for run off and fuel run off and the effects on oyster farms?	Station 4: Environmental; easel notes	question, environment, fishing	Environmental
237	How will time of year restrictions effect the amount of construction seasons?	Station 4: Environmental; easel notes	question, construction, summer, winter,	Environmental
338	The acoustic component of the material helps to slow traffic	Station 4: Environmental; easel notes	sound, speed, traffic,	Aesthetic
1	80 ft piles? Is that based on load bearing restrictions? are federal restriction the same as MassDOT?	What can you tell us about the bridge that is not obvious?	question, structural, new bridge, construction	Structural
48	much loved	What can you tell us about the bridge that is not obvious?	community, feeling, nostalgia, current bridge	Other
49	It is synonymous with Duxbury	What can you tell us about the bridge that is not obvious?	community, history, aesthetic, current bridge	Other
104	the narrowness that helps all slow down and feel the space	What can you tell us about the bridge that is not obvious?	width, speed, safety, feeling, aesthetic complete streets	Functional (Complete Streets)
105	Its beauty brings everyone together	What can you tell us about the bridge that is not obvious?	community, aesthetic, current bridge	Functional (Complete Streets)
106	I love how slow ppl have to go - conversations between walkers and drivers	What can you tell us about the bridge that is not obvious?	speed, driving, aesthetic, community, current bridge	Functional (Complete Streets)
107	playing, swimming underthe bridge is fun + riviting	What can you tell us about the bridge that is not obvious?	uses, recreation, underside, bay,	Functional (Complete Streets)
108	having 1 sidewalk on 1 side of the bridge is an important asthetic roads in Duxbury have 1 sidewalk (if any)	What can you tell us about the bridge that is not obvious?	sidewalk, aesthetic, width, new bridge	Functional (Complete Streets)
109	1 sidewalk only + width important to feel	What can you tell us about the bridge that is not obvious?	sidewalk, width, aesthetic, feeling, new bridge	Functional (Complete Streets)

267	the sense of ease + calm you have when you drive over the bridge. Wipes all your worries away.	What can you tell us about the bridge that is not obvious?	feeling, aesthetic	Aesthetic
268	the sound	What can you tell us about the bridge that is not obvious?	sound	Aesthetic
269	the unspoken beauty	What can you tell us about the bridge that is not obvious?	aesthetic	Aesthetic
270	the sound of the wood as you drive or bike + the smells	What can you tell us about the bridge that is not obvious?	sound, smell, wood, driving, biking,	Aesthetic
271	is the heart of the town. People take pics to college and come back to hear the sound.	What can you tell us about the bridge that is not obvious?	community, sound, history, photography, visual	Aesthetic
272	the magical sound you hear when you drive over it!	What can you tell us about the bridge that is not obvious?	sound, driving, aesthetic, current bridge,	Aesthetic
273	it is the visual representation of the town	What can you tell us about the bridge that is not obvious?	community, history, aesthetic, current bridge	Aesthetic
274	we love the sound it makes when we drive over it	What can you tell us about the bridge that is not obvious?	sound, driving, wood, aesthetic, current bridge	Aesthetic
275	sound of the bridge - special, charming	What can you tell us about the bridge that is not obvious?	sound, unique, aesthetic, current bridge	Aesthetic
2	What are the minimum design goals path footers and piles?	What do you want us to know about the bridge that we missed?	question, sidewalk, piles, structural, new bridge	Structural
3	What are the weight goals that you will design to?	What do you want us to know about the bridge that we missed?	question, structural, new bridge,	Structural
4	Why do you need to go down 86 feet? Is this because of the "weight" goals?	What do you want us to know about the bridge that we missed?	question, structural, piles, new bridge, construction	Structural
50	we, the tax payers, will restore the bridge	What do you want us to know about the bridge that we missed?	rehabilitation, current bridge, construction	Other
51	NO MASSDOT	What do you want us to know about the bridge that we missed?	rehabilitation, concern, current bridge, construction	Other
52	Has there been any discussion of the parking lot on the west side of the bridge?	What do you want us to know about the bridge that we missed?	question, driving, uses, concern	Other
110	Do you NEED to have 2 sidewalks?	What do you want us to know about the bridge that we missed?	question, sidewalk, new bridge, concern,	Functional (Complete Streets)
111	Please consider the uses under the bridge -- need to welcome both user.	What do you want us to know about the bridge that we missed?	underside, uses, concern, new bridge	Functional (Complete Streets)
112	one small sidewalk builds community - people greet each other and talk.	What do you want us to know about the bridge that we missed?	sidewalk, uses, walking, community, complete streets	Functional (Complete Streets)
113	walking + biking is best... slow traffic allows for visiting, waving, smiles, friendly hollers from cars	What do you want us to know about the bridge that we missed?	walking, biking, speed, community, current bridge	Functional (Complete Streets)
114	we don't want to encourage large vehicle traffic	What do you want us to know about the bridge that we missed?	uses, traffic, driving,	Functional (Complete Streets)
115	keep speed limits but enforce them w/ fine	What do you want us to know about the bridge that we missed?	speed, safety, new bridge, driving	Functional (Complete Streets)
116	large bridge / different will lead to more traffic on already over crowded beach, who knows how long beach will be what it is! Fix or rebuild exactly the same	What do you want us to know about the bridge that we missed?	width, traffic, rehabilitation, beach, new bridge, concern, construction	Functional (Complete Streets)
208	wildlife: seagulls, pigeons, caught fish, buckets of live bait.	What do you want us to know about the bridge that we missed?	animals, environment, fishing, unique, current bridge	Environmental
209	Unique Attribute, Sound: Resting + nesting pigeons cooing below the planks on the substructure.	What do you want us to know about the bridge that we missed?	unique, animals, environment, underside, current bridge	Environmental
276	Can you "Shave" the design and architectural goals between "the state" and "the town"?	What do you want us to know about the bridge that we missed?	question,	Aesthetic
277	the underbelly: many people grow up boating in the bay "inside the bridge" - when you boat under, tunnel-like underview is special	What do you want us to know about the bridge that we missed?	underside, bay, boating, aesthetic, unique, visual, current bridge	Aesthetic
278	sounds: I live over a half mile away - and if the wind is blowing the right way, we can hear the clacking planks in the wind	What do you want us to know about the bridge that we missed?	weather, wood, sound, aesthetic, current bridge	Aesthetic
279	Unique Attribute: Smells, the wet sea impregnated + seaweed covered piles @ low-tide, fish blood and bait smell on sidewalk	What do you want us to know about the bridge that we missed?	smell, bay, fishing, unique, current bridge	Aesthetic
280	wood, overall feel when you see/drive over bridge.	What do you want us to know about the bridge that we missed?	wood, aesthetic, current bridge	Aesthetic
5	If we need to change for using the bridge in the future do you need to include the infrastructure first?	What other activities do you wish to add to the future bridge?	question, structural, new bridge, construction	Structural
117	add a second walkway, make them wider, to accommodate walking and fishing	What other activities do you wish to add to the future bridge?	sidewalk, width, walking, fishing, complete streets, new bridge	Functional (Complete Streets)
118	bridge is also a great spot to see the sunrises which are spectacular	What other activities do you wish to add to the future bridge?	aesthetic, sunrise, unique	Functional (Complete Streets)
119	none, the limited activity is part of the feel + timelessness	What other activities do you wish to add to the future bridge?	history, uses, aesthetic	Functional (Complete Streets)
120	wider walk	What other activities do you wish to add to the future bridge?	sidewalk, uses, walking, width, complete streets	Functional (Complete Streets)
121	no need for bump-out for gathering. Bridge is for moving across & fishing. With is ok. 2 walk ways of all wood topside.	What other activities do you wish to add to the future bridge?	width, walking, fishing, uses, sidewalks, complete streets, new bridge	Functional (Complete Streets)
122	wider walkway	What other activities do you wish to add to the future bridge?	sidewalk, walking, complete streets,	Functional (Complete Streets)
123	narrow as possible, but consider bump outs for fishing, walking, etc.	What other activities do you wish to add to the future bridge?	width, fishing, walking, recreation, uses, complete streets, new bridge	Functional (Complete Streets)
124	second sidewalk	What other activities do you wish to add to the future bridge?	sidewalk, walking, complete streets, uses, new bridge	Functional (Complete Streets)
125	none	What other activities do you wish to add to the future bridge?		Functional (Complete Streets)
126	1 wider sidewalk for ADA. Not two separate	What other activities do you wish to add to the future bridge?	sidewalk, complete streets, width, new bridge	Functional (Complete Streets)
210	steps to protect the environment	What other activities do you wish to add to the future bridge?	environment, animals, new bridge, concern	Environmental
281	Keep the character		aesthetic, feeling, current bridge, new bridge	Aesthetic
