MassHealth will hold Cambridge Health Alliance accountable for its performance on the Cambridge Health Alliance Hospital Quality and Equity Incentive Program (CHA-HQEIP) performance measures, and will make incentive payments based on such performance. This document describes MassHealth's CHA-HQEIP Performance Assessment Methodology (PAM) for Performance Years (PY) 3-5.

A. Individual Measure Scoring Approaches

CHA performance assessment will be based on a point scoring approach for each measure type across the HQEIP's three domains. The maximum number of points that CHA may attain for each measure is 10 points based on thresholds, goals, and, as applicable, improvement targets. Further, bonus points may be earned for select pay-for-performance measures. Bonus points will be applied to the respective measure domain score.

There are two types of performance status:

- 1. Pay-for-reporting (P4R) measures. P4R measures will be assessed on a complete/incomplete basis for which CHA successfully submits timely, complete, and responsive information based on each measure's technical specifications will earn 10 points for the measure. CHA submissions that were not timely, complete, and responsive will earn 0 points for the measure. In other words, CHA will receive either 0 or 10 points for P4R measures; MassHealth will not award partial credit for P4R measures.
- 2. **Pay-for-performance (P4P) measures.** CHA may receive 0-10 points depending on each measure's performance compared to set performance thresholds, goals, and/or improvement targets for the individual measures. If the measure performance goal is exceeded, bonus points (which are applied to domain score) may be earned for select P4P measures.

Table 1a and Table 1b, below, list the performance status by measure, for Hospital and Ambulatory components, respectively.

Table 1. PY3-5 CHA-HQEIP Measures & Performance Status: Hospital

Measures	Measure Component(s)/ Submeasures	PY3 2025	PY4 2026	PY5 2027
Race, Ethnicity, Language, Disability, Sexual Orientation, & Gender Identity Data Completeness (MassHealth and Served Uninsured patient populations)	 Race Ethnicity Language Disability Sexual Orientation Gender Identity 	P4P	P4P	P4P

Measures	Measure Component(s)/ Submeasures	PY3 2025	PY4 2026	PY5 2027
Screening for Social Drivers of Health and Screen Positive Rate for Social Drivers of Health (MassHealth and Served Uninsured patient populations)	Screening rate Screen positive rate a. food insecurity b. housing instability c. transportation needs d. utility difficulties	P4P (Component 1, Inpatient/ Observation Stay) P4R (Component 1, ED) P4R (Component 2, Inpatient/ Observation Stay & ED)	P4P (Component 1) P4R (Component 2)	P4P (Component 1) P4R (Component 2)
Quality Performance Disparities Reduction	1. Quality measure 1 2. Quality measure 2 3. Quality measure 3 (Measures to be selected by MassHealth and CHA)	P4R	P4P	P4P

B. Performance Assessment Methodology

- i. RELDSOGI, HRSN, Language Access, Disability Competent Care, Disability Accommodation Needs, and Patient Experience
- a. Measure Assessment Overview and Scoring

As stated above, for P4R measures, CHA may achieve 10 points for timely, complete, and responsive submissions, or 0 points for untimely, incomplete, or unresponsive submissions. For P4P measures, CHA's performance on measures will be assessed based on meeting a minimum attainment threshold and towards meeting a performance goal to determine points. In addition to reaching the performance goal, submissions must be complete, timely, and responsive in order to earn the full 10 points. If the performance goal is not reached, partial credit may be earned (outlined below). Improvement points may also be earned by reaching improvement targets, whether CHA reaches the attainment threshold or not. CHA will earn 0 points if it does not complete the required submission(s).

For the measures listed in Table 2, three types of benchmarks have been established:

- 1. Attainment Threshold: The attainment threshold represents the minimum level of performance that must be attained on each individual measure to earn between 1-10 points.
- **2. Performance Goal:** The performance goal represents the level of performance on each individual measure CHA must attain to score the maximum 10 points.
- 3. Improvement Target: The improvement target represents a specified percentage point improvement for each applicable measure where CHA may earn improvement points. Improvement Targets are established by taking the difference between the attainment threshold and PY5 performance goal divided by number of program years (5 years):

$$\underline{\text{Improvement Target}} = \frac{(\text{PY5 Performance Goal} - \text{PY3-5 Attainment Threshold})}{\text{# of program years}}.$$

The baseline period is the first full year of complete data. The potential for improvement points takes effect the first year following the baseline year for the measure. Specifically:

 Effective beginning PY3, improvement points may be earned for RELD SOGI Data Completeness, Disability Competent Care, and Patient Experience, and

Performance Assessment Methodology (PAM) Manual for the MassHealth CHA Hospital Quality and Equity Incentive Program (CHA-HQEIP): Performance Years 3-5 (Calendar Years 2025-2027) *Version: May 19, 2025*

• Effective beginning PY4, improvement points may be earned for HRSN (Hospital and Ambulatory components), Language Access, and Disability Accommodation Needs.

The comparison year for improvement points is initially the baseline year for the measure. If the improvement target is reached, the comparison year then becomes the most recent highest-performing year (the year that the improvement points were earned).

4. Interaction of Attainment Threshold, Performance Goal, and Improvement Threshold

In PY3-5, if CHA <u>does not reach performance goal(s)</u>, it may earn partial credit by the following opportunities:

a. <u>If attainment threshold is met</u>

- i. attainment points will be earned, which is calculated as: % of PY Performance Goal * 10;
- ii. and if improvement target is also met, 7 improvement points will be earned in addition to attainment points. The maximum number of points a Hospital can earn on a measure is capped at 10 points.

OR

b. <u>If attainment threshold is not met</u>, but improvement target is met, 7 improvement points will be earned.

OR

c. If attainment threshold and improvement target are not met, partial improvement points proportional to the improvement target may be earned (see Example 1 in Appendix: Scoring Examples).

Partial improvement points may not be earned in PYs 3 or 4 if the attainment threshold is met. However a stepwise approach is used so that if the target is met (e.g., cumulatively over multiple performance periods), the full 7 points are earned in the performance period in which the improvement target is attained.

In PY5 only, if attainment threshold is met, and CHA improves but does not reach the improvement target may earn partial improvement points. These points are proportional to the improvement target, with the maximum points available being the difference between CHA's measure score and 10. To illustrate the application of partial improvement points in PY5, is see Example 2 in Appendix B: Scoring Examples.

The flowchart in Appendix A illustrates how points may be earned for a performance measure score in PY3-5.

Measure performance rates achieved by CHA will be rounded to the nearest whole number. For example, an ethnicity data completeness rate of 74.3% will be rounded to 74%, and an ethnicity data

completeness rate of 74.5% will be rounded to 75%. This rule will apply to all rounding for the HQEIP PAM.

Table 2, below, details the attainment thresholds, performance goals, and improvement targets for select P4P measures. Table 3 summarizes the submeasure or components of each measure, setting weights, and population.

b. Patient Experience: Communication, Courtesy, and Respect

The patient experience measure utilizes the same attainment threshold, performance goal, and improvement target as above with the following modifications:

- 1. CHA will be scored based on the higher of their individual performance or aggregate statewide performance on each composite. Doctor and Nurse Communication composites will be calculated using the submitted member level data. CHA must have a minimum denominator of at least 25 MassHealth patients to be scored on an individual basis and to be eligible for improvement points.
- **2.** The improvement target is a 0.01 improvement for each CHA composite score (nurse communication and doctor communication) calculated using submitted member level data.

Table 2 and Table 3, below, also include details for the Patient Experience measures.

Table 2. PY3-5 Benchmarks by Measure

Measure	Attainment Threshold	Performance Goal PY3 (2025)	Performance Goal PY4 (2026)	Performance Goal PY5 (2027)	Improvement Target	Bonus Points	Additional Measure Requirement
Race, Ethnicity, Language, Disability, Sexual Orientation, & Gender Identity Data Completeness* (MassHealth and Served Uninsured patient populations)	R: 40% E: 40% L: 15% D: 15% SO: 15% GI: 15%	R: 80% E: 80% L: 30% D: 30% SO: 30% GI: 30%	R: 80% E: 80% L: 50% D: 50% SO: 50% GI: 50%	R: 80% E: 80% L: 80% SO: 80% GI: 80%	R: 8% E: 8% L: 13% D: 13% SO: 13% GI: 13%	+0.5 point if exceed goals on any 3 of 6 submeasures (Inpatient); +0.5 point if exceed goals on any 3 of 6 submeasures (ED) +1 point if exceed goals on all submeasures (Inpatient); +1 point if exceed goals on all submeasures (ED)	CHA must submit and pass mapping and verification tool for PAM to be applied; failure to pass mapping and verification on a data element/ category will result in a 0 score for the applicable submeasure(s); In PY5 Update Date and/or Verification Date must be submitted in the Enhanced

							Demographics Data File for each data element, but will not be used for data completeness calculations
							CHA will report Component-2 rates, which will be P4R;
Health-Related Social Needs (HRSN) Screening* (MassHealth and Served Uninsured patient populations)	Component 1 Inpatient/ Observation Stay: 10% ED: 10% Component 2 N/A (P4R)	Component 1 Inpatient/ Observation Stay: 30% ED: N/A Component 2 N/A (P4R)	Component 1 Inpatient/ Observation Stay: 45% ED: 30% Component 2 N/A (P4R)	Component 1 Inpatient/ Observation Stay: 60% ED: 45% Component 2 N/A (P4R)	Component 1 Inpatient/ Observation Stay: 10% pts. ED: 7% pts. Component 2 N/A (P4R)	+0.5 point if exceed PY performance goal (Inpatient/ Observation Stay) +0.5 point if exceed PY performance goal (ED)	CHA may be required to pass an audit of its data; failure to pass the audit will result in a 0 score for the P4P component of the measure and impact improvement
							point eligibility in the following year

Health-Related Social Needs (HRSN) Screening: Ambulatory	Component 1 10% Component 2 N/A (P4R)	Component 1 N/A Component 2 N/A (P4R)	Component 1 45% Component 2 N/A (P4R)	Component 1 60% Component 2 N/A (P4R)	Component 1 10% Component 2 N/A (P4R)	+1 point if exceed PY performance goal	CHA will report Component-2 rates, which will be P4R; CHA may be required to pass an audit of its data; failure to pass the audit will result in a 0 score for the P4P component of the measure and impact improvement point eligibility in the following year
Meaningful Access to Healthcare Services for Persons with a preferred language other than English	Inpatient/ Observation Stay: 25% ED: 25%	Inpatient/ Observation Stay: 50% (Jul 1 – Dec 31, 2025) ED: N/A	Inpatient/ Observation Stay: 75% ED: 50%	Inpatient/ Observation Stay: 85% ED: 75%	Inpatient/ Observation Stay: 12% pts. ED: 10% pts.	+0.5 point if exceed PY performance goal (Inpatient/ Observation Stay) +0.5 point if exceed PY performance goal (ED)	CHA must submit Language Access Self-Assessment Survey [©] (PY3: P4P; PY4 & 5: N/A);

(MassHealth and Served Uninsured patient populations)							CHA may be required to pass an audit of its data; failure to pass the audit will result in a 0 score for the measure and impact improvement point eligibility in the following year (may still be eligible for points on Survey component in PY3)
Disability Competent Care	25%	45%	65%	85%	12% pts.	+1 point if exceed PY performance goal	14/73
Disability Accommodation Needs* (MassHealth and Served Uninsured patient populations)	Rate 1: 25% Rate 2: 25%	Rate 1: 45% Rate 2: 50%	Rate 1: 65% Rate 2: 75%	Rate 1: 85% Rate 2: 85%	Rate 1: 12% pts. Rate 2: 12% pts.	+0.5 point if exceed PY performance goals for Rate 1 and Rate 2 (Inpatient/Observation Stay) +0.5 point if exceed PY performance	CHA may be required to pass an audit of their data; failure to pass the audit will result in a 0 score for the measure and

						goals for Rate 1 <u>and</u> Rate 2 (Ambulatory Radiology)	impact improvement point eligibility in the following year
Patient Experience: Communication, Courtesy, and Respect^	Composite 1: 0.50 Composite 2: 0.50	Composite 1: 0.84 Composite 2: 0.84	Composite 1: 0.84 Composite 2: 0.84	Composite 1: 0.84 Composite 2: 0.84	Composite 1: 0.01 pts. Composite 2: 0.01 pts.	N/A	CHA must also submit MassHealth only patient- level data

^{*}Rate 1: Screening for accommodation needs; and Rate 2: Accommodation needs documented

c. Meaningful Access to Healthcare Services for Persons with a Preferred Language other than English: Language Access Self-Assessment Survey (PY3 only)

The responses to the Language Access Self-Assessment Survey for Hospitals (the "Survey") will be used to determine whether CHA meets the submeasure reporting requirement for PY3. The Survey consists of five domains, and CHA **must score the points required** in each domain to pass that domain. The following table, Table 4, indicates the points for each Survey question that will be scored in PY3 and the points required to pass each domain. CHA must **pass all five domains** to receive **full credit** for this deliverable. However, if CHA does not pass all five domains, it may receive partial credit for passing each domain. For each domain passed, CHA will earn a fifth of the full credit (e.g., if full credit = 10 points, CHA passes only Domain 1, it will receive 2 points).

Table 4. Language Access Self-Assessment Survey Scoring

Domain	Survey Question	Scoring	Points Required to Pass Domain
Domain 1	A10	1 point will be awarded for answering "Yes" to any of the six items in the grid	2 points
	A13	1 point will be awarded for answering "Yes"	
Domain 2	В3	1 point will be awarded for answering "Yes" to any of the seven items in the grid	4 points
	B18a	1 point will be awarded for answering "Yes"	
	B18b	1 point will be awarded for answering "Yes"	
	B18c	1 point will be awarded for answering "Yes"	
Domain 3	C1	1 point will be awarded for answering "Yes"	1 point
Domain 4	D18	1 point will be awarded for answering "Yes"	1 point
Domain 5	E5	1 point will be awarded for answering "Yes"	1 point

ii. Quality Performance Disparities Reduction and CHA-HQEIP Ambulatory Quality Performance Disparities Reduction

The PAM for these measures is dependent on the review and selection of quality measures. It is anticipated that the PAM for this measure will be shared in Summer 2025.

iii. Equity Improvement Interventions

For each Performance Improvement Project (PIP), there are three required reports.

The required reports will be scored as follows:

- 1. The **PIP Planning (Baseline) Report** is pay-for-reporting only, and full credit will be provided for complete, timely, and responsive reporting.
- 2. The Remeasurement 1 Report will be scored as follows:

Abstract: N/A, not scored

Planning Section (33.3%):

- Project Topic/Equity Statement [Topic/Rationale/ Shared Equity Statement] (15 pts)
- Aim [Vision, Aim Statement(s), and Goal(s)] (10 pts)

Implementation Section (66.6%):

- Methodology (10 pts)
- Barrier Analysis, Interventions, and Monitoring (update) (10 pts)
- Intervention (15 pts)
- Results (15 pts)

Total = 75 pts

Overall Rating = Actual Weighted Score/ Max Possible Weighted Score

3. The Remeasurement 2 and Closure Reports will be scored as follows:

Abstract: N/A, not scored

Planning Section (25%):

- Project Topic/Equity Statement [Topic/Rationale/ Shared Equity Statement] (15 pts)
- Aim [Vision, Aim Statement(s), and Goal(s)] (10 pts)

Implementation Section (50%):

- Methodology (10 pts)
- Barrier Analysis, Interventions, and Monitoring (update) (10 pts)
- Intervention (15 pts)
- Results (15 pts)

Validity & Sustainability Section (25%):

- Discussion [Discussion and Validity of Reported Improvement] (15 pts)
- Next Steps [Sustainability] (10 pts)

Total = 100 pts

Overall Rating = Actual Weighted Score/ Max Possible Weighted Score

Measure Points

- Overall Rating of >= 85% meets the goal score for the report and will earn 10 points.
- An Overall Rating of 50-84% partially meets the goal score for the report and will contribute
 partially to the eligible weight that the report contributes to the measure score as follows: PIP
 Overall Rating * 10.
- An Overall Rating of less than 50% does not meet the threshold score for the report and will earn 0 points.

Note: one re-submission is permitted, and the re-submitted report score will be re-scored. The revised report score will be used to calculate the measure score.

Performance Assessment Methodology (PAM) Manual for the MassHealth CHA Hospital Quality and Equity Incentive Program (CHA-HQEIP): Performance Years 3-5 (Calendar Years 2025-2027) *Version: May 19, 2025*

In PY3 and PY4, two reports are due in each PY, and the two Overall Ratings will equally contribute to the measure score (50% each). In PY5, one report is due for the PY, and the single Overall Rating will constitute the measure score. Table 5 below outlines the measure weighting for the PIP reports.

Table 5. Measure Weighting for PIP Reports by PY

	PY3 (2025)	PY4 (2026)	PY5 (2027)
PIP1 Reporting	Remeasurement 1 Report	Closure Report	None
PIP2 Reporting	Remeasurement 1 Report	Remeasurement 2 Report	Closure Report
Weighting	PIP1 (50% weight)	PIP1 (50% weight)	
	PIP2 (50% weight)	PIP2 (50% weight)	PIP2 (100% weight)
	e.g., (PIP1 Overall Rating + PIP2 Overall Rating)/2	e.g., (PIP1 Overall Rating + PIP2 Overall Rating)/2	

iv. Equity Improvement Interventions & Community Collaboration Equity Improvement Interventions: Ambulatory

For each Equity Improvement Intervention (EII), there are three required reports. A total of 10 points may be earned on each report.

1. Planning Report

Elements:

- Aim, Objective, Goals
- Problem Statement, Scope of Opportunity
- Approach Project Summary
- Barrier analysis and intervention
- Definition of 1-2 Milestones and 1-2 Year-end Goals

2. Mid-Point Report

Mid-year progress summary report narrative

Elements:

- Summary of implementation and milestones
- Success and barriers identified
- Course correction identified as appropriate

3. Performance Period-End Report

Year-end progress report narrative

Elements:

- Achievement of milestone(s) and goal(s)
- Lessons learned identified

Measure Points

• Total Points of >= 8 points meets the goal score for the report and will earn 10 points.

- A Total Points of 5-7.9 points partially meets the goal score for the report and will contribute
 partially to the eligible weight that the report contributes to the measure score as follows: EII
 Report Total Points * 10.
- An **Overall Rating of less than 5 points** does not meet the threshold score for the report and will earn 0 points.

Note: one re-submission is permitted, and the re-submitted report score will be re-scored. The revised report score will be used to calculate the measure score.

Table 6 below outlines the measure weighting for each EII report.

Table 6. Weighting for EII Reports by PY

	PY3 (2025)	PY4 (2026)	PY5 (2027)
Planning Report	40% weight	40% weight	40% weight
Mid-Point Report	30% weight	30% weight	30% weight
Performance Period- End Report	30% weight	30% weight	30% weight

v. Achievement of External Standards for Health Equity

The goal for this measure is to achieve The Joint Commission's (TJC) Health Care Equity Certification (HCE) by the end of PY3 and re-certification by the end of PY5. At minimum (threshold), CHA is to achieve TJC's HCE by end of PY5. CHA will earn 100% of the points attributed to the measure for certification, maintenance of certification, or re-certification in the PY. If certification is not achieved by end of PY3 (e.g., in PY4 or PY5), CHA may earn partial credit for progress towards initial certification. Table 7 outlines the points scoring for this measure.

Table 7. Points Scoring for Achievement of TJC's HCF by PY

Table 1. Fullis Sculling for Achieve	entent of 130 3 HOL by 1 1	
PY3 (2025)	PY4 (2026)	PY5 (2027)
 Achieve HCE certification = 10 points 	 Maintain or achieve HCE certification = 10 points 	 Maintain or achieve HCE certification = 10 points
OR	OR	OR
 Progress towards HCE certification = 5 points (TJC review conducted) 	 Progress towards HCE certification = 5 points (TJC review conducted) 	 Progress towards HCE certification = 5 points (TJC review conducted)
OR	OR	OR
 Not achieve or make progress towards HCE certification = 0 points 	 Not achieve or make progress towards HCE certification = 0 points 	 Not achieve or make progress towards HCE certification = 0 points

PY3 (2025)	PY4 (2026)	PY5 (2027)
OR		
 Maintenance of HCE certification achieved in PY2 = 10 points + 1 bonus point 		

vi. Collaboration

CHA's performance on the Collaboration measure for a given Performance Year will equal the Health Equity Score of its Partnered ACO(s) for the **same** Performance Year. If CHA has more than one ACO Partner, its measure score for a given Performance Year will equal the average of each Partnered ACO's Health Equity Score for the **same** Performance Year. Please refer to the PY1-5 ACO Quality and Equity Incentive Program (QEIP) Implementation Plan and associated program documents for more information on ACO Health Equity scoring.

- a. CHA with one ACO partner = (ACO partner Health Equity Score) / 10
- b. <u>CHA with two ACO partners</u> = [(ACO partner1 Health Equity Score + ACO partner2 Health Equity Score) / 2] / 10

vii. Needs Assessment and Analysis of Served Uninsured Patient Population and Health Equity Strategic Plan Supplement

The Needs Assessment and Analysis of Served Uninsured Patient Population and the Supplement to the Health Equity Strategic Plan are P4R measures and will be assessed on a complete/incomplete basis for which CHA will earn 10 points for the measure if it successfully submits timely, complete, and responsive information based on the deliverable's instructions. If the submission is not timely, complete, and responsive, CHA will earn 0 points for the measure.

C. Performance Measure, Domain, and Health Equity Scoring

i. Measure Scoring

Performance measure scores for each measure will be defined as a ratio between 0-1. The score will be calculated as follows:

<u>Performance Measure Score</u> = Points earned for each measure / Maximum number of points allowable for the measure.

Some performance measures have sub-measures for which sub-measure performance scores will be calculated in the same manner. The sub-measures will be weighted as stated in Table 3, Table 5, and Table 6 to calculate a composite performance measure score between 0-1. For sub-measures the score is calculated as follows:

<u>Performance Measure Score</u> = Sum of each (Sub-measure Score * Sub-measure Weighting).

Some performance measures also encompass implementation in multiple settings (e.g., inpatient and ED).

ii. Domain Scoring

A domain score will be calculated by taking each performance measure score in the domain and calculating the sum of each performance measure score multiplied by its respective measure weight:

<u>Domain Score</u> = Sum of each (Performance Measure Score * Performance Measure Weight)

Table 8a and Table 8b specifies measure weight by performance year for the Hospital and Ambulatory components, respectively. If CHA is not eligible for a measure (e.g., does not meet the denominator criteria or minimum volume), the weighting will be redistributed equally to the other eligible performance measures in the domain.

Table 8a. PY 3-5 CHA-HQEIP Metric Weights: Hospital

Domain*	Measure Name	Measure Weight (%) by Performance Year PY3 (2025)	Measure Weight (%) by Performance Year PY4 (2026)	Measure Weight (%) by Performance Year PY5 (2027)	Domain Weight (%)
DHRSN	Race, Ethnicity, Language, Disability, Sexual Orientation, & Gender Identity Data Completeness	10	15	15	25
	Health-Related Social Needs (HRSN) Screening	15	10	10	
EQA	Quality Performance Disparities Reduction	10	20	20	50
	Equity Improvement Interventions	10	5	5	
	Meaningful Access to Healthcare Services for Persons with a preferred language other than English	10	10	10	
	Disability Competent Care	10	5	5	
	Accommodation Needs Met	10	10	10	

СС	Achievement of External Standards for Health Equity	10	10	10	25
	Patient Experience: Communication, Courtesy and Respect	10	10	10	
	Collaboration	5	5	5	
	TOTAL				100

^{*}DHRSN=Demographic and Health-Related Social Needs Data; EQA=Equitable Quality and Access; CC=Capacity and Collaboration

Table 8b. PY 3-5 CHA-HQEIP Metric Weights: Ambulatory

Domain*	Measure Name	Measure Weight (%) by Performance Year PY3 (2025)	Measure Weight (%) by Performance Year PY4 (2026)	Measure Weight (%) by Performance Year PY5 (2027)	Domain Weight (%)
HRSN	Race, Ethnicity, Language, Disability, Sexual Orientation, & Gender Identity Data Completeness	25	25	25	25
EQA	Quality Performance Disparities Reduction	20	20	20	45
	Needs Assessment and Analysis of Served Uninsured Population	10	10	10	
	Equity Improvement Interventions	15	15	15	
СС	Community Collaboration Equity Improvement Intervention	20	20	20	30
	Completion of Served Uninsured Component of Health Equity Strategic Plan Supplement	10	10	10	
	TOTAL				100

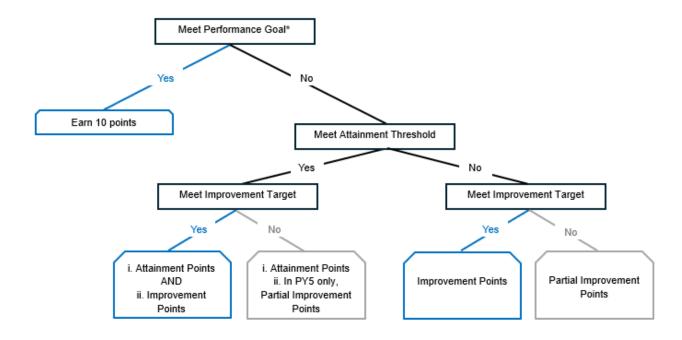

iii. Health Equity Scoring

A health equity score will be calculated by taking each domain score and calculating the sum of each domain score:

<u>Health Equity Score</u> = Sum of each Domain Score

Any bonus points earned through Corrective Action Plans will then be added to determine the final HQEIP Health Equity Score for the PY, not to exceed 100%. The Health Equity score will be rounded to the nearest hundredth. The final Health Equity Score will be used to calculate CHA's earned incentive payment.

D. Appendix A: Performance Measure Score Point Flowchart

Attainment Points = % of PY Performance Goal * 10

Improvement Points = 7 points

Partial Improvement Points (proportion to improvement target) = (Current Hospital PY rate – Previous Hospital PY rate) / Improvement Target

*If exceed Performance Goal, bonus point(s), as applicable to the measure, is added to Domain Score

E. Appendix B: Scoring Examples

Example 1. PY3 – Disability Competent Care: Not Meet Attainment Threshold and Improvement Target

The CHA reported a 15% Training Rate in PY2 and a 20% Training Rate in PY3.

Disability Competent Care Measure Benchmarks:

Attainment Threshold	Performance Goal – PY2	Performance Goal – PY3	Improvement Target
25%	25%	45%	12% pts

Steps for Calculating Improvement Points

- 1. Partial improvement = (Current CHA PY rate Previous CHA PY rate) / Improvement target = (20% 15%) / 12% = 0.42
- 2. Maximum eligible improvement points = 7.00 points
- 3. Partial improvement points = Eligible improvement * Partial improvement = 7.00 * 0.42 = 2.94 points

Example 2. PY3 – Disability Competent Care: Not Meet Attainment Threshold and Improvement Target

CHA had a 60% Training Rate in PY4 and a 70% Training Rate in PY5.

Disability Competent Care Measure Benchmarks:

Attainment	Performance Goal -	Performance Goal -	Improvement Target
Threshold	PY4	PY5	
25%	65%	85%	12%

In this example, in PY5, CHA's Disability Component Care measure would be calculated as follows:

- Earned attainment points = % of Performance Goal * 10 = (70 / 85) * 10 = 8.24 points
- <u>Maximum eligible improvement</u> = Maximum measure points Earned attainment points = 10.00 8.24 = 1.76 points
- <u>Partial improvement</u> (proportion to improvement target) = (Current CHA PY rate Previous CHA PY rate) / Improvement Target = (70% 60%) / 12% = 0.83
- <u>Partial improvement points</u> = Maximum eligible improvement * Partial improvement = 1.76 * 0.83 = 1.46 points

Total PY5 Performance Measure Score = Attainment points + Partial improvement points = 8.24 + 1.46 = **9.70 points**

Example 3. PY3 – Achievement of External Standards for Health Equity (TJC's Health Care Equity Certification (HCE)

CHA reported to MassHealth in PY3 that their status is *Progress Towards HCE certification*.

Steps for Health Equity Scoring

1. Measure Points	Measure points = 5 (Measure type: P4P) Note: Referencing Table 6 above, Progress towards HCE certification (i.e., TJC review conducted) = 5 points.
2. Performance Measure Score	Performance Measure Score = $\frac{5}{10}$ = 0.50
 3. Domain Score Domain 3 Measure Weights Achievement of Ext Stds. for HE (10%) Patient Experience (10%) Collaboration (5%) 	 Achievement of Ext Stds. for HE = (0.5 * 0.1) * 100 = 5.00 Patient Experience = (1 * 0.1) * 100 = 10.00 Collaboration = (0.8 * 0.05) * 100 = 4.00 Domain 3 Score = 10 + 5 + 4 = 19.00
4. Health Equity Score	 Domain 1 Score = 20.00 Domain 2 Score = 46.00 Domain 3 Score = 19.00 Health Equity Score = 20 + 46 + 19 = 85.00

Example 4. PY4 - Health-Related Social Needs (HRSN) Screening

CHA reported to MassHealth in PY3 and PY4:

Setting	Component 1 - PY3	Component 2 - PY3	Component 1 - PY4	Component 2 – PY4
Inpatient/Observation Stay – Medicaid	41%	Data submitted	50%	Data submitted
Inpatient/Observation Stay – Served Uninsured	46%	Data submitted	62%	Data submitted
ED - Medicaid	19%	Data submitted	24%	Data submitted
ED – Served Uninsured	22%	Data submitted	30%	Data submitted

Benchmarks & Setting Weights:

Component	Attainment Threshold	Performance Goal - PY4	Improvement Target	Bonus Point	Setting Weight
Component 1 [±]	Inpatient & Observation Stay: 10%	Inpatient & Observation Stay: 45% ED: 30%	Inpatient & Observation Stay: 10% pts ED: 7% pts	+0.5 point if exceed PY performance goal (Inpatient/Observation Stay); +0.5 point if exceed PY performance goal (ED)	Inpatient & Observation Stay (50%)
Component 2*			N/A — P4R		

^{*}Component 1: HRSN screening rate
*Component 2: HRSN screen positive rates

Steps for Health Equity Scoring

Steps for Health Equity Scoring		
1. Measure Points	Inpatient/Observation Stay – Medicaid Component 1 Exceeded Performance Goal in PY4 Submeasure Score = 10.00 points o 10 points for reaching Performance Goal o 0.5 bonus point for exceeding Performance Goal (bonus point added during domain scoring) [applied in Step #3]	
	Component 2 • Submeasure Score = 10.00 points	

ED

Component 1

- Not reach Performance Goal in PY4
- Meet Attainment Threshold of 10% in PY4
 - \circ Attainment Points = (24/30) * 10 = 8.00 points
- Not reach Improvement Target [difference between PY4 & PY3 Rate
 1]
 - \circ (24% 19% = 5% points < 7% points)
- Submeasure Score = 8.00 points

Component 2

Submeasure Score = 10.00 points

Component Weight

Inpatient/Observation Stay \rightarrow (10.00*0.75) + (10.00*0.25) = 10.00 points

ED \rightarrow (8.00*0.75) + (10.00*0.25) = 8.50 points

Setting Weight (50% each)

 $(10.00^{\circ}0.5) + (8.50^{\circ}0.5) = 5.00 + 4.25 = 9.25$ points

Sub-measure points = 9.25 points

Inpatient/Observation Stay - Served Uninsured

Component 1

- Exceeded Performance Goal in PY4
- Submeasure Score = 10.00 points
 - 10 points for reaching Performance Goal
 - 0.5 bonus point for exceeding Performance Goal (bonus point added during domain scoring) [applied in Step #3]

30

Component 2

• Submeasure Score = 10.00 points

ED

Component 1

- Met Performance Goal in PY4
- Meet Attainment Threshold of 10% in PY4
- Submeasure Score = 10.00 points
 - 10 points for reaching Performance Goal

Performance Assessment Methodology (PAM) Manual for the MassHealth CHA Hospital Quality and Equity Incentive Program (CHA-HQEIP): Performance Years 3-5 (Calendar Years 2025-2027) Version: May 19, 2025

	Component 2	
	Submeasure Score = 10.00 points	
	Component Weight	
	Inpatient/Observation Stay \rightarrow (10.00*0.75) + (10.00*0.25) = 10.00 points	
	ED \rightarrow (10.00*0.75) + (10.00*0.25) = 10.00 points	
	Setting Weight (50% each)	
	$(10.00^*0.5) + (10.00^*0.5) = 5.00 + 5.00 = 10.00 $ points	
	Sub-measure points = 10.00 points	
	Population Weight	
	(9.25*0.75) + (10.00*0.25) = 9.44 points	
	Measure points = 9.44 points	
2. Performance	9.44	
Measure Score	Performance Measure Score = $\frac{10}{10}$ = 0.94	
3. Domain Score	DELD SOCI Data Completenase (0.97 * 0.45) * 100 12.05
