NOTES:

- 1) Training is provided on an individual basis and is based on survey and analytical needs for the current year's activities
- 2) Personal health and safety issues are addressed in all training modules as applicable. CPR and AED training is not included in this list, but is provided and recommended by DEP; the decision to sign-up for CPR-AED is up to each individual.
- 3) The Annual Monitoring Survey Guide developed by DWM's QA Analyst is used for review training purposes and provides information and guidance on various monitoring program topics, such as field and lab safety, sampling and logistical considerations, contact information and new procedures (with linked references to SOPs, as applicable).
