#	MA DCF Quarterly Profile Report Metric	Description
	1. 51A Reports	<p>Count of 51A Reports (including Institutional abuse) approved during the Quarterly Profile's target quarter. A 51A is a report alleging maltreatment (abuse, neglect, sexual exploitation, and/or human trafficking) of one or more children under the age of 18 in the Commonwealth. The Department's hotline or intake units conduct a screening process to determine whether a report is appropriate for further action.</p> <p>There are two (2) phases of protective intake: (1) the screening of reports; and (2) a response to any report that is screened-in. The purpose of screening is to gather sufficient information to determine whether a Department response is necessary or might be necessary to ensure a child's safety and well-being. Screening is a key part of the overall process of reporting, identifying and assessing risks to child safety, permanency, and well-being. It is the first step in determining the Department's subsequent actions and intervention with the family. Activities for screening a report of child maltreatment are designed to determine, based on facts in the report and those gathered during screening:</p> <ul style="list-style-type: none"> - if there is an immediate concern for child safety; and - if a "reportable condition" under MGL c. 119 § 51A exists. <p>A "reportable condition" exists when there is information that a child may have been abused and/or neglected or may be at risk of being abused and/or neglected by a caregiver, or that a child may have been or may be at risk of sexual exploitation or human trafficking.</p> <p>Reports determined to be emergencies must be screened in immediately, and a response must be initiated within 2 hours. The screening of reports determined not to be emergencies must be completed within one working day. In very limited circumstances where it is necessary to complete activities critical to making the screening decision and with approval from a manager, screening of a non-emergency report may be extended for up to one additional working day.</p> <p>Based on the information received, collected, and analyzed during the screening process, the report will be:</p> <ol style="list-style-type: none"> 1. Screened-In for Response; or 2. Screened-Out; or 3. Screened-Out DA Referral.
	Screened-In for Response	<p>Count (and rate) of 51A Reports approved during the Quarterly Profile's target quarter that met the standards for a Departmental response to ensure a child's safety and well-being. The total Screened-in for Response in section 1 will not necessarily equal the total Responses in section 2, as some Responses will be from intakes filed in the previous quarter.</p> <p>There are two (2) possible screen-in outcomes:</p> <p>Screen-In - Emergency Response This is a determination that the report involves a situation where the failure to take immediate action would pose a substantial risk of death, serious emotional or physical injury, or sexual abuse to a child.</p> <p>Screen-In - Non-Emergency Response This is a determination that a child(ren) may have been abused and/or neglected or may be at risk of being abused and/or neglected by a caregiver, or that a child has been or may be at risk of sexual exploitation or human trafficking, AND that the situation as reported does NOT pose a substantial risk of death, serious emotional or physical injury, or sexual abuse to a child.</p>
	Screened-Out	<p>Count (and rate) of 51A Reports approved during the Quarterly Profile's target quarter that did NOT meet the standards for a Departmental response to ensure a child's safety and well-being.</p> <p>This is determination that:</p> <ul style="list-style-type: none"> - the report does not involve a child or the allegations are not within the Department's mandate concerning child abuse and neglect; and/or - there was no indication that a child(ren) has been or may have been abused or neglected or may be at risk of being abused and/or neglected by a caregiver; and/or - the alleged perpetrator has been identified and was not a caregiver, and the child(ren)'s caregiver is safely protecting the child(ren) from the alleged perpetrator, unless the allegations involve sexual exploitation or human trafficking; and/or - the specific injury or specific situation being reported is so old that it has no bearing on the current risk to the reported or other child(ren); and/or - there are NO other protective concerns, and the only issue is maternal use of appropriately prescribed medication resulting in a Substance Exposed Newborn (SEN), AND the only substance affecting the newborn(s) was appropriately prescribed medication, AND the mother was using the medication(s) as prescribed which can be verified by a qualified medical or other provider.
	Screened-Out DA Referral	<p>Count (and rate) of 51A Reports approved during the Quarterly Profile's target quarter that did NOT meet the standards for a Departmental response to ensure a child's safety and well-being. Nonetheless, the 51A Report involved (or may have involved) a crime that requires a mandatory (or discretionary) referral to the District Attorney and local law enforcement agency.</p>

#	MA DCF Quarterly Profile Report Metric	Description
2.	Reponses	<p>Count of responses approved during the Quarterly Profile's target quarter. The total may include intakes from the previous quarter and exclude intakes from the current quarter that do not have a completed response. The Department assigns screened-in 51A reports for completion of a 51 B response in accordance with MGL c. 119, § 51 B. Based on the facts gathered during the response, the assessment of parental capacities, the results of the risk assessment tool and clinical judgment, the Response Worker, in consultation with the Supervisor determines:</p> <ol style="list-style-type: none"> 1. A finding on the reported allegation(s) or discovered conditions, including a finding on any person(s) responsible; and 2. Whether Department intervention is necessary to safeguard child safety and well-being.
	Supported	<p>Count (and rate) of 51A Reports approved during the Quarterly Profile's target quarter with a "Support" finding.</p> <p>A "Support" finding means that there is reasonable cause to believe that a child(ren) was abused and/or neglected; and the actions or inactions by the parent(s)/caregiver(s) place the child(ren) in danger or pose substantial risk to the child(ren)'s safety or well-being; or the person was responsible for the child(ren) being a victim of sexual exploitation or human trafficking.</p> <p>Department intervention is needed to safeguard child(ren) safety and well-being with one of the following results:</p> <ul style="list-style-type: none"> - a new case is opened; or - when allegations are "supported" on an open case, the information gathered during response is used by the currently assigned Social Worker, in consultation with the Supervisor, to determine if there is a change in risk level to the child(ren) that warrants an update to the family's current Assessment and Service (Action) Plan and/or a change to existing interventions/services. <p>In very limited circumstances, with approval from a manager, the Department may make a finding of "support" and determine that Department intervention is not necessary. For example, the alleged perpetrator was not a family member (e.g., babysitter, bus driver, etc.), and the parent(s)/caregiver(s) has taken necessary action to keep the child safe; or the alleged perpetrator poses no current or potential threat to the reported child(ren), is out of the home, and the parent(s)/caregiver(s) has taken necessary action to keep the child(ren) safe.</p>
	Substantiated Concern	<p>Count (and rate) of 51A Reports approved during the Quarterly Profile's target quarter with a "Substantiated Concern" finding.</p> <p>A "Substantiated Concern" finding means that there is reasonable cause to believe that the child was neglected; and the actions or inactions by the parent(s)/caregiver(s) create the potential for abuse or neglect, but there is no immediate danger to the child(ren)'s safety or well-being.</p> <p>Department intervention is needed to safeguard the child(ren)'s safety and well-being with one of the following results:</p> <ul style="list-style-type: none"> - a new "case" is opened; or - when a substantiated concern is found on an open case, the information gathered during response is used by the currently assigned Social Worker, in consultation with the Supervisor, to determine if there has been a change in risk level to the child(ren) that warrants an update to the family's current Assessment and Service (Action) Plan and/or change to existing interventions/services.
	Unsupported	<p>Count (and rate) of 51A Reports approved during the Quarterly Profile's target quarter with an "Unsupport" finding.</p> <p>An "Unsupport" finding means that there is not reasonable cause to believe that a child(ren) was abused and/or neglected, or that the child(ren)'s safety or well-being is being compromised; or the person believed to be responsible for the abuse or neglect was not a caregiver, unless the abuse or neglect involves sexual exploitation or human trafficking where the caregiver distinction is not applied.</p> <p>Department intervention is not needed to safeguard the child(ren)'s safety and well-being.</p> <ul style="list-style-type: none"> - The Department does not open a new "case," but the family may apply for voluntary services from the Department and/or the Department may refer the family for services in the community if needed. - When allegations on an open case are "unsupported," the information gathered during response is used by the currently assigned Social Worker, in consultation with the Supervisor, to determine if there has been a change in risk level to the child(ren) that warrants an update to the family's current Assessment and Service (Action) Plan and/or change to existing interventions/services.
