

October 13, 2020

Dear Friends,

On Thursday evening, October 8, the Department of Conservation and Recreation (DCR) held a virtual public to present, and obtain public input, on alternative concepts for the design of Quinobequin Road and Trail Improvements. This project aims to address existing safety, mobility and accessibility concerns along Quinobequin Road, while also making sustainable and long-lasting improvements to stormwater management and riverine ecology.

The presentation is available for viewing at <https://www.mass.gov/dcr/past-public-meetings>, and a recording of the meeting can be found on YouTube at https://youtu.be/gcb_yWCD2MI. As we did at the meeting, DCR encourages the public to share feedback on the layout of trail connections at the east end of the project, with a deadline for receipt of Friday, October 23, 2020. Comments may be submitted online at www.mass.gov/dcr/public-comment or by emailing psorensen@vhb.com. Please note that the content of comments you submit to DCR, along with your name, town, and zip code, will be posted on DCR's website. Providing additional contact information when commenting, notably email address, is optional, and will only be used for outreach on future updates on the subject project or property.

If you have agency-related questions or concerns or would like to be added to an email list to receive DCR general or project-specific announcements, please email Mass.Parks@mass.gov or call 617-626-4973.

We appreciate your interest and input.
