Petition to Intervene in the matter of Rate Regulation – Comcast Cable Communications

Petitioner:
Town of Randolph
41 South Main Street
Randolph, MA 02368

Please be advised that the Town of Randolph would like to participate in the matter of rate regulation for Comcast Cable Communications and their treatment of Franchise Related Costs in Randolph. The specific reasons are as follows:

Under Section 6.4(a) of the License between Comcast Communications, Inc and The Board of Selectmen for the Town of Randolph, Comcast pays the Access Corporation \$31,250 quarterly or \$125,000 a year. Per that section, \$15,000/year is subject to pass through to customers each year however, according to Comcast's own Franchise Related Cost table, \$100,000.00 "Prior Operating" costs are being passed through to the customer.

This pass-through has the effect of raising the cost of the Basic Cable tier approximately \$1.00 per month for each subscriber. Randolph would like to intervene in this hearing to ascertain the validity of this additional expense to the subscriber.

Thank you for your attention to this matter.

Sincerely,

Paul J. Connors, Chairman
for the BOARD OF SELECTMEN
