1) Log into <u>Grants Portal</u>. In the left side menu list select "My Organization" to open the drop-down menu. Select "Applicant Event Profiles" from the list. In the "My Applicant Event Profiles" screen select "Event # 4496".

2) In the applicant event profile, an option to "Start Recovery Scoping Video" will be available in the light-yellow shaded box at the top of the page.

3) A pop-up window will confirm the user would like to start the recovery scoping video.

4) The portal will navigate to the video that needs to be watched. Note in the top right corner you will see a light blue button that says, "Complete Recovery Scoping Video", this will not be active until the video has been certified. The inactive button will be indicated by a light shade of blue.

The streamlined application is the formal request for Public Assistance funding under the Public Assistance program. The streamlined application enables the Applicant to apply directly without relying on FEMA or Recipient staff. For more information about the direct application process using the streamlined application see the Applicant Quick Guide Process Overview available in the Resources tab of the Grants Portal. To assist with this process, FEMA created the Recovery Scoping informational video. The 30 minute (approx.) video is required prior to completing a streamlined project application. Upon certifying the video was watched, your organization will have the duration of the Public Health Emergency to identify and report impact(s) through submitting COVID-19. streamlined project applications to FEMA.
