

Emergency Strikethrough Regulations to Adjust Recreational Striped Bass Slot Limit

6.07: Striped Bass Fishery (*Morone Saxatilis*)

(1) Purpose and Scope. Since approximately October 1981 the Atlantic coastal states, through the auspices of the Atlantic States Marine Fisheries Commission (ASMFC), have been developing conservation and management measures to arrest the severe decline in the stocks of striped bass and to manage restored stocks. This cooperative management effort has been successful and as a consequence, the Chesapeake Bay Stock of the Atlantic Coast striped bass resource has been declared recovered as of January 1, 1995.

The following regulations represent the Commonwealth's response to this cooperative coastal state conservation management effort. The objective of 322 CMR 6.07 is to sustained recreational and commercial fishing for striped bass pursuant to the provisions of the ASMFC striped bass Fishery Management Plan.

322 CMR 6.07 is designed to identify the various user groups, implement conservation and management measures tailored to each group, and collects accurate statistics on striped bass catch levels. Persons intending to fish for striped bass have the option of classifying their activity as recreational or commercial. If a person intends to catch striped bass only for personal consumption and not for sale, that person must have a recreational saltwater fishing permit, and may fish year round, and retain striped bass that measure between 28 inches and less than ~~31~~ **35** inches, but may not retain more than one striped bass within any 24-hour period.

Any person intending to catch and possess striped bass for the purpose of sale, barter or exchange must be fishing under the authority of a commercial permit and a regulated fishery permit for striped bass. However, 322 CMR 6.07 establishes a commercial fishing season that closes upon reaching the commercial catch quota, establishes a minimum commercial size of 35 inches, and requires fish to be sold only to dealers licensed and authorized by the Commonwealth.

Finally, 322 CMR 6.07 allows wholesale and retail dealers to purchase and sell striped bass under certain conditions. To purchase striped bass directly from commercial fishermen, wholesale and retail dealers must be authorized as primary buyers of striped bass and must affix a Striped Bass ID Tag to all striped bass at the time of primary purchase from the commercial fisherman. Striped bass imported into the Commonwealth must be marked with a numbered tag that identifies the state of origin and must be accompanied by documents that verify state of origin. Nonconforming (undersized) striped bass that were caught in the wild may be imported into the Commonwealth provided those fish were legally taken, shipped and meet documentation requirements of the state-of-origin.

(5) Recreational Management Measures. For purposes of conservation and management of the resource, the following measures shall apply to recreational fishermen who harvest, catch, take or possess or attempt to harvest, catch, take or possess any striped bass:

(a) Only striped bass measuring at least 28 inches and less than ~~31~~ **35** inches in total length may be retained. Striped bass measuring less than 28 inches or ~~31~~ **35** inches or greater in total length shall be released immediately to the waters from which taken. Recreational fishermen shall not mutilate any striped bass in a manner that prevents the accurate measurement of the fish.

(b) Recreational fishermen may retain no more than:

1. one striped bass per day; and
 2. may possess no more than one striped bass at any one time.
- (c) Recreational fishermen may not sell, barter or exchange any striped bass.
- (d) Recreational fishermen may not discard dead striped bass that measure between at least 28 inches, but less than **31 35** inches in total length.
- (e) To prohibit the practice of high-grading as defined in 322 CMR 6.07(2), recreational fishermen may not retain legal-sized striped bass and release said fish in favor of another larger legal-sized striped bass captured subsequently. Any legal-sized fish not immediately released into the water and held by stringer, live-well or another means shall be considered intent to high-grade.
- (f) Mandatory Use of Circle Hooks. Recreational fishermen shall use circle hooks when fishing for striped bass with whole or cut natural baits. This shall not apply to any artificial lure. Striped bass caught on any unapproved method of take must be returned to the water immediately without unnecessary injury.
- (g) Rules Specific to For-hire Vessels.
1. At-sea Filleting. Operators and crew onboard for-hire vessels permitted under the authority of 322 CMR 7.10(5): *Permit Requirements Applicable to For-hire Vessels* may fillet or process legal sized striped bass for their recreational customers at sea provided that:
 - i. The skin is left on the fillet; and
 - ii. Not more than two fillets taken from legal striped bass are in the possession of each customer of that trip, representing the equivalent of one fish per angler.

(7) Prohibitions. It shall be unlawful for:

- (a) a recreational fisherman to retain more than one striped bass per day;
- (b) a recreational fisherman to possess more than one striped bass at any one time;
- (c) a recreational fisherman to sell, barter or exchange or offer to sell, barter or exchange any striped bass;
- (d) a recreational fisherman to retain or possess any striped bass less than 28 inches or **31 35** inches or greater in total length;
- (e) a recreational fisherman to mutilate any striped bass in a manner that prevents the accurate measurement of the fish; such mutilation shall be *prima facie* evidence of a violation of 322 CMR 6.07(7);
- (f) a recreational fishermen to discard dead striped bass that measure between 28 inches, but less than **31 35** inches or greater in total length;
- (g) a recreational fisherman to “high-grade” striped bass or to keep striped bass alive in the water by attaching a line or chain to the fish or placing the fish in a live-well or holding car;
- (h) any person(s), whether from shore or onboard a vessel, to possess striped bass in any quantity exceeding one striped bass per person without a commercial striped bass regulated fishery permit and for those striped bass to violate the commercial management regulations at 322 CMR 6.07(4);
- (rr) Any person to possess any striped bass measuring **31 35** inches in total length or larger within 1,000 feet of the Cape Cod Canal unless that fish was lawfully harvested in

a location other than the Cape Cod Canal and is being actively transported to a primary buyer.
