Sean,
Thanks for the note, and I am glad everything worked out. Patrick is
overnighting the letter to me so I will sign and get a copy back to you.
Patrick, as I am sure he told you, will continue to work with your
folks
and our operations folks to make sure all the methods and procedures are
in
place to process your orders. If there is any kind of volume, we can
look
at doing the conversion as a project.

Have a great vacation.
Pam

PM

Hi Pam,

Thanks to Patrick's efforts we were able to review the Commonwealth of MA ICB this afternoon and I signed the letter that you had sent to me last month. If you could counter-sign and return that would be great.

As we had hoped, the terms cited in the tariff were consistent with the written contract.

We explained to Patrick that at this point it is DSCI's plan to process orders under this ICB for new service beginning on March 11th. This is based upon Verizon not accepting new orders on the UNE-Platform effective that date. We will also want to migrate zone 4 UNE-P service to this ICB and suggested that Patrick work with the appropriate folks to do a bulk order if possible. The net is that initial order activity should be light since we don't have a whole ton of lines in Zone 4.

I will be out on Monday, Tuesday and Wednesday of next week for a mini-ski vacation so if you could have Patrick coordinate with Mariane (who is our VP of Customer Care) and Tim that would be much appreciated.

Have a great weekend and it's a nice feeling to be moving forward on this.
