Please fill in gaps between pipes and wall to prevent pest entry.	

04/08/2022 Building: 50 state st
Floor: 1st flr
Reference: 1 Zone: Back hallway
Location Area: Internal
Location: Old lock up

Status:NEW
Type: Sanitation
Responsibility:
Debris collecting interior of old lock up cells. Please
remove debris to prevent unsanitary conditions and
attraction by pests.

Treatment Notes

Regular monthly service conducted. I checked in and out with Ike and reviewed any issues he has had since my previous service. We then went and inspected the 4th floor. I found dropping in the heating units and set out multi catch traps. I also found poor sanitation practices and large gaps under the doors. I have in the past and will again stress, leaving food out in offices presents the mice with an alternative food source. Also, large gaps under doors will allow mice easy access to the interior of the building. Please call with any concerns between now and your next visit. Thank you for your business.
