FACTOR 1

Table 4: BID-Milton Historical Volume (pg. 7)

	FY19	FY20	FY21
Inpatient	4,399	4,536	4,805
Outpatient	4,970	4,308	5,806
Emergency	7,339	6,993	8,163
<i>CT-Guided Procedures</i>	<i>6</i>	<i>3</i>	<i>4</i>
Total	16,708	15,837	18,774

1. **In order to understand Patient Panel need for CT services, please provide a breakdown of CT volume by diagnostic volume and CT-Guided Procedures.**

Please see Table 4 above. The 13 CT-guided procedures now included were previously captured in the historical volume provided and therefore do not represent additional volume. Due to the length of time needed for CT-guided procedures (approximately one hour), the Hospital is unable to accommodate additional volume. The addition of a second CT unit would allow the Hospital to increase the number of CT-guided procedures.

2. **What is the current wait time for CT-guided procedures?**

Currently the wait time for CT-guided procedures is one week.
