SECONDARY TRANSMISSION SERVICE: SUBSCRIBERS AND RATES <p>In General: The information in space E should cover all categories of "secondary transmission service" of the cable system; that is, the retransmission of television and radio broadcasts by your system to subscribers. Give information about other services (including pay cable) in space F, not here. All the facts you state must be those existing on the last day of the accounting period (June 30 or December 31, as the case may be).</p> <p>Number of Subscribers: Both blocks in space E call for the number of subscribers to the cable system, broken down by categories of secondary transmission service. In general, you can compute the number of "subscribers" in each category by counting the number of billings in that category (the number of persons or organizations charged separately for the particular service at the rate indicated—not the number of sets receiving service).</p> <p>Rate: Give the standard rate charged for each category of service. Include both the amount of the charge and the unit in which it is generally billed. (Example: "\$8/mth"). Summarize any standard rate variations within a particular rate category, but do not include discounts allowed for advance payment.</p> <p>Block 1: In the left-hand block in space E, the form lists the categories of secondary transmission service that cable systems most commonly provide to their subscribers. Give the number of subscribers and rate for each listed category that applies to your system. Note: Where an individual or organization is receiving service that falls under different categories, that person or entity should be counted as a "subscriber" in each applicable category. Example: a residential subscriber who pays extra for cable service to additional sets would be included in the count under "Service to the First Set," and would be counted once again under "Service to Additional Set(s)."</p> <p>Block 2: If your cable system has rate categories for secondary transmission service that are different from those printed in block 1, (for example, tiers of services which include one or more secondary transmissions), list them, together with the number of subscribers and rates, in the right-hand block. A two or three word description of the service is sufficient.</p>						E Secondary transmission Service: Subscribers and Rates

SERVICES OTHER THAN SECONDARY TRANSMISSIONS: RATES <p>In General: Space F calls for rate (not subscriber) information with respect to all your cable system's services that were not covered in space E. That is, those services that are not offered in combination with any secondary transmission service for a single fee. There are two exceptions: you do not need to give rate information concerning: (1) services furnished at cost; and (2) services or facilities furnished to nonsubscribers. Rate information should include both the amount of the charge and the unit in which it is usually billed. If any rates are charged on a variable per-program basis, enter only the letters "PP" in the rate column.</p> <p>Block 1: Give the standard rate charged by the cable system for each of the applicable services listed.</p> <p>Block 2: List any services that your cable system furnished or offered during the accounting period that were not listed in block 1 and for which a separate charge was made or established. List these other services in the form of a brief (two- or three word) description, and include the rate for each.</p>						F Services Other Than Secondary Transmissions: Rates

COMPUTING THE BASE RATE FEE—PART 8 OF THE DSE SCHEDULE

Determine whether any of the stations you carried were "partially-distant"—that is, whether you retransmitted the signal of one or more stations to subscribers located within the station's local service area and, at the same time, to other subscribers located outside that area.

- If none of the stations were "partially-distant," calculate your Base Rate Fee according to the following rates—for the system's permitted DSEs as reported in block B, part 6 or from part 5, whichever is applicable.

First DSE	1.013% of "gross receipts"
Each of the second, third, and fourth DSEs	.668% of "gross receipts"
The fifth and each additional DSE	.314% of "gross receipts"

PARTIALLY-DISTANT STATIONS—PART 9 OF THE DSE SCHEDULE

- If any of the stations were "partially-distant":

- Divide all of your subscribers into "subscriber groups" depending on their location. A particular "subscriber group" consists of all subscribers who are "distant" with respect to exactly the same complement of stations.
- Identify the communities/areas represented by each subscriber group.
- For each "subscriber group," calculate the total number of DSEs of that group's complement of stations.

If your system is located wholly outside all major and smaller television markets, give each station's DSEs as you gave them in parts 2, 3, and 4 of the Schedule; or

If any portion of your system is located in a major or smaller television market, give each station's DSE as you gave it in block B, part 6 of this Schedule.

- Determine the portion of the total "gross receipts" you reported in space K (page 7) that is attributable to each "subscriber group."

- Calculate a separate Base Rate Fee for each "subscriber group," using (1) the rates given above; (2) the total number of DSEs for that group's complement of stations; and (3) the amount of "gross receipts" attributable to that group.

- Add together the Base Rate Fees for each "subscriber group" to determine the system's total Base Rate Fee.

- If any portion of the cable system is located in whole or in part within a major television market, you may also need to complete part 9, block B of the Schedule to determine the Syndicated Exclusivity Surcharge.

What To Do If You Need More Space on the DSE Schedule. There are no printed continuation sheets for the Schedule. In most cases the blanks provided should be large enough for the necessary information. If you need more space in a particular part, make a photocopy of the page in question (identifying it as a "Continuation Sheet"), enter the additional information on that copy, and attach it to the DSE Schedule.

Rounding Off DSEs. In computing DSEs on the DSE Schedule, you may round off to no less than the third decimal point. If you round off a DSE in any case, you must round off DSEs throughout the Schedule as follows:

- When the fourth decimal point is 1, 2, 3, or 4 the third decimal remains unchanged (example: .34647 is rounded to .346).
- When the fourth decimal point is 5, 6, 7, 8, or 9 the third decimal is rounded up (example: .34651 is rounded to .347).

The example below is intended to supplement the instructions for calculating only the Base Rate Fee for "partially-distant" stations. The cable system would also be subject to the Syndicated Exclusivity Surcharge for "partially-distant" stations, if any portion is located within a major television market.

EXAMPLE:**COMPUTATION OF COPYRIGHT ROYALTY FEE FOR CABLE SYSTEM CARRYING "PARTIALLY-DISTANT" STATIONS**

In most cases under current FCC rules all of Fairvale would be within the local service area of stations A and C and all of Rapid City and Bodega Bay would be within the local service area of stations B, D and E.

9 Computation of Base Rate Fee and Syndicated Exclusivity Surcharge for Partially-Distant Stations	<p>In General: If any of the stations you carried was "partially-distant," the statute allows you, in computing your Base Rate Fee, to exclude receipts from subscribers located within the station's local service area from your system's total "gross receipts." To take advantage of this exclusion, you must</p> <p>First: Divide all of your subscribers into "subscriber groups," each group consisting entirely of subscribers that are "distant" to the same station or the same group of stations.</p> <p>Next: Treat each subscriber group as if it were a separate cable system. Determine the number of DSEs and the portion of your system's "gross receipts" attributable to that group, and calculate a separate Base Rate Fee for each group.</p> <p>Finally: Add up the separate Base Rate Fees for each subscriber group. That total is the Base Rate Fee for your system.</p> <p>Important: If any portion of your cable system is located within the top 100 television market and the station is not exempt, you must also compute a Syndicated Exclusivity Surcharge for each subscriber group. In this case, complete both block A and B below. However, if your cable system is wholly located outside all major television markets, complete block A only.</p> <p>How to Identify a Subscriber Group</p> <p>Step 1: Determine the local service area of each wholly-distant and each partially-distant station you carried.</p> <p>Step 2: For each wholly-distant and each partially-distant station you carried, determine which of your subscribers were located outside the station's local service area. A subscriber located outside the local service area of a station is "distant" to that station (and, by the same token, the station is "distant" to the subscriber.)</p> <p>Step 3: Divide your subscribers into subscriber groups according to the complement of stations to which they are "distant." Each subscriber group must consist entirely of subscribers who are "distant" to exactly the same complement of stations. Note that a cable system will have only one subscriber group when the distant stations it carried have local service areas that coincide.</p> <p>Computing the Base Rate Fee for each subscriber group: Block A contains separate sections, one for each of your system's subscriber groups.</p> <p>In each section:</p> <ul style="list-style-type: none"> Identify the communities/areas represented by each subscriber group. Give the call sign for each of the stations in the subscriber group's complement—that is, each station that is "distant" to all of the subscribers in the group. If: <ol style="list-style-type: none"> your system is located wholly outside all major and smaller television markets, give each station's DSE as you gave it in parts 2, 3, and 4 of this Schedule; or, any portion of your system is located in a major or smaller television market, give each station's DSE as you gave it in block B, part 6 of this Schedule. Add the DSEs for each station. This gives you the total DSEs for the particular subscriber group. Calculate "gross receipts" for the subscriber group. For further explanation of "gross receipts" see page (vi) of the General Instructions. Compute a Base Rate Fee for each subscriber group using the formula outline in block B of part 8 of this Schedule on the preceding page. In making this computation, use the DSE and "gross receipts" figure applicable to the particular subscriber group (that is, the total DSEs for that group's complement of stations and total "gross receipts" from the subscribers in that group). You do not need to show your actual calculations on the form.
