INFORMATION REQUESTS OF THE DEPARTMENT OF TELECOMMUNICATIONS

REQUEST D.T.C. 2-4

Refer to the Petition at Exhibit A and explain in narrative form how Nexus assesses minutes of use for international voice calls.

RESPONSE

Nexus permits Lifeline subscribers to block international calls at no additional charge, and many Lifeline subscribers elect this option. Lifeline subscribers may make international calls to landlines (as well as mobile phones in some countries) but additional per minute rates apply. International calling rates vary by country and currently range from \$0.34 to \$1.59 per minute for direct dialed calls. Nexus subscribers also can utilize a dial-around option and obtain more favorable rates (69% lower for most countries). This feature is accessed by pressing the pound (“#”) button on the keypad and entering a PIN code.

Subscribers also are able to track their account balances because at the beginning of calls subscribers are provided the amount of monetary value in their accounts. All balances may be accessed on a real-time basis through the handset by dialing #6673.
