TO: Sean R. Cronin, Senior Deputy Commissioner of Local Services  
RE: Community Compact Grant

Dear Mr. Cronin.

As requested during our phone conversation on February 2, 2019, I am writing to summarize the activities in which the Revere Public Schools have engaged relative to the city's 2018 application for a Community Compact Grant. In that application, we proposed a partnership with either MIT or Northeastern University to create a series of courses for teachers that would enable them to earn the State's new license in Digital Literacy and Computer Science.

The Revere Public Schools is in the second year of a partnership with North Shore Community College where 5 students are enrolled in an Early College program. An additional 45 students are currently enrolled in Dual Enrollment courses through another partnership with North Shore as well as partnerships with Salem State University and Bunker Hill Community College. We continue to grow all of these partnerships.

We continue to work with the state on our initial proposal through the MassCAN PACE initiative as a Cohort 1 district. We are also a Catalyst district for the state's MAPLE consortium and the only school system in the state with a district-wide implementation of ST Math. We are also the recipients of 4 separate Project Lead the Way STEM grants. All of this is to say we are very much dedicated to and invested in the Governor's STEM education and College and Career Readiness initiatives. Please let me know if I can provide any additional information.

Sincerely,

Dr. Dianne K. Kelly  
Superintendent
