---	------------	-------	---

Note for Walden: Due to the popularity of Walden Pond State Reservation, **the park has a capacity of 1,000 people who can access the property at any given time**; the capacity limit was established to protect the environmental resource and minimize human impact; in accordance with the Walden Pond Resource Management Plan, **when at capacity the park must close to the public for a minimum of two hours; the closure of Walden Pond means the entire park temporarily closes to incoming visitors** regardless of ability; furthermore, **the parking lot contains approximately 330 parking spots available for visitors, 17 of which are universally accessible spaces** to ensure those with disabilities are able to easily access the park when it is open
