**Subject:** 115 CMR 12.00 National Criminal Background Checks--Proposed Reg Promulgation

I would like to see something in the proposed regulation showing that a portion of the background checks be paid by the employee, volunteer, provider, staff members etc. Those who get fingerprinted get copies by the FBI or agency, I believe. If these folks want to use this information for other purposes then they should take part ownership in the process.

In addition, the amount they pay towards the background check could be re-reimbursed after 6 months of being on the job.

I do not know if this fits within the purpose and or outcome of the proposed reg but thought it might be some sort of an incentive to those who really want to work in the DDS.

Respectfully submitted,

Richard Faucher
