Hi Tori,

I am a graduate student studying for a master's degree in Natural Resources Management with a focus on ecological restoration. As part of an academic project, I am seeking to comment on an environmental regulation in process. My research this semester is on ecological restoration efforts in Mass and I would love to provide comments to the MEPA Regulatory Review Effort for 301 CMR 11.0. I know this deadline was today, but I was literally pointed to this project this afternoon.

Would you consider a possible extension to receive comments for this work? I would likely need a couple weeks to pull something together, as I would need to dive into the research immediately and have time to form comments.

Thank you so much for considering!

Rick
