Program Updates

3

Vehicle Inspection Equipment Upgrade – OPUS

- Replace and calibrate new equipment at 1,758 inspection stations (1,838 workstations)
- Opus has completed all workstation installs that are being utilized
- 46 stations still need new cameras to be installed by station owners

Workstation Equipment Upgrade – IDEMIA

- Replace workstations in all Service Centers and AAA locations including peripheral equipment – 347 workstations
- Installs will be done off-hours during the week and on weekends
- As of November 19th, 262 workstations installed (42 in AAA locations and 220 workstations in Service Centers)
- Installs began in August and forecasted to complete AAA in November and Service Centers in January 2026

Commercial Program 2025 Annual Program Review

4

- Federal Motor Carrier Safety Administration (FMCSA) initiated Annual Program Review in August 2025.
- RMV completed checklist and submitted required information in October
- FMCSA indicated there were no new findings

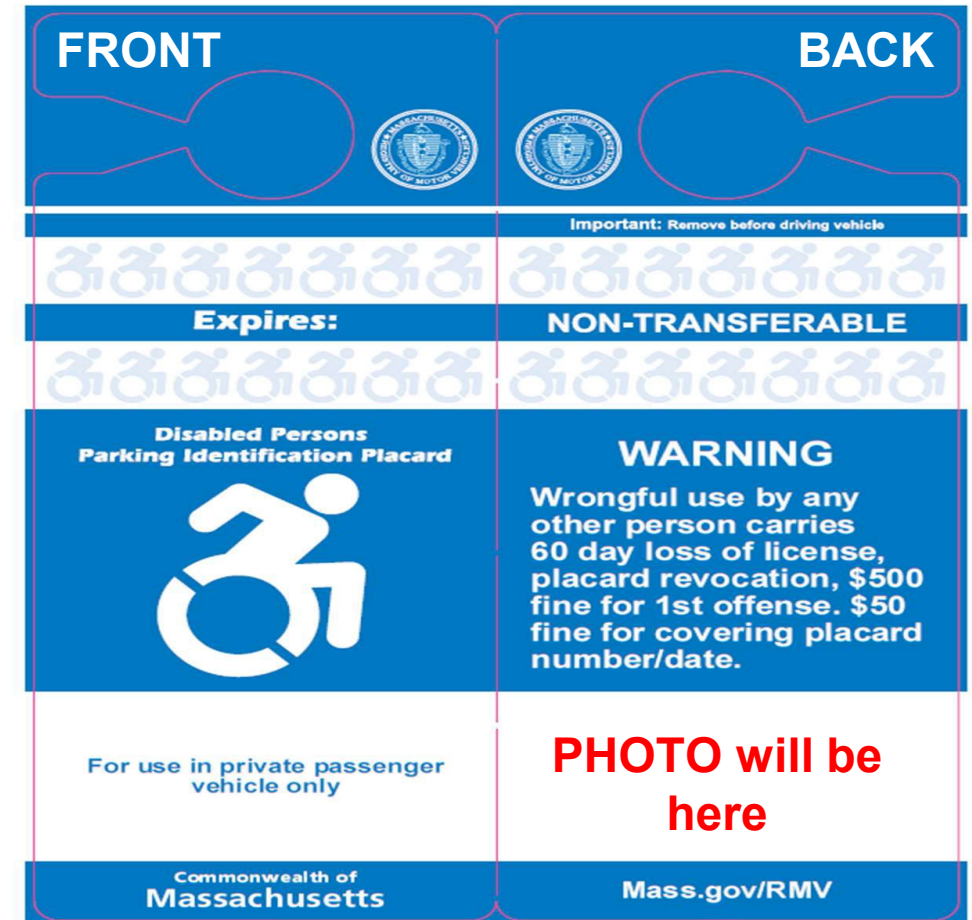

Redesigned Disability Placard

5

The new placard features several improvements:

- A modern design incorporating the widely accepted universal accessibility logo
- Durable material embedded with security features to deter fraud
- Bilingual instructions in both English and Spanish
- Parking benefits will remain the same and both versions of placard are valid until expiration
- New design and process reduces the processing time by 25%

Awards

6

AAA presented Registrar Ogilvie with the Traffic Safety Hero of the Year award on November 5th

"Innovations in Public Safety Partnership Awards" for RMV's Enhanced State ID Program with the Department of Corrections on November 17th.

Thank You
