Note: Commercial and trailer fees are determined by weight. The “registered gross weight” is the vehicle weight plus the maximum intended weight the registrant intends to carry at one time. It is up to the registrant to fix the registered weight depending on intended use (and the capacity of the vehicle as set by the manufacturer). It is a violation of law to operate a vehicle beyond its “registered gross weight.”

The Registry of Motor Vehicles (RMV) strives to keep the people of the Commonwealth informed with current information and news. In this brochure, you will find transactions and the corresponding fees.

The RMV will make every effort to post information about changes to the fees referenced in this brochure. Relevant changes will be posted on the RMV's website at www.mass.gov/rmv. If you do not have access to a computer, you may call the RMV's Contact Center at 857-368-8000 (from the 339/617/781/857 MA area codes or from outside of MA) or 800-858-3926 (from all other MA area codes) to determine a particular fee.

By law, the RMV is required to collect the fees for the transactions listed in this Chart. Most fees are set (or amended) by regulation as issued by the Executive Office for Administration and Finance at 801 Code of Massachusetts Regulation (CMR) 4.02. Some fees are set directly by statute, usually in Massachusetts General Laws, Chapter 90, Section 33.
